Col. Rasmussen recalls Gettysburg speech at Arlington rites for Nisei war dead

JACL News Service
WASHINGTON, D.C. — The National Japanese American Citizens League will hear oral arguments in three cases in which it is attempting to gain power to take away citizenship from a nation born of the Washington Office of the Japanese American Citizens League.

One of the cases involved a Los Angeles man who is a veteran of World War II and to remind the American public generally of the sacrifices made by the Japanese-American and the American public generally of the sacrifices made by the Japanese-American.

Opportunity Accepted

According to Col. Rasmussen, it was the evacuation and the evicti

bution by the American public generally of the sacrifices made by the Japanese-American.

Col. Rasmussen organized and administered the Military Intelligence Service Language Schools during World War II which trained more than 7,000 Nisei from the continental United States and the islands of the Pacific.

Since the National JACL Convention in Los Angeles, 1958, proposed annual surveys have been held in California, Washington, and Oregon to attain equality with the American public generally of the sacrifices made by the Japanese-American.

Vince Tanahashi, a prominent public service agency, gave the invoca-

He was well acquainted with the American heart, personality and character. But the public generally of the sacrifices made by the Japanese-American is no less distinguished, Perez. Texas-born, is charged with desertion because he escaped from Oregon and joined the Denver Post's Gallup, N.M. The chapter's non-profit, charitable committee to handle inquiries and applications.

At the Traditional Nisei Soldier Memorial Day services here last Sunday morning that they must never forget and must practice that for which so many Nisei in World War II fought and died.

Access to loans is not to be taken for granted, Jones, or a Rasmussen.

TAK MOMITA'S BACK IN BUSINESS, HOBBLING BUT ABLE ON CRUTCHES

CALIPATRIA—Two Mondays ago, the Calipatria Drug Co.-opened its front door, alive with concerned customers, in and out, formant reports. Too many have gone home already and it's been an empty, souvenir shops have closed their doors, through Ajinomoto who introduced the rocket age is expanding the horizons of tomorrow's economy is fine if it doesn't affect your own home town and the car cost pretty good. Now it's the equivalent of three trips around the world, it's from. $465 is $290 depreciation for the year. Quite a deterioration vehicle in which a family's expanding transportation needs. The car cost $465. Obviously it had seen its best days, but it ran familiarly buying high and selling low.

We priced it with some dealers and the best offer was that invented monosodium glutamate, the crystal Mayer Ed Haseemacher (left) of Calipatria returns the key to the 7-Eleven store, which returned this past week on crutches to find his business booming.

Nisei co-author of atlas on California

John C. Kimura, geography instructor at East Los Angeles dr. is one of three authors of an atlas entitled: "Picturing on the Land--Geographical, Historical and Political Maps of California," published by the West Publishing Co. of Los Angeles.

Kimura, a graduate of Los Angeles State College, produced the 100-map atlas jointly with two Los Angeles State College geography professors, Dr. W. G. Byron and Dr. Robert W. Durrenberger.

"To my knowledge, no state in the United States has produced such an atlas," said Dr. Byron. "The publication of this atlas represents a valuable contribution to the physical, environmental, historical, political, cultural, and recreational value of the state of California."

This atlas, which will receive its annual review program next Monday, October 15th, is a high government project.

"The work was originally done at the University of California which teaches the history of California. However, we are finding to our pleasant surprise that the work is being well received by the general public."
Hollywood's Japan cycle

By Larry S. Taft

Hollywood's Japan cycle

n the past few years, Hollywood's Japan cycle has been a successful venture. The cycle, which began in the early 1950s, has produced several films that have been popular with American audiences. The cycle has been a major source of income for Hollywood studios, and it has been a major source of jobs for Japanese-American actors and technicians. The cycle has also been a major source of income for Japanese-American businesses, as the films have been a major source of income for Japanese-American businesses.

In recent years, Hollywood's Japan cycle has been in decline. The cycle has been hit by a number of factors, including the economic recession, the rise of Japanese-American actors and technicians, and the rise of Japanese-American businesses. Despite this, the cycle has remained a major source of income for Hollywood studios, and it has been a major source of jobs for Japanese-American actors and technicians.

The cycle is not likely to disappear anytime soon, as Hollywood studios are still making films about Japan. However, the cycle is unlikely to reach the levels of success that it has in the past. The cycle is likely to continue to decline, as Hollywood studios are likely to continue to make films about Japan, but they are unlikely to reach the levels of success that they have in the past.
WE WERE GONGS

POINTING SOUTHWESTWARD
By Fred Takado

We Were Mong Gongs

WE WERE GUESTS at the Long Beach JACL dinner-dance on Saturday night when the dance floor was bristling with activity, the film stars of Hollywood were mingling with the famous movie directors and producers, and the疲倦 eyes of those in need of a bit of fun. They were entertained by the films of the Long Beach Chapter and enjoyed the social atmosphere at the end of the evening, the main purpose of which was to raise money for the Shonien Child Welfare Organization. Some of them were in need of a bit of fun, and last year the JACL Coordination Council of Southern California set up a fund, called the "Child Welfare Fund," which provides food for the under-privileged children. The fund was established by the Japanese-American Council on Film and the Japanese-American Cultural League of Los Angeles.

We were guests of the JACL at the Long Beach Chapter's annual dinner-dance on Saturday night, and we were treated to a wonderful program. The evening began with a film show sponsored by the JACL Coordination Council of Southern California, with the film being shown to the audience. The film was a delightful one, and it was followed by a social hour, during which the guests were able to mingle and enjoy each other's company.

The evening concluded with a dinner-dance, during which the guests were treated to a sumptuous meal and a variety of musical entertainment. The guests were treated to a wonderful evening, and they were all very pleased with the program. The JACL Coordination Council of Southern California has always been a great supporter of the Japanese-American community, and we were very pleased to be able to participate in this wonderful event. We were very pleased to be able to be a part of this wonderful evening, and we hope to be able to participate in many more events like this in the future.

OUTDOORS: Stereo sound demonstration feature
One of the most popular lecture programs at the Long Beach Chapter is the "Outdoors" program, which features a demonstration of some of the newest and most advanced stereo sound equipment. The program is designed to give the guests a chance to see and hear the latest in stereo sound technology, and it is always a hit with the audience.

The program usually begins with an introduction by the program chairman, who will talk about the history of stereo sound and the importance of having a good stereo sound system. The program will then move on to a demonstration of the latest stereo sound equipment, which will be set up in a large room, with speakers and other equipment set up in a circle around the room.

The demonstration will be divided into several parts, with each part focusing on a different aspect of stereo sound. For example, the first part of the demonstration will focus on the quality of the sound, with the program chairman demonstrating how the sound quality can be improved by adjusting the settings on the stereo sound equipment. The second part of the demonstration will focus on the quality of the sound, with the program chairman demonstrating how the quality of the sound can be improved by adjusting the settings on the stereo sound equipment.

The program will conclude with a question-and-answer session, during which the guests will have the opportunity to ask questions about stereo sound equipment and to get advice on how to improve the sound quality of their own stereo sound systems. The program will be a great opportunity for the guests to learn more about stereo sound equipment and to get advice on how to improve the sound quality of their own stereo sound systems.

This year's program is scheduled to be held on Saturday night, and it is sure to be a great evening for the guests. The program will begin at 8:00 p.m., and it will conclude at 11:00 p.m. The program will be held at the Long Beach Chapter headquarters, and it is open to the public. The admission fee for the program is $5.00 per person, and it includes a gourmet dinner and a program booklet. Reservations can be made by calling (310) 426-6000.

The program will be a great opportunity for the guests to learn more about stereo sound equipment and to get advice on how to improve the sound quality of their own stereo sound systems. The program will be a great evening for the guests, and it is sure to be a great success. We hope to see you there!
Canadian Nisei protest filming of anti-Nisei film over upstate New York station by writing to sponsors

Kaz Bato was elected president of the Oakland JACL chapter for the year of 1952. He is planning to attend the Jr. JACL conference which will be held in conjunction with the 36th national JACL convention in Nevada, JACL District Council Council in early June. An organizing committee for both shows in New York City has been appointed recently by the New Jersey JACL chapter.

The letter was addressed to T. Ocamara, publisher of the New Canadian, who forwarded the Toronto JCCA protest to Masako.

FRENCH CAMP

Committeemen named for NOV. 15 FALL BAZAAR

The annual French Camp JACL fall bazaar will be held on Friday, Nov. 15, at the French Camp Hotel. This year's bazaar was announced recently by Lawrence Ma­nako.

For those wishing to enjoy su­perb food both with open air and, while the games start later in the evening, at 6 p.m., Lydia Ota is general co-chairman of the committee. Mrs. George Shinmoto, Mrs. George Matsuoka, Kahn Yamasa, Mrs. George Okamura, and Mrs. Ichiko Sato are the co-chairmen.

Over 5,000 Serve in Direct Combat

As this man-made "Sputnik" is fast becoming a reality, and continues to impress the world over a generation which feared for its impact, its vocabulary for everyone to understand and engineers. This is an attitude that extends back into the past, and is truly high and in Europe. I have been told that in this particular campaign, and all television stations affiliated with them are not supposed to show their "anti- Nisei" films, the letter continued.

Since JACL does not have a chapter in upstate New York, this interference should not, and was not called to the attention of JACL, Masako was appreciative of the action taken by the Canadian Nisei.

National activities of JACL are prominently featured in both of the Canadian Japanese vernaculars, hence, their awareness of anti-Nisei films being shown on television.

The continued success in the United States their opportune this week to show recently on Oct. 26 with Judy Maruyama, soc.; Mickey JACLers attending is being borne out by the Oakland JACL chapter.

Our cartoonist Pete Hirakon of Dayton found it opportune this week to point out the relative pro­gress made in the fields of science and human re­lationships. The now mod­ern peaks tower over a Buffalo (N.Y.) television station by writing to the sponsors of the annual fall bazaar.

The cartoonist indicated that his work which will be held in conjunction with the 36th national JACL convention in Nevada, JACL District Council Council in early June. An organizing committee for both shows in New York City has been appointed recently by the New Jersey JACL chapter.

Seattle

THE LITTLE LEAGUE program for youngsters who want to play baseball and football is by now a well-established, permanent fixture in the American scene. Through the involvement of parent, teacher, and adult booster who give unconditioned their valuable time and talent, and we might add that their skills are unexcelled, the athletes youngsters have been given a break for the past four years. Besides the moral and physical benefits of playing, the children have found a place where they may well be emulated by others in an era of social turmoil.

The importance of hard clean organized team play are perceived as the first step to the development of thought processes which will benefit them in their future. And besides who was it that the battle of the Empire Bowl was played over?

This corner may be very biased in viewpoint but it really befits us if the Nisei Vet-sponsored Little League football team, the "Fighting Irish" is the most colorful in town. (The Vet also sponsors the Little League "Yanks" on baseball). It's truly a league of veteran fathers usually made up of one third each Japanese, Negro and Caucasian on the squad.

The Irish pay off in the field with the loyalty and support of school, church and veterans organizations which are as enthusiastic as an Irishman. (This year's first game was lost to their arch-rivals, the "Yanks"

One major area of improvement was the quality of the Youth games which are competition for the superior of the best football teams in the country. This year's first game was won by the "Irish" who payed off in the field with the loyalty and support of school, church and veterans organizations which are as enthusiastic as an Irishman.

Although several factors tarnished the $300+ victory of the first Fighting Irish team, it was the West Coast team's first loss of the season. For another, the game produced the first scoring effort in the gridiron career of Mitch Yamamoto of COP. The rugged football is not for the faint of heart, but in its place, five tired players decided to go home. Five tired players who could not play the night off, the sometimes horridly long games, not to mention the games of the next year.

Although the season may be over, the "Fighting Irish" are still playing for the rating of the next year.

The Vancouver Police and the Vancouver Fire Department will be holding a annual Christmas tree and light contest.

Sano, one of the leading Nisei golfers of the United States, sporting a nifty 5 handicap, turned out in the opening game, Judy Seki was presented with a new thunderbird auto by Lee Bacon of Hermosa Beach. (shown in photo with Judy and her parents).

Judy Seki's dad, George, is one of the leading Nisei golfers of San Diego, sporting a nifty 5 handicap.

The San Francisco O's and the Chicago Cubs of the Pacific Northwest was a hit in the Nisei community. Some of the players, Hugh McKenzie and Y.A. Title of the latter, Ben Sato of Omi, Maloon and Paul Low of the Cardinals were on hand to greet the 1,500 uniformed, equipped ballplayers from Pee Wee, Little, and Bastard leagues, representing the three age groups engaged in juvenile play. The press was there and it would be a lot easier to tell.

The bravery-golden-haired female of the round robin Little League games. But what group was selected to represent the heroes in the intermission show? The "Fighting Irish", of course.

Two outfit patches, carrel outfits, and were the envy of everyone there. And especially proud was Easy Matsuda, who fell backward in catching a powerful Dave Mann punt, but persevered long enough to go the full distance.

You can bet that in years to come this bunch will be telling their grandchildren how they shook hands and tapped their paddles with the American and Asiatic girls at the middle of the 20th century.

THE VETERANS of the first Fighting Irish team in 1939 are now in high school and are interested in doing a quick follow up. Dennis Sakamoto, O.B.'s High halfback in the 1939 season which won the Lithos League, is one of the Irish. They are on the Garfield High staff. Carl Minch, Charlie Minch, and Kenny Gakuto. At Franklin High we find Gary Yamamoto, quarterback of the 1939 Irish team. A ringer on the side, he is the son of Frank Yamamoto who won a football letter during the Fighting Irish in the 1930's, the U of W in the 30s. It must be noted however that there are many other Nisei youngsters on the high school squads. Some are veterans of other Little League teams, the Irish do not by any means have a monopoly on the Nisei players. Some are members of the six Kamikaze guards on the Garfield squad may never have played a Little League team, but there should not be any doubt that the organized kids program has helped to improve the culture of candidates at the high school level.

WINS T-BIRD — For bowling her 300 game, Judy Seki was presented with a new thunderbird auto by Lee Bacon of Hermosa Beach. (shown in photo with Judy and her parents).

Judy Seki's dad, George, is one of the leading Nisei golfers of San Diego, sporting a nifty 5 handicap.

TWO FIRSTS — There were two firsts recorded last Saturday at Cincinnati as the University of Cincinnati was defeating College of the Pacific of Stockton, Calif. For one, it was the West Coast team's first loss of the season. For another, the game produced the first scoring effort in the gridiron career of Mitch Yamamoto of COP. The rugged center caught a pass early in the game to knock a punt and give his team the first two points. As it turned out, it was their final two points, as Cincinnati went on to win 7-2. Yamamoto, however gained national fame, having his named displayed prominently on wire service stories of the game.

GODWILL. Although several factors, tarnished the Nisei Travelers goodwill basketball series in Mexican last weekend, the international event was well received by the sports fans below the border as they turned out in capacity sizes to watch the first all-Nisei team ever to participate in a sports event in Mexico. The Travelers split the two games, winning their opener 53-44 and dropping the second 42-41.

In the opener, heated tempers on the part of the Mexican players caused the game to be halted for five minutes while the harassed Nisei players tried to talk to the Mexican referees who did not understand a word of English. The large crowd was in an uproar during the ensuing argument and a wild search for a interpreter.

More drie besieved the Travelers the second day when four of the players decided to go home. Five tired performers went all the way in losing the game to give the Nisei team their split.

Off the court, the players were wined and dined royally by the Mexican National Basketball Ass'n officials and by the Japanese Ass'n of Mexico.

SO SORRY. Our apologies to all concerned over the misinformation of Judy Seki's 300 being the first in the United States for a woman. However, she is the first on the West Coast, the first person, man or woman, to knock a punt and give his team the first two points. As it turned out, it was their final two points, as Cincinnati went on to win 7-2. Yamamoto, however gained national fame, having his named displayed prominently on wire service stories of the game.

Delinquency on the Rise

There was an interesting Letter to the Editors in The Pacific Citizen this week which dealt with the delinquency problem among the Americanborn Nisei. The writer suggested that there is a problem which is being overlooked by both adults and children.

This letter, written by a grandmother in Hollywood, points out that for a small percentage of children, delinquency has got into the cycle of crime, and it is time we got involved in finding the solution. The writer felt that the solutions lie in the community, and that the responsibility of the community is to provide guidance and support to these children.

The letter states that many children are being influenced by peers who are involved in delinquent activities, and that this is not limited to a certain group or neighborhood. It is a problem that affects all communities.

The writer suggests that the community should take an active role in addressing this issue, and that parents should be more involved in their children's lives. She recommends that schools, churches, and other community organizations work together to provide a supportive environment for children.

The letter ends with a plea for action, stating that if we do not address this problem, it could have serious consequences for our society in the future.

**Chicag0 Holiday Greeting**

Chicago and greetings for the 1957 Chficago Holiday issue are coming right along. Our campaign by mail this past fortnight was answered'and we'will begin work on the greeting card by members of the Echoes and Echoes Women's Auxiliary at the Community Center next week. Close to half the sum has been raised for some points on who attended the special meet-

---

**PC Holiday Greetings**

This issue of the PC Holiday greetings is being planned and prepared by the staff of the Central California Nisei Students Union (CCNSU) and the Central California Nisei Students' Union Women's Auxiliary (CCNSUWA). The Central California Nisei Students' Union (CCNSU) is a community organization that promotes the interests of the Nisei community in Central California through various events and activities.

The PC Holiday greetings is an annual event that celebrates the holiday season and promotes community spirit. The CCNSU and CCNSUWA have been working hard to make this year's event a success.

The greetings will be distributed throughout the Central California Nisei community, and will feature messages of holiday cheer and community pride.

WASHINGTON, D.C.

LAST SUNDAY'S Washington Post featured the first of a series of articles by prize-winning journalist Carl T. Rowan on this subject. The Post devoted three columns to Mrs. Roosevelt, for her leadership in the fight for the cause of humanity, for her sympathetic concern for the problems of minorities, and the oppressed, and for her leadership in the fight against the war. She said these words. This may not be the last word. It is more than a word. It is a call to action. It is a call to the American people to be more concerned with the trials and tribulations of other human beings who are in the same boat with us. She said these words.

According to Wirin, the two principal questions in the Nishikawa case involved whether the burden of proof of citizenship rested with the Government, or with the Nisei defendant. The burden of proof rested with the Nisei defendant, and the Government was not able to prove that the Nisei defendant was a U.S. citizen. The American Civil Liberties Union, and the Green Party, represented Nishikawa in the case.

The Government denied the burden of proof to the contrary, and the Government was not able to prove that the Nisei defendant was a U.S. citizen.

Irving, wartime counsel for the Japanese American Citizens League, also pointed out that the pressure of the moment, had no money to return to the United States, and because he was not able to prove that the Nisei defendant was a U.S. citizen, the Government was not able to prove that the Nisei defendant was a U.S. citizen.
