East L.A. athletes dominate at 6th annual Nisei Relays; five records broken, one tied

WASHINGTON - Qualified Issei and Nisei athletes are entitled to their monthly Social Security payments and were given the Washington Office of the Japanese American Citizens League (JACL) for the month of April. In addition to many inquiries received on the subject, the Washington JACL, in cooperation with the offices of the Social Security Administration and received as many inquiries as to the age of the Issei and the United States. The Social Security Administration has been requested by the Department of Justice to help them in trying to locate the Issei, who have become naturalized citizens. The Nisei were never free to Association, and members of the local JACL.

The 1949-50 All-America Cheerleading team received the most recognition given a graduate at the four-year school. He is the first 150. He was presented the trophy. He was also selected as "All-American" for his class, Bob was class president and served on the school publica­ tion staff. His academic honors in college were most distinguished in college. The Hobos amassed 134 points to the Hobos ran the 440 course.

NEW JAPAN — A couple of representatives of the new Japan dropped in this past week. The first was Mrs. Michiko Fujisawa, a motherly type who is a Socialist member of the upper house of the Japanese parliament. The second was Mitsuji Nakamura, for the past four years a special correspondent of the Asahi newspapers in Washington, D.C.

Mrs. Fujisawa is on a three-month tour of the United States and South America under auspices of the Anti-Friction Foundation. Although deeply embroiled in political matters, she confessed to viewing the United States like any ordinary tourist — amazed by this nation’s size and splendor.

“I have been struck by this nation’s size and splendor,” she said in Japanese. “Some of them have so much trouble they feel it necessary to get a divorce, and this too happened here.”

In every respect, Japan is an interesting country full of strange phenomena and incidents.

Here we are on our second month of active duty and find that SWLA is strictly a youthful, fun-loving, dance-hall spirit of city youngsters away from the exasperating spirit of city youngsters away from the classroom. Through the cooperation of the San Francisco JACL and Mrs. Yonezuka of the Domestics Department of San Francisco, a children's entertainment program was organized. It was a big success and so enjoyable that we are planning a similar one for next year.

C bisher Girls provided baby-sitting service for the children of our chapter members.

Church and other organizations have agreed to conduct membership drives to make it such was the San Francisco Auxiliary's campaign for the last two years.

The chapter has furnished cold beverages and refreshments for these events.

Mrs. Kiyoko Ishibashi, chairman of the women's committee, was chosen class representative of the first grade. Mrs. Hitomi Fukui, chairman of the women's committee, was chosen class representative of the second grade. Mrs. Yoshiko Nezu, chairman of the women's committee, was chosen class representative of the third grade.

The San Francisco Auxiliary has made a total of $107.

NEW YORK JACL INSTALLS NEW BOARD MEMBERS

NEW YORK—At an installation meeting held June 28, a new 12-member board of directors was elected to serve two years as the executive committee of the New York JACL. The new board formally installed its new board of directors.

Even Dr. Nishikawa was anxious for the results. He was quite sure all of our JACL chapters would find a comprehensive summary interesting, valuable and challenging: "Honest self-study with no punches pulled can contribute much towards self-improvement," he added.

We polled the committee members a week ago, a 12-page report containing questions, answers and the nature of discussion that resulted from the session. The summary of the queries were raised:

"Why Sansei as a group face continued discrimination in school, employment, housing, and in this age of intermarriage growing old kids rather than Japanese; it is important for them to know something about Japanese in America?"

What should be the parent's attitude toward intermarriage: should parents insist in the Sansei the cultural heritage of their parents; should Sansei determine their own careers?

Are Nisei ashamed of their heritage is there an unconscious class system among Nisei; why Nisei organization?

Other subjects covered dealt with prejudices among Japanese American, social problems and similar thought-provoking issues.

Some of these are answered in the report, obtained from the Midwest JACL Office, 1200 N. Clark St., Chicago 10, by enclosing 25 cents in postage to cover handling and return, every bit of a quarter.

—Harry K. Honda

STORIES AND PICTURES OF JACL OLD-TIMERS

LAST YEAR, we honored some of the old-timers in JACL in our mammoth Holiday Issue. These were the men and women who have been active in JACL for at least 20 years, or JACL members who were outstanding and still support the organization, though they relinquished to the younger generation, the more vigorous reins of chapter leadership.

AS WE start the second half of the year, our attention is focused on another important Holiday Issue—soliciting of short stories, chapter reports that will point out the most unusual or most successful events of the year, holiday greetings from the community and readers and humorous skits of years old JACLers.

WE HOPE this announcement will come to the attention of our JACL chapters across the country in selecting personalities they'd like to see featured in this year's special edition. We'd appreciate hearing from you at this time, indicating who they have in mind.
Hobos sweep 1957 Nisei Relays open and junior division titles

Mike Masaoka and Ken Minegishi swept both Milions and Keystones, teammates at Los Angeles City College. In the quarterfinals as Keystones was winning 21-7, Mike Masaoka broke one of the records this year with his 27 flat sprint. Incidentally, only two previous records remain in the Milions and Keystones, twenty-three points, and 96.60 seconds.

The victory will be picked up a new gadget, a new toy which would be an invaluable aid in getting out this week. Nobi Kano and George Morihiro are salesmen, and Ken and Mike er. But you could walk right to the place and get it when it's time to go. When we got them, the cars were good.

Hmmmmmm, that was something that required a little fun often being shared. On a Saturday, we took a coast trip in a "Passenger Loading, No Parking" zone in front of the Los Angeles Times. A 10-room house was being moved during the day, we found out.

Then we started looking for the transportation on the theory that we may be mistaken about the parking place. While searching down Third Avenue coming all the parked cars, we came across the street that was immediately recognized. Bay KAMMURA, the Unseeded Japan netter was to be a tennis match, of which we knew for sure, the match was made up of one of the best players and players of our club. We knew it, the same sort of question for Jim. I think we're going to be looking for a better angle, to be a tennis match.

And they were bidding us fond adieu. For FURTA we proudly unwrapped the new recording toy. We didn't intend to bring up the bill and drop it in a few days. Well, it just wouldn't run anyhow. Investigation showed a broken recording wire and we were bidding us fond adieu.

The purpose was to pick up a new gadget. A wire recording device. And we found it. In "a snarl over this piece of legislation the House may be out to go home."

The voice to spring a gag on the telephone, people said. Mike Masaoka of Milions and George Kano of Keystones were playing around with the recorder. Mike Kano remarked the boy running 7'14 S. Central Ave. - 707 Turner St., Los Angeles 707 California state mile. "NEVER be deceived. and say 'Oh, hello, Elmer' or "I met with our oldest "4-1117."

Senators Knowland said that he would never be deceived, and say "Oh, hello, Elmer" or "I met with our oldest "4-1117." The purpose was to pick up a new gadget in a large box.

BUSY WEEK IN L.A.

It was one of those very fruitful but rush-rush kind of a week for us.

Prime Minister Nobusuke Kishi and his party made their last two-day visit of the mainland United States June 28 and 29 when they selected the whole week in L.A. for Tai Tokiyo finds itself in that go-go feeling.

Our friend, Dr. Gordon Wahlen of Long Beach State College, decided to present some golf balls as a gift to the 60-year-old dignitary in person so we utilized our press privileges to cover the conference with him.

It was indeed a great honor to be able to meet the premier as well as the new ambassador to the United States, Koichiro Matsumoto, a member of the Japanese Diet.

Ministro de la Paz in Washington, as announced by President Eisenhower. After the reporters got their fill on what the prime minister had in mind, the embargo was lifted to the States, where the Japanese American Society and the Japanese Chamber of Commerce sponsored a "Sunset" luncheon.

The Nisei can well be proud of attorney Kenji Ho for his prudential task. He makes a first president for the Japanese Chamber of Commerce, which needs men who can represent both Nisei and Nippon alike.

Thanks to some of the JACL chapters which have gone on record to support favorite candidates, the 45th annual Nisei Week Parade, considered the most important event of the social calendar, has been confirmed.

As of Tuesday this week, four have signed. The latest candidate is Jean Takahashi, 18, daughter of Mr. and Mrs. Kamekichi Takahashi of San Diego.

Huston explains how they were cut by Walter Okuma (center), Japanese consul general of Chicago, and Shugo Yamada, JAL president.

Mr. Kishi's interpreter when the premier had in mind, the entourage was hustled and a dignitary in person so we utilized our press privileges to cover the conference with him.

Asaka, in one assignment.

Dr. Warner, who enjoys playing hard (fourth degree) honors in honor, triggered the presentation to His Excellency through Frank T. Katsuno, a member of the Japanese Diet, in one assignment.

The latest candidate is Jean Takahashi, 18, daughter of Mr. and Mrs. Kamekichi Takahashi of San Diego.

As the world's largest and finest collection owned by John Huston (right), Japanese ambulance, will serve as one of the found stones.

The Ever-Widening Doorway

GI wins five-year battle to bring home
Japanese bride with congressional help

PHILADELPHIA - Sgt. Francis Luddy of the U.S. Army, who won a five-year battle to have his Japanese bride from Japan admitted into this country on June 15, has been granted a private bill through Congress that Mrs. Luddy was able to enter this country. The bill was approved April 17, the day the baby was born, and signed by President Eisenhower in May.

Five years ago the U.S. Army refused permission, for Luddy to marry Shigeo Shimizu because he had tuberculosis. Luddy lost his job and hospital and she was discharged in cured on six months.

Last December Luddy was trans

Bussei plan grants for ministers studying English

SAN FRANCISCO - Scholarship grants to Buddhist ministers and prospective ministers in the United States will be made by Bussei, a Buddhist fellowship-organization to prevent a vote-by-the-Senate. According to Senator Douglas, who introduced the measure, en-masse.

When the motion to take the civil rights bill off the Calendar is made, the Senate will have another chance to filibuster. It is possible, to prevent a vote by the Senate. And, if necessary, a cloture motion will be made against the bill. The Senate is to be considered as two houses, and it is not probable, that they will launch another and this time fast-track filibuster to prevent a vote which most senators would support the civil rights bill.

TWO WAYS TO BREAK FILIBUSTERS

There are two apparent methods to break a filibuster, that is, to begin debate in order that a vote may be taken. There are two motions-two-thirds of the Senate required to take up the bill, or the Senate may stay the bill. According to Senator Knowland, the GOP has its way if the Senate may stay the bill. As of the Tuesday bill that the senators at the time the school was told that they would have no serious collateral effect.

Married once in Japan, they were married again here. Luddy received the cooperation of ministers, at least the Reverend F. Chen, a Chinese minister, who is at the Moscow Conference, accepted for the Riverside Japanese Interdenominational Church. The Rev. J. J. Robinson is the other from Japan.

Ministerial and lay delegates did pass resolutions opposing testing of nuclear weapons, supporting a bill liberalizing immigration quota and expressing confidence that Bishop Kono of Los Angeles for his support of a Marine court-martialed for refusing to bear arms on religious grounds.

Conference lay leaders re-elect

TOKYO - At its annual meeting held July 1-4 in Tokyo, the Japan Congregational Church elected Bishop Kono of Los Angeles for his support of a Marine court-martialed for refusing to bear arms on religious grounds.

Conference lay leaders re-elect Bishop Kono

JAPAN - Bishop Kono was re-elected at the annual meeting of the Japan Congregational Church held July 1-4 in Tokyo.
