Wakamatsu calls for 50,000 in JACL Ranks

DETROIT. — An important key man in the National JACL Bowling Tournament — President Shig Wakamatsu, opening the door to a national membership of 50,000—a goal bartered and discussed forever, but to be achieved only if every single person present at all JACL conventions were to attend.

Wakamatsu announced that he is determined to make the JACL Bowling Tournament a reality and that he is certain that all JACL members will join in making it a success. He stressed that this is not just a matter of numbers, but of quality, and emphasized the need for each member to do his part in achieving the goal.

9 IT APPEARS THE dream of gaining the JVCM membership of 50,000 JACL members, which was suggested on the eve of evacuation in 1942, is smallish for Shig Wakamatsu has accepted the challenge, which was suggested by a nationally known authority on juvenile delinquency and a man who understands, Benjamin Eilewatt, who was the main speaker at the Cincinnati JACL convention. Why shouldn't JACL—especially with its prestige and aims—be roaring for 50,000 members out of a total national population of 120,000,000 persons of Japanese ancestry?

The suggestion of shooting for 50,000 is "thinking big," which can only result in "acting big," truly "big" with the understanding of keeping the observance of Brotherhood Week alive through the year. The attacks by American Nationalist pinpoint the importance of minorities—the Negro, Jews and immigrant foreigners. Now Shig Wakamatsu has accepted the prospect of 50,000 JACL members out of a total national population of 120,000,000 persons of Japanese ancestry.

The suggestion of 50,000 JACL members is a realistic approach to the "Tips on Your Career" and activities which includes discussion, panel forum, recreational sports and harmless to young people. SUPPORT—Representative Allen’s bill has picked up a good deal of public and organized support during the three weeks since it was introduced. One of the more powerful voices behind it is that of the Colorado Advisory Committee on Civil Rights, a five-member committee appointed by the Federal Civil Rights Com­mission. The committee held a series of hearings in Den­ner, then issued a preliminary report which called hous­ing discrimination, Colorado’s biggest unsolved and most touchy civil rights problem.”

The report went on to say members of minority groups are forced to live in crowded conditions in sub­standard housing, because they are unable to afford the kind of housing they can afford to buy or rent. The housing problem cannot be solved without areas now generally assigned to minority groups because they are already overcrowded.

“The only satisfactory way to meet the problem,” the report said, “is to end discrimination in housing on a statewide basis—to make available homes in well­built areas to all decent, self­respecting families who

Bellevue Nisei Club's $1,000

PERSONAL FEALties being what they are, how to start this little piece but to adopt the manner of the jubilation attending the receipt of the check that two weeks ago this column said it expected good news from the east coast community of Bellevue about this time.

Then perhaps it would be good was a matter of confident expectation: We could only dream on whether it would be good was a matter of boding on whether they say in D강산.

Last Friday, Feb. 20, the Bellevue Nisei Club voted to contribute $1,000 to the Seattle JACL's special fund earmarked to advance repeat of the doomed alien land law of the State of Washington. It is expected that the first announcement and presentation of the check will be taking place at the Seattle Chapter's annual installation dinner tonight.

The Bellevue group is small in numbers, and without a doubt, dig deep into the treasury to make the symbolic contribution. The magnanimous gesture, both gratifying and reassuring.

As they do in the situation is the same as it was in California, where a popular vote on an amendment to the state constitution was necessary to bring about repeal of an alien land law statutes. Greatest problem is the raising of funds to finance the campaign to convince California's hearts and minds. The club hopes that the Californians raised some $30,000 or more in successfully promoting the passage of Proposition 13.

An idea of the magnitude of the task becomes apparent when it is pointed out that while the JACL chapters in California amounted based on reasons which for the most part in the pages of world history on May 10, when it arrives at Yokohama. See your Travel Agent.

Caucus members are outnumbered by other groups." The Kanto region reflects the thinking behind that argument in these words:

"The reduction of a racial heterogeneity in the Territory, appears based on reasons which for the most part are rarely expressed frankly and openly. With the entire free world looking to the United States for moral and spiritual leadership, the committee does not believe that the 8th Congress, with details to a group of men, who have met every historic test of qualifying for statesmanship merely because of the ancestry of a part of that group.

In Hawaii, this has been thoroughly American in word, thought, and deed for a century and longer. Its American in word, thought, and deed, a century and more recently, in Korea. In every generation, Hawaii has created a community stand on a basis of full equality with every other American community.

WASHINGTON—Democratic Congres-
swomens Edith Green of Ore-
goose and New York Congress-
woman Irene E. Youngstrom have pre-
pared a bill which is now pending in the House Judiciary Committee. The bill would authorize the Secretary of the Interior to acquire lands in the Hawaiian Islands for the purposes of establishing a national park. The bill has been referred to the Committee on Natural Resources and is expected to be acted upon soon. The Secretary of the Interior has already been authorized to purchase lands for the purpose of establishing a national park in Hawaii. The bill would facilitate the acquisition of additional lands and would provide for the establishment of a national park system in Hawaii.
