COLORADO PASSES FAIR HOUSING LEGISLATION

DENVER—Discriminatory practices in housing the State of Colorado will be outlawed as soon as the technical difficulties in the bill are overcome. Representative James C. Lynch of Denver, who introduced the bill, assured that the American Civil Liberties Union would see to it that the law is implemented.

It appears that efforts to control violence and brutality, suggestive sex, disrespect for law and other unsavory aspects of violence are being employed, unabashedly.

JOSEPH WINICK

Dr. Winick states that the young minds are involved. It only perpetuates the "big lie" that the Nisei have beenCompra, as it is evident the facts prove otherwise.

To some extent, the construction of anti- Nisei film on TV had effect—but times has meshed all this. The Nisei have no way of knowing that they have been propagated. The bill covers the sales and rentals of housing units except homes owned by their owners or their agents. The bill does not apply to property handled by a real estate agent who would be subject to the bill. A real estate agent may not discriminate in sales or financing on the basis of national origin, ancestry or sex. The bill, which was passed by the House 325 on Mar. 12, and by the Senate a week later, also prohibits discrimination by agents in the sale of uninsured land on which houses are to be built.

Bill introduced to revoke license of biased real estate agent
Hawaii - 50th State

We all react in JACL's latest legislative victory, which was brought about by a well-planned and executed program of public relations and lobbying. On Thursday, March 12, the House of Representatives approved the act by a vote of 342 to 3 and on March 13 the Senate, by a 5-to-1 margin, passed the bill. President Eisenhower has already signed the bill. Formal admission of Hawaii as a State can be as early as July 4, more likely by September.

The principal behind-the-scenes argument against statehood, as we pointed out previously, was the apprehension of persons of Japanese ancestry in the Islands. Our Washington Representative was the last witness to be heard before the committee, and in his testimony he stressed how the over-all political atmosphere in Washington was released by the signing of the United Nations charter.

The other principal argument of the opponents of statehood was the admission of the Islands in view of the present condition of the Islands. Our first witness, H. H. Sumida, reminded the committee of the wealth of resources here that have been laid waste by the war. It was by our own example of democracy in action, and that the admission of Hawaii would represent the "picture worth a thousand words." The admission of Hawaii as a State has already been signed by the President. Formally admitted into the Federal Union as a State, the Islands will be one of the first of the new regions to have a Japanese American population, which there are many others who would look forward to the day when Hawaii will be one of the first of the new regions to have a Japanese American population.

The news that the United States Congress has voted to make the Territory of Hawaii the 50th State of the Union has evoked considerable interest in Japan, where the prospect of the Pacific archipelago becoming a part of the United States has been hailed as a significant event.

At the same time many other nations have made valuable contributions to the island's development, and among the larger such nations enumerated by the committee are Hawaiians and part Hawaiians, Chinese, Filipinos, Peruvians, Koreans and Japanese. Hawaii, in fact, the island of friendship between the two nations, has been a haven for those who seek a better life elsewhere. Hawaii has a greater diversity of climate and culture, and is a haven for those who seek a better life elsewhere. Hawaii, in fact, the island of friendship between the two nations, has been a haven for those who seek a better life elsewhere.

Ye Editor's Desk

We have been looking forward to the day when the present-day student will be able to attend college without the concern of the price. The cost of education is increasing every year, and it is important that we be prepared to meet these expenses. The best way to do this is by having a good education while attending college. By doing so, we can ensure that we are prepared to meet the costs of education and still have time to study and develop our interests.

If you have any questions or concerns, please feel free to contact me. I am always here to help.

Editor: I wish to extend my deepest sympathy to the family and friends of Dr. W. T. Hoshikawa for losing such a devoted member of JACL chapter.

Though the greatest sacrifice will be bestowed upon me and honored as a member of this fine organization.

If I may suggest, I should like to see the emblem used on your paper put into pins and rings for members to wear if they wish. This would help promote the good that all are engaged in.

It is my belief that there are many more members of this organization that would feel honored to become a member if only asked.

I am anticipating the membership drive on a permanent basis.

Immigration Service issues special papers to straddle to settle citizenship

Traveling on what is believed to be his third trip to the United States, immigrant Tanaka was issued what appears to be the first Certificate of Identity, which registered him as a non-citizen. Shining a new light on the issue of immigration, the certificate will facilitate Tanaka's movement to the United States. As a result of appeals made to the Department by his attorney, the State Department issued a Certificate of Identity which permitted him to fly home. Since that time, Tanaka has been able to secure a certificate for settlement.

"THAT'S NICE", one will say upon hearing that Seattle is to be named sister city to Los Angeles. This is going to be an important step toward understanding and friendship between the two cities, because there have been cultural exchanges between the two cities. Stars & Stripes writer covering 100th Bn. in Italy recalls "Go for Broke" days

By some strange quirks of army regulation, the unit was named in World War II. The 100th Bn. was formed to exist as an independent fighting unit for any number of incidents creditable to the 100th, their almost unbelievable discipline demanded by Turner.

Rapidio Campaign

It was in this campaign that the 100th, under Turner, really earned the "Go For Broke" slogan that became synonymous with the unit. In the line for more than 100 days, the 100th was on the target of verbal barrages from Nazi loudspeakers, as well as blazing bullets. Day after day the German front line officers would name the members of the 100th Battalion, to tell their stupidity that "our Nisei-Japanese born, parents were Japanese."
