Small Claims Court hears Civil Rights Cases

CALIFORNIA.—California and the successful campaign for the establishment of the state of Japan's civil rights was finally won by the Nisei lawyer, Judge Young, and his colleagues, who defeated the accommodation at the Supreme Court, June 6, 1956, in the case of "Nakatsuka诉 H. Bronson".

The court found in favor of Nakatsuka, a Nisei who sought accommodation regardless of his race, and ordered the return of his sword to the museum.

Mr. Moto, Nisei in Stopover: Tokyo novel to be missing in film version

The screen version of "Stopover: Tokyo" varies considerably from the original novel which portrays the American Nisei as disloyal. The book, written by James Y. Sakamoto, was criticized by the American Legion for its portrayal of the American Nisei as traitors.

GENERAL IN A BLACK BELT — One of Nippon's most successful exports is a form of legalized mayhem called judo, just about the quickest and most successful way known to man for knocking an opponent flat on his can. Not strangely, American police forces and the military have adopted judo in their training programs. But no outfit has taken it up with greater interest than the Strategic Air Command, the people given the responsibility of delivering the atomic and hydrogen bombs.

SAC's enthusiasm for judo can be traced to Gen. Thomas Scarfaced Power who recently succeeded Gen. Curtis LeMay as the high commander at Bolling Air Force Base in Washington, D.C.

"It builds and maintains physical fitness and is man's best means of unarmed self-defense," General Power told a reporter recently in explaining his interest in the sport. "Balance is stressed strongly — both yours and your opponent's. Each opponent is equal, so the idea is to try to put your opponent off balance and attack when you get him that way. Then speed counts.

"Judo is interesting and informal. But more important, it teaches discipline, self-confidence and timing, putting your mind to work and trains you to make intelligent decisions."

Which would seem to be mighty sensible training for the men commissioned to deliver our nation's Sunday paper.

General Power reportedly likes to relax by donning the traditional judo tunic and challenging officers and enlisted men alike. The belt he ties around his jacket is black.

STANDARD OF LIVING — I know a Nisei family whose combined annual income is about $11,000 a year — a grand a month — and they barely make ends meet.

"Don't know where the money goes," the harassed husband says. "It sure doesn't stick around home."

"You build and maintain physical fitness and is man's best means of unarmed self-defense," General Power told a reporter recently in explaining his interest in the sport. "Balance is stressed strongly — both yours and your opponent's. Each opponent is equal, so the idea is to try to put your opponent off balance and attack when you get him that way. Then speed counts.

Nisei Week Queen Contestants

San Francisco, CA - In order to not offend the Japanese market, 20th Century Fox produced. In most of them Moto appeared as a Japanese agent.

Done of the Moto pictures have yet turned up on the late, late night. Nisei semanticist in headlines again, high-powered autos seen as sex symbol. "The 7-year-old acts out this fantasy world of power and heroics in Etc., quarterly journal of semantics."

Nisei Businessmen's meet in Tokyo Oct. 23-26

TOKYO—Invitations to Nisei businessmen in the United States, Canada, and Hawaii are being mailed from Tokyo Gov. Yasui's office to mark the first annual Nisei Whisman's Conference.

Under sponsorship of Goro Yasui, the project has been given high priority by the government as a means of full support from government and industrial leaders since earliest discussions last spring.

The University of Tokyo, San Francsico Times and Tama Women's University of Commerce have been named co-sponsors of the conference, which aims to create international goodwill by having individual Nisei and Americans understand each other's international business trusts and to establish better communications between Nisei in Japan and America.

It was revealed Prime Minister Kishi has committed to be the keynote speaker of the conference later this month.

Final details were discussed at a recent executive meeting of the Nisei Whisman's Conference, which was presided by Osamu Yamaoka.

Yamato Suykii wins top award, editorial director, for third straight year

SAN FRANCISCO—Yamato Suykii has held the award for editorial director for the third straight year, it was announced in the magazine's latest issue.

This is the sixth year that Suykii has been up for re-election in the contest in which only Oriental houses have been listed.

Yamato and Kira's in Chinatown, publisher and editor, was the only Oriental restaurant in the happy-to-continue-with-elsewhere.

LETTERS

To THE EDITOR:

Editor: Here is a news clipping of the one of the most humorous and interesting news items that I have ever read. It's about a man who started a fire with a cigarette and then called the fire department to put it out. The fire department arrived and put out the fire. Then the man called the fire department again to tell them that the fire was still burning. The fire department arrived again and put out the fire.

But the man next door tells me that the trick in good barbecuing is to start the meat at the right time and leave it alone during the cooking process. I hope he is right.

To THE EDITOR:

Editor: Here are a few tips that I found useful in the kitchen.

1. To prevent food from sticking to the pan, add a little oil to it.
2. To clean a whisk, rub it with a raw potato. It works wonders.
3. To remove stubborn stains from a pot, use a paste made from baking soda and water.
4. To sharp a knife, run it through a honing steel.

Thanks for your help.

Sincerely,

John Smith

New Voting Pattern

WASHINGTON

The break of a new voting pattern in the Senate which, in the long run, may well have even greater consequences for the nation than the actual vote on the bill itself.

While much has been written—and will be written—about cloture, filibusters, and the like to prevent the enactment of the so-called civil rights bill and its many implications, in the long term the new voting pattern likely to be followed in the Senate may be one that is better overlooked by most Capitol Hill observers.

Civil Rights

And particularly since the end of World War II, there has been a kind of unofficial undercurrent to Senate decision-making and in many votes they would combine their votes in the passage of legislation considered unpopular. To the conservative Republicans from the north and midwest would help the southern conservatives Democrats prevent the enactment of any civil rights legislation, and in return the southern conservative Democrats would support the northern liberal Republicans in defeating social and economic measures they considered "too radical." They may well be the start of the breakdown of this historic alliance account for the defeated attitude taken by so many of the conservatives in the January voting on the current civil rights bill.

SENATE SWITCH SEEN

First evidence of this break-up in the conservative combination, that has held sway for so many years, came on June 28, when 30 Republicans voted with 11 Democrats to pass the House-approved civil rights bill directly on the Senate Calendar, thereby bypassing the usual procedure of referring the legislation to the Judiciary Committee.

Since the Democratic Dixie bloc in opposing this unprecedented parliamentary maneuver would have come to the parting of the ways will be in the forthcoming effort to devise a filibuster and votes of the Dixie bloc, then it can be anticipated that the break will finally have come. For it is anticipated that the conservative Republicans from the north and midwest would help the southern conservative Democrats in defeating social and economic measures they considered "too radical." Because Shimizu placed "extraordinarily high" in national civil rights examinations; and because of his scholarships and athletic ability, the Secretary of the Navy gave him an executive appointment.

To Pay Football

Athletic Director of the Academy, Ernest George, told the Washington-IACU, that the Shimizu family is eligible to participate in this intercollegiate sports program. He has already signed up for freshman football. The 5 foot 11 inch, 115 pound athlete, who is a varsity high school basketball player in his home state, will be eligible to play football this fall. Shimizu is an accomplished basketball and football player and former member of the track team.

Landmarks to go for redevelopment

SACRAMENTO. - One of Sacramento Japanese community's long-standing landmarks, the Capitol Ave. and Sixth St., will be a victim of the last year's redevelopment program of Capitol Mall projects.

Fukushiki Dairiki, who has operated the hotel since prior to the war, is one of the developers hoping to vacate their rooms as he will have a new building on the west side.

Other business enterprises on the ground floor of the building are the Dairiki Co. Inc., located on 1206-6th Ave.; Alice Coffee Shop, 1226-6th; and Kansai's Sushi, 1230-6th.
