The drought has caused many farmers to lose their crops and has forced them to seek other sources of income to meet their financial obligations. The situation is expected to continue until April or May when spring rains are expected to arrive.

 Destruction--Dispersal

By GLENNY OHNO

In 1940, prior to the outbreak of World War II, the Japanese government began a program of dispersal and internment of Japanese Americans on the West Coast. This was done in an attempt to prevent involvement in the war and to ensure the loyalty of the Japanese American community to the United States. The program was eventually terminated in 1942 after the Japanese attack on Pearl Harbor.

Flight to Japan--

Flights for Japan have resumed at the San Francisco airport, but for the time being only for passengers who have extended residence permits in the United States.

Reparation--

The committee report, submitted to the Senate by the Department of State, on the reparations paid to Japan for the destruction of property and personal injury during the war is now available.

LETTERS

Japanese Perversion

The financial district of this city is a very strange place during the day. In the business area you will see large signs advertising "Dispersal." This is a result of the Japanese government's program to move Japanese nationals from the West Coast to other parts of the country. The signs are strategically placed in prominent locations to ensure maximum exposure.

"GI BABIES" NOT STATELESS

Our next "GI Babies" is "In the Heart of Japan." The JACL, through its Social Services Department, has been attempting to provide aid to families of Japanese descent in Japan. Our report on this is a success story for the JACL and the American people.

The JACL National Board of Directors, in accepting the responsibility of securing aid for the children of Japanese ancestry in Japan, has been working closely with the American Red Cross and other relief organizations.

The report on the JACL's efforts to aid these children is one of the highlights of our feature this month. The JACL is proud of the work it has done and we hope that the American people will continue to support our efforts.

Cleveland JACL--Tora Iwamura

Am I minority always?

The other day I ran across the article, "Am I minority always?" and was struck by the same question. The author expresses what I feel about being a minority, a feeling that is often overlooked.

In terms of race, I would have to say yes. However, in terms of culture and language, I would say no. I have lived in this country for over 10 years and have adapted well to the American way of life. I consider myself an American, but I still hold onto my Japanese heritage.

The author of the article, Tora Iwamura, a member of the Cleveland JACL, expresses similar feelings. He writes, "I am a minority because of my race, but I am not a minority in terms of my culture. I have been able to blend in with the American society, but I still hold onto my Japanese traditions and customs." This is a sentiment that I can relate to.

The article also touches on the issue of discrimination, which is a common problem faced by minorities. I have experienced discrimination in my own life, but I have learned to overcome it. I believe that the key to overcoming discrimination is to educate people about the values and beliefs of other cultures.

I appreciate the author's thought-provoking article and I hope that more people will take the time to read it and consider the questions it raises.
