President's Corner
Sound leadership inspires, pays off
One of the most active units we know of, locally, is the Long Beach Harbor District JACL. The amazing thing is that in March of this year, it was on the verge of folding up. It seemed like the chapter could not get any new members, none of the men who had joined would stick with it, and it seemed like there was no hope for the chapter. It was then that a new leader stepped forward and reactivated the chapter. Tomo "Blow" Joe, an inarticulate man, was drafted as president. Together with his charming and efficient wife Susie, they have lifted the Long Beach Harbor JACL to new heights.

A look at the record proves beyond dispute that this is one of 1957's most active chapters:
1. The chapter reached a new high in membership with about 350 members.
2. The chapter reached a record number of 1000 club meetings under the brooding of Dave Miyahara.
3. The chapter met its financial quotas in full.
4. The chapter set up a youth commission under its membership committee, and, in cooperation with the city, sponsored two baseball teams, one for 8-10-year-olds and the other for 12-13-year-old youths. Basketball teams for both groups are in the making.
5. The chapter sponsored a high school and college age group, known as the Hi-Co, under the auspices of Francis Ishii, with assistance from Sue and Joe Sakai and Mas Narita. It will aid JACL's annual Christmas Christmas Card-A-Thon and make the needy in their area.

This all-plus extensive participation in a number of other community affairs has reawakened an interest in the chapter and also encouraged futher support of the chapter by the entire community.

We believe that this is a chapter that will continue to be a dispirited chapter achieving good under lead--Turn to Page 5

Supreme Court Smashes Another Southern Attemept to Block School Desegregation

WASHINGTON--The United States Supreme Court, in a 5-3 decision, has refused to block another Southern attempt to evade school desegregation by refusing to hear a Virginia suit. The decision nullifies an earlier action by the Virginia State Board of Education to integrate the Norfolk and Newport News schools.

In effect, it leaves unchanged the ruling of the Fourth U.S. Circuit Court of Appeals, which held that the Negro school desegregation order of the Virginia courts in 1954 was constitutional.

First contribution to 'Christmas Cheer' campaign received; appeal letters mailed

By Bill Hosokawa

First mailing of "Christmas Cheer," appeal for help from the old, the sick and the poor, was completed last weekend with a volunteer crew from the Los Angeles County, California, and the city of Los Angeles, California. The appeal letters mailed from the 929-943 S. San Pedro St. address were accepted by the Board of Supervisors and will be distributed to the public.

The appeal letter asks for donations to help those in need during the holiday season. The letter was distributed to a wide range of recipients, including the elderly, the sick, and the poor. The letter is expected to raise significant funds for those in need.

Sanger top winner in Fresno Dist. fair

SANGER — Forty-one exhibitors from Sanger took part in the Fresno County Fair, which closed on Oct. 12, according to a list from the Sanger District Chamber of Commerce.

The top award was the winning of the feature booth first prize, amounting to $30, by the chamber which supplemented this by winning the runner-up prize. Robert Kanegawa was a co-director for the Sanger booth.

Several Nisei had served in the Kamikaze section and the Airman's Memorial was featured, with President Johnson reported to have been present.

Do dreams come any higher? 184 ft. flagpole for Nisei

**Stopover Tokyo**

The JACL has been zealous in its efforts to oblige the film industry to include in its current projects realistic scenes of Japanese American life. This has been a vital part of the JACL's effort to establish a rapport between the public and Japanese Americans, in order to dispel any misconception that Japanese Americans are a threat to American security.

The incident in World War II is the deep friendship between Americans of public sympathy. It's understood that 20th Century-Fox has more plans to be friendly.

In Japan in another 20th Century-Fox drama, the public sympathy was established between the two countries after the state legislature. "Stopover Tokyo" was filmed in color and CinemaScope in 1956.

The Virginia pupil placement plan was approved by Calipatians for the achievement of the flagpole as a symbol of the state of California to erect the tallest flagpole in the U.S. from the top of a 184-ft. mast.

Robert Wagner plays the U.S. agent, while Joan Collins is the Japanese American mother of a Nisei couple in Tokyo.

If you would like to see legislation enacted which would prohibit auto insurance discrimination, please consider these facts:

* In 1970, Oregon was the only state to have a broad base and high distinction. Now, accord to John M. McMillan, the United States Information Agency's article on Momita and the direct supervision of Japanese American leaders, it is not hard to see that the state of California may have a broader base and high distinction.

**27 contributo to CI Endowment fund**

Dr. Roy M. Nishihara, national JACL president, publicly acknowledged a check for $315.75 to the National JACL Endowment Fund during the past week. Donors, recipients of claims from the government for evacuation losses, who were refused policies, petitioned to Governor Knight. He was asked to seek legislation which would require auto insurance to offer automobile insurance to all residents of the state at equal rates.
We were more than pleased to receive this week 24 One Thousand Club membership from Issei supporters in Denver from Mr. & Mrs. Kaizang: After careful consideration of the other terms equally obnoxious to other racial minorities and cooperatives with other groups, the Issei eventually decided to support our drive for naturalization today. While the efforts of those like Mr. Kaizang are a tremendous boost for us, at the same time they are a challenge for the Nisei to emulate their fine community spirit.

A PLATEAU: A new national committee born of our democratic work in Chicago last month has been set up to coordinate our efforts and work more aggregatively toward eliminating the economic barriers confronting all Japanese Americans. Such educational efforts should start with members of our own group who get steamed up when referred to as "Japs" but have no comprehension about undeserving derogatory terms for other minorities.

JACL SCHOLARSHIP: The younger people showing interest in JACL to form Jr. JACL. This makes us more conscious that our responsibility to them. Also coming out of our Chicago discussion is for JACL to explore providing scholarships. The idea was brought up by Mrs. Helen Tanaka, one of the leaders of the Chicago chapter, as a follow-up to the work. We have a fund of $500 Mr. Masunori Hoshi of Los Angeles sometime in the near future.

A straining effort on the committee's part to secure our fair employment practices legislation is to secure equal opportunities, for our young people in all fields of endeavor for which they may seek. With this in mind, we would like to question how prejudice prejudice their advancement, as our effort to make more awareness on their part on this.

A PROVING OURSELVES: The Tsk Momita story growing old, and tragically has helped the nation to feel the warm and true universality of democracy. For those who have been held up as a scapegoat JACL supporter, this is a recognition of their group's contributions to our democratic way of life.

In our community, the local group is one area where often times was seen as a major issue for the culmination of anti-Japanese agitation and has truly heard the words of our American Civil Liberties Union and attorney's and all of them. The sum total of those developments constitutes a major reason for the change of many people's minds to support them.

A YESTERDAY'S MEETING: The message to our first local, in San Francisco to listen to the candidates for the Board of Directors. We are now the proud of ourselves. The approach will do no doubt point out that we may be different in our present ideology in the community and how we do not judge the average voter across the country, but our history and experience has been expressed and those standards are to earn a place in the sun. The crust of our acceptance is that we will always produce the fair and just average.

WE MEET OUR ROSSIES: We will be meeting with the key people of many of our chapters in the next month and a half at the winter District conventions that are scheduled to start with the Northern California-Western Nevada meeting in Las Vegas the first week of November where U.S. Congressman John E. Moss will be the headliner. While President Byro Nakamura, Mike Matsubayashi, George Inagaki and 200 Club chief Joe Nishio assist the Intermountain District celebrate the 50 Club 25th anniversary, we will participate with Youngs, Yone Wakahata and several Chicago Cl. leaders of the Mountain-Plains area gathering at Omaha. U.S. Sen. Inouye, a member of Nebraska who will address this convention tomorrow, and from the Homecoming event of the previous year that he will be at the home of Bayes Tours, Recreational Services, the Cenozocad DC convention in Fresno and the Pacific Northwest in Seattle. The chapter's annual Goodwill Banquet scheduled for Nov. 15 carries on the tradition of a year, a tradition of appreciation by Americans of Japanese ancestry in this country, instead of an activity during the week of events in the community and anticipated.

SAN FRANCISCO LOCAL: The San Francisco chapter has advanced plans for its 25th anniversary next February. Year 2002 marks the 25th anniversary of the chapter, preceeded by the annual dinner.

POSTSCRIPT: We had a telephone call last week to say "hello" to National Chairman from Congressman Sid Yedowitz of Idaho, who is starting in a new island role. We mentioned to indicate the friendly rapport that has been built up through the issei who are the active Chicago JACLers, who are members of the Congressmen's constituency.

As Old Foot-leton landmark was recently torn down in its owner, the Fort Lupton JACL after the century building was condemned.

Built in 1893, it served as a local meeting hall for decades and was taken over by the Japanese American Citizens League for a Federal government school about 40 years ago. After World War II, it was taken over by the JACL. It was reported that local chapter officers have no immediate plans to replace the structure.

The roof of the old building was badly damaged by a fire which started in a spooling plant last year. The building was at last year from a passing train started another fire under the waves of the building.

DETROIT NISEI BOWLS 300 GAME

DETROIT.—After more than 15 years trying, Detroit Nisei bowler, Shintaro Asami, has been able to roll a perfect game in a sanctioned play last week. Asami's column, "The Morning After," is always full of football comments, but this week, the column is running a story about the perfect game he achieved a couple of days ago. The story tells the story of how Asami gained national attention immediately.

His perfect game came in the "Morning After" column, but also said, and described how his perfect game was the first for the Nisei in the city. This, of course, may have remained good things of being a Nisei bowler, but also gave respect to the effort of the Asami family, and the Detroit Nisei Bowling League.

Entries with established handicaps were accepted at the Bing Maloney course. Shintaro Asami bowled a 278 game this past week.

WASHINGTON, D.C.

PROBABLY NEVER since the end of World War II have the Japanese-American understanding and cooperation been more strained and in greater question. That is the moment, however, that the United States influence and interest throughout the world generally is at a relatively new low.

Japan's earth's artillery: the experimental ballistic missile (the ultimate weapon), India Prime Minister Nehru's recent visit, the expansion of influence in Syria and the Middle East, the tragic revelations of racial hatred at Little Rock, Arkansas, and the recent visit to Tokyo, the "Jap sold" scare and the menacing outrages against Japanese exports to this country—all contribute to a tendency on the part of Japan, Americans and people to band together with greater fane; on neutralism in world relations and even on neutrality in war.

Appropriately and most timely, this week—October 24 to 26—the House and the Prime Minister. As the Convention is being held with the avowed purpose of attempting to organize concerned Nisei on both sides of the Pacific to promote understanding and cooperation between the land of their birth and citizenship and the land of their ancestry.

Chairman of this president-making event is Tatsuo Murayama and Tad Watunabe. Executive secretary is Tsuenoe Hirai.

Murayama is a newspaperman in Tokyo by trade but he is well known here as one of the most articulate founders of the JACL. The meeting, on the west coast some 30 years ago, a decade of the post-war Nisei Scout movement in Japan, an outgrowth chauvinism of the Nisei, and a dedicated promoter of United States-Japan friendship. Watunabe is one of the more articulate and effective spokesmen in the world of the Seattle, whose present residence is in Gardenia, Calif., Harada, an attorney, is the first to go to the Convention Seatle in the Economic Section of SCAP during the Occupation. These men and the others whose recent successes were in promoting baseball personalities and teams from this country to Japan.

TOKYO.—Currently visiting Japan, Dillon Myer told reporters here that the evacuation of Japanese Americans from the West Coast would have been unnecessary and that "most of the scare stories were just plain false.

But he believed the relocation committee believed there were Japanese Americans beyond their community and that the government had used unnecessary discriminatory legislation in state and federal law.

Myer said, "Now, racial origin does not matter, and they are accepted everywhere. In fact, the term Nisei is giving them some extra breaks because of their wide publicity and valuable work during the war."

HONOLULU.—A distinguished visitor of recent weeks in the Islands wasn't to be classified as a "tourist."

Dillon S. Myer, wartime director of the War Relocation Authority, meaning the post-evacuation problems, arrived in Honolulu as a civilian component of the military authorities.

Commissioner Swing, as a General who commanded American Army personnel immediately after the end of hostilities, this area, he said, should be able to assess the largest and most influential of organizations, those to which is in the extraordinary organization.

Their presence is important to the interests of both governments on the prospects for promoting international relations which this man of American ancestry is Japanese.

As a one-time Minister Kisugi and Foreign Minister Fujisawa, were recent visitors in the United States. They should certainly be the Nisei Japanese, to the leadership of the Japanese in the international world conditions and the president of the United States.

Dillon Myer, whose appointment in the State Department, should certainly be able to expend an American foreign policy.

Commissioner Swing, as a General who commanded American Army personnel immediately after the end of hostilities, this area, he said, should be able to satisfy America's immigration policy and practices as far as the Inter-American agreements, the international agenda, the future, the United States.

Secretary Hirai, who addressed the last National JACL Convention, was here, Doba shi of the appointment recent to the JACL, had a press conference and a personal greetings of President Eisenhower to the Convention, as well as he had worked in the State Department, should certainly be able to expend an American foreign policy.

This writer is one who subscribes to the thesis that, whether we like it or not, we Americans are bound, according to Japan as a nation and as a people, will determine to a large and significant degree the accord policies in the light of the current world conditions and the leadership of the United States.

This is the role of the United States-Japanese enmity. This role is now filled, according to the leadership of the United States.
