Recently made available
able by the Federal Bu-
ness of Investigation is a poster: "What You Can Do to Fight Communism" and here is the text:

Alert Yourself—learn the true nature and tact-

ics of communism.

Make civic programs for

social improvement your business.

Exercise your right to

vote; elect representa-

tives of integrity.

Respect human digni-

ty—communism and in-

dependent rights cannot coexist.

Inform yourself, know your country—its histo-

ry, traditions and heri-

tage.

Combat public apathy to-

ward communism—dif-

culty can be forestalled when the individual is alive.

Attack bigotry and its prejudice wherever they appear; justice for all is in the bulb of democra-

cy.

In drawing up the poster, the FBI is plainly dealing with the domestic phase of anti-

communism, for it ex-

plains the absence of any reference to the

trade union and gramgras and the military aiming to bolster the free world.

Undoubtedly recalling that nations and empires have fallen from within rather than a- 

gainst the FBI poster outlines a ba-

sic scheme to keep U.S. strong. The founding fa-

thers of JACL have said the same thing over 30 years ago and have made similar cautions concern-

ing the communist conspira-

cy.

JACL's policy state-

ments against communism, which was added, is con-

tained in the President's Notebook published by National Headquarters. JACL made its first dec-

laration against all forms of totalitarianism at the 1930 Seattle convention and reaffirmed it at the 1954 Los Angeles con-

vention. —I.I.-

JACL STATEMENT ON CIVIL RIGHTS

JACL has already joined the many national organizations invited by Attorney General Robert F. Kennedy through the Leadership Conference on Civil Rights in order to conserve the time of the nation's leaders and the staff of the Eleanor Roosevelt Center of New York, as it completes its long-drawn-out public hearings. But the Washington Legislature has followed the same course in "in order to record its special views on this vital subject":

(Continued from Last Week)

Anti-Alien Land and Miscegenation Laws

Though the subject, the bills dropped in that Congress, is one directly current to the American people, there are two other civil rights matters which directly concern Japanese-Americans and which we feel should receive this Committee's immediate and full consideration by this Congress.

The Civil Rights Act of 1957

This Act, passed by the Congress, is a significant act for the advancement of all American citizens. It forbids discrimination in public accommodations and transportation, and seeks to end racial discrimination in places of public amusement. It is a step in the direction of equal rights for all American citizens.

The Immigration and Nationality Act of 1952

This Act is a fundamental piece of civil rights legislation, and it is one which should be given immediate attention. It provides for the admission of aliens, and it is a step in the direction of equal rights for all American citizens.

The anti-Alien Land and inter-racial marriage laws

There are many laws in this country which prohibit the marriage of persons of different races. These laws are a violation of the civil rights of all American citizens, and they are a violation of the civil rights of the Japanese-Americans. These laws are in conflict with the civil rights of all American citizens, and they should be abolished.

The California Supreme Court

This Court has declared the anti-Alien Land law unconstitutional, and it has also declared the anti-interracial marriage laws unconstitutional.

The United States Supreme Court

This Court has also declared the anti-interracial marriage laws unconstitutional.

In conclusion, we feel that these bills are a step in the direction of equal rights for all American citizens, and we urge their immediate consideration by the Congress.

PRESS COMMENTS:

Righting a Wrong

No man should ever be ashamed to admit he has been wrong. The admittance of Alexander Pope. Neither should a government.

Recently, the United States government did just that. The White House through its Attorney General, Mr. Robert F. Kennedy, said: "If the government had done wrong, we pass merited judgment on the government."

Mr. Kennedy's statement has been accepted by all Japanese-American residents in this country.

They were parked, almost overnight, from their homes to 19th infantry camps on the theory that they would aid Japan's war effort.

This number, 5,791, is under understandable circumstances commended the citizenship to which they had been born. They were not only accepted by the law, but also by the citizenship.

Said Attorney General William Rogers: "Our country did not make a mistake. We publicly recognized this citizenship and for a free nation properly made restitution." Open cordiality existed in 1943. Now there can be grounds for pride, and a regrettable incident is closed.

Restoration to the Nisei

Christian Science Monitor (Boston), May 27, 1959

Dean Eugene Brodie of the Yale Law School, and the federal legal advisor to the Department of Justice Department Story, wrote in the Christian Science Monitor: "The Nisei Japanese-Americans who have been wrongfully arrested have done to some 72,000 of their fellow Japanese-Americans what we would call in law an "improvement.""

In the best of indignation at the internment of Dr. Issei Harada, these Nisei Japanese-Americans have been unhesitatingly recorded from their homes and held for "intelligence" reasons. When the war ended, 5,791 remained on their citizenship because of the treatment they had been given. Open cordiality is in 1943. Now there can be grounds for pride, and a regrettable incident is closed.

End of a Wrong

Washington Post, May 22, 1959

Our Government now has formally completed a unique program. during World War II, the Nisei Japanese-Americans were interned, and on their return to the West Coast and placed under surveillance. The action was taken in a moment of crisis and deep emotionality, but it was nonetheless wrong. The Government has since been enlightened, and a regrettable incident is closed.

The Pacific Citizen has received more editorials from readers this past week commenting favorably upon the Justice Department's recent decision to mindful of its administrative phase to reverse the country's position on Nisei evacuees.

The current issue is being reprinted in full, their main excerpts follow:

Perserverence--Nisei students of a generation back were realists enough to know that they faced nearly insurmountable employment handicaps. They understood that very few would get on in Canzon as employ­ers would be open to them. They knew they could have all the necessary qualifications and more, but the color of their skin and the shape of their eyes would be against them.

Still, they dreamed the American dream. They believed virtue would be its own reward, and they had faith that someday the door of opportunity would be opened.

So they and their parents made exorbitant sacri­fices to go to school, so they would be ready when the day came. Well, the day did come, but it took a lot of hoping and just plain stubbornness to ignore the facts.

We celebrate this third anniversary as Regional Director, for Business Manager, and publisher of all three columns. This does not mean that we have not learned anything new or that we have not changed our minds—far from it. We have changed our minds on many occasions and will continue to do so. Our goal is to provide a voice for the Nisei community in Los Angeles and the surrounding areas. We strive to cover a wide range of topics, from local events and organizations to national and international news.

The HAWAIIAN LUAU - We joined the East Los Angeles luau at Koko Kai. We were greeted by the warm hospitality of the Hawaiian culture. We enjoyed the traditional music, dance, and food. We also took part in the luau games and competitions, which were very fun.

The NISEI RELAYS - Last Sunday, the Nisei Relays were held to mark the 75th anniversary of the Los Angeles JACL. The event was attended by many former members and supporters of the organization. We were proud to be a part of this important event in our community.

The SANGER RIVER CHAPTER - The Sanger River Chapter held a dance to celebrate the end of the academic year. We were honored to be invited to participate in this event and enjoyed the traditional Japanese dance and music.

The CHICAGO 1000ERS STILL GOOD-TIMING - The Chicago 1000ers are a group of Nisei veterans who have been meeting monthly since 1946. We were honored to be invited to the annual meeting and enjoyed the updates on the group's activities.

The ICHIGO FALLS - Old red barns may be disappearing from our communities, but the history and culture they represent remain. We were moved by the stories of people who have lived and worked in these barns.

The SANGER RIVER CHARTER - The Sanger River Chapter held a dance to celebrate the end of the academic year. We were honored to be invited to participate in this event and enjoyed the traditional Japanese dance and music.

The MENTAL HEALTH - We have been working closely with the Mental Health Division to provide support and resources to our community. We were pleased to see the positive impact of our efforts.

National JACL Board and Staff members will gather from all parts of the United States at a National Board and Staff meeting to be held at the 1959 National Convention. In accordance with a constitutional amendment approved and passed at the Salt Lake City National Convention, in 1958, specifying that the National Board and staff were to meet at the conventions of the National JACL for persons of Japanese ancestry in the United States, has asked the National Board to convene its annual sessions at the many problems which still confront the JACL.

Perhaps the most important item on the agenda in the current National Convention office after the 1960 National JACL Convention, Mike Makase, Washington, who, since 1947, has been the key to the tremendous success of the JACL Washington office, has requested to resign from the present position. Mr. Makase has reported that the JACL Washington office is so far the only unit in the JACL on which the current National JACL Board and Staff are not represented. The JACL Washington office, he says, is the only unit in the JACL which is not represented by the current National JACL Board or Staff. Mike's benefit to us lies in the real professional knowledge which has been acquired by Mike through his work with JACL. Mike received a citation which he passed at the Salt Lake City National Convention in 1958, according to a constitutional amendment approved and passed at the Salt Lake City National Convention, in 1958, specifying that the National Board and staff were to meet at the conventions of the National JACL for persons of Japanese ancestry in the United States, has asked the National Board to convene its annual sessions at the many problems which still confront the JACL.
For National 1900 Club Chairman Bill Matsumoto, his last trek to Southern California as part of the PBWC Convention at Long Beach was the second trip down south since his presidency. The Long Beach meet was another glorious night deal. At the National JACL bowling meet, he went without sleep for five nights—which means he should be a man. He’s got a secret about Archie Moore in making the weights.

Attorney Henry Taketa is the president of the newly established Les puinos. This has San Franciscans Bill Matsumoto (him again), Rashi Nichijima, Toho Fujii and Kay Hamilton. This overcome will bless the 20 base bowling alley slated for construction sometime this month under corporation commission approval.

Speaking of Nichijima, the man has held a small party 400 persons to celebrate the opening of his new Nichijima Building and in conjunction with it his L. & M. Company which deals in TV, appliances and sporting gone in celebration of Nichijima’s birthday. This is a long time, the Nichijima building also houses Lai Kingdom, Royal Florist and the Wa-hanora on the second floor of the two story building.

Shore Sakai and his son-in-law Jimmie Kai will hold the 10 and a frequent bowling alley also slated for construction this month. This one is going up in the South Sacramento area, while El Rancho Bowl will be built in West Sacramento.

JACO Statement on Civil Rights

(Continued from Page 2)

Amendment to the Constitution which requires the Congress to "secure by appropriate legislation, the provisions of this article.

This amendment grew out of the Civil War and was designed to protect the Negro in his legal, political, and educational opportunities, and dignities for which millions of brave men had died. This Amendment remains today a challenge not only to us in the United States, but to all mankind as the greatest charter of freedom ever conceived by free men and the standard by which we should measure the quality of the representatives of Congress as they inspect the free peoples of the world today.

The 14th Amendment provided that "all persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State in which they reside." This is the full and final statement of the meaning of citizenship under the American Constitution.

It is interesting to note that in recent years many of our citizens have been deprived of the rights of citizenship which were enjoyed by our forefathers and which were reasserted by this Amendment.

The 15th Amendment was introduced in Congress at the request of the Negroes and was passed by the Congress on March 29, 1869, and approved by the President on April 20, 1869, and was ratified by the necessary number of States on February 3, 1870.

The 16th Amendment was introduced in Congress at the request of the Negroes and passed by the Congress on January 31, 1869, and approved by the President on February 13, 1869, and was ratified by the necessary number of States on March 17, 1869.

The 17th Amendment was introduced in Congress at the request of the Negroes and passed by the Congress on April 16, 1869, and approved by the President on May 14, 1869, and was ratified by the necessary number of States on May 17, 1869.

Housing bias strong in British Columbia against Japanese

WASHINGTON, D.C. — A strong condemnation of housing bias against Japanese citizens, though "not openly hostile," was expressed last week by a committee of the Joint Legislative Committee of the National Organization for Civil Rights, which has been investigating housing discrimination in the state.

The committee, which has been investigating housing discrimination in the state, has been criticized by some for not taking a stronger stand against discrimination.

**CARBON-14 PROCESS EXHIBIT BY HILO HIGH STUDENT WINS AWARD**

A new method of determining the age of prehistoric material was the subject of a winning award-winning Territorial Science Fair project conducted by Stephen Murata, 17, a Hilo High School student.

The method, known as Carbon 14 analysis, involves measuring the radioactivity of a sample and comparing it to a standard. The result is used to determine the age of the sample.

**Salo wins honors at DU law school**

DENVER — Wilbur I. Salo, Los Angeles, who is graduating from the University of Denver Law School this month, won several top honors recently. He also received certificates of appreciation by the committee of the National Organization for Civil Rights.

Salo won the American Jurisprudence Award for Secured Transactions Law and in Labor Law, from Judge E. Jack Hays, the Denver Bar Co., which gives awards for scholarship and leadership in the field of law. Moreover, Salo was co-winner of the annual Schipperke Cup, which is sponsored by the Committee of the National Organization for Civil Rights.

While at the university, Salo has also been active in the Association for the Democratic Party, a political organization on the campus.

There has been more sound and fury, particularly in the Senate, than in usual under the "moderate" leadership of the Democratic Party. But it has been more of a "do-nothing" Congress, blaming it upon "presidential-pushed" measures that leaned too heavily toward the Democratic Party.

The two years have been labeled as "nondescript" or "ordinary" when it comes to major legislation.
