In the photo above, left to right, are S. M. McElroy, Nisei Director of the JACL, and JACL President Jerry Enomoto.

While in this position, I was impressed by the courage and determination of the Japanese Americans who were forced into relocation camps during World War II. These individuals faced incredible challenges and made significant contributions to the war effort. In recognition of this, the Japanese American Citizens Union (JACL) honored the Nisei on July 14, the anniversary of the first generation Nisei’s death.

It was decided at the student relocation program was given rise to the Civil War, and perhaps from the moment of which he expressed his criticism of the JACL.

As the war continued, the JACL faced difficult problems, but it did not resign itself to the fate of the Japanese Americans. The JACL continued to fight for the rights of the Japanese Americans, and in 1941, the JACL was formed. The JACL was instrumental in the creation of the Japanese American Citizens Union (JACL), which was founded to provide a voice for the Japanese Americans.

The JACL has been a strong advocate for the rights of the Japanese Americans, and it continues to work towards a future where all Americans are treated equally. The JACL has played a vital role in the history of the Japanese Americans, and it continues to do so today.

PRESIDENT'S REPORT: Jerry Enomoto

Whiff of Washington

Wednesday, July 13

Joined by Mike Masatani, Mike Mansfield, John Glenn, and Washington D.C. Chapter President Kaz Oshikawa, I called upon the Senate Majority Leader's office for a private meeting. Mrs. Oshikawa and I were the Senator's guests to the Executive Office Building where we enjoyed a leisurely lunch, while sharing thoughts of mutual interest. The office was delightful. We spent productive time with Senator Mansfield of Montana, W. Thomas Kuchel of Pennsylvania, and Joseph Clark of Hawaii. I learned by JACL. I think it is a harder way.

I'm not sure if I should bring
on the subject, but I must
mention a few points about
the U.S. Civil Rights Com-
mmission and the importance
of contacts, in my opinion. We
must foster communication
and understanding between
countries of the Pacific and
Asia and Pacific nations. We
must continue to build bridges
between us, and I believe that
this is one of the most impor-
tant tasks we have as JACL
members.

I feel that the banquet
must be considered a highlight
in our history. At the banquet,
we heard from Harry Tanaka,
who has capably chaired
the JACL's Executive Council
for so many years. In his
speech, he emphasized the
importance of contacts, in
his opinion. He also stressed
the importance of keeping
our ties with the U.S. Civil
Rights Commission, which
he praised for its work on
civil rights issues.

The banquet also featured
a performance by the Nisei
Wise, a special event that
was a great success. The
performance was held in the
Capitol, and it was a truly
special occasion. The
performance was a great
success, and it was well
received by the audience.

I also want to express my
thanks to Jerry Enomoto, Mike
Matsunaga, and Kaz Oshiki,
who have done so much to
make this event possible.

In summary, I believe that
this banquet was an impor-
tant event for the JACL
and for our community. I
thank all those who
supported it, and I look
forward to future events
like this one.

San Francisco, Calif.—The Japanese American community is being blamed for the increase in delinquency cases in the city. According to the district attorney, the Japanese community is responsible for at least 25% of all delinquency cases in the city.

The district attorney has called for a meeting with representatives of the Japanese community to discuss the problem. He said that the community must take a more active role in preventing delinquency and that it must do so by working with the police and other law enforcement agencies.

The district attorney also called for a review of the social services provided to the community, including youth counseling and after-school programs. He said that these services must be improved in order to prevent delinquency.

In addition, the district attorney called for a special task force to be formed to study the problem of delinquency in the Japanese American community.
