Texas Nikkei gets support in Jap Road fight By GWEN MURANAKA Assistant editor

Support continues to build for Sandra Tanamachi Nakata and her fight to change the name of Jap Road in Beaumont, Texas. the name of Jap Road in Beaumont, Texas. At a July 12 meeting, Tanamachi Nakata, Betty Waki, president, Houston Chapter, JACL, family and supporters brought their arguments before the Jefferson County Commissioners Court and those who want to keep Jap Road. Others in attendance included representatives from the Anti-Defamation League (ADL), the League of United Latin American Citizens (LULAC) and the Texas Gvil Libertise Union (TCLU). Earlier, LULAC called a separate meeting to discuss changing the road name. Dan

JA named to U.S. Attorney position

Ending months of speculation, U.S. Attorney General Janet Reno July 8 nominated Michael Yamaguchi to the post of U.S. Attorney for the Northern Dis-trict of California.

Sen. Barbara Boxer had sel-mitted Yamaguchi's name in April and earlier reports indi-cated he would receive the nomi-nation. If confirmed by the U.S. Senate, Yamaguchi would be-come the first Asian American U.S. Attorney.

Michael Yamaguchi brings 13 years of experience as a federal prosecutor to the job. This experience, combined with his energy, leaderahip ability, high chical standards and vision for the office of U.S. Attorney, will make him an outstanding U.S. Attorney, said Boxer.

With the July 30 national premiere of Rising Sun, the movie, many in the JA community are concerned with a potential flare-up of racism engendered by the film's portraval of a powerful Japanese company and its ruthless businessmen, PC assistant editor Gwen Muranaka attended a pre-screening, as did JACL Washington, D.C., representative Karen Narasaki. Here are their impressions:

JACL, MANAA comment on 'Rising Sun'

Following are excerpts from atements issued by JACL and MANAA in anticipation of the re-lease of the movie Rising Sun. National JACL

JACL is voicing its concerns that 20th Century Fore summer blockbuster movie, *Rising Sun*, will provoke a wave of anti-Asian violence. The movie is scheduled for wide release on July 30. "JACL's concern is based on its

review of an early script and a report from a prescreening. Dis-cussions between 20th Centurycussions between 20th Century-Fox and JACL and other commu-nity representatives had broken down after the studio refused to allow community leaders to at-tend an early prescreening. Ap-parently, attempts were made to prevent Asian Pacific Americans from ättending public test screen-ings as well. According to Lan Nguyen, a USC graduate student, ahe was originally excluded from a prescreening, because of her Asian name. When she called back and gave an Anglo name, she was askedher ethnicity. After she said he was white, ahe was allowed to allow community leaders to atshe was white, she was allow red to

she was white, she was allowed to receive a ticket. Twentieth Century-Fox and the director maintain that the movie is not intended to incite racist violence or encourage preju-dice. Yet the movie's driving force comes from playing to our society's

Carol Hayashino, JACL acting national director. "There are no likeable Asian main characters. The Japanese are one dimensional evil gang-sters or businessmen intent on taking over the U.S. by nefarious means. The Japanese men are portrayed as enjoying perverse sexual practices, particularly with blonde American women." "Coming at a time of Asian immigrant bashing, heightened trade tensions and inner city ra-cial friction, we believe that the movie will increase the number of incidents of hate violence against Asian Pacific Americans since the general public often fails to differ:

"Mr. Marion Ferguson, said this road must be changed, it is a dis-grace. They have to listen to him because he is a resident and a veteran," said Waki.

"I always give a lot of praise to that 36th Division Association. Someone said, They haven't for-gotten,' and they haven't. As far as repaying a debt to the 442nd, they do as much as they can to support Japanese Americans," said Waki.

"I felt it was a step forward, at least our side was heard. People from Fannett were there and couldn't possibly have not been affected by the pain from Mrs. Tanamachi and all the terrible things that happened," said Waki.

"They didn't do that, they're innocent of that kind of overt rac-ism. Change the road, but change it to really honor the (pioneering Issei) Mayumis."

It is difficult to believe that the filmmakers inkentisto harm Japanese Ameri-cause of the ir shnicity. And tooi can be argued that the Japanese characters aren't just negative caricatures. caricature

A valid criticism of the movie is that while characters claim that Japan-bashing and accusations of racism are sometimes used to de-flect legitimate criticism of Japan, nothing is said about the genuine acts of anti-Asian vio-lence that have occurred during periods of antagonism between the two countries. It left the im-pression that any accusation of racism is a Japanese business oy. Japanese Americans know otherwis

Some have or will criticize both the movie and book for a lack of positive Asian characters. While there are many burly yakuza and positive Asian characters. While there are many budy yakuza and other stereotypes, the main char-acters, Asian, white and black many seem to have positive and negative traits. Like the book, most of the Asian characters are Japanese nationals and for the most parts overwhelmingly male. Jingo Asakuma, played by Carrere, helps Smith and Connor solve the murder and is probably the, most positive Asian charac-ter, although some would asy her the most positive Asian charac-ter, although some would say her mixed heritage and the fact that she has a deformed hand sepa-rates her from other Japanese.

Well known Japanese Ameri-can actor Mako plays a positive character in Yoshida-san, the head of Nakamoto corporation. Kauf-man makes strong comparisons between Yoshida and Connery's

character, Capt. Connor. The two have much in common, in style nave much in common, in style and manner.Tagawa's character, Eddie Sakamura, is probably the most problematic for Japanese Americans.Eddie is fast and loose; Americans. Eddleisiastand loose; the first time we see him he is singing "Don't Fence Me In" at a karaoke bar with his blond girl-friend in tow. While Eddle is sleazy, he also has a charm and ease which isn't in the novel. He is a suspect in the murder-but while villainous in the beginning, change his character undergoes a change and ends up redeeming and sacri-ficing 'himself. If Yoshida is Connery's parallel, then Eddie is Snipes' parallel.

The problem with this movie or anything that comes out about Japan is that Japanese Ameri-cans are the first to feel the nega-tive impact. But care must be exercised in examining racism. The ercised in examining racism. The overt racism that exists in society today must be fought, but the situation isn't always black and white. A racist character in a movie deeant necessarily mean approval of that behavior.

FORCE MARKETING Simple disk puts smart marketing plans into words THE PROOF IS IN ITS OWN TEST-MARKET SUCCESS

FORCE MARKETING (Consultants) is pleased to announce the North America-wide release of the EZ, WRITE™ Marketing of the EZ-WRITE^{**} Marketing Plan Writer. Formatted for ed-iting on either PC or Mac word processor, EZ-WRITE is "... a pre-written plan that turns amateurs into marketers... in addition to supplying the com-plete text of a marketing plan, EZ-WRITE teaches as it goes along ... fulfills its claim that "It writes itself!" (Harold Burke, Partner, Coopers & Lybrand, Toronto)

Simply by editing its 40 pages of text, the EZ-WRITE user accomplishes the following tasks -analyze market trends, identify opportunities, assess risks, tar-get markets, set short-and long-term goals, develop strategies and tactics to cost-effectively realize those goals, and turn out a concisely worded custom mar-keting plan document, suitable for presentation and implementatio m.

Its developers field-tested EZ-WRITE by using it to write the plan for its own test-market launch, early this year in Canada. After eliminating all other options that are spelled out and rationalized in its prewritten text, they targeted the mainstream business segment (for its broad cross-section), and selected a direct-marketing strategy (toeliminate the middle man and permit a low price-point-which EZ-WRITE helped point-which EZ-WRITE helped to establish, at \$99). It guided the development of a PR pro-gram (to business and market-ing editors) and a media cam-paign (newpaper ads with a di-rect-response telephone num-ber). It helped them to set a short-term goal that would op-timize available resources and institution for the set of the top of the set of t justify investment (600 to 700 unit sales in the first 12 weeks), and a long-term goal of 3,000 sales in 12 months.

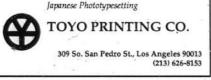

sales in 12 months. Within 12 weeks following its January -93 launch date, EZ-WRITE had sold to more than 1,200 marketers - from small business owners and entrepreneurs; to financial, legal and health professionals; to government agencies; ad agencies, and the media; to Apple, Coca-Cola, The Prudential, Walt Disney, Xerox and scores of other man ket leaders in all sectors and segments. That sales continue to rise at

near double the projected rate is attributed, partly, to prudent goal-setting; but mostly, to re-structuring and downsizing creating an unprecedented demand for simple computer tools that anybody, from trainees to the C.E.O., can pick up and use effectively.

oru Mochizuki was a 12-year old lad in San Francisco when his brother, Shigeaki (Shig), left for Japan. The year was 1938 and Shig had just been graduated from Commerce High School where he had been athlete, scholar, student leader and lover of music. Shig had agonized between enrolling at the Univer-sity of California, which might lead to the occupational dead-end faced by so many of his Nisei friends, or going to study in Ja-

pan. His ultimate decision was Japan, where he could learn enough about business and the language before coming home tojoin his father in the family trading business. On Jan 16, 1938, leaving his family behind, he boarded the Chichibu Maru for the voyage to a strange and unfamiliar land.

That was the last time that Min saw his brother. The war severed all communica-tions. He did not know how Shig had fared until one day in January, 1946, months after war's end, nearly four years after the trauma of the Evacuation, eight years after his brother had left home. Min received a telegram from the Red Cross. It said simply telegram from the Red Cross. It sau sumply that Shig Mochizuki, by then a junior of-ficer in the Japanese navy, had died in action during the war. After the tears were dried, Min began to

wonder about his brother's life and death. What had he done at Keio University which

had accepted him as a student? Who had been his friends and what had they talked about? How had Shig felt about the war? Had he been under suspicion because he was a Nisei? Had he volunteered for military service or had he been drafted, and at were the circumstances of his death

Min began a 40-year-search for some answers and gradually the defails began to fall into place. Shig, had been graduated from Keioin 1943 and had been working for Mitsui Trading Co. for only a month when he was inducted into the Japanese naval reserve. In September of 1944 he was commissioned as an ensign and assigned to coastal defense ship No. 21. He was one of the crew of 12 officers and 182 enlisted

The ship was on escort duty northwest of The ship was on escort duty northwest of the Philippines on Oct. 6, 1944, when a freighter in the convoy was hit by a torpedo, apparently from the U.S. sub Seahorse. Shig's ship went to the freighter's aid and is torpedoed and sunk with the it, too, was torp

Min's search turned up some of Shig's Kejo classmates, and resulted in an invitation to join a reunion trip to Hokkaido during which he learned much about his brother's life in college. He found the man who might have been Shig's best friend and gained insights into his brother's thinking and activities as a student.

Min, a Presbyterian minister and college Min, a Presoyterian minister and conege professor now retired in Denver, reports the findings of his search in a booklet titled "The Two Worlds of Shigeaki Mochizuki, 1919-1944." It tells much about the brief life of a Nisei who, under other circum-stances, might have made a mark in his native Amarica

But it does not answer some questions Min still asks, like how did Shig feel on Pearl Harbor Day? How did he feel about reari Harbor Day? How did he feel about joining the Japanese Navy knowing he might be fighting his own brother? Did he accept his "Japanese-ness," or did he re-main an American at heart?

The answers, unfortunately, will never be known.

WW II veterans: It's time to talk, not just praise

Re: Ed Suyama letter in June 11 PC about his views on the 'juxtaposition' of the 'joyoùs' 442 RCT reunion and the "aching" draft resisters meeting. He states that we shunned and con-

demned the 6,000 protesters (several hun-dred draft resisters plus thousands of renunciants repatriates, and exiles to Tule Lake). They are credited with relieving Lake). They are credited with relieving some of the pressures on us, providing us more freedom, and are described as wast-ing many of their lives while we wasted only a few years. Much of this may be true. I think we need also to remember that volunteers for the military and their families were also shunned and condemned and that many lives were lost or permanently damaged on the battlefield. I remember other close that the

I remember other claims that the draft resisters were the true patriots defending the Constitution while the soldiers were perhaps dupes if not traitors for defending those who had violated it.

Let us continue the dialogue that has finally begun but forget the efforts to find who belongs on the pedestal. We are ulti-mately responsible for our own actions no matter what the justification. We will never know who among us should apologize or who should forgive. But by talking together we support the hope of reaching understanding and reconciliation.

Pacific Citizen, July 23-August 5, 1993-

The month of July has been and will be a time for making connections. Earlier in the month I joined sev-eral dozens of JACLers in Vancouver, B.C., for the 7th Pan American Nikkej Associa-tion Conference. In the last issue of the PC, Harry Honda, editor emeritus, wrote about the gathering; I want to share some of my

impressions. PANA/Canada did a great job in organiz-ing the event. Simultaneous translation was offered in three languages. It was in-teresting to note that Japanese may have teresting to note thet Japanese may have been the common language. The Latin Americans are trilingual, whereas we North Americans seem to be more monolingual than bilingual. Our Latin American Chap-ter members such as Luis Yamakawa and Consuelo Morinaga, of course, are comfort-able in any of the three languages. I lattended an interesting session on com-

lattended an interesting session on com-paring the social history of Nikkei in Canada, Brazil, Paraguay, U.S. mainland and Hawaii. The treatment of the Cana-dian Nikkei during World War II was really terrible. Asians were brought to Brazil as semi-slaves. Latin American Nikkei seem to be closer to Japan with better integration among Issei, Nisei, temporary resi-dents, business people, students and gov-ernment officials. I understand they use the term Nisei for all generations born in

is hemisphere. The leaders of the National Associatio of Japanese Canadians would like to do something together with JACL. I did not sometring together with JACL. I did not have the opportunity to discuss this more fully with Roy Inouye, president of NAJC, but will be following up on it. The next PANA gathering will be in Peru.

a few days in the Canadian Rocki AA. I came how a year the cambin hockes, I came how to repack my bag and rush off to Indianapolis for a meeting of the co-chairs and conveners of the 30th anniver-sary March on Washington. This meeting was held in conjunction with the NAACP was held in conjunction with the NAACP national convention. Our Washington rep, Karen Narasaki, has been doing a great job in working with a core group in D.C. She warned me that the march people were somewhat in disarray and that there were tensions between labor groups and the civil rights organizations. At a breakfast meet-ing, I think some of these differences were ironed out and there was a commitment by those present that we would go forward

> tions against South Africa were achieved. As a co-chair, I am hoping there will be many Asian Americansjoining in the march on Saturday, August 28. For those in the East, you might be able to join a group coming by bus from your town. This is an opportunity for us to make our presence felt and show that we to are committed to and working for a better society for all people. An aside—I found myself without a room for the night in Indianapolis. The march staff tried to have me take over a room vesated it wore a of the other morth leaders

vacated by one of the other march leaders, to no avail. So I called on the Hoosier Chapter, Moira Sugioka specifically, and she was kind enough to lend me her bed and to organize a breakfast for me to meet some e other chapter members. (I had previ-. 6+1 ously written her about my being in town

but somehow she never received the letter.) My thanks to them for meeting with me on such short notice. One other highlight of the weekend was to hear Nelson Mandela address the NAACP delegates. From July 15-18, the Organization of

Chinese Americans held its 15th annual convention in New York City. It is in its convention in New York City. It is in its 20th year. OCA really does things in style! Attorney General Janet Reno was the clos-ing banquet speaker, Alice Rivlin spoke on the previous evening. The meal functions and special events essent to be partially underwritten by corporate sponsors. We can learn a few things about staging conions from OCA.

My next trip is to Atlanta where the ational Asian Pacific American Coalition will meet to continue its organizing steps. VP Trisha Murakawa and New York Chap-ter president Tom Kometani will also be attending. Tom will represent the Asian Americans of AT&T. That's thirty for now.

A memorial site is being planned there. Several boards of rare photographa of preven Japanese life in British Columbia, camps and converted ghost town scenes in mult testimony of the unjust treatment by the Canadian governnt attracted many viewers.

Contemporary photographs, oils and crylics, ceramics and sculpture were centerpieces that drew in the outside public hen the exhibit was open Saturday. At one end of the ballroom was an infor-

There were tables laden with pooks and souvenir T-shirts for sale and books and souvenir 1-sinites for sale and free back issues of the local monthly Japa-nese Canadian Citizen Association Bulle-tin. A viewing area with about 100 folding chairs continually featured such Canadian Nikkei films as Linda Ohama's award win Nikkei filmsas Linda Chama's award-win-ning "The Last Harvest," Michael Fukushima's "Minoru: Memories of Exile," and "A Place Called Home," produced by the Japanese Canadian Health Care Soci-Michael ety of British Columbia. struggle of one Japanese Canadian family farming on the Alberta prairie and of their last harvest after 50 years, is being boosted for the U.S. public TV audience and is slated for a 11-city U.S. tour this summer. The U.S. audience will better understand how Canada treated its Japanese communities during WWII.

Another plus—Ballroom "A" had com-fortable lounge chairs where reporters were able to interview people, or where friends could chit_chat

Ballroom "B" featured three booths for instant translation service. This was also the site of workshops. Two key workshops: the site of workshops. Two key workshops: (a) "Racism. Something to consider: Chapter del-egates to the JACL national council could meet and ponder the issues while the boostmeet and ponder the issues while the boost-ers can attend workshops, peruse the ex-hibits; go sightseeing, compete in the tour-naments, etc. Boosters wishing to observe the national council session can be offered seats to the rear or side, as is the present -

The problem has been the working delgate wants to take it all in — so long he or he is there, and that's understandable. But a day is not long enough to accommo-date such a fancy... On the plane trip back, I wondered if a National JACL Convention can be anything near the pleasure and elegance of a Vancouver for both delegate and booster?

The president of the Salt Lake City Chapter, JACL, passed on the story to me of a Chinese American law student who stood up for his rights and won. The chapter president wanted me to look into it to see if JACL or NAPABA should get involved. My office made some calls to express our inter-est, but the state had already agreed to

The story begins when Gordon Liu, a law

dentat Brigham Young University, went to University Motors Sales & Service to purchase a used car. The white salesman made it abundantly clear that he did not welcome Liu as a customer and that race was the reason. They negotiated the price of a car, but Liu left without buying it.

The next day, Liu sent his white room-mate over to the car dealer. The roommate was offered the same car by that same salesman at a significantly lower price. Liu filed a complaint with the State Attorney General's office who filed a civil rights law suit against the salesman and the dealership under Utah law which prohibits discrimination on the basis of race, color, sex, religion, ancestry or national origin in

The story, while a simple one, several important principles. How many of us have shrugged off similar petty acts more too embarrassed or too because we were too embarrassed or too busy-vowing only to never return? Before going to the state, Liu made sure he had solid evidence of discrimination. Armed with this evidence, not only did Liu win satisfaction for himself, but he has made it more likely that the salesman will think twice before trying to victimize another minority customer, and more likely that

It will take thousands of individuals like Gordon Liu who know their rights and who are willing to fight the "every day" battles be-fore discrimination can truly be ended. Asign Pacific Amarican attorness and law stand a special role to play in ensuring that these battles get fought.

Through this historical novel or narrative history, we come to know the tragedies of three great Haida chiefs who came upon the culture of the West-firearms, Bible, gold, whiskey and smallpox. Build-ers of immense codar houses, totem poles and the largest dugout codar canoes in the world, the Haidas were lords of the Pacific Northwest coast. These were the same shores, incidentally, where ship-wrecked Japanese fishermen or sailors had landed and were rescued during the 18th and 19th centu-ries when Japan had imposed self-ioclation... and the only reference to the East is in the first chapter. The Russians, who had bought see ofter pelts from the only reverse to the cast is in the area chapter. The Russians, who had bought see other pelts from the native Aleuts, sold them at fabulous prices to the Mandarins of China. Cay. Cook's men, by chance, picked up a few pelts along the North Pacific and got hundreds of dollars on one pelt from the Ghinese merchants. Thus, the marine fur trade was born: the merchants. Thus, the marine fur trade was born: the English and American were buying pells for a few glass beads and selling them for a fortune in China; then fill up their empty holds with tea and silk for another fortune back home. At Union Bank the interest rate on your Home Equity Line is at its lowest in years.

And there are NO FEES on loans up to \$100,000.

Contact your nearest Union Bank office and inquire about our PRIME PLUS ONE Home Equity Line.

"The Annual Percentage Rate of your line of credit is based on the Wall Street Journal prime rate during a given billing period. As of April 19, the Wall Street Journal prime rate was 6%. If you had a Prime Plus One line of credit, your APR would have been 7% with a maximum APR of 14%. Your minimum monthly payment will be the finance charge for the billing period or \$100, whichever is greater. Paying only the maximum monthly payment may result in a balloon payment.
