

ENTHUSIASM RISES IN JACL RANKS AS CONVENTION NEARS

Rallies, Drive And Help For Booster Delegates Marking Activities In Sections On Coast; Record Crowds Sure

SEVERAL EVENTS ADDED

LOS ANGELES—With the fifth biennial convention of the Japanese American Citizens League only one month away, preparations are rapidly being completed. An unusually interesting and important program is being worked out, and the attendance promises to exceed anything in the past.

Highlight of the social program is the Nisei Week Festival, for which a queen is now being balloted for. Other events aside from the convention program will be an essay contest, and the oratorical contest. There also will be many outings of a social nature. Vocational work will be an important note in the convention program to back nisei welfare.

Race Made For Crown

Nominations for the queen close July 31. Any candidate must have 100 votes to participate in the finals, which run through August. The finalists will meet at a tea August 7.

The Talent Revue staged recently was a big success, being attended by more than 1,700. The outstanding numbers on that program will be seen on the festival program.

Rallies Being Held

Pre-convention rallies are being held in southern California, one of the large ones being in San Gabriel Valley July 30. John Ando and others of the convention committee attended.

To stress the rising tide of vocational matters, Carl Sato announces the essay contest with the topic, "Why I Should Buy in Lil' Tokio." The crowd of booster delegates promises to be the big feature of the convention. The Southland will be out in force, while the other two districts are conducting On To Los Angeles drives.

The Northwest District sends word that much interest is aroused and that section will be well represented.

Sacramento Is Active

At Sacramento recently the chapter took steps at a meeting to boost their delegation by providing financial assistance to delegates who might come with a little aid. It was decided the chapter would help defray traveling expenses to the extent of \$5 an automobile and \$5 for each member passenger up to three. The passengers are each to pay \$5 to the owner of the car.

The chapter will extend the same terms to those who prefer to go by train or stage, it was announced. Members who wish to take advantage of the offer should notify chapter officials by August 15.

The official delegates of the Sacramento chapter are Henry Taketa, president, and Edward Kitazumi, treasurer. Indications are there will

Los Angeles Folks Stage Funds Drive Through Lil' Tokio

LOS ANGELES—Driving ahead in their campaign to raise funds for the entertainment program in connection with the fifth biennial convention of the Japanese American Citizens League, the local chapter cabinet is reported meeting with success.

The committee has been making a thorough canvass of Lil' Tokio, and already a good sum has been realized. With the queen contest in full swing, interest is being aroused.

Having called on the principal business institutions, the committee is now making a house-to-house visit, and report finding favorable response, as Lil' Tokio is apparently willing to do its part.

TWENTY-FOUR RACE FOR QUEEN HONORS

LOS ANGELES—With Miss Virginia Zaima far in the lead, 24 Southland second generation girls are battling it out for the crown in the contest to select a queen for the Nisei Week Festival to be staged in connection with the national convention of the Japanese American Citizens League.

Thirty-three of the contestants have been temporarily dropped because of having gathered less than 50 votes.

Contest Gets Warm

With this elimination the contest has taken on new interest and activity, and backers of the various candidates are redoubling their efforts in behalf of their favorites.

On July 23 the candidates stood as follows:

Virginia Zaima, 1,177; Lily Arikawa, 908; Haruko Fujita, 895; Yoshiye Sato, 377; Seesue Fujimoto, 316; Kaoru Fujikawa, 278; Margaret Nishikawa, 268; Kiku Shiba, 243; Kazu Hayashi, 205; Mary Makino, 189; Chiye Tawa, 178; Aiko Yoshiya, 156; Toshi Fujimoto, 156; Emiko Hino, 121; Yuriye Hashimoto, 115; Yoshiko Mori, 111; Katsuko Deguchi, 111; Margaret Akimoto, 109; Molly Yoshihara, 108; Kimi Aizawa, 79; Alice Uyeno, 74; Shizuko Yamaji, 64; Mary Watanabe, 57; Ruth Watanabe, 55.

CALIFORNIA DRIVE SETS HIGH FIGURE FOR REGISTRATION

Campaign In Southern Sector Results In Bringing Large Number Of Young To Polls; Los Angeles County Leads

OTHER CHAPTERS ACTIVE

LOS ANGELES—Following out the policy adopted at district conventions, the chapters of the Japanese American Citizens League in California have taken an active part this summer in the program to see that the young who are entitled to vote at the general elections are registered.

An especially active campaign was carried out in Los Angeles County under the auspices of the local chapter of the JACL, and when the registration books closed July 21 it was estimated by Dave Yamaka, deputy registrar at the JACL office, that there would be an increase of more than 1,200 young in the county this year over last year.

Total Put at 2,200

Yamaka said that he believed the total voting strength of the young in the county would approximate 2,200. The primary election is August 31.

Reports from various sections show that the chapters have taken a keen interest in this work, with the result that it is believed that there will be a larger number of young entitled to the ballot this year than ever.

Interest centers on Southern California where there is the largest number of young. One authority has estimated that there are 3,000 young coming of age this year, and ready to vote if registered.

Deputies Are Named

Under the law in this state it is possible to appoint deputy registrars in localities where the voters may register with conveniences. Under the managements of chapters this has been done in many places.

The local chapter of the JACL assumed management in this city. Mrs. Fujiko Ishikawa, League secretary, took registrations at the JACL office, 125 South San Pedro Street.

Five other deputies were appointed. They were: Dave Yamaka, manager for a local candidate; Saburo Tani, national convention manager; Oko Murata, JACL member; Hirumu Yamate, president of Retail Produce Workers' Association, and Ernest Arima.

Confab Song Sought By Northwest Board

PORTLAND—The Northwest District Council of the Japanese American Citizens League is sponsoring a contest to select a "pep" song to be used by the Northwest delegation at the national convention at Los Angeles, it is announced by Mamoru Wakasugi chairman.

The chairman of the committee is Takeo Nogaki, 1015 Yesler Way, Seattle, Council delegate. There will be a cash award to the winner. The Council will be the judges. All entries must be submitted before August 5, 1938. A snappy tune is desirable.

Owing to the fact that the Northwest is planning to send a large delegation to the convention a tune that will be available in marching and in gatherings is suggested.

Idaho-Oregon People To Enjoy An Outing

JAPANESE MOST LAW-ABIDING FOLK ON COAST, THINKS U. W. PROFESSOR

SEATTLE—The most law-abiding group of nationals on the Pacific Coast is the Japanese, according to Prof. Norman S. Hayer, of the department of sociology at the University of Washington, who has concluded an investigation extending over several months. He made a study of social factors of Oriental crime in the West.

The professor said his investigation showed that the total crime rate of the Japanese is 2.6 percent, as compared with 5.7 percent for all Orientals, and 11.1 percent for whites.

There are two distinct factors making for this condition, the professor said.

In the first place there is a fairly normal balance between the sexes

NATIONAL SESSION TO CONSIDER MANY IMPORTANT TOPICS

Endowment, Project for Young Constitution, Building For Headquarters, And Vocation Will Call For Discussions

FIELD TRIPS ARRANGED

LOS ANGELES—Intensive study of all the national questions that will come before the fifth biennial convention of the Japanese American Citizens League here September 1 to 5 is being made by the various chapters, and especially by the district councils, according to reports being made to the national officers.

At the turn in the tide of the League affairs, there are several projects and developments that bulk large on the program.

Some Important Topics

Some of them are: Second Generation Development Project; endowment fund; Constitutional revision, national headquarters; vocational matters.

The proposal to raise an endowment fund of \$100,000 has been before the League for several years, and a start registered. Some contributions have been made. Owing partly to the economic recession the past few years not much has been done along this line, and the project languishes.

Up To Convention

With the growing demand on it, the League has found itself handicapped by lack of finances, especially a working fund. Matters that could have been given attention with a small fund could not be taken up for lack of such a working fund. This matter will be brought forcibly before the coming convention, and a drive will be asked to speed up the action.

Handicapped as they have been by lack of finances the present administration has found itself unable to carry out several projects.

The chairman of the endowment fund committee is Dr. T. T. Yatabe, Fresno; the treasurer is S. Nakahara, San Jose; secretary, Saburo Kido, San Francisco, and the campaign director is Susumu Togasaki, Alameda, the national treasurer. This committee will be heard from at Los Angeles.

Headquarters Project

The plan for a national headquarters building naturally depends on finances. The League is in dire need of a suitable headquarters wherein business may be centered and efficiently administered. This subject is on the program for discussion and suggestions.

The draft of the revised Constitution has been distributed to the membership and is being studied. National officers urge that owing to the development that has been going forward the past two years the old Constitution has been outmoded, and revision is badly needed that the League may function properly.

Intensive study of the revision is being made by the Constitution (Continued to Page 2)

HUGE FLAG BORNE IN FOURTH LINE BY MONTEREY PENINSULA CHAPTER

MONTEREY, Calif.—The Monterey chapter of the Japanese American Citizens League is continuing its triumphant march in civic events which has won for it wide acclaim this year.

Having won plaudits far and wide for its showing on the big Fourth of July parade, the chapter has undertaken to participate in the Monterey County Fair program on a scale commensurate with the dignity and importance of the organization. The special offering will be a Japanese dance number. Clara Higashi and Beth Gota are conducting rehearsals.

In the Fourth of July parade the chapter entry carried an American

flag, made by the young folks of the chapter, which is believed to be the largest one in California.

It took 50 second generation to carry the immense banner along the line of march, and it was loudly applauded. The Monterey Evening Herald said:

"The Japanese American citizens group, bearing their magnificent great flag, received much well-earned applause. Not only did these young people do a big job in making the flag but theirs was the hardest work of all in the line of march, holding it taut the entire distance."

The flag measures 40 by 70 feet. Materials cost \$100, and it took 1,250 working hours to complete.

A WORKING CONVENTION

Of course there will be a great deal of social entertainment at the coming national convention, and that is as it should be. However, the official delegates should bear in mind that this is to be a working convention, faced by the most serious and important program in the League's history.

What the League decides on at this convention will have repercussions for years to come. Happily, there is ample evidence that the leaders in the various sections fully realize this condition, and are making a study of the problems.

All that has gone before has but formed the stepping stone toward a greater and more glorious future. Two aspects have brought about an important juncture in the League's history. There are today thousands of young coming to maturity and ready to take their places in their respective communities. On the other hand there is the drive that has been made by the League to induce the second generation to integrate themselves more fully into the general life of the community.

Vocation is a big problem. The young wish to know, how shall we eat, and wherewith shall we be clothed? This is a problem for all younger people, as well as the older ones. To mention only two big centers, it may be recalled that the young in southern California this spring held a young business men's conference at which there was much accomplished; and at San Francisco the chapter conducted a vocational survey on a wide scale. We dare say similar work has been carried out in other communities on a smaller scale. The results of these surveys will be available to all at the coming convention, and much good should result.

Everyone will agree that the endowment fund is a project that should be carried out in order to give the organization a more free hand to render service to the membership. Finances are needed, especially as the League grows and demands on it are increasing.

As for a national headquarters building, that is a worthy project, and it is badly needed. The very existence of such a building would have a moral effect, and cause all to take pride in their organization. Finances, of course, is the only stumbling block that has prevented there being one long before this. The problem is being studied, and will come in for discussion at the convention.

As to the revision of the Constitution, there has been no objection made, so far as we know, unless it be as to details that may be ironed out and objections met. Generally it is agreed that the present Constitution has served its purpose.

With these problems before it, we repeat that this will be a working convention that should be productive of lasting benefit, as well as pleasure.

THE PACIFIC CITIZEN

In a discussion of the proposed change in form and policy of The Pacific Citizen, several of the delegates at the annual Officers' Conference in Seattle early this month expressed their approval of the move as being in the general interest of the League.

This change, which was urged by Northern California chapters, seems to have the approval of chapters in the other districts. The League is growing, and conditions are changing rapidly. In addition, Seattle does not appear to be the location most suitable, because, for one reason, it is not in the most populous section of the League membership. Some location in California where the great body of membership lies would enable the editorial staff better to keep in touch with the membership, and to gather news material.

The growing membership and the growing importance of the League seem to call for a change in The Citizen that will best serve the interest of the League. All organizations have some kind of an official organ. The Citizen has served this need in the past, but it was founded on conditions that no longer exist.

The advertising patronage of The Citizen has been absurdly low for such an organization. Whatever the reason, there has not been financial support to permit of expansion in keeping with the expansion of the League. Possibly the editorial offices have been too far away from the populous and prosperous centers in California, where financial support might be available.

Whatever may have been conditions and policies in the past, that has all gone by. The principal point is that the national convention at Los Angeles must take up the question and settle it in a manner that will redound to the credit of the League and to the welfare of all concerned.

REGISTRATION DRIVES

*Apparently the second generation in California have taken seriously one cardinal point in the policy of the Japanese American Citizens League, and that is, Citizenship!

Too often it is the custom for all of us to meet in conventions, adopt high-sounding resolutions—then go home and forget it all. But in California this year such was not the case. The resolutions adopted in district conventions to the effect that a drive should be conducted to get all the eligible young on the registration rolls were heeded.

It's an old saying that a good citizen obeys the law. Another policy might be added to the effect that a good citizen helps make the law. A citizen cannot help to make the law, nor can he help to elect good men and women to public office unless he is on the voting rolls.

So far as the League itself is concerned this is no matter of partisan politics, but a drive to see that the young do their duty.

HOPEFUL VIEW FOR YOUNG GIVEN

The following article giving an interesting and valuable view on the future of the second generation was written by Yasutaro Soga, publisher of The Nippu Jiji, in Honolulu. He expresses the utmost faith in the young, but thinks, apparently, that their future depends on their own efforts. The article follows:

The second generation problem is a constant subject for much argument by various persons but I am one of those who do not have any misgivings about the future of the young people, and who feel highly optimistic.

I always feel at the bottom of my heart that our second generation will be useful and loyal American citizens. I believe very strongly that this wish will be fulfilled.

The reason is that a great portion of our second generation, 99 out of every 100, have been destined to work in America as her citizen, and furthermore this is the young people's special glory and mission.

There is only one path for American citizens of Japanese ancestry in Hawaii to take. That is for them to give their body and soul, the good points of their material and immaterial selves, to America. To make America more beautiful and right and a country with more depth in this way should be their great mission.

They are constantly hemmed in between two countries, their dual hearts suspected by both sides and their loyalty questioned on occasions, but this is the same path traversed by American citizens of other races in transition periods. If one knows where he stands, he need not worry much.

Needless to say, their future is by no means a peaceful path. They themselves, as new citizens, are also pioneers. It is cutting a way through this difficulty that provides manly interest and makes life worth living. The first generation should sympathize with the younger one in the circumstances it is facing, back it up, and refrain from meddling that might bring embarrassments.

Of course the young people have their weak as well as strong points. But generally speaking, their quality is good. Occasionally when there are cases of weak points, it seems that they are largely caused by indifference and unconcern of their elders.

The second generation question logically should be solved through leaders among these young people, and accordingly an urgent problem today is to have as many good leaders among them as possible. The greatest task left to the first generation is to help the younger one in this respect.

A prominent man from Japan passed through here on his way to continental America, and although he stayed only one day he got the proper view on the mission of our second generation and gave an advice. For this person whom I have not seen, I have a deep respect.

He was Ichizo Kobayashi, connected with the Hanshin Electric Railway Co., Tokyo Electric Light Co. and the Takarazuka theater. What attracted my attention was a passage in his Hawaiian impressions in the Osaka Mainichi and Tokyo Nichi Nichi in which his clear head was surprising.

He rejected the various pessimistic views regarding the second generation. He expressed optimism after considering the industrial conditions in Hawaii, large amounts of savings and the numerical preponderance of American citizens of Japanese descent. He voiced the belief that if the young generation Japanese live here permanently, gradually shift their work from labor to business, they might make a great success in the near future.

He advised, "You should be industrious, acquire knowledge of conducting enterprises so as to advance from a small to large business. Laborers should stop sending their savings to Japan and should invest them in Hawaii." He added: "I do not know about the Japanese in California, but since

American citizens of Japanese ancestry in Hawaii are in a preponderant position, they should next change their numerical preponderance to a quantitative one. In the conducting of business, they should maintain their positions as capitalists. I ask you, "Is there any reason why you cannot do this?" His statement is to the point.

Mr. Kobayashi further advised American citizens of Japanese ancestry to hold out, to create the quality by which they can hold out, and to prepare themselves so that they may become business men in the islands. At the same time he said the Japanese government should encourage this policy and that the government and people should be far-seeing in formulating the big plan.

I have never heard a more pertinent and delightful statement on the second generation problem from a person in Japan in recent years than this one. When most people have extremely mistaken views regarding American citizens of Japanese descent in Hawaii, Mr. Kobayashi's statement makes us feel as though we have obtained a million allies.

I realized increasingly that I was on the right track in persistently holding on to my arguments in the past.

Vocational problems are expected to arouse keen interest. Owing to developments the past year much stress is laid on this subject. Some of the chapters, notably San Francisco, have been conducting surveys along this line.

At the convention a series of field trips in the line of vocation has been arranged by Masao Sato.

SACRAMENTO SEEKS LARGE DELEGATION FOR GREAT CONFAB

Chapter Makes Arrangements To Assist Boosters Should They Need Financial Help; Will Pay Part Of Expenses

MORE MEMBERS GAINED

SACRAMENTO—The local chapter of the Japanese American Citizens League, after enjoying a year of unusual activity, is taking a keen interest in the forthcoming fifth biennial national convention at Los Angeles September 1 to 5, and is preparing to send a large booster delegation.

The situation was thoroughly reviewed at the last chapter meeting, and plans were made to see that Sacramento is well represented.

To Provide Finances

The chapter made plans to extend financial assistance to boosters who might wish to go, but would not otherwise be able to do so.

It was decided the chapter would help defray traveling expenses of boosters to the extent of \$5 an automobile, and \$5 for each member passenger up to three for one car. The passengers will be required to pay \$5 each to the owner of the car.

The chapter also will assist boosters going by train or bus to the same amount as those going by private car.

Henry Taketa, president, and Edward Kitazumi, treasurer, are the official delegates of the local chapter.

Must Notify Chapter

Members who wish to take advantage of the chapter's offer are asked to send in notification by August 15, or before.

New members of the chapter are: Mrs. G. Kawahara, Mildred Hamamoto, Lorraine Kawahira, Tayeko Hosakawa, Frank Nakaoki, Kaiichi Hieda, Ichiji Ogata, Noboru Nakaka and Y. Yoshino.

The annual State Fair Dance date has been set for September 10 and Roy Nikaido again named general manager.

SEATTLE PROMISES MANY BOOSTERS AT NATIONAL SESSION

Chapter Lays Plans For Good Representation; Funds Made Available For Those Young Who Wish To Attend Parley

2 SOCIAL EVENTS HELD

SEATTLE—Entering the home stretch in the campaign of preparation for the fifth biennial national convention of the Japanese American Citizens League, the Seattle chapter at its last meeting took up the question of financial assistance to booster delegates.

The chapter has a strong Booster Delegates' Club, headed by Takeo Nogaki, and a neat sum already had been subscribed. However, at the last meeting it was decided that a further amount will be provided from the proceeds of the Japan Day program which was held late in the month under the auspices of the chapter.

Delegates Being Listed

Seattle members already signed up for the Los Angeles trip number about 35, and it is confidently expected there will be 40 from Seattle. Transportation was discussed but no decision was reached pending the final list being made up.

The official chapter delegates are Saburo Nishimura, president, and Takeo Nogaki, delegate-at-large to the Northwest District Council. As alternates Tura Nakamura and Toshio Hoshida were chosen.

The chapter will sponsor song offerings to be entered in the Northwest song contest instituted by the Northwest District Council. Miss Waka Mochizuki is chairman of the song committee.

Drive For Members

Plans for a membership campaign were discussed, and also for the August meeting, which is to take place as an outdoor event, with friends of the chapter invited.

The meeting also agreed to lend support to the Seattle Japanese Boy Scout Drum and Bugle Corps. This is in line with the aid given this summer to the Boy Scouts Circus. Paul Uno and Wataru Asaba represented the drum corps at the meeting and outlined the plans and prospects.

Dance And Outing

The social highlights for the month were the annual Independence Day dance held July 2, and the Japan Day program held July 24 at Playland.

The dance was held in the Queen Anne Club, one of the most beautiful halls in the city, and was largely attended. Visitors included W. Walter Williams, president of the Seattle Chamber of Commerce, and Mrs. Williams, Consul Y. Sato, and Judge Donald McDonald.

A special feature was the attendance of delegates to the Officers' Conference of the Northwest District, which was held over the week-end.

The Japan Day program was an interesting and enjoyable one, and drew the largest crowd that ever attended such events.

The August meeting of the Northwest District Council, the final one before the national convention, will be held in Tacoma.

JAPANESE HELP IN SEATTLE POTLATCH

With Float And Princess, The Community Seeks To Gather In Prize, As It Did Before

SEATTLE—With a princess and a float entered in the Potlatch of Progress program scheduled for July 28, and to run for four days, the Seattle Japanese Community was out to capture honors again as they did in 1935, when they took first for the best float.

The Potlatch is a festival that has been staged with some intermissions since 1911 when it was inaugurated. It has always been a popular affair, and this year the management expects 100,000 out-of-town visitors.

Miss Lillian Fujihira, popular second generation girl, University of Washington graduate, and active in artistic circles, has been chosen as the community's princess.

Plans for the float were drawn by a committee headed by K. Ueyeminami, Japanese Association treasurer, and Seiichi Hara, executive secretary of the Japanese Cultural Center.

In the parade on Friday Miss Fujihira will ride on the Japanese float, accompanied by her attendants.

At Court Festivity

In the evening the princess will join the Potlatch queen's International Court, composed of princesses of the various nationalities in the city. They will be guests at the official banquet at the New Washington Hotel.

Miss Phyllis Savage is the Potlatch queen. She was chosen from among several score of red-heads.

Princess Lillian will be a member of the court at the coronation services Saturday evening at the Civic Auditorium.

OFFICERS' CONFAB AT SEATTLE MAKES DISTRICT PROGRAM

Convention Tour Has Backing And Sectional Questions Of Importance Reviewed; Keen Interest In League Shown

CENSUS GETS INTEREST

SEATTLE—Launching plans to send a large delegation to the fifth biennial national convention of the Japanese American Citizens League at Los Angeles September 1 to 5 was the most important item of business before the Officers' Conference of the Northwest District which met here the week-end of July 4.

The Officers' Conference is an annual event in this district. This year it was well-attended and the present condition of affairs in the district were gone over and plans outlined for the future. All the officers of all the seven chapters are members of this conference. It has been found helpful in diffusing a general knowledge of district affairs, and has brought information and ideas from all the chapters.

Chairman Sounds Plea

Mamoru Wakasugi, chairman of the Northwest District council, presided, and sounded the convention keynote. He made a strong plea for a large delegation, and at his suggestion the officers present undertook to check and report the number who might make the trip.

Another matter discussed was the taking of the census of the second generation in this district, which was decided on by the Council at the Hood River session. Officers reported this census was being taken as suggested, and reports will be made later.

Of National Import

Several questions of a national aspect were gone over. Among them were the proposed revision of the Constitution; the national endowment fund, and the change in The Pacific Citizen, League organ. Several of those present expressed themselves as favoring the changes as to form and matter suggested by the northern California chapters.

The conference discussed the questionnaires sent out by Walter T. Tsukamoto, national executive secretary, and urged prompt replies.

Death Claims Three Pioneers Of Seattle

SEATTLE—During the month three well-known pioneers in the Seattle Japanese community passed away.

Tanejiro Kushi, 54, prominent Alaska cannery contractor and soya sauce manufacturer, died at his home on the morning of the 10th. He came to Seattle in 1904 and was one of the first Japanese cannery contractors.

Mrs. Setsuko Mihara, wife of Genji Mihara, acting president of the Japanese Association, died July 22, at a local hospital. She came to the United States as a child and was the daughter of the late Rev. and Mrs. Orio Inouye Uranaka, founders of the local Japanese Presbyterian Church.

Miss Teiko Suzuki, 66, passed away at her home July 14 at 3 p. m.

PORTLAND CHAPTER PLANS OUTING FOR CADETS WHO VISIT

Training Ship Personnel Are Invited To Participate In Annual Picnic; Program Set For Convention Delegates

CULTURE LIBRARY ASKED

PORTLAND—A busy season of activities of the local chapter of the Japanese American Citizens League will be climaxed with the annual outing and picnic now set for August 7, at Gales Creek Park.

The special event of the program is expected to be the attendance of the cadets from the Japanese training ship Taisei Maru, which is expected to be here at that time. They will be special guests, and a program of entertainment is being prepared aside from the outing.

Committee Members

Chairman of the committee on arrangements is Shigeo Itami, assisted by Shea Morishita, refreshments; George Somekawa, games; Hito Okada, door prize and tickets; Bill Oda, location; Mamoru Wakasugi, Treasure Hunt, and Smith Morimoto, transportation.

The local chapter is discussing plans for establishing a Japanese Cultural Library in this city. Recently President Wakasugi called a meeting to hear Mr. Nakashima explain plans for establishing such an institution, and keen interest was manifested. Others present were Mary Matsubu, Chrys Miyako, Motoko Yamada, Hito Okada, Willie Ito, George Somekawa and Howard Nomura.

A report was called for to be presented at the chapter meeting July 30.

Owing to the fact that President Wakasugi will attend the national convention in his capacity as chairman of the Northwest District Council, Hito Okada was appointed in his stead as chapter representative. William Ito was chosen alternate.

Annual Outing Given By Yakima Vale Folk

WAPATO, Wash.—Headed by Dick Omori, chairman of the Japanese American Citizens League annual outing committee, members and friends enjoyed a picnic and dance at Eshbach Park.

President Roy Nishimura and Board Delegate Jesse Nishi have been chosen chapter delegates to the national convention. Tsugiye Masuto, corresponding secretary, is alternate.
