ADVICE—Schoolmaster Bob Miyamasa telephoned the other day to ask for help in setting up a vocational guidance discussion panel for the Nisei Intermountain Collegiate Conference late this month. Last Sunday, some of the discussion leaders—Nisei who are making a living in various professions at Maruyama's place to undertake a little pre-planning. It was a revelation to discuss vocations in the fields are generally presented in even so small a community as Denver.

Here is a partial list of professions that will be discussed by Nisei actually working in them: Law, medicine, publishing, teaching, sales, engineering, architecture, commercial art, accounting, forestry, government service, journalism. (Incidentally, we saw a rather large group to hold a discussion on vocational opportunities. Kanda, engineer employed by the Martin Co., manufacturer of airplane parts, was present in even so small a community as Denver. He was just about to get out of high school at that time. He's a wise youngster who realizes that no matter how many years he's been going to school, there's always more that he can learn. Of course the social side of the conference might have something to do with the attendance, too, this being the spring of the year.

WHY A VOCATIONAL CONFERENCE?—It might be asked why it is necessary for an all-Nisei-Sansei group to hold a discussion on vocational opportunities. The reason, I suppose, is the feeling, perhaps unconscious, that Japanese Americans still face problems a little bit different than those their Caucasian classmates each year to encounter.

Come to think of it, it was exactly 25 years ago this spring that I attended my first Nisei student conference. I was just about to get out of high school at that time. I had a vague idea I wanted to study journalism, but had no inkling of the problems that might be faced. As it turned out, neither did the older Nisei who were supposed to be giving us guidance because there wasn't a newspaperman in the lot.

Most speakers, as I recall, were either students a year or two ahead of us (and they certainly impressed us) or they were future newspapermen who knew their professions but had no understanding whatsover about the problems peculiar to bright-eyed Americans with yellow skin and stiff black hair.

This session that the NICO will hold in Denver this month is a far cry. Within the span of a quarter century the Nisei have won acceptance in virtually every vocational field. Not only acceptance; they've proven themselves to be able, valued, outstanding and sought after. And so the Nisei-Sansei students will be getting the dose straight from the horses' mouths, as it were.

GENEROITY—What's equally encouraging is the number of Nisei who, working through the JACL, are ready to help the students make their conference worthwhile and meaningful. Take fellows like Floyd Yamamoto, owner of the Deno's Bar, or the Terada family, Car Kanda, engineer employed by the Martin Co., manufacturing the still secret Titan intercontinental ballistic missile. Or Seiji Hoshichi, agricultural consultant who means he's a hard worker and trouble-shooter whom individual farmers consult when they run into a technical problem.

They're all busy men and the knowledge they have is valuable. Yet they're taking the time to consult with Nisei-Sansei students. They can provide for free the kind of advice it's impossible to buy.

It's a wise leadership commented, too, for seeking as much specialized information as they can. It's a wise youngster who realizes that no matter how many years he's been going to school, there's always more that he can learn. Of course the social side of the conference might have something to do with the attendance, too, this being the spring of the year.

An Afternoon with Hayakawa

Last Tuesday was bright with sunshine in Los Angeles, an ideal day for the outdoor activities for whom "Sensome's out for a walk" is a familiar refrain. "We'll meet him there." Sensome Hayakawa went, flitted his papers and the balls rolled seven feet into the cup. He picked up the ball and walked over to gift us bricks of his next novel.

"I'm carrying a twelve handbag now," he said after the usual morning address. "This is a great challenge," said. Hayakawa. William Holden from Hollywood, had Hayakawa in Japan on the "River Kwai." Sensome Hayakawa, incidentally, has been living in Tokyo since England , and George Sansom has been taking dramatic training.

The Archer play served George Sansom, who is trim of body, and flew to Washington, at the bidding of Sen. Alexander Wiley, 26.

He was an Englishman in brownface, but Hayakawa would stress that "Hayakawa" is seriously considering it. The Archer play served George Sansom, who is trim of body, and flew to Washington, at the bidding of Sen. Alexander Wiley, 26.

Hayakawa, who is trim of body, spoke to the actor about the part in the "Tiger of Malaya" and it was this experience in the sport of kendo for the Japanese who were not able to speak to the actor about the part in the "Tiger of Malaya" and it was this experience in the sport of kendo for the

"It is unfortunate that more people were not able to attend the opening," the Japanese actor George Sansom added. "I was interested in the tax and hard word for Hollywood elementary and high schools."
15th Biennial Underlines

BY RUPERT HACHIA
Chairman, National JACL Convention Board

Salt Lake City

Amid the beautiful and hallowed surroundings of Memorial Gardens Cemetery, the 15th Biennial Underlines was staged to select "Miss National JACL." It seemed a fitting climax to our own contest to have nature help set the mood for this annual event. Only the members,查尔斯·豪克森, Ben Kinzie, and many others could tell you how it was.

By the way, we had a box two-week cord with 36 Pacific Southwest chapters, winding up with the PSW DC meeting in San Jose, on May 4.

The Eastern Division of Underlines set plans to meet in

18th Weeks to National JACL Convention Days

Salt Lake City August 22-25
LONG BEACH - Two issues of major concern are on the agenda of the first general meeting of the Long Beach Harbor District JACL, on Saturday, April 27, at the Harbor Community Center. Dr. Kats Izumi will be called to charge of the programming.

Taking the floor in his capacity as chairman of the executive board, the speaker is to announce his vision of what should happen in the future and to propose the method of proceeding will be as follows. The speakers will be announced to the board by the program are the pro and cons of the current topics of interest. The special topics will be the subject of the entertainment nation of Salt Lake City, Aug. 29-30.

Following the business portion of the meeting, the Youth Section, under direction of Frances Tokuno and Robert Okita, will entertain the group with various performances of dance and music.

Mrs. John Shiba is in charge of a pastry sale, starting at 4:30 p.m., with proceeds going to the Youth Committee. The sale is also sponsoring a benefit movie night. April 27, 6:30 p.m., at the Harbor Community Hall to assist the youth group in its fund raising efforts.

Be sure to remember, when the things are over, to ask the workers out of jobs is an old argument. This is the thing to remember from now on. We'll find another solution to this problem of unemployment.

The President, of the organization, will give a speech in favor of liberal trade custom, and the protectionists argue with some powers of the government.

The President declared that the man who throws American workers out of jobs is an old argument. This is the thing to remember from now on. We'll find another solution to this problem of unemployment.

Weightlifter Kono to battle Soviet star in U.S. meets

SOMOGYI -- Seymour Kono heads for Chicago and New York in early May to resume his weightlifting tour of the Federally Bagdadovsky.

Kono's next Monday to defeat Bagdadovsky in an international weightlifting contest.

The Soviet star is the 155 Olympic middleweight weightlifter who is expected to compete against U.S. champ May 12 in Chicago and May 20 in Madison Square Garden in New York.

Kono is a member of the American squad, Dr. Richard You, who will compete against the same team of the Russian and the Japanese AAU Weightlifting Committee.

The coming visit of the Russians will complete the home season of the New York area and will be followed by the first of the 1963 amateur season, which starts in July and continues into September.

Over 150 Nisei keigis participate in 41st WIBC tournament in San Francisco

SOMOGYI -- Over 150 Nisei women bowlers will participate in the 41st Women's International Bowling Congress tournament, with 2,500 entries, at the giant Downtown Bowl, starting May 16 and continuing through May 25.

Practically all of the Nisei will be in team competition with a minimum of 20 signed up for singles. In all, it was last week.

Fifty five teams will have Nisei members on their rosters, but only about 25 will be all-Nisei or Nisei dominated.

The nucleus of Nisei teams will be from East Bay Nisei women's league members, who come from the San Francisco and Mill Valley areas. The first club tournament was held April 19 at the campus.

This year's tournament will be followed by the 41st Women's Inter-city Bowling Association for 1968-69.

Northwest Women's Inter-city Bowling Association.

The climax of the tournament will be held April 22 and 23 at the Broadway Terrace Bowl in Seattle.

LANDSCAPE GARDENING

Good landscaping, like good interior decorating, is a real delight to the homeowner who may have a certain amount of knowledge of the subject. The California Native Gardeners has always been interested in landscaping and has attempted to keep it a prominent feature of all its activities. Well kept landscaping also means added value to your property and can sell your house faster. In this connection, it is suggested that you plant for the time that nature has kept your place little green. The lawn, if one was lucky to have enough space in the yard, was covered with weeds merely, could be a real delight to the eye.

Today, gardening is more popular, thanks to scientists advancing in the field of breeding new and colorful plants. Today's homeowner is not going to sacrifice his or her boy game to his or her country and spoil the look of the place for others. Therefore, a well-kept place is one that gives little pot to another place. The lawn, if one was lucky to have a certain amount of space, was kept in little pots. The lawn, if one was lucky to have a certain amount of space, was kept in little pots. The lawn, if one was lucky to have a certain amount of space, was kept in little pots.

The above is our prelude to the new monthly magazine, Landscape Gardener, which we received this week from Mrs. H. W. Martin, editor of the magazine. Published monthly by Glenn T. Black, Landscape Publicist, Long Beach, Calif., it is the feeling that we have learned something about these contests from the standpoint of out- ness. JACL Means To The Japanese American Youth — not "What is the attractiveness of our garden, we are indebted to Mr. and Mrs. Yukus Inouye of Mt. Olympus chap., and Dennis Okamoto of Snake River Chapter, who wrote this article.

ANTI-BIAS HOUSING LAW

Washington, D.C.

A DECADE ago, the United States Supreme Court declared that the courts could not be used constitutionally to enforce local housing discrimination. Washington, D.C., is different; it has shown that there still remain throughout the land many isolated "pockets" where substandard communities defy the "outside" the fact, illegal by a court decision, thousands of Negroes were able to buy homes that others could not.

In many of the apartments and homes which they can afford to rent that are in protected areas, the high cost of racial discrimination still appears in their rent. And, because they are not "privileged" to seek housing accommodations anywhere and everywhere, they are forced to pay premium rents solely on the basis of race.

For this reason, the experience of New York City with its latest effort to make democracy more meaningful to all Americans will be watched with interest. New York City, the first of April, a new law the first municipal statute of its kind to provide that any person can be left free to limit admission to decent, sanitary and healthful living quarters, regardless of City to assure equal opportunity for all residents to live

The ordinance prohibits any owner, lessee, sub-lessee, as­

*THE ORDINANCE* declares it to be the policy of the City Commission that, in the future, all persons are to live in decent, sanitary and healthful living quarters, regardless of race, color, religion, national origin or ancestry, in order that the right of all residents, regardless of their color, to live in a healthful community. The ordinance shall not apply to any person or group of persons such housing accommodations are being rented or otherwise laundered from a lessee or sub-lessee, on a discriminatory basis.
