CRISIS IN THE CARIBBEAN

Within the past two months, Santo Domingo has been fit loage copy weighted with confusion. Its relationship with American affairs goes back to the time when President Jefferson was able to purchase Louisians for \$15 million in 1804, which history now regards as the greatest real estate bargain at 3 cents per acre. Actually Jefferson was only interested in securing New Orleans and the Floridas for not more than \$10 million

more than \$10 million.

Applicion Bonaparte was busy occupying his newly acquired empire and wanted to wrest control of Santo Domingo from revolting Negro slaves. In 1801. Touissaint L'Ouverture, a full-blooded Negro slave led the revolt in the enormously productive sugar island, which had been by far the most profitable of France's overseas possessions. Napoleon intended to make Santo Domingo the capital of his New World domain, sending over as many as 50,000 troops who were ided by his able brother-in-law Leclerc.

The mad venture was abandoned when Napoleon received news Leckerc had succumbed to yellow fever—a deadly courge which assisted the revolting slaves. With Santo Domingo lost, what need for Louistana. And Napoleon couldn't hold Louistana against English maval power. He reasoned it would-be far better to sell. Louistana to the Americans than to left if all to the British.

would-be far better to sell Louisiana to the Americans than to left if all to the British.

Spain at the time would have certainly outbid the U.S. for purchase of Louisiana but Napoleon disposed it, as one histoffian puts it. "to raise up a powerful republic that would block the expansion of England, compete with her merchant marries, and as (Napoleon) put it—sooner or later (ta) humble

During the Civil War, the Dománican Republic which had been revolution-rent since its independence in 1844 askand Gie reannexation to Spain. The mother country accepted in 1861, though U.S. Secretary of State Seward challenged Spain's right to take back Santo Domingo. Only the oppressive measures of the Spanish officials and ravages of yellow lever—plus the victorious Northern armies on the march in 1865—had the Spanish sofficials and ravages of yellow lever—plus the victorious Northern armies on the march in 1865—had the Spanish sofficials and lucravages of yellow lever—plus the victorious Northern armies on the march in 1865—had the Spanish withdraw voluntarily.

The Dominican Republican's next venture with the U.S. ame three years later when its president lucravatura Baci saked-for U.S. annexation if the latter would assume the public debt. American speculators and the Navy, which was particularly seger to secure the Bay of Samana, grithusiastizally supported the plan. President Grant also embraced the project; it became an obsession with him.

In 1869, the annexation treaty was completed in form out the American public did not respond favorably as it was reveal with reconstruction problems and it was not keen on innexing insular possessions that were populated by aliens, a spite of Grant's prestige; the Senate voted 28-28 ones, and the continuous con

rrofitable, Santo Domingo settled down to an era of peace and prosperity.

During President Wilson's administration, the U.S. farines were landed in 1916 to quell the "insurrectionary sabit" and U.S. naval officers took over government administration. The U.S. also bought the Danish West Indies for 25 million at this time (Demmark was first willing to accept 73½ million in 1867) to bolster its Caribbean position.

The 1924 treaty with Dominican Republic ended U.S. nilitary rule and resulted in the withdrawal of the marines slug adequate guarantees to safeguard American financial interests. The U.S. receivership of Dominican customs, however, did not end until April, 1941, as a result of President Yankin D. Roosevelt's Good Neighbor Policy, by which opperation of its southern neighbors could be relied upon secause of the imminence of a two-ocean war.

operation of its southern neighbors could be relied upon cause of the imminence of a two-ocean war. This brings us down to revents of recent weeks and entry of U.S. marines and paratroopers last month.

Pear this time is whether a Confinumist-dominated government would take over in Santo Domingo. It makes me more whether countries much as the Dominican Republic of Guius, too, lad been annexed to the U.S. years age and an allowed their independence in the fashion of the Philipmen Republic of today might have been better.
