whether the new cutegory for multira-include a new category for multira-cial people is expected from the lard Office of Management and Budget in June or July, national press accounts indicated the first

press accounts indicated the first of April.

Debate looms over the check-off of racial category "others," which

248.7 million, 9.2 million being Asian Pacific Islanders (API) as tabulated in the 1995 statistics. tabulated in the 1995 statistics. The Census Bureau has projected that the API group will be the fastest growing, by 412.5% from 1992 to 2050 as compared to 50.2% for all groups, which would crack the traditional dual black/white

context—certainly in California, as was reiterated by this writer at a workshop at the Pan American Nikkei Association convention in Vancouver, B.C., in 1993.

Supporters for a separate multi-racial category say the move would foster a sense of pride and self-affirmation. But some civil rights advocates worry the new category would reduce the number of blacks and Hissnapies recorded in the extra and Hispanics recorded in the cen-

ing districts and financing for mi-nority aid programs.

Rep. Thomas Sawyer (D-Ohio),
who chaired a House subcommit-tee on census reform, said popula-tion trends should compel the gov-ernment (the Census Bureau) to accurately reflect "who we really are." For example, 60 percent of Japanese people in America wed someone of another race.

white female or slave. In 1890, the census included categories for octoroon and quadroon to measure those of one-eighth and one-fourth black ancestry, as enumerators designated a mixed-race person by color. The census began to list Chi-See CENSUS/ page 12

### COMMENTARY:

### California's Prop. 209: What Next?

By ALBERT Y. MURATSUCHI JACL PSW Regional Director

LOS ANGELES—On April 8, federal appeals judges ruled that California's Proposition 209 is California's Proposition 209 is constitutional, overriding a lower court that blocked the initiative's enforcement last December.

Prop. 209 is the state ballot initiative that 54 percent of California voters passed in the November 1996

election. The measure will abolish all state and local affirmative action programs in employment, educa-

programs in employment, educa-tion, and government contracting. One of JACL's top priorities last year was 70 defeat Prop. 209. JACL correctly saw 209 as the frontline battle in the nationwide assault on affirmative action. JACL members and staff throughout the state worked hard and raised money. state worked hard and raised money to defeat the initiative. Although 209 passed, JACL

helped bring the initiative's support down from over 80 percent when

first introduced, to 54 percent on election day. JACL also helped deliver a strong majority of Asian American votes against 209 — 61 percent, according to the Los Angeles Times Poll.

After the initiative passed, the

American Civil Liberties Union and American Civil Liberties Union and other legal groups filed a lawsuit to declare 209 unconstitutional. JACL joined a national coalition of Asian American organizations in filing a legal brief to support the ACLU's lawsuit. Based on the lawsuit, a federal district judge blocked the measure's enforcement to protect the coachity.

enforcement to protect the constitu-tional rights of California's women and minorities.

However, the recent appellate decision found the lower court's block to be in error, setting the stage for Governor Wilson and other state and local officials to begin disman-tling a wide range of programs that include minority scholarships for

### Study: Nisei have greater risk of Alzheimer's than native Japanese

SEATTLE—Elderly Japanese Americans have greater risk of developing Alzheimer's disease than the natives in Japan, according to researchers in Hawaii and in King County, Washington. Findings were reported in the Sept. 25, 1996, edition of the Journal of American Medical Association. Dr. Lon White, chief of the Asia.

American Medical Association.

Dr. Lon White, chief of the AsiaPacific Office of the National Institute of Aging, said the "good news
is that if there are environmental
factors that make it worse, there are sure to be environmental fac-tors to make it better."

tors to make it better."

Dr. Eric Larson, director of the
University of Washington study,
said if the factors were something
like lifestyle or diet, perhaps they
could be altered enough to eliminate much of the disease.

Dr. George Martin, director of the UW Alzheimer Research Cen-ter, and UW epidemiologist Walter Kukull called the White-Larson research a landmark study in that it is the "best available on the ques-

### Eureka! Arizona relic a Poston barrack

POSTON III CAMP REUNION for former residents gathering the first week in April at the campsite discover (at left) Poston barrack, which had been moved into the city of Parker, entrance to Poston WRA Reloca-tion Center and the land of the Colorado River Indian Tribes.

The unvarnished barrack is being used by The unvamished barrack is being used by the owner for storage, according to the Parker Historical Society. In front, tin-can lids, pounded to cover knot holes of bare pine wood flooring, were also visible.

• A front view (bottom left) reveals the double roof to cool off the barrack. The barrack was spliced in half for sale by the government, hence the siding and door with windows were added.

 Part of the 450 reunion attendees scramble around the Kiosk and Monument scramble around the Klosk and Monument (bottom right), which were constructed several years ago by volunteers from Sacramento, led by George Oki (Poston II). The palm trees were planted in 1992. The 30-foot tall Poston Memorial was dedicated to the memory of 25 Nisei soldiers, killed in action, who were either interned and had volunteered in the Army or whose percents. action, who were easier interned and had volunteered in the Army or whose parents and families were interned at Poston.

The kiosk is dedicated in memory of the

18,000 persons of Japanese ancestry who endured the hostile desert environment. ■

### U.S. Attorney Yamaguchi urged for federal bench

urged for federal bench

SAN JOSE—By all press accounts, Michael Yamaguchi, 46,
U.S. Attorney for Northern California, has emerged as the top candidate for San Jose's newest federal judge and the first Asian American federal judge in San Francisco Bay area history.

A former Mountain View youth, he was recommended to the federal-bench by Sen. Dianne Feinstein (D-Califf) last December, to succead U.S. District Judge Robert Aguilar. The nomination from President Clinton was expected.

Yamaguchi started his career as an accountant after earning a master's degree from New York University, and developed expertise in tax law. He joined the U.S. Attorney's Office in 1989 and moved into the criminal division in 1984, feared in white accounts of the control of the contr

Attorneys on the criminal division in 1900, into the criminal division in 1900, focusing on white-collar prosecutions. Hewas recommended by Sen. Barbara Boxer (D-Calif.) five years the resent government post ago for his present governmin San Francisco. —BH

# Kahuku evacuees eligible to get redress

By ALLAN BEEKMAN

HONOLULU-More than 70 HONOLULU—More than 70 former Kahuku residents of Japanese ancestry are eligible for \$20,000-a-person redress and an apology for their forced evacuation from their homes during World War II, it was announced March 7 by Honolulu JACL chapter and the National Asian Pacific American Association

Association.

The government's finding covers people who lived near the farming community then known as Marconi and near what is now the Turtle Bay Hilton.

According to Karl Sakamoto, the Honolulu lawyer who worked on the case, the Army ordered those of Japanese ancestry, about 75 in number, in Marconi to leave their homes because the military was homes because the military was building an airfield nearby. They were qualified for redress because

the Native Hawaiian residents were not also evacuated.

The Kahuku group was initially turned down because they did not have enough documentation to prove discrimination. Last December, the key was found when non-Japanese neighbors who lived in the area at the time of Evacuation were located. were located. Other Nikkei residents in Iwilei

Puuloa and Lualuakei were also declared eligible.

Of the 80,000 internees overall. nearly 2,500 from Hawaii have re-ceived their redress checks. But the Office of Redress Administration still has 3,000 names of per-sons who are eligible but have not been located or filed.

Claims and appeals must be made by February 1998 to assure review by August 10, 1998—the date after which funds for redress payments will no longer be avail-

### Small kid time

### The Bottom Line

By HELEN KAWAGOE, National President

# The first 8 months

PRIL 10, 1997, marked my Asth month as national presi-dent. Many positive happen-ings have occurred during this time. Among these happenings was that I graduated from an Academy program sponsored by the Los Angeles County Sheriff's Department for contract cities. The purpose of this class-room and field training program for elected officials is to educate city officials to better understand the kinds of situations, some very dangerous, that deputies must face ev-ery day while on duty. What a challenge it was, and exciting, too!

▼ Legislative alert... Proposition 209, the California Civil Rights Initiative (CCRI) regard-ing affirmative action was approved by the voters in November 1996. This measure eliminated affirmative action programs for women and minorities run by the state or local governments in the areas of employment, contracting and educa-tion that give "preferential treatment" on the basis of sex, race, color, ethnicity, or national origin.

The measure was held unconsti

tutional by the lower court but the appellate court ruled on April 8 to sustain the vote. The decision is sustain the voice. The decision is now in the process of seeking further remedies and may lead to a hearing before the U.S. Supreme Court. If no further remedial action can be taken, the ruling will take effect in 21 days. This will be a major extends for the process of the court of the cou

setback for women and minorities. It is certain that this California decision will move across the na-tion, with other states following with similar initiatives just as with California's Proposition 13 regard-

ing property taxes.

California's Proposition 208 regarding campaign financing reform was also approved by the voters in November 1996.

This measure addresses cam-

paign contributions and spending limits and restrictions on lobbyists. The loophole is that if you are wealthy, there is no limit on the

weathy, there is no limit on the amount that you can contribute to your own campaign for office. Therefore, the "rich man" can spend as much as he wishes but the "poor man" will find it extremely difficult to amass enough funds to campaign for office at \$100 per person. This action will certainly discourage and/or eliminate gualified candidates from seaking my bits office. This mace from seeking public office. This mea-sure, too, will move across the na-tion in like fashion.

We need to encourage our mem-

bers to be elected or appointed to government positions in order to have a voice at the table. In Califor-nia, we are proud to have Assembly members Nao Takasugi and Mike Honda representing us in the state

But the concern is that we only

have Congressmembers Abob Matsui and Patsy Mink and Sena-tor Dan Inouye in Washington, D.C. JACL is fortunate that Doris Matsui is on staff at the White House. I want to credit Doris for her assistance with the meeting with Bob Nash, Assistant to the President and Director of President Personnel. Also attending were **Michael**Lin of the Organization of Chinese
Americans, and representatives
from the Filipino community and the
National Asian Bar Association.

Bob Nash is from Arkansas and is a Razorback fan. I told him that my godson was a kicker on the Razor back team, and Bob and I immedi ately communicated and connected

ately communicated and connected in "hog's heaven!"

Immigration and social security issues affect all of us in one way or another. The recent John Huang fund-raising scandal impacted all nund-raising scandal impacted all Asians. The media generated nega-tive news and produced racist car-toons immediately. Again, as identi-fiable minorities we are all lumped into the same basket.

into the same basket.

As a member of the Board of Directors of the League of California Cities, president of Asian Pacific American Municipal Officials with the National Léague of Cities, and board member of Women in Municipal Government, I have addressed these comments at the table and pal Government, I have addressed these concerns at the table and voiced my displeasure of the treat-ment of Japanese Americans and Asian Pacifics by the media.

\*What's new ...
"JUMP START JACL," initiated by Sacramento JACL with their \$1,000 contribution, has generated another \$3,000 from Arizona and Gardena Valley chapters and from my personal friends at Brea Canyon Oil Company. Another friend has committed to locate \$2,500 to add to this Leadership Development fund. My goal is to have every chapter participate with any amount that they can afford.

JACL membership increased by approximately 1,600 members. At this rate, JACL should meet their 10% increase adopted at the 1996 San Jose Convention.
 Seattle JACL celebrated their 75th Anni-

versary.

Sacramento JACL celebrated their 65th

anniversary.

Philadelphia JACL, Detroit JACL, Twin Cities JACL, marked their 50th Anniversa

Wasaich Front North Chapter increased their membership by 200%.
Mount Olympus Chapter increased their membership by 57%.
Civil Liberties Public Education Fund (CLPEF) awarded 100 grants for a total of approximately \$2.8 million. Several JACL chapters were among the recipients.
JACL Curriculum and Resource Guide released, thanks to Greg Marutani and Education Committee.

Japanese of the Monterey Peninsula\*

released, thanks to Greg Marutani and Education Committee.

• "Japanese of the Monterey Peninsula" by David Yamada is available through the Monterey Peninsula JACL. Well written. Contact Paul Lichiujt, 1604/22-7748.

• Northem California-Western Nevada-Pacific (NCWNP) JACL District Council hosts a California Leadership Conference Sunday through Tuesday, April 20-22, 1997, in Sacramento.

• JACL Youth Conference "Leading into the Future," June 20-22, 1997, at University of California at Irvine, contact Hirormi Ueha at 714/559-1353.

• Nominations Co-chairs Kim Nakahara and Rick Aizawa charged with the responsibility to recruit candidates for all the national offices at the 1998 Philadelphia Comention. Be ready to accept.

▼ Adopt a Campus

South Bay, Selanoco and San Fernando Valley chapters have sucremaindo valley chapters have suc-cessfully adopted campuses and de-veloped young adult groups with programs that are attracting mem-bers into the JACL family. The South Bay Young Adults Group (YAG) was ed by my grand niece. Christime Sato, who has now assumed the co-presidency of the South Bay, JACL with Christine Ige. I am encouraging all chapters to look to their nearby campuses and initiate a similar program, These young adults can come together at our biennial convention and network throughout the year. With their involvement and development, JACL will have a con-stant reserve pool from which to tap our future leaders.

▼ New Leadership... Chapters, in addition to South Bay

Chapters, in addition to South Bay JACL, attracting new and young leaders are San Fernando Valley (Akemi Kayleng Knight), Philadelphia (Paul Uyehara, son of Hiroshi and Grayoe Uyehara), Washington, D.C., (Rich Amano and Barbara Teraji), New York (Ron Uba), Gardena Valley (Ron Dol, son of pastpresident MayDol), Seattle (Jeffrey Hattori), Selanoco (Ken Inouye), Salinas Valley (Carol Lee Yoshimura), Sacramento (Dick Pukushima), and Torrance (Steph-Fukushima), and Torrance (Stephanie Nakano). This list may not be complete. Please tell me about the others because these young presi-dents are to be congratulated for accepting their responsibilities and believing in JACL.

▼ Little known facts ...
The City of Carson, California, is a general law city with a directly elected mayor and city clerk. If the mayor is not available or the office becomes vacant before the next election is held, the city clerk is first in line to be in charge of the city

### ▼ Ongoing projects Membership drives and leadership de-

velopment.

Collaborative efforts to improve JACL's visibility in the community with other orga-

visibility in the community with other organizations.

Fundraising sources to meet staffing needs of regional offices.

Fundraising sources to meet program needs. Met with Donna Ikamac Chancellor and Nita Song of ATST and Bob Park of Imada Wong Communications Group, Inc. Donna wants to join JACL.

Support of the National Japanese American Mehrorial Foundation project in Washington, D.C. This will be our "Statue of Liberty to leave for all to writness. If we fail to raise the funds to build this memorialin our nation's capital, we will never get another chance.

other chance,

U.S./Japan Relations.

Social Security & Immigration Issues.

Affirmative Action.

Philladelphia Chapter progressing with 1998 Convention plans, July 1-5, the Sheraton Society Hill Hotel.

▼ The "bottom line"...

In the March 31, 1997, issue of Fortune magazine, a book excerpt of MATSUSHITA: The World's Greatest Entrepreneur? by John P. Kotter is very interesting. The article is about Konsent Formation is about Konosuke Matsushita who founded Matsushita Electric. He created the Panasonic brand that is known to millions around the globe Throughout his life, he worked hard. In 1917, he began his business with savings of 100 yen, which grew to a business that now generates \$42

billion in revenue. Matsushita was a taker and innovative marketeer. One of his aphorisms was to "Treat the people you do business with as if they were a part of your family. Prosperity depends on how much un-derstanding one receives from the people with whom one conducts business." Throughout his life, Matsushita had his focus on continual change with an unshackled

JACL needs to follow Matsushita's leadership style.

I continue to be encouraged with

the new leadership coming aboard at the chapter and district levels. Being a perennial optimist, I look forward to next year's Philadelphia convention where we will welcome new leadership at the national level. am positive that JACL will be constantly willing to change to meet the needs of our constituent members. I can unequivocally state that JACL is alive, well and in good working condition. My mission is to "communicate and connect\* as 1 carry out my responsibilities. I welcome your comments.

### PSW office to offer summer internship

LOS ANGELES—A stipend of 1,500 will be offered for 10 weeks of full-time work (some evening and weekends) as a summer intern at the JACL Regional Office, it was announced. Contact Al Muratsuchi, 244 S. San Pedro St., #507, Los Angeles 90012, 213/626-4471. Applications for the position must be postmarked by May 9. ■

### **National Review founder** defends 'racist'cover

TORRANCE, CALIF.—William F. Buckley Jr., founder of The National Review, defended the magazine's March 24 cover depicting the President, First Lady, and Vice President as stereotypical Chinese caricatures in a March

26th Daily Breeze op-ed piece.

"...that cover has stirred not the ire of Asian Americans, who are too level headed to transmute caritoo level headed to transmute carricature into race prejudice, but of defamation seeking outfits that seek to earn their keep. They are hectoring their constituents, pleading them to retaliate against Na-

ing them to retaliate against National Review by, among other things, protesting to one of its advertisers, Toyota," wrote Buckley.
"...we...call on our Asian American brothers and sisters, many of whom stand to benefit from the policies advocated by their fellow conservatives, to show a healthy combination of scorn and amusement for the thunder of such as the Japanese American Citizens. Japanese American Citizens

Japanese Americans when they were rounded up after Pearl Harbor and held in detention for the Americans when they were rounded up after Pearl Harbor and held in detention for

the duration of the war," continued the duration of the war," continued Buckley. "But it is unwise to infer from this awful injustice that Franklin Delano Roosevelt was ananti-Asian racist or that California's Attorney General Earl Warren, who promulgated the detention of the Japanese, was a racial biere." cial bigot.
"High sensitivity is to be expected

from those whose ancestors have suffered from discrimination... But political?? caricatures not intended as racial slights should not be taken

as such," said Buckley.
"Buckley and the National Review are clearly out of touch with view are clearly out of touch with prevailing Asian American sensibilities," responded PSWD Regional Director, Al Muratsuchi in an April 2nd edition of the Daily Breeze. "Asian American individuals and organizations across the als and organizations across the country have publicly condemned the caricatures, including the Organization of Chinese Americans and the Japanese Americans Citizens League, two of the nation's largest membership based Asian American organizations.

"If Buckley is serious about courting Asian Americans to his brand of conservatism and the Republi-

of conservatism and the Republi-can Party, then he should listen

carefully to the national uproar in the Asian American community.

the Asian American community, rather than callously dismissing it as the whining of the politically correct, "continued Muratsuchi. "Buckley and the National Review should stop skirting the issue of whether the National Review crossed the line of acceptable political caricatures by resorting to crossed the line of acceptable po-litical caricatures by resorting to racial stereotypes. They should take the first step toward re-estab-lishing their credibility with Asian Americans by apologizing for cross-ing that line," concluded

### JACL condemns cover of National Review as 'racist'

SAN FRANCISCO—The Japa-ese American Citizens League on nese American Citizens League March 19 demanded a public apol-ogy from the *National Review* for its racist illustrations on the cover of the racist illustrations on the cover of the March 24, 1997, issue.

Said Herbert Yamanishi, JACL

national director, "The National Review's xenophobic caricatures of a Chinese coolie, a Red Quard, and a Buddhist monk are extremely of-fensive. They are remarkably simi-lar to the 'yellow peril' caricatures of World War II that were used to whip up wartime hysteria, which ultimately led to the incarceration of 120,000 icans of Japanese ancestry

### JOE ANDO, 64

### Retired Air Force colonel heads New Mexico JACL

If it were not for the Crystal City Interment Camp 50th Anniversary Reunion Album, this story would not have been developed in detail. It "wowwed" Dr. Frank Sakamoto, now of Defiver, and recently designated membership development chair by national vice president. Karnel-Liane Shiba, after he had installed Joe Ando as New Mexico JACL president, to learn that he was interned at Crystal City (Texas) with his family and retired as a full-fledged Air Forms cololiel—Eft. Note.

with his family and retired as a full-fledged Air Force colleiel.—Ed. Note. ALBUQUERQUE—The Ando Family story begins with the Issei parents, Frank Shokichi, who emi-grated to the U.S. in 1906 after completing-his schooling at Gifu School of Agriculture, and Kiku from Yamaguchi-ken. They had farmed in various parts of Northern California and by the 1930s settled in Tracy. Other members of the family were George, Jouise and Joe.

With Evacuation in 1942, which s father thought would be temporary, the household goods, farm equipment and tomato crop were placed in care of his landlord. H.H.

Tagged by the Army as Family #7413, the Andos were trucked to Turlock Assembly Center, followed by a long train ride with window shades drawn, to the Gila River WRA Center in mid-1942.

"At many block meetings, father expressed his opinions—one being that it was basically wrong to incar-cerate parents and draft their sons for war. I remember two Army soltor war. I remember two Army soldiers with rifles and bayongts were
stationed outside the barracks, and
the FBI searching our small apartment. Father was taken away for
further questioning at Lordsburg,
N.M., Santa Fe, N.M., and eventually to Crystal City, 10e recalled.
While at Crystal City, his father,
was informed his 1942 crop was
totally lost due to lack of labor at the

totally lost due to lack of labor at the time of harvest. Then he was told his farm equipment, the Caterpillar tractor, and all personal belongings were lost due to fire. It was also the time, Ando recalled, of his being "a

rebellious young man, always on the fringe of getting caught." In 1946, his brother George en-tered the Army. That March, his father made arrangements with camp administrators to move to the Solomon Ranch in nearby Carrizo Springs, ostensibly to receive land

By June, it was apparent the fam-ily was to be Solomon's gardener and housemaids. When his father decided to move to another farm, Solomon warned he would regret the attempt but his father thought the attempt but his father thought lightly of the threat and proceeded to move. On July 4, Solomon went to the sheriff, reporting that Frank Ando cursed the American flag, spat and stomped on it. Without warning or evidence, the sheriff contacted the ERI office. See Abstract the FBI office in San Antonio and the

FBI office in San Antonio and the father was jailed.
Without money, the family moved into a shack in the least desirable part of town. "That was our introduction into Carrizo Springs, Texas. I

think they were content to leave Frank in jail," Joe recalled. Texas Ranger takes interest

A court-appointed attorney was not particularly interested in an Issei in jail until a Texas Ranger named in jail until a Texas Hanger named, Affred Allee told authorities, "You got the wrong man up in that jail!" Seeking support from the ACLU and others the task fell on his sister Louise, then 16, to type letters to key people who could make the phone calls for action. Calls were made to [Kenji] Kasai of San Francisco who contacted the ACLU there and then Sylvia Lang, San Antonio ACLU.

"At this stage, Solomon wanted

father to repent and he would take us all back on his farm," but the authorities concluded Solomon had lied to force the Andos to stay on the farm. His father languished in jail as Solomon sold his property and left

the county. He was soon released. Through high school, Joe played football with classmates whose fathers and uncles were employed at Crystal City as camp guards or in some other capacity. "Football was the turning point, as to how my friends and associate viewed me. "Joe said. Local merchants gave him a hard time when he first tried to sell his father's produce in town, but after his starring role on the football field,

nis starring role on the football field, "they bought all the vegetables L could bring into town.\(^t\) As student-body president, Joe worked closely with the principal, King Moss, a wounded Marine veteran of many Pacific campaigns. Joe confided to him that he wanted Joe conflided to him that he wanted to become an engineer but that his family had no money. That spring, the principal (Mr. Moss) took him to High School Day at Texas A&M, where he toured the campus, and met with various counselors. After a small scholarship and odd jobs on campus, he was graduated in 1955 with his degree and a commission in the Air-Force.

"After four years in an internment

camp. I learned a lot from this man. a recently wounded Pacific Theater veteran, who, in 1951, went out of his way to help a young Japanese American," Joe said. Joe then described his flying as-

signments during the Vietnam-buildup—all over Vietnam and the Pa-cific, from his base at Travis Air Force Base and in the Philippines. After the Paris Peace Accords in 1973 and withdrawal of all troops from South Vietnam, he was the Chief of Plans section in Saigon and left that post in 1974, reassigned to U.S. European Command Head-quarters in Stuttgart, Germany. Saigon fell in late April 1975.

Joe adds that he has often won-dered what happened to the many loyal South Vietnamese personnel that didn't make it.

There was a train ride with his family in Germany to Berlin, when the guards on the train made sure the window shades were pulled down while crossing through the Russian sector of East Germany. "I had flash-back to the days of the Evacuation!" he said.

His final assignment found Joe at Kirtland AFB, Albuquerque. Retired in 1980, Joe has been dividing his time as a production engineer with time as a production engineer with Martin-Marietta and serving on the city's human rights board, and with

the JACL chapter.

Ando's parents passed away in 1976. George retired as a labor union secretary-treasurer and lives in San Francisco; Louise has been with the IRS in Austin. Ando's children are married, daughter Lauri in Orlando, sons Tobin with a law firm in Los Angeles, and Kerry in his last year of residency in 1993 at Texas Medical Center, Houston.

Center, Houston.
Joe has visited Crystal City periodically. The granite marker stands; the swimming pool is filled with disl, "the only reminders that are left," he noted. "Through all adversities come some good. We are very grateful for our friends and family and the many opportunities. that make America great!"—HKH

INSTALLATION OF OFFICERS—New Mexico JACL's 1997 officers are (from left) Bobby Yotsuuye, vp.; Lois Kennedy, v.p. membership; Cory-Jeanne Murakami Houck, District vice-governor; Sachiko Tomomatsu, v.p., cultural affairs; Esther Churchill, v.p., social; Malcolm Mori, sec.; Calvin Kobayashi, treas.; Joe Ando, pres.; and cultural affairs; Esther Churchill, v.p., s Dr. Frank Sakamoto, installing officer.

MOST PRESTIGIOUS

### San Jose Nikkei elected member of National Academy of Engineering

SANJOSE-Jim K. Omura, participant in the Silicon Valley En-trepreneur workshop at the 1996 National JACL Convention in San Jose, was elected on Feb. 17 to membership in the National Academy of Engineering (NAE), one of the most prestigious professional honors, for significant contributions to engineering theory and practice, and for unusual accomplishment in pioneering new and developing fields of technology.

Omura, co-founder and chief technology officer of Cylink Corpo-

ration, is recognized for contribu-tions in spread-spectrum commu-nications and data encryption. He pioneered the innovation and development of network security tech-nology through commercial implementation of a public key manage-ment patent (Diffie-Hellman). His informational security products for high-speed, wide-area network security has become a universal stan-dard for modern network data en-

cryption. Cylink Corporation is based in Sunnyvale, with offices through-out the world. Cylink is also a leader in outdoor spread spectrum micro wave radio communications.

omura was a professor of electrical engineering at UCLA, specializing in information theory, communication systems, cryptogcommunication systems, cryptog-raphy, eiror control coding, data compression and spread spectrum systems. ### CAREER OPPORTUNITY

### Editor/General Manager

The Japanese American Citizens League seeks a person to be Editor and General Manager of the Pacific Citizen. The person chosen will be in charge of overseeing and supervising the semi-monthly newspaper with a circulation of over 20,000 and a staff of four to eight people, depending on the season.

Position requires experience (five years preferred) in editing, writing and managing publications, and personnel supervision. Knowledge of and experience with the Japanese American Community preferred. Computer experience required, experience in the use of Pagemaker a plus.

Responsibilities include hands-on involvement in the conceptualization of issues and articles, assigning stories, photography, editing, writing and rewriting when necessary, layout, and production. Periodic travel involved, including evenings and weekends.

Excellent fringe benefit package provided. Hiring salary range: \$35,100-\$59,850. Send cover letter, resume, and work samples to:

Mae Takahashi, Japanese American Citizens League, 1765 Sutter Street, San ancisco, CA 94115 or fax to 415/931-4671. E-mail questions to JACL @hooked.net.

Pacific Citizen

# The National JACL Investment Policy

I. Purpose:

The purpose of the several Na-tional JACL endowment funds (the "Funds") is to finance the projects and programs of the JACL in accor-dance with Article XIV: Budget and Garice with Article XV: Budget and Finance, and Article XV: Segregated Accounts under the Constitution. Investment of the Funds is the responsibility of the National Investment Policy Committee (the "Committee"). The Committee shall supervise and administer the prudent investment of the assets of the Funds with the approval of the National Board: advise and make recommen-

dations to the National Board and the National Council; and advise the National Board and National Council of any emergency situations which the Committee deems requiring consideration by the Chapters to utilize any portion or all of the principal of those Funds which are unrestricted. The Committee defines policies, sets asset allocation, selects investment asset allocation, selects investment managers, and monitors the imple-mentation of the investment pro-gram of the Funds. The Committee is composed of seven members elected by the National Board.

At the date hereof, the relevant Funds within the mandate of the Committee are as follows and which are further identified as to the "restricted" or "unrestricted" nature of the account:

| Fund Name                          | Designation                                                                     |  |
|------------------------------------|---------------------------------------------------------------------------------|--|
| Masaoka Fellows Endowment Fund     | Corpus: permanently restricted<br>Income: restricted for leadership development |  |
| Scholarship Endowment Fund         | Corpus: permanently restricted<br>Income: restricted for scholarships           |  |
| Student Aid Endowment Fund         | Corpus: permanently restricted<br>Income: restricted for student aid            |  |
| Legacy Endowment Fund              | Corpus: permanently restricted<br>Income: unrestricted                          |  |
| Life Membership Endowment Fund     | Corpus: unrestricted (Income; unrestricted                                      |  |

| Building Endowment Fund            | Corpus: temporarily restricted<br>Income: restricted to building maintenance    |  |
| U.S./Japan Relations Fund          | Corpus: unrestricted                                                            |  |
| Plant Fund                         | Corpus: unrestricted                                                            |  |
| Japanese American Research Project | Corpus: unrestricted                                                            |  |
| Youth Fund Program                 | Corpus: unrestricted                                                            |  |
| Mas Satow Memorial Fund            | Corpus: unrestricted                                                            |  |
| Redress Program                    | Corpus: unrestricted                                                            |  |
| Atomic Bomb Survivors Program      | Corpus: unrestricted                                                            |  |
| ABS Film Project                   | Corpus: unrestricted                                                            |  |
| Ways and Means Fund                | Corpus: restricted Income: temporarily restricted for youth/aging projects      |  |

### III. Statement Of Investment Objectives:

Investment returns are expected to preserve or enhance the real value of the Funds while sufficiently sup-porting the JACL projects and proporting the JACL projects and pro-grams. The investment strategy shall consistently consider safety of prin-cipal, liquidity and the cash flow requirements of the JACL.

### IV. Permissible And Non-Permissible Investments:

All investments in the Funds must have a readily ascertainable market value and must be readily marketable. The Funds may only acquire instruments or securities which are identified as "Permissible." The Committee and its agents are prohibited from investing in "Non-Permissible" investments. Such financial instruments or securities which are not identified as "Permissible" shall be deemed "NonPermissible."

Permissible Investments: Common and Preferred Stocks Convertible Securities American Convertible Securities, American Depository Receipts ("ADR's"), U.S., Treasury and Agency Obligations, Mortgage Backed Securities of the U.S. Government, Money Market Funds, Short Term Investment Funds Accounts, Certificates of Deposit, Bankers Acceptances, Commercial Paper. Corporate Securities, Investments in broad market indices in-cluding but not limited to: the S&P 500, Wilshire 5000 Index, Morgan Stanley Europe Far East and Australia Index ("EAFE"), Solomon Brothers World Government Bond Index, or Merrill Lynch 3-5 Year Trea-sury Index; and Stock and Bond Mutual Funds that invest in the above

### Non-Permissible Investments:

Non-Permissible Investments:
Commodities, Futures, Forwards,
Margin Purchases, Short Selling,
Options (puts, calls and exotics) and
other Derivatives, Structured Notes,
Structured Investments, Direct investments in Oil and Gas participations, Direct Investments in Real
Estate, Unregistered Securities,
Double-Tax Exempt Securities, Limtited Partnerships, and any financial
instrument not specifically identified
as nemissibile

### V. Selection Guidelines:

In addition to the limitations de-scribed in Section IV above, the following quality and investment cri-teria are to be applied.

Cash Instruments:

Cash instruments are readily marketable fixed income securities with maturities equal to or less than one year. Quality ratings must be prime year. Quality ratings must be prime or investment grade as rated by Standard & Poor's and Moody's for commercial paper. For certificates of deposit, a B rating by Thompson Bank Watch Services is required. The overall cashportfolio is expected The overall cash portfolio is expected to reflect a reasonably diversified portfolio subject to prudent levels of risk. Securities issued by and guaranteed by the full faith of the U.S. Government such as, U.S. Treasury and Agency Obligations, and Mortgage Backed Securities of the U.S. Government may be held in unlimited quantities. Double tax-exempt cash instruments are non-permot cash instruments are non-perempt cash instruments are non-permissible investments.

### **Equity Securities:**

The Committee will exercise prudent diversification in the management of the equity portion of the investment portfolio. Portfolio diversification shall consider exposures to individual companies and issues, sector risk, industry risk, and when appropriate, exposure to active investment managers. The maximum equity exposure to any single com-pany or issue shall not exceed five percent (5%) of the Funds' assets on a cost basis, or ten percent (10%) of the Funds' assets on a market value basis. The Funds will not hold value basis. The Funds will not hold more than 20% exposure to any industry group. Total equity exposure shall not exceed seventy percent (70%) of the Funds' assets on a market value basis. The Funds all also maintain prudent diversification with regard to the se of investment managers. Exempt from this investment manager diversification clause are passive investment managers, who are selected to replicate the total returns of a major market index.

### Fixed Income Securities:

Fixed income securities are readily marketable instruments with ma turities greater than one year. Typi-cally, fixed income securities make cally, fixed income securities make semi-annual interest payments. The Funds will exercise prudent diversi-fication in the management of the fixed income portion of the invest-ment portfolio. Portfolio diversifica-tion shall consider exposures to credit risk, individual companies, in-dividual issues, and sector risk. Ex-cept for fixed income securities is-sued and guaranteed by the U.S. government, its agencies or instru-mentalities, the Funds shall not hold more than five percent (5%) of the Funds' assets on a cost basis, or eight percent (8%) of the Fund's assets on a market value basis, with any single guarantor, issuer or pool of assets. Fixed income securities issued by and guaranteed by the Full Faith and Credit of the U.S. Government may be held in unlimited quantities. The overall quality rating of the fixed income portfolio shall be AA or better. The average duration of the bond pool-should-be no greater than the current duration of the Merrill Lynch 3-5 Year Treasury Index plus one year.

### Mutual Fund Investments:

The Funds may invest in mutual investment funds or pooled asset portfolios provided that these investment vehicles invest in the permis-sible securities cited herein and meet the stated objectives of the Funds the stated objectives of the Februs. For consideration, a mutual fund must have an actual performance track record of at least seven years and a net asset value in excess of one hundred million dollars (\$100,000,000).

### International Investments:

The Funds may invest in interna-tional (i.e., non-U.S.) equity and fixed income securities, as well as inter-national funds and indices. The cumulative maximum international asset exposure to non-U.S. cash equity, or fixed income securities shall not exceed ten percent (10%) of the Funds' assets on a cost basis or fifteen percent (15%) of the Funds' assets on a market value basis. Foreign currency hedging is per-missible provided that it is conducted only by a professional investment manager. In this situation, foreign currency options, futures and for-wards will be permitted but only for hedging purposes. The international investment manager may not take net currency exposure greater than net currency exposure greater than the net asset value of the interna-tional portfolio (i.e., leverage is not

### VI. Intended Asset Allocations

It is expected that a significant portion of the Funds will be invested in Cash and Fixed Income securities. Once per year, the Committee will review the Funds' overall asset allocation. If needed, the Commit-tee will rebalance the portfolio to maintain the Fund's allocation within the investment confines that reflect prudent diversification and stated asset limits. During the rebalancing process, the Committee will to its best ability execute trades in a manner that maximizes the return potential within acceptable levels of risk

### VII. Professional Investment Managers:

The Committee may appoint pro-fessional investment managers when appropriate. Appointed investment managers must have a minimum of five years of actual performance history, at least thirty million dollars (\$30,000,000) in actual assets under management, and a minimum of seven institutional accounts excluding the restricted JACL ac-counts. Selected investment man-agers must accept and adhere to all of the Committee's investment policies stated herein as well as any expressly written documents signed by the Committee and National Board. The managers must at a minimum provide the Committee with semi-annual investment sum-mary reports. These reports will at a

minimum include: a detailed description of the assets held, actual fund and benchmark performance data, and purchase and redemption summaries. The maximum exposure to any single active investment man-ager shall not exceed seventy per-cent (70%) of the Funds' assets on a market value basis.

### VIII. Definition Of Principal:

Principal shall be defined and de-termined on an annual basis. For the purposes of the Fund, principal shall be defined as the original cost basis, plus investment income earned, plus realized capital gains and loss es, less income expended ess any distributed principal

### IX. Other Fund Restrictions:

All accounts of the Funds are cash accounts. Sales or purchases through margin accounts or similar facilities are prohibited. Personal checking accounts and credit facilities (e.g., lines of credit, credit cards, etc.) linked to or securitized by the assets of the Funds are forbidden.
The assets of the Funds may not be pledged as collateral or used as a guarantee or security for any loan, except for those segregated accounts approved for contingency collateral with the JACL Credit Union.

### X. Amendments:

The National JACI Investment Policy may be amended as circum-stances direct. Upon approval by two-thirds of the Committee, amendnts will be submitted to the National Board for final consideration

—Amold Miyamoto, chair, Investment Policy Committee. ■

### GLOSSARY

Active Investment Manager
An active investment manager seeks
to provide total returns which are in
excess of some pre-defined benchmark

American Depository Receipt (ADR) A receipt for shares of a foreign based A receipt for shares of a foreign based corporation held in a vault of a U.S. bank. The ADR entitles the shareholder

The distribution of a portfolio's assets among the various investment classes (i.e., cash, fixed income, equities, and international). Asset allocations are usually expressed as percentages. Asset allocation affects portfolio risk and return. It is a central concept in portfolio management.

### Common Stock

Common Stock
Units of ownership in a public corporation. Owners are typically entitled to vote
on the selection of directors and other
important mattérs as well as to receive
dividends on their holdings.

### Commercial Paper (CP)

Commercial Paper (CP)
A short-term obligation with maturities ranging from 2 to 270 days. CP is issued by top-rated corporations, banks and others. The securities are unsecured and usually discounted, although some are interest bearing. Both Moody's and Standard & Poor's assign ratings to commercial paper.

Consumer Price Index (CPI)
The Consumer Price Index is a U.S. The Consumer Price Index is a U.S. government provided statistic intended to measure the relative cost of a basket of goods and services through time. In general, changes in the CPI are felt to be a relatively fair surrogate for experienced

A security that pays a fixed rate of return. This term usually refers to government, corporate and municipal bonds, and may refer to preferred stock as well.

Index Fund
A portfolio that matches the performance of that of a broad based index, such as, the S&P 500.

Margin Account
A brokerage account that allows customers to buy securities with money borrowed from a broker.

### Mutual Fund A fund that invests in assets as de-

scribed by the prospectus. A mutual fund pools contributions from numerous investors and offers the advantage of professional investment management and diversification.

### Passive Investment Managers Professional investment manager

create portfolios that replicate the total returns of a market index. Index portfo-lios are created by investing in the secu-rities contained in the index in their exact proportion.

### Permanently Restricted Assets The part of the net assets of a not-for-

The part of the net assets of a not-for-profit organization resulting from (a) con-tributions and other inflows of assets whose use by the organization is limited by donor-imposed stipulations that nei-ther expire by passage of time nor can be fulfilled or otherwise removed by ac-tions of the organization, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) from reclassifications from (orto) and (c) from reclassifications from (or to) other classes of net assets as a conse-quence of donor-imposed stipulations (FASB Concepts Statement 6, Elements

Preferred Stock
An equity investment that has fixedincome-like character. Preferred shares
have fixed-dividend payouts which are
stated as a percentage of par value.
Preferred shares usually do not have
voting rights and are senior to common
shares in the event of liquidation.

### Purchasing Power

A relative measure of the ability of an A relative measure of the ability of an investment to purchase goods and services when adjusted for inflation. An investment portion is purchasing power is the national size of the portfolio multiplied by the experienced inflation, adjusted for the timing effects of redemptions and purchases.

### Quality Batings

Quainty Hartings
There are numerous rating services that publish their analyses of the investment quality of fixed income securities.
Two of the better known services are: Standard & Poor's ("S&P") and Moody's. The table below shows the quality ratings and corresponding levels. "

|                   | S&P    | Moody's |
|-------------------|--------|---------|
| Very High Quality | AAA-AA | Ass-As  |
| High Quality      | A-BBB  | A-Baa   |
| Speculative       | BB-B   | Ba-B    |
| Very Pror Ouglity | CCC-D  | Can-C   |

Real Value
A measure of the purchasing power of an investment. Real value is the total annualized return from an investment.

less the annualized experienced infla-

Stock Indices

An indicator that measures the value of a representative asset group. The Dow Jones Industrial Average (DJIA) is a price weighted average of thirty actively traded blue chip stocks. It is the oldest and most widely quoted index. The S&F 500 is a market weighted index that shows the value of the aggregate market value of 500 stocks. The Witshire 500 Equity Index measures all NYSE, AMEX and over-the-counter issues for which price quotes are available. which price quotes are available

### Temporarily Restricted Assets The part of the net assets of a not-for-

The part of the net assets of a not-for-profit organization resulting (a) from con-tributions and other inflows of assets whose use by the organization is limited by donor-imposed stipulations that ei-ther expire by passage of time or can be fulfilled and removed by actions of the organization pursuant to those stipula-tions, (b) from other asset enrhance-ments and diminishments subject to the same kinds of stipulations, and (c) from reclassifications to (or from other classes reclassifications to (or from) other cla of net assets as a consequence of do-nor-imposed stipulations, their expiration by passage of time, or their fulfil-ment and removal by actions of the organization pursuant to those stipula-tions (Concepts Statement 6, paragraph

Total Return
The total change in the value of an investment over a given time period measured as a percentage. Total return is the sum of income and dividends earned plus capital gains and losses:

Treasury Bills, Notes and Bonds
Treasury securities are negotiable debt
obligations secured by the full faith and
credit of the U.S. government. T-Bills
are short-term securities with maturities
equal to or less than one year. T-Bills are
issued in minimum deportingations of the equal to or less than one year. T-Bills are issued in minimum denominations of ten thousand dollars (\$10,000) and in five thousand dollar (\$5,000) increments above that level. Treasury Notes have maturities of one to ten years. T-Note denominations range from one thousand to one million-dollars (\$1,000 to \$1,000,000). Treasury Bonds have maturities of ten years or longer and are issued in minimum denominations of one thousand dollars (\$1,000).

Unrestricted Assets
The part of the net assets of a not-forprofit organization that is neither permanently restricted nor temporarily restricted by donor-imposed stipulations
(Concepts Statement 6, paragraph 94).

### Agenda

### 'Personal Justice Denied' available

SAN FRANCISCO—Copies of Personal Justice Denied (1997, University of Washington Press, P.O. Box 50096, Seattle, WA 981 45, 52 pp., notes, index, \$16.95) are available to JACLers at Headquarters, the regional offices (Los Angeles, Fresno, San Francisco. Seattle, Chicago) and the Washington JACL Office, which also serve as distribution points.

The 1997 edition has added a prologue from the Civil Liberties Public Education Fund, a foreword by Tetsuden Kashima, University of Washington, and the Recommendies, Part III, which were not in the 1982 publication.

The JACL offices can expedite bulk orders in increments of 10 or more books at a discount (\$10.77 perbook) plus shipping. Subsequent orders may be placed by the chapters directly with the UW purchasing department.

### Chapter lauds local newspaper reportage

In a letter to the 'Idaho State Journal, the Pocatello-Blackfoot Chapter applauded "our local media," for its presentation of the Democratic National Committee's fund-raising controversy in selecting AP articles which specifically named the sources of 'questionable contributions: "Asian governments or business... U.S. citizens promoting construction between Armenia and Azerbaijan... Cheyenne-Arapaho tribes," and depicted a freckle-faced kid in a cartoon about spending the night in the White House.

The letter commended the paper for not giving space to such biased articles as the New York Times column by William Safire on the "Asian connection," and the Wall Street Journal coverage describing Asian Americans as "people with tenuous connections to this country."

"Americans can be proud of the historic contributions of Asian Pacific Americans to our country over the last 150 years—from the construction of the Central Pacific Railroad to the many advances being made today by APAs in science, education and government...

"While we strongly condemn any illegal fund-raising and careless fund-raising practices into least election, we believe it is important for politicians and members to ensure that their actions and statements do not unfairly impugn an entire enthnic minority. We value those leaders and reporters who have avoided stereotypes and careless generalizations." The letter was signed by Micki Kawakami, president, Pocatello-Blackfoot Chapter.

Workshop on making hapi coats—Thirty-five JACL and Sister City Association members works

●Workshop on making hapi coats—Thirty-five JACL and Sister City Association members worked several hours over the Feb. 22-23 weekend to create red or blue hapi coats. "The (coats) were harder to make than anticipated, but they will be a lovely touch for the Sister City delegates to wear when we visit Iwamizawa," commented Kawakami, "and for JACLers when we have chapter and community activities." Bernice and Taka Kida were the teachers and Bernice said she wants to come back to teach "obon odori." The Kidas are looking forward to the chapter salmon bake in August.

Danny Teraguchi will serve out the term vacated by Patty Watanabe on the chapter board. He is a doctoral student at Idaho State University and director of the student tutoring program on campus.

Mat a recent Intermountain District meeting, chapters were urged to send their newsletters to the Pacific Citizen. This past week, a 6-page report without graphics was sent via E-mail (paccié Jool.com). It also featured an update on Redress, the Campaign for Justice for Japanese Latin Americans, and an announcement for a seminar on estate planning and charitable tax strategies. Editor's Note—Another IDC chapter, Mt. Olympus, has been sending theirs by mail for years.

# 'The Jew and the Roots of Japanese'

### By Zenichiro Oyabe "Nippon-jin no Roots wa Yudaya-jin" (1929)

This past year has seen an increase in the "Japanese Schindler" stories. The JACL has been among organizations relating the stage of oourage and compassion of Chiune Sugihara, the Japanese diplomat in Lithuania, for rescuing the lives of an estimated 6,000 Jews in Poland fleeing the Holocaust in 1839-1940 by issuing them transit visas to Japan.

Delving, therefore, into Jewish-Japanese connections, James Oda has reviewed several books in Japanese around the popular subject of the "Lost Tribe of Israel," which some scholars find fascinating as an explanation to the origins of the Japanese people. Oda has concluded with his own observations which appeared in the recent Jan. 24-Feb. 6 issue. — Editor.

### **BOOK REVIEW**

By James Oda

the beginning of the 1990's, the subject of the Lost Tribe of Israel became a focal topic in Japan's publication world. This was a fascinating development. I am not a new student of this subject. In fact, I have written and even published a pamphlet on the origin of the Japanese. My theme was that the ancient Japanese migrated from Euro-Asia through the Siberian steppes. Manchuria and Korea.

steppes, Manchuria and Korea.
Raising the conjecture of Israel as the birthplace of the Japanese Imperial Family, postulated by Japanese scholars, seemed preposterous initially. But eventually I came to the conclusion that I had made a grave error in not delving into the possibility of the Lost Tribe of Israel as a source of the Japanese Investing Family.

Insee Imperial Family.

In 1978, I interviewed extensively Ms. Yoko Iwawaki of the nationalistic Japanese historical society, whose view was that Japan's hieroglyphic letters were used in the Jomon culture 100,000 years ago preceding the Hebrew language and that Japan's imperial ancestors descended on the Middle East from heaven and became the Jewish people, and that with the defeat of the Jewish kingdom, ten of the twelve tribes migrated to Japan across the Asian conti-

I rejected such a view in 1978 as lunatic and discontinued further study in that direction. However, the times have changed. Now the subject of the Lost Tribe is a prominent issue. If and when the legitimacy of the Lost Tribe as the founder of Japan is accepted, the Imperial Family has a ready-made answer: "We preceded the Jews."

I have read several Japanese books written on the subject, and reviews of some of the books were written by Jewish scholars.

The first book to be reviewed is Nippon-jin no roots wa Udayajin da, or Japan and the Roots of Japanese, by Zenichiro Oyabe. This book was published 1929. It is the oldest and most authentic book on the subject. The revised edition was published by the author's son and daughter in 1991.

Zenichiro Oyabe was born in 1867. He ventured to America at the age of 22 and studied at Howard University and then Yale University, earning a Ph.D. in philosophy. Upon returning to Japah, he spent ten years participating in the educational program of the Ainu people and later became a lecturer at Kokugakuin University. He died at the age of 79 in 1946. This scholar advanced the theory as early as 1929 that both Jews and Ainu migrated from Israel to ancient Japan. A considerable portion of his book covered this thesis, which was outlined in my first essay, "A Japanese-Jewish Connection," (P.C. Jan. 24-Feb. 6, 1997).

In the following, I summarize the various portions of the book that point

out common features in the two cul-

tures going back to premodern times.

1) On New Year's Day, it is customary for Japaneses to make mochi (rice cake) by pounding boiled rice and offering it at the family altar, decorating the front entrance of the house with pine tree branches bound with thick straw ropes with paper tufts, and drinking sweet sake wine (toso). On the seventh day, they remove the pine branches and eat a stew made up of rice and seven different borth veretables.

seven different herb vegetables.

A similar custom is featured during Jewish Passover festivities. Some might disagree by saying that Passover falls in the month of March or April in the modern calendar. However, the Torah refers to the month of Nisan (when Passover occurs) as the first month of the year in the Jewish calendar and makes no reference to a day to be known as New Year's Day. (Ref. "To Be a Jew" by Rabbi Hakim Halevy Donin, page 242)

Japanese simply celebrate with no religious sentiment the coming of an auspicious new year, whereas Jews observe Passover as a solemn ceremony to commemorate the historical event of their exodus from Egypt. They would relive the hardships experienced by their ancestors by eating unleavened bread (matzoh) and bitter herbal vegetables.

etables.

The Torah prohibition against leavened foods goes into effect at the noon of the fourteenth day of Nisan. Incidentally, January 14th was once a widely acclaimed holiday in Japan in ancient times, but the practice gradually ceased to exist, probably, in the spirit of "let bygones be bygones."

2) Both Jews and Japanese pay re-

 Both Jews and Japanese pay re spect to elders. The Jewish community is headed by an elder.

is headed by an elder 3) In both cultures, when they greet each other, they bow their heads many times. If the other person is a highly respected person, one kneels down and bows his head.

bows nis nead.

4) In both cultures, the home is cleaned throughout before a festival. They bathe before attending a shrine.
5) In both cultures, shoes are removed when entering the house. Un-

moved when entering the house. Under certain circumstances, the feet are washed before entering.

6) In both cultures, the garden is made on the sunny side of the house.
7) In both cultures, a brazier (hibachi) and a hearth (ro) fireplace is placed

8) Jewish attire was basically different from that of Europeans, but more similar to Japanese. They used obt (wide sash) and carried a sword tucked in under the obi like the Japanese samurai.

9) Ancient Japanese did not cook rice in the way they do today. They made dumplings out of various grains and put them into a soup. Jews used a similar method to prepare foods.

dumplings out of various grains and put them into a soup. Jews used a similar method to prepare foods.

10) Whenever the Japanese have a banquet, small saké cups (sakazuki) are passed to consume liquor. When the empty cup is passed, one is obliged to fill it and drink. Jews have a similar custom.

11) The Bon festival became a Buddhist ritual after Buddhism was introduced to Japan in 552 A.D. But even before then it had existed as a social function, whereby young, unmarried boys and girls took part in group dancing in search of matrimonial partners. The chorus accompanying the dance yoi, yoi, yoiyana— is said to be of Hebrew origin.

12) There was a custom both in Israel and Japan that in the event a man marries and dies young, his brother takes his place and marries the widow. This was arranged and enforced by their father.

13) In feudal Japan as well as in Israel, in case a man was killed it was his son's duty to avenge and kill the assailant. The authorities tacitly condoned this act of revenge. At times they arranged a match or duel between the two onnonests.

two opponents.

14) It is commonly believed that with
the opening of the Silk Road, the silk
trade of China made its way to the
Western\_world. Ancient Israel literature confirms that as long ago as 3,000
years, silk clothes existed in Israel and
mulberry trees were cultivated for silk
worms. Silk was introduced to Japan in
the Yayoi period. There is a passage in
the Kojiki that Amaterasu-o-mikami

engaged in weaving of silk cloth. It is said that an individual unreeled a silk thread off a cocon by holding it in his mouth. People who brought silk culture were known as the Hata clan. Hata in Japanese and Chin in Chinese are spelled the same, and mean they are Jewish Chinese.

15) There are many similar words in the Hebrew and Japanese languages, particularly in ancient literature. For instance, hara means field in both languages. Forest is more in Hebrew and mori in Japanese. Common women's hames such as Misa, Isa and Tama in Hebrew could be Japanese. Abraham's son Isaac could be Isaku in Japanese. The Hebrew language is written from right to left, and Hebrew books are read from right to left, just as in Japanese.

right to left ain renove woons are read from right to left, just as in Japanese.

16) When Buddhism was introduced to Japan, it swept the whole country like a hurricane. The whole nation was converted to Buddhism practically overnight. Yet it did not bring about any noticeable change in the customs of the people. Only doctrine and teaching came. Previously, Chinese Confucian teaching had been introduced with little or no effect on the Japanese way of life. Officially, Judaism never made a debut in Japan, yet its influence on the Japanese way of life is tremendous and beyond imagination. This success pannot be attained by simply propagating one's gospel. It is only possible if tens of thousands of disciples migrate here en masse and mingle with the local inhabitants. In this respect, we must take into consideration that the Ainu, the original, indigenous people, were also a Semitic people from the Middle East. Religiously they were different, but homogeneous racially.

17) In Israel as well as in Japan, only cypress is used in building a shrine. Peculiarities of construction are similar, having a main building in the interior and the auxiliary building in front; no staircase anywhere inside the building; instead, gradually elevated hallways; presence of torii (two log posts connected with lumber on top) in front, a set of two sitting lions, male and female, carved out of stone (note: lions never lived in Japan).

18) There is a common belief among Jews and Japanese that God lived above the cloud. During the Exodus, Jews followed the direction of God, who was living above the cloud. God told Moses that he lives in the thick of the cloud.

19) Both Jews and Japanese believe that salt has the capacity to disinfect and cleanse. Japanese sumo wrestlers always sprinkle salt over the platform before a match. 20) During the festivals both in Is-

20) During the festivals both in Israel and Japan, about 15 selected young people carry on their shoulder a portable shrine (mikoshi) and take part in the parade marching through the streets. (Mikoshi was carried by the refugees in the Exodus).

The foregoing 20 quotations are outstanding excerpts taken from Dr. Oyabe's book. The original quotations were supplied with elaborate notes indicating the sources. Oyabe studied the Hebrew language at Yale University and was well versed in the classical Hebrew literature including the Old Testament, the Torah, and other ancient literature. The authenticity of his writing cannot be disputed.

A s for historical facts about the Ainu, Dr. Oyabe is most authoritative because he spent ten years engaging in educational work for the Ainu in Hokkaido. To the best of my knowledge, no other scholar ever theorized that the Ainu migrated from the Middle East. I would like to elaborate on this matter further on the basis of his bod.

About 1000 B.C., there were two main groups of Ainus: Ebis and Eso, in the area including Siberia, the Maritime Province (eastern Siberia facing the Japan Sea), eastern Manchuria, northern Korea and western Japan. Ebis originally migrated from the Ebus area of Israel and Eso from the Edom

There was another group called Orochi, an aggressive group in Siberia, disrupting peace among the immigrants. Ashnazuchi, chief of the Ebis, asked Susano-on-mikoto to subdue the troublesome Orochi. Susano-on-omikoto raised an army and wiped the Orochi out. As a result, he was allowed to marry the chief's daughter and became the chief of both Ebis and Eso, so goes the story.

There are conflicting reports about Susano-ono-mikoto's identity and performance. He was the brother of Amaterasu-o-mikami, the legendary founder of the Japanese race, and was the king of Susa in theMiddle East. There exists an artist's sketch of Susano-ono-mikoto, whose face and attire are made to resemble an Israelite rare made to resemble an Israelite.

This case suggests that high-rank-ing Israelites readily married Ainus or Orientals. It would seem that Abraham's teaching of racial purity was modified considerably in the course of hundreds of years of wandering. Thus there was an infusion of races by intermarrying, a policy that might have been forced upon them by necessity. I surmise that the Lost Tribe of Israel lost a considerable number of women in its rank during many years of wander-ing and had to marry outside the group. It has been contended by Western archaeologists that the Yayoi people (Korean, Manchurian, or Israelite) came from the continent and intermarried with the Jomon people (indigenous Ainu), creating the new Yamato race Recently this theory was enhanced immeasurably when the Shihaya-Ropponmatsu cemetery site of the Yayoi period was excavated in Saga Prefec-ture. A total of 39 skeletons were found. Of these, it was determined that the men were of the Yayoi origin (oval face), whereas the women were of Jomon origin (round face), indicating that in earlier days, the Yayoi migrants were bachelors and married local Ainu women after settling down in Japan.
(Ref.: The Rafu Shimpo, 6-8-91).
This policy of racial infusion in the

This policy of racial infusion in the process of conquering other nations became the traditional policy of the Yamato race. For instance, when Japan annexed Korea in 1910/daughters of the Japanese imperial family married into the royal family of Korea. This practice existed in ancient China and also, to some extent, in Western countries.

In the thirteenth century, when Genghis Khan's army overran Europe and the Middle East, it is reported that Israelites in the Diaspora rejoiced, thinking that their lost tribe had finally regained strength and had come back for revenge. This was far-fetched wishful thinking on their part — a cruel joke.

However, according to Dr. Oyabe, the Ainu people might have taken part in Genghis Khan's world-wide expedition. He found many artifacts and heir-

ewish attire was . . . more similar to Japanese. They used obi and car-ried a sword tucked in under the obi like the . . . samurai.

looms in the possession of chieftains that would be trace sion of the Ainu days in Mongolia more than 1000 years

Dr. Oyabe maintains that no man in ancient times ever lived in heaven. He says it is a matter of expression: when you leave Kyoto (the capital), you say "descend" and leave (kudaru); when an imperial family member marries a com-moner, it is said "descend and marry." In Hebrew literature it is mentioned that the prophet Elijah got on a car riage blown up by a gust of wind and ascended to heaven. Dr. Oyabe explains that this is an exaggerated expression, and it simply means that Elijah left for good. According to him, as a matter of and it simply means that Elijah left for good. According to him, as a matter of fact, Elijah and his group left Israel in 896 B.C. and reached Tibet, whence they separated into two groups: one group going down south to Thai and the group going down south to Thai and the other group to Korea. Both groups reached Japan. The former went through Okinawa and Kyushu. They arrived at Japan 200 years before the arrived at Japan 200 years before the first group of the Lost Tribe.

Dr. Oyabe is a down-to-earth man

who tries to interpret worldly affairs in a worldly manner. However, he does a world manner. However, he does not question the realm of God who selected Abraham as the father of God's chosen people or God who handed down the Ten Commandments to Moses. Similarly he does not challenge the long-accepted edict that Japan's imperial ancestors descended from heaven and that successive emperors were di-vine and not human. It was none other vine and not numan. It was none other than General Douglas MacArthur who shattered this centuries-old fallacy. And the ongoing debate will prove once and for all that Japan's mythology was a made-up story of the Jewish colonists. Dr. Zenichiro Oyabe is a great

br. Zenichiro Oyabe is a great scholar. He is a great contemporary historian. Remember the era he lived in: 1867 to 1946, and visualize the massive changes in his environment. It takes a man of vision and courage of his convictions to write what he did

udaism as a religion or as a race is very complex. To make the mat-ter worse, both Jewish and Japa-The worse, both Jewish and Japa-nese authors seemingly attempt to make it even more complex in their presentation. I say this after having read so many books on this subject. The only exception may be this book by Dr. Oyabe. To me, his presentation of the history of Israel was exceptionally con-cise and orderly, which I present in the following.

following:
The history of Judaism can be chronologically divided into seven chap-

1) From 2000 B.C. to 1635 B.C. -

From Abraham to Joseph's demise.
Abraham hailed from Shem, eldest
son of Noah. Engaged in sheep herding
at Haran, Mesopotamia (Note: Haran, at Haran, Mesopotamia (Note: Haran, Tagarma County, is said to be Takamagahara, where Japan's impe-rial ancestors came from). At the age of 75, he led his people to Canaan (Israel). His great-grandson, Joseph, led his people to Egypt. Joseph became prime minister of Egypt, but the Jews were enslaved From 1635 B.C. to 1451 B.C.

After Joseph's demise, discrimina-tion against the Israelites worsened. They were forced to perform hard labor as in the construction of the pyramids Moses led them out of Egypt, but they wandered forty years in the desert, engaging in sheep herding. To keep in line the restless refugees, Moses con-tacted God and issued the Ten Commandments - the beginning of the Jewish religion

 From 1451 B.C. to 1095 B.C.
 After Moses' demise, Joshua, who was second-in-command, took over. For a period of 356 years, he and his succes-sors built the foundation for the coming Jewish kingdom

From 1095 B.C. to 975 B.C. ul became the first king in 1095 B.C., followed by David and Solomon B.C., followed by David and Solomon.
The kingdom covered a huge area extending from the Euphrates in
Mesopotamia to the Nile in Egypt. The
whole world looked up to its leadership in culture and commerce

5) From 975 B.C. to 536 B.C. 5) From 97 B.C. to 536 B.C. After Solomon's demise, the king-dom was split into two: Israel, north, and Judea, south. The northern king-dom went down to defeat at the hands of Assyria in 721 B.C., and the southof Assyria in 721 B.C., and the south-ern kingdom by Babylonia in 586 B.C. The entire population was moved to Babylonia as prisoners of war. 6) From 586 B.C. to 420 B.C. This period is significant in that the

tament was completed. It was compiled by a group of 21 people includ-ing kings, rabbis, prophets, knights and scholars. It covers separate eras and separate regions. It is an authentic record centered around the Jewish

people.
7) From 420 B.C. to 63 B.C.

Israelites released from captivity in Babylonia were busy rebuilding their homeland. But unfortunately they were conquered by Alexander the Great, then by the Egyptians, then by Syrians, and finally by Romans in 63 B.C.

finally by Romans in 63 B.C.

Dr. Oyabe has unreserved praise and compassion for the Jewish people. Individually and collectively, they have shown their capability in contributing for the good of society. Take the case of Joseph. He was sold by his conniving brothers to an Egyptian family as a slave, yet he rose from serfdom to premiership in that country. Or the case of Daniel, who accomplished the case of Daniel, who accomplished the same in the Babylonian kingdom. Many other kingdoms sought the services of the Jewish people: Great Britain, Germany, Holland, the Ottoman Empire... who obtained their services pered, and those who persecuted them went down to defeat. These are historical facts

Dr. Oyabe seems to believe that they are indeed God's chosen people. ■

# Days of World War I Jewish ghetto in Shanghai reca**l**ed

n wake of the award-winning film Schindler's List and wide Nikkei interest in the heroics of Japanese consul general in Lithuania Chiune Sugihara, who ignored his country's order and issued transit visas to Jews fleeing Poland in the summe of 1940, there was an account of "a of 1940, there was an account of 'a Jewish concentration camp in Shanghai" appearing recently in the Los Angeles Jewish commu-nity weekly, Heritage.

What prompted two readers to immediately react was the pitch

related to Heritage founder-col-umnist Herb Brin that a Jewish GI was at Shanghai to "rescue" the Jews from concentration camp. "It remain anonymous for 50 years," Izzy Lias and Ya'acov Liberman Izzy Lias and Ya'saov Liberman expressed, in their rebuttal printed two weeks later. Reason for the "well-kept secret of the rescue is simple: It never took place." In presenting their story to Heritage, the two China-born Jews introduced themselves. They had lived a quarter century prewar in

lived a quarter century prewar in Harbin and Shanghai, spent the war years in Shanghai and left for the U.S. and Israel in 1947 and 1948, respectively. They explained

the facts were—
(1) Over 25,000 Jews managed to escape from Germany, Austria and Poland, the latter group at the last moment with transit visas through Japan. Others came di-rectly by boats from Europe. They rectly by boats from Europe. They especially cited the physical, legal and moral help by the tiny Jewish community in Kobe.

(2) The Japanese confined most of the refugees in the Hongkew district for the duration.

district for the duration.

(3) There were no Russian Jews confined in Hongkew. Together with the Sephardim (descendants of Jews who escaped from Spain and Portugal during the Inquisition), they constituted the original Jewish community numbering some 15,000 and dating from the 1890s. Since most of the Russian Jews were stateless, the Japanese did not bother them; however, those bearing U.S. or British passports. bearing U.S. or British passports were confined eventually as "en-emy nationals."

emy nationais."

(4) The European Jews confined in Hongkew were often penniless and placed in difficult conditions. Local Sephardi and Russian Jewish communities assisted them.

(5) It is not true that there were

TOKYO—Prime Minister Ryutam Hashimoto declared to reporters March 27 that it is "a historical fact" that the Ainu minority are Japan's indigenous

no rabbis among the refugees There were a dozen qualified rab-bis, and several Jewish schools and kindergartens in the restricted

(6) There were in Hongkew sev-(6) There were in Hongkew several synagogues, clubs, sports organizations and Zionist groups. There were shops, restaurants and theaters. Despite the confinement and poverty, they built for themselves "a piece of Europe from the deserted and filthy slums of Hongkew."

(7) It was very easy to visit anyone living in the restricted area. one living in the restricted area. However, it was impossible to exit without passes, given out by the Japanese military and under supervision "of a sadist known as Goya." He was feared and despised by all. And he did not "push pregnant women down flights of steps" or did he cause fatal harm to anyone under his jurisdiction. New. anyone under his jurisdiction. Nevertheless, Goya was known to jump on tables, scream at the refugees, cut beards of the rabbis and slap people across the face. The day the war ended, he was mercilessly beaten by some young Jewish men. He was never brought to justice and there were rumors that he was "an American spy" throughout the war. [The Heritage is attempting to learn more about this "Goya," in the meantime.]

(8) No one "liberated the Hongkew Ghetto." On the day of the Emperor's speech of surren-der, the Japanese guards abandoned their posts at the entrance to the Jewish area of Hongkew. All were free to leave. The tragedy of it was in the fact that most of them had no other place to go to; thus, most remained in Hongkew until their final departure from Shang-

While the facts are that there While the facts are that there was no concentration camp in Shanghai, no liberators, nor Russian Jews living in Hongkew, Lias and Liberman said, "There is a beautiful story yet to be told, a story of life, achievements and a unique exodus of three-lewish communities of China — communities of Sephardim, Russian and-European Jews whose lives were joined in an effort to live and survive, bearing testimony to our proud and bearing testimony to our proud and

ollective Jewish heritage." 

(There were also U.S.-born Nisei who were living/stranded in Shanghai during these years.—Ed. Note.)

# Oh? A 'Nikkei' Nobel laureate?

omeone, maybe a sociologist, once observed that Japanese Americans are the only people who identify them-

selves by numbering their generations.

By that he meant that the original immigrant generation was called Issei, or first

generation.
Their offspring, the first American-born Their ofispring, the first American-born generation, are known as Nisei, the second generation, followed by Sansei (third), Yonsei (fourth), and Gosei (fifth).

"fer Sansei things get a little fuzzy, and I'm uncertain as to whether Rokusei (sixth generation) and so on will be identifiable.

generation) and so on will be identifiable. Somewhere along the way, when it became desirable to find a generic term covering all Japanese Americans regardless of generational status, Nikkei came into use. It was adopted by the Japanese American press—it's short, pronounceable and fits into headlines—and is now widely accepted although it confuses some Japanese. What the people of Japan know as Nikkei is the short term for Nihon Keizai Shimbun, the influential exposme daily which holds a position tial economic daily which holds a position like that of *The Wall Street Journal*. The Japanese prefer to know us as Nikkei America-jin, or Nikkei Americans.

All this is a long way of introducing the subject of the day, which is a question raised by Richard M. Ikeda of Chadds Ford, Pa. He by Nichard M. Ikeda of Chadds Ford, Pa. He discovered a headline in the recent Holiday Issue of this publication suggesting it may not be long before some Nikkei scientist is awarded the Nobel Prizē, and he suggested that perhaps this already has happened.

Ikeda brought to my attention that in 1987 the Nobel Prize in chemistry had been 1987 the Nobel Prize in chemistry had been awarded to three scientists, one of whom was Charles J. Pedersen. Depending on the definition one uses, Pedersen might be con-sidered a Nikkei. You be the judge. This is the situation: Ikeda sent me mate-rial which states that Pedersen was born in Dusch Korse, in 1904 of Newrogins, 6 there.

Pusan, Korea, in 1904 of a Norwegian father and a Japanese mother. He received his early education in Japan, first in Nagasaki and later at the French-American school in Yokohama run by the Marianist order of Catholic priests who steered him to the order's University of Dayton in Ohio. He went on to get his master's degree in organic chemistry at the Massachusetts Institute of Technology, joining DuPont's Jackson Laboratory in Deepwater, N.J. in 1927. Half Japanese by blood, he was naturalized as an American citizen in 1953. He was the inven-tor or co-inventor of some 30 patents and as 83 years old when he was r el Laureate for his work in what chem-

ists call macrocyclic polyesters.
Regardless of whether Pedersen can be considered "Nikkei," Richard Ikeda writes: considered "Nikkei," Richard Ikeda writes: "Charles Pedersen made me proud that I was a DuPont scientist and that I shared some common ancestry. Of course, he produced a great piece of science but he also displayed the personal characteristics my father sought to teach me. He was humble, always honest and honorable. At the same times have the residue in his cases for time, he was tenacious in his search for knowledge and willing to work hard and persevere without accolades.

It does not add to Charles Pedersen's stature to be considered a Nikkei. But it would do great hopor to the Nikkei community if, in life, he would have considered himself to be one of us. ■

### 'Speak Only English'

HEN the U.S. Supreme Court declined last month to hear the Arizona case where public employees were required to "speak only English" in doing the public's business, how English has

been and is spoken echoes in our own experience as a WWII GI. It was a tremendous lesson dur-ing basic-training with men from all parts of the country in wide-open Wyoming. Where else in the confines of one company of about 160 men

can you "palaver, reckon and y'awl" with Texans, hear "vig-a (vigor)" and "A-sier (Asia)" from New Englanders and wonder about "da kine" with the Nisei from Hawaii?
What a chattering air it was this Angeleño—
away from Southern California for the first

time.

When you read how English language is
When you read how English has bespoken around the world, English has become "a global phenomenon"—to quote a line from the 1986 PBS series, "Story of English." And we all know learning how to speak comes first. For example: our grandson Joey, who's 21 months old, will point straight at and holler "big truck!" The first Anglo-Saxons were illiterate. The late Charles Kamayatsu used to entertain by reciting some noble lines from Chaucer, and that was "speak only English" that none of us understood, but might "if" you saw it written—a big "if" at that. Spelling of Chaucer's time — 14th century Middle English—is unlike Modern English.

The debate over "English as the official language of the United States government" has been in the implementation — voting And we all know learning how to

language of the United States government" has been in the implementation — voting ballots, government forms, examinations and bilingual education. Our piece here skips that and prefers to wonder about the music of English, about the accents and dialects. Is Scottish English, for instance, a language or a dialect? (I've read where Kanaye Nagasawa, the Samurai Grape King of Fountaingrove, spoke with a Scottish brogue. He was taught in the 1850s in England.)

Which brings us to a journalistic bate of

He was taught in the 1850s in England.)

Which brings us to a journalistic note of English as spoken by the Japanese and renditions sometimes in pidgin. Japan has been borrowing foreign words since the Portuguese landed in the 16th century. We mentioned some in "The Past Millennium" ('96 Holiday Issue) —kasutera, pan and

Headlines in Japanese newspapers ren-der, for instance, inflight, infield, influence (each begins with "inf") in kana as "in-fu-re." "De-mo" often means "demonstration," not democracy.
Occasional columns by Bill Hosokawa have

Occasional columns by Bill Hosokawa have reported fractured Japanese English, sometimes called "Japlish" (or Janglish, to avoid the pejorative syllable). Jin Konomi has a keen ear for Japanese words as spoken and has, thus, engaged himself in a scholarly effort to replace the Hepburg system in spelling Japanese words in romāji—Roman letters. Heoften hears the "I" rather than the "r" and says the "u" is often silent as in "sam rai." Bill Marutani has devoted many a column on Japanese words. Another look at the English language was our reprinting the column on Japanese words. Another look at the English language was our reprinting the "WRA Camp Lexicon," a collection of English as spoken by the Issei and the Japanese used by the Nisei.

We're oversimplifying here, but the English language has been column fodder for many years in the Pee-Cee.

Ever try to phonetically write down how a Nisei who grew up in Terminal Island, Walnut Grove or on a Hawaiian plantation speaks?

Introduced in the U.S. Congress House Joint Resolution 271 authorizing the erection in Washington, D.C., of a memorial to recognize "the sacrifices of American men, women and children of Japanese ancestry who were unjustly categorized, evacuated and interned during World War II, and to their steadfast patriotic support of the United States, its people and government that took their basic rights as Americans without reasonable cause." In so declaring, then-Representative Norman Y. Mineta further stated: "The memorial is a tribute to the indomi-

sentative Norman Y. Mineta further stated:
"The memorial is a tribute to the indomitable spirit of a segment of our citizenry—defined not by themselves but by the government—who (nontheless) remained steadfast in their faith in the democratic system of government and fought for its preservation. It is a celebration of our system of government which demonstrated its strength and dignity by admitting a wrong and correcting

On the Senate side, U.S. Senator Daniel K. Inouye simultaneously introduced a parallel bill, Senate Joint Resolution 161.

THERE THEN REMAINED a major hurdle to approval, namely, clearance by the National Capital Memorial Commission, which is endowed with temipotent authority to approved is approved any and all proposals for construction of monuments in our Nation's capital. Many monument proposals, though clearing both houses of Congress, expire aborning at the Commission

phase of this process. This is attested to by the comparative paucity of memorials in Washington, D.C. Thus, in many respects this Nikkei me-morial will be unprecedented, marking a

contemporary episode in American history for all to reflect upon, presently and, more particularly, for the future.

The Commission considered the Nikkei memorial as being worthy of being enshrined in our Nation's capital.

WHY WASHINGTON D.C.? It was in Washington, D.C., where principal events took place involving all three branches of our Government which forever impacted upon the lives of Nikkei — the Issei and their offspring. First, the Executive Branch on February 19, 1942, issued E.O. 9066 leading up to the uprooting and confinement of the Issei and Nisei residing in the Pacific Coast area. Then the Legislative Branch followed on March 21, 1942, passing a law making it a criminal offense for failure to comply with edicts issued under E.O. 9066. Thirdly, the Judicial Branch handed down decisions in Hirayabashi (1943) and Korematsu (1944) in Hirayabashi (1943) and Korematsu (1944) upholding convictions of two men who defied upholding convictions of two men who defied restrictions imposed based upon one's race. And some 40-plus years later, again it was in Washington, D.C., that the Civil Liberties Act of 1988 was passed whereby our Government acknowledged that a wrong had been inflicted and proceeded to demonstrate its strength and dignity by apologizing and tendering symbolic solatium therefor.

THERE ARE YET other compelling reasons for Washington, D.C., as the universal focus for the Nikkei monument. Our government officials — people who shape and en-force the laws of this land, both presently and in the future —will continue to gather there; foreign embassies from throughout the world are assembled there, where they may be exposed to a facet of American his-tory wherein a democratic system responded affirmatively. Each and every year, literally millions of our fellow Americans, from every nook and cranny of our land, visit our nation's capital, folks who otherwise may not be reached. Each of these groups of people, for centuries to come, will have the opportunity to visit the Nikkei monument — and learn. So that past injustices hopefully will not be repeated and the luster of our system of governance will not again be tarnished.

THE NIKKEI MEMORIAL will not only be a focal point; it will also be the central anchor for each and all other regional and local Nikkei memorials located throughout our land.

It would be hoped that all of America, including particularly the progenitors of the Issei who sacrificed and endured so much, will join in to make this unprecedented me-morial a reality. ■

After leaving the bench, Marutani resumed practicing law in Philadelphia. He writes regularly for the Pacific Citizen.

# Is the 100/442/MIS monument 'controversial?' 'Of course not!'

By DR. FRANK NISHIO (Special to the Pacific Citizen)

AN the title to the Pacific Citizen story (March 21, p. 5), "Nisei VFW Reunion backs controversial monument," be appropriate? Let me say that anything is controversial if there are differing opinions. But should it be? Of course not. From my vie be? Of course not. From my view-point, the answer is a resounding "no." Let me express my view and that of many others. The 100/442/MIS (the Triad) was

the savior of Japanese Americans during and after WWII. They made trossible for us to remain in these United States, the envy of the rest of world. There were two U.S. senate committees trying to devise a plan to depart all of us (se a plan to depart all of us (see Weglyn, Years of Infamy, 190-191). Some might say, that's impossible, but the handling of Japanese Pe-ruvians should be proof enough as to what our democracy can and did

permit.
The Triad's heroic actions and The Triad's heroic actions and accomplishments paved the way for our reintegration into American society, followed by an onslaught of corrective legislation for our benefit against anti-Asian and anti-civil rights laws. Also, those accomplishments are reputed have been instrumental for Hawaiian statehood . . . In my mind, the most elaborate, most impressive and most visible monument cannot be big enough for our grati-tude to them. The one controversy, which pales in contrast to the importance of the successful building of the planned monument, is the listing of KIAs-only versus listing all participants. Let me address that

The East Coast has many states of Civil War and Revolutionary Wargenerals many sculpted riding on their horses. The horses were on their horses. The horses were posed in three ways. Some horses had their two front legs up in a bucking pose. Some had one leg up. And other horses stood with all bucking pose. Some had one leg up. And other horses stood with all four legs on the platform. The dif-ference was explained. A bucking e indicated the General di combat. One leg up meant the General died from complications fol-lowing a wound. Four legs on the platform meant the General died a natural death

Times change and so has the mode of memorials. There probably was an outcry: "Why should only officers and generals be recogwhen many of the others nized when many of the others gave their lives, their supreme sac-rifice?" A most logical American reasoning, it follows that monu-ments today have listed the most deserving—the Killed in Action deserving—the Killed in Action (KIAs). But now we not only eliminated the generals but we eliminated the generals but we liminated the generals but we liminated the generals but we will be a complished. nated the generals but we elimi-nated those who had accomplished, who died later from war wounds, who were blinded, who were amputated, who were paralyzed, and who never talked about their unmany other deserving individuals
Is that equitable?
Going beautiful and the second sec

Going back to monuments list-ing KIAs, the ultimate monument is the Vietnam Wall. We can picture the families, relatives and friends of the KIAs tenderly touch ing the wall, choking back their tears. That is most appropriate. The 100/442/MIS monument will

have a star before 600+ name IA or from other war-related eaths. But in addition, 14,000+ other deserving participants will be listed. No one can argue that there weren't many stalwarts and achievers among the survivors.

And times change. Statues of Napoleon and Grant have given way to those who gave their And appropriately so. Honor Roll for All

But there's another change taking place. In many small towns USA, they're erecting Honor Rolls naming all who served. Many who feel that serving our

Many who teel that serving our country is a natural duty and doesn't need recognition have a good point. Some of us poo-pool the idea of receiving a medal or a citation. Some of us are not osten-

Does not wearing our ribbons make us any less accomplished?
No. But should we deny the recognition for others? Does talking about our actions make us any less loyal or more ostentatious? I think

At the same time, if it weren't for the living to recognize the wardead, their stories would never have been told. If it weren't for the accomplishments themselves, the medals and stories of the selfless efforts would never exist.

And accomplishments of the Triad were extensive. The members of the Triad, who as a unit broke records on all fronts, by consistently conquering what others could not, and by accomplishing innovative plans and procedures deserve the largest and most im-pressive monument. A shrine to our outstanding warriors.

In the old days, people who accomplished tried to be modest and not publicize. Today, it's different.

Public relations firms have taken over and they publicize, publicize, publicize, even little accomplishments, if one has the connections. So today, it's also conn

nections, connections.

In Washington they call it lob-In Washington they call it lob-bying and campaign funds. Which also become numbers, numbers, numbers, numbers of supporters, of dollars, of industries, of dissemi-nators. How does that relate to the monument? You guessed it. The more names on the monument, the ore people come to touch and say,

more people come to touch and say, 
"That's my grandpa, greatgrandpa, great-grandpa."

The greater the number, the 
greater the publicity, the greater 
the connections and the greater 
the legacy. The legacy is Kodomo 
no tame ni—for sake of the children. The Triad's accomplishments 
have overflowed to our cousine in have overflowed to our cousins in Asia. Without the MIS endeavors after the war, the Allied Occupabenevolent. The ripples of the Triad's waves reached far.

Triad's waves reached far Without the Nisei's acco ments Mr. Morita, Sony's Chair-man said, Japan's industrial and ercial acceptance in the USA would have been stymied. His observations are astute. Probably, the acceptance of Asians was enhanced by the Triad also.

There is never equality to satisfy veryone. But let us recognize our indebtedness to all our saviors

It behooves us to bury our minor differences and give credit and reognition to the deserved. Let's all unite to give a resounding recognition to our valorous saviors.

Nisei tend to in-fight. Let's fight our real adversaries. They're out

A retired optometrist and an MIS veteran, Frank Nishio writes from Fresno. This monument coming up in Little Tokyo is being hailed as the "Go For Broke" monument.

### Letters

### Michi Weglyn's jûsho

I am trying to find am address to send a letter to Michi Weglyn. My mother read an article that she wrote in the Pacific Citizen. After reading the article (Feb. 21, p. 9, Redress plea made for Japanese American railroaders, et al.), how-ever, she is in need of an address. Can you help?

David Shimizu

shimizud@stripe.colorado.edu Michi Nishiura Weglyn, 957 Park Ave., New York NY 10028-0317. It's not P.C.'s practice to publish addresses, but she is anxious to hear from people about this issue.

### P.C. Wish List

Dear Harry: Your column (April 7-17) about the "P.C. Wish List" prompted me to write a check for the cause. We enjoyed the latest issue Pacific Citizen as well.

Marilyn Fordney

Ventura County JACL The "we" includes her husband, Alan; both longtime JACLers. Marilyn's uncle, Ambrose Uchi-yamada of Maine, was a Maryknoll School (Los Angeles) buddy of the late Larry Tajiri, wartime editor the P.C., and later Denver Po entertainment editor through the '50s and mid-'60s.

REDRESS FOR RAILROADERS:

By MICHI N. WEGLYN

The operative document in the ase of the railroad workers (see case of the railroad workers (see P.C. 2/21-3/6) comes down to the "delimitation agreement" adopted rope, whereby the close monitoring of "developments affecting criti-cal points of transportation ... syswas made the exlusive prov-

Almost immediately following Pearl Harbor, railroad officials' distrust of Japanese employees ro sharply, but Hoover's Special Agents counseled them to keep ir cool, for the FBI had alread had their lists from which arrests

was in comple

My 442nd buddies

I hope in the future when a 442nd member is posted in your Obituar-ies, you would also print the "company," too. We haven't see these people in 50 years or so and also some members have the same name. I was in the 442nd "origiand two distant cousins took hasic with me finl Alaska. I was in Co. L, 2nd platoon, 1st squad.

Ernie Hiratsuka (Co.L, 442nd) San Jose

A good suggestion: when newsletters come from 442nd Clubs in Honolulu and Los Angeles, we shall check their "Taps" column for the information.

### Keep it up, Natsuko

Without Natsuko Irei (Feb. 21-March 6 P.C.), a JACL convention will not be a JACL convention. She's the one who greets you with a big smile and a handshake. Of course, she sells you a raffle book but nevertheless she always greets you like a fast friend. Keep it up, Natsuko

Her chapter should recommend her for the JACL Ruby Pin.

Dr. Frank Sakamoto

JACL Membership Development chair, Cherry Hill Village, Colo.

Agreement by Naval/Army intelligence with FBI cited

"delimitation agreement" adopted by Naval and Army Intelligence and the FBI. This vital agreement had been reached following the outbreak of World War II in Euince of the FBI.

could be made.

On December 10 the President of the Union Pacific had been ad-vised by G-2 of Headquarters Seventh Corps Area not to dismiss Japanese but, "where suspicion of certain individuals justifies, report should be made immediately to the nearest office of the FBI." There was no question which government agency was in complete charge of our nation's transportation net-work—the FBI.

Specific instructions to railroad officials entailed the strict observance of government instructions

regarding the Japanese, which in-cluded the maintaining of careful watch of each worker, who was to be placed on work where opportu-nity for sabotage would be negli-gible. Also, no Japanese employees were to "leave the vicinity of their employment." oyment

Since railroad officials were Since railroad officials were keenly aware of their responsibil-ity to observe government instruc-tions, how could the railroads have summarily fired all the Nikkei and have ordered their mass migration away from "the vicinity of their employment" without J. Edgar

Hoover's prior approval?

A February 13 letter to Hoover from President W. M. Jeffers of the from President W. M. Jeffers of the Union Pacific, explaining his in-tentions to proceed with the mass layoffs "providing they have the permission of the Federal or State authorizations are a second authorization to move," proves con-clusively that officials had sought (and had received) the government's go-ahead.

Only one redress check has been only one redress check has been sent an individual in the railroad worker category. The awarding of the rest, who are eligible, should now be mandatory.

The well-known author, Michi Nishiura Weglyn, writes fro

# Abandoned belongings

M y good friend Bob Stoneham and I talk a lot about things. In particular, we often focus on cultural diversity and upward mobility issues. We discuss the pros and cons of various methods

and cons of various methods.

Bob's really lost interest in the methods of the sixties. They were an adolescent's first attempts at self-assertion. We chanted slogans, waved banners, staged media-grab-bing demonstrations. We were im-bued with romantic idealism. The problem was, emotions aside, we had no structured, well adminis-tered plan for achieving those adolescent visions. Another problem was that we were naively simplis-tic in our perceptions of ourselves and of mainstream society. We were the victims and they were the op-pressors, pure and simple. If only things were really that simple. One of the hardest issues to ad-

dress is our own failings and de ciencies. Those who commit hate crimes are unpleasant to deal with crimes are unpleasant to deal with yet they are strangely easy to handle. They are easy because they enable us to preserve our cher-ished self-image as the good guys wearing white hats. When we look at our own self-defeating tenden-cies, we feel far less comfortable.

Bob is cross cultural. He grew up African American and poor in Watts. Neither one of his parents graduated from high school. Today he's living the American Dream. He holds a graduate school degree, a university administrative posi-tion, and lives in a beautiful suburban home

Bob's no Uncle Tom. He's not afraid of challenging racism and has been known to be bluntly con-

montational.

But he's this way only when the problem is truly with White main-stream society. I've seen him get equally angry at problems which are due to Blacks, when we are dealing with our own Enemy Within.

I've heard Bob out on this topic I've heard Bob out on this topic so often I could go on for hours describing his beef list about his own people. About the over-emphasis Blacks place on worshipping Black athlete heroes, while neglecting their school studies. About Black on Black crime, the high rate of Black children born out of wedded, and so forth wedlock, and so forth

I understand his frustrations very well. I feel the same way about Japanese Americans. Like Bob, I have a sentimental thing about my race and culture. Like Bob, I've also gotten so angry at some of our also gotten so angry at some of our own self-defeating tendencies. Too many of us assimilated indiscrimi-nately, without thinking. We have a growing white collar crime rate, our strong family system is break-ing down, our rate of coronary deaths is going up, we are seeing more problems with debt and credit, more and more shibai, and

a disturbing lessening of respect for the elderly.

This last item is especially some for me because I'm working through my own midlife crisis. All the classic WASP-style symptoms are there. For the first symptoms are there. For the first time, I'm starting to realize, on a visceral gut level, that I won't be around forever. I'm dogged by a sense that time is running out, sense that time is running out, that if there's anything I want to do I must do it now. My health is excellent for a person in my age bracket, but it won't be good forever. Someday I, too, will be one of these advantagements. those sad nursing home cases. Th those sad nursing nome cases. I hat day is still many years away, but it will come. And I am angry when I realize that my final years won't be what they could have been, had we retained more of our culture. I wish our acculturation process

had been more bilateral, rather than the unilateral flow where we go their way but they don't go our way. Whites should have become re like us in some ways. So many WASP baby boomers, like me, are beginning to look at the dismal state of the elderly which White society has waiting for them. Whites could have bettered themselves by becoming more like us.

In my incoming JACL president's remarks, I stated that Manzanar was not of our choosing. For so many years, our actions were dictated by bad things imposed on us

I went on to state that today, we are reaping the success of our evo-lutionary process, so our destina-tion, this time, is not Manzanar.

It's of our own choosing.

We can no longer blame White society for all our misfortunes. Because we are the ones making our choices, our bad destinations are of our own making.

I've read with great sadness sto-es of abandoned belongings, ashed in the Evacuation following E.O. 9066. Today, as we ride off to some new destination in the 21st century, we are abandoning be-longings again. We are trashing things we should cherish. This time, ashing is of our own choosing.

I still stand by the Japanese American community. I'm commit-ted to us in spite of our stupidities, not because of them. I remain committed because the Japanese American experience is so inextricably a part of my own personal history. But I'm weary of watching our own bad decisions

I really understand how Bob Stoneham feels. African Americans will always be his people, and he'll always feel that low-key warmth ut Black America.

I'll always want to serve the Japanese American community. Our cultures will always be the people we love, but they will also always be a source of pain and anger.

Bob Stoneham works for Cali-

### JA Korean War vets keep memorial honor roll open for CD-ROM

LOS ANGELES-Memorial Booklet Chairman Norio Uyematsu has issued a plea to relatives, friends and the general pub lic for names of Americans of Japanese ancestry who served in the nation's armed forces from 1950 to 1953 and have since passed away or died while in the service. These names will be listed on the

Memorial Honor Roll page in the booklet, Uyematsu stressed. The honor roll page is for names of all Korean War Era veterans, regardless of the location of their service.

The Memorial Wall will list those with Japanese surnames who died in Korea during the war; the honor

roll page will include names of de-ceased servicemen of Japanese ancestry and of mixed Japanese heritage who served during 1950-

Uyematsu further stated, "All the names being received after the benquet publication deadline (April 15) will be entered in our planned CD-ROM for placement in Japanese American museums and hisness American museums and his-torical societies throughout the country." (A questionnaire form was published a fortnight ago in the Pacific Citizen.) Further infor-mation: Robert M. Wada, days (714) 992-5461; fax: JAKWV, (714) 525-

### Hawaii crime a topic in Japan; time to clean up, says official

HONOLULU—Two TV programs in Japan highlighted Hawaii's drug problems and crimes against tourists during January, and they became a public issue that concerns the president of the Hawaii Hotel Association, Murray

Hawaii Hotel Association, muring Towili.

The first show, "Japanese Tourist: 24 Hours with the Honolulu Police," aired on TBS Network; the second, "Japanese Are Targeted: the Hawaii You Don't Know About," appeared on, cable TV, showing prostitutes in Waikiki being arrested and a Japanese tourist being dragged down the street during a purse snatching. "The coming a purse snatching. "The com-munity needs to address these problems," Towili told the Honolulu

lems," Towli told the Honolulu Advertiser. In 1994, the most recent year with available data, there were 5,536 crimes against the 4.6 mill-lion tourists who visited Oahu. Figures also show Japanese tourists contributed \$3.7 billion to Hawaii's

\$11-billion visitor industry.
Japanese Consul General
Kishichiro Amae last October warned that vigorous action must be taken "immediately," after a gunpoint robbery of Japanese tour-ists at the Sheraton Makaha Resort and Country Club. He told the Advertiser editors that "1997 should be the year to combat crime in Hawaii." —Alan Beekman ■

### IN MEMORIAM:

### Lyn Crost, 80: chronicler of Nisei MIS in action.

WASHINGTON—Lyn Crost, author of Honor by Fire, the story of Japanese Americans during World War II in Military Intelli-gence, died April 7 of a brain tu-

nor.

In 1944, she was the Associated Press correspondent in Washington who had interviewed Joseph Farrington, territorial delegate to Congress and publisher of the Honolulu Star-Bulletin, who was con-cerned about the casualties taken by Hawaii's soldiers in Europe. She then was hired by his paper to cover the 100th/442nd—Hawaii's

men fighting in Europe.
After the war, she was the Star
Bulletin's correspondent in Washington and, during the Eisenhower administration, a White House special assistant.

special assistant.

In the 1990s, while trade disputes were fanning anti-Japanese prejudice in the U.S., Crost decided to research and tell the story of the Nisei role on the other war front, in the Pacific, which was

Raised in Hartford, Conn., Crost was graduated from Brown University. She visited her aunt in Hawaii prewar, landed a job with the Star-Bulletin, and later switched to the Honolulu Adver-Switched to the Honolatt Ander-tiser. Her career is recalled at the Smithsonian's display on Japanese Americans, "A More Perfect Union," at the National Museum of American History.

### T. Terry Havashi, 75; professor of medicine at Pitt

PITTSBURGH-Sacramento born T. Terry Hayashi, MD, died Feb. 7 at his O'Hara home, about a year and half after he retired in June 1995 from the University of Pittsburgh School of Medicine, where he chaired the obstetric and gynecology department at Magee-Womens Hospital and the Pitt Medical School from 1974-1988. He remained a professor at Pitt until his retirement.

Hayashi was in his junior year at Berkeley in '42 when his family was evacuated to Tule Lake. With was evacuated to Tule Lake. With help of the Quakers, he was able to continue his studies at Temple University. He received his medi-cal degree in '48, served for two years with the Army in Germany and returned to Temple for his residency in Oh/Gyn before joining the Pitt medical school faculty in '55 and becoming tenured as professor in 1965.

fessor in 1965.

One of many doctors trained by Hayashi, Dr. James Harger, professor of Ob/Gyn and reproductive sciences at Pitt, said his mentor

students who are Americans

was the personification of humil-ity: "He wasn't in his field for the prestige but for the ideal of trying to make the specialty more scien-tific rather than the old mechani-cal art of catching babies."

Harger added, "The whole thrust

of Terry's tenure as chairman was to make the department more academic, more research-oriented, to make its place among the top medical schools in the country." Among the leadership positions he held included chairman of the American Board of Obstetrics and Gyne logy, Society for Gynecologic In-stigation, and National Institute of Child Health.

He is survived by wife of 43 years Ursula, William (Denver), Peter (Boston), James (Quincy, Ill.), Rob-ert (Amherst, Mass.), daughter Ann (Maui), sister Florence Ishibashi

(Chicago), and 6 gc.
The Hayashis of Sacramento are
well-known to JACL old-timers. A nephew, David Hayashi of Minne-apolis, is currently National JACL treasurer-secretary.

### Nisei churchman's 46 years hailed

CHICAGO—As an Episcopal priest active in human rights and peace work for 46 years, the Rev. S. Michael Yasutake was hon-ored at an Evening in Tribute din-ner last Nov. 9 at the Chicago Temple attended by some 250 people. Proceeds of \$2,500 from this event went to support the work of the Puerto Rican Cultural Center. Representatives from various

organizations paid tribute, and a slide presentation of Yasatuke's life was shown. Also Included were letters of appreciation from prisoners to Yasutake, who is director of Interfaith Prisoners of Conscience Project (IPOC), for having visited them and for continuing to mobi-lize support for their release. ICOP keeps in contact with some 100 "prisoners of conscience in that they chose to resist and oppose injus-

(An appeal for contribution support was made in January by ICOP, 2120 Lincoln St., Evanston, IL 60201. Chairing the IPOC Board is the Rev. C. Nozomi Ikuta. United Church of Christ Liberat Ministries, Cleveland, Ohio.)

### CENSUS (Continued from page 1)

nese and Japanese as separate categories in 1870. American Indians were listed from 1890.

In 1990, the Census Bureau questionnaire included 14 categories for race: white, black, American Indian, Eskimo, Aleut, Chinese, Filipino, Japanese, Asian Indian, Korean, Vietnamese, Ha-waiian, Samoan, Guamanian and "other API," and space to write in the name of race.
The Census Bureau tabulated

the write-in responses showing numbers for 16 more API catego-ries: Cambodian, Hmong, Laotian, Thai, Bangladeshi, Burmese, Indonesia, Malayan, Okinawan, Pa-kistani, Sri Lankan, Tongan, Ta-hitian, Northern Mariana Islander,

Palauan and Fujian.
The other "other race (not API)"
was directed at the Spanish/Hispanic ligin people who would write

in Mexican, Cuban, Puerto Rican. Spanish, Spanish American, Hispano or Latino.

Concept of race as used by the Census Bureau reflects "self-iden-Census Bureau reliects self-luen-tification"—not a scientific descrip-tion but self-classification by which people would choose the race with

which they most closely identify.

The National JACL Board voted (April 4-1Z-P.C., page 1) to investigate the ramifications of this debate with the UC, Berkeley, campus-based Hapa Issues Forum.

pus-based riapa issues rorum.
Debate over the new category
underscores what some demographers call a "silent explosion" in
the number of multi-racial people
in the United States. Between 1960 and 1990, the number of interracial marriages ballooned from 150,000 to more than 1.1 million, according to census figures. And the number of children of interra-cial families leaped from 460,300 in 1970 to more than 1.9 billion by

### **PROP 209**

(Continued from page 1)

public schools to recruitment drives to bring more women and minorities into police, fire, and other public service agencies

The appellate panel's decision seems to be based more on politics than the law. According to leading constitutional scholar and USC law professor Erwin Chemerinsky, the professor Erwin Chemerinsky, the appellate decision is "enormously troubling because it is so at odds with the law. Three very conserva-tive judges obviously were deter-mined to uphold the anti-affirmative action initiative and were not about to let the law, procedural or substantive, get in their way."

Moreover, the appellate judges were sharply critical of "a system that permits one judge to block . . . what 4,736,180 state residents voted to enact." Our legal system, how-ever, is supposed to protect the constitutional rights of minorities from the excesses of majority rule.

Just as the courts failed to protect the constitutional rights of Japanese Americans from widespread prejudice and wartime hysteria during World War II, so the appellate panel failed to protect the rights of women and minorities from the majority who

voted for Prop. 209.

Prop. 209 will not be enforced for at least a few more weeks. The ACLU and other legal groups are working on their counterattack, and the initiative is expected to be appealed eventually to the U.S. Sureme Court.
In the meantime, what can we do

to defend affirmative action?

We should remember that regard-less of Prop. 209's constitutionality, many affirmative action programs in California continue to be legal and worthy of support. For example, all affirmative action efforts in the

private sector remain intact. Major corporations like IBM, Xerox, Chev-ron, and Pacific Telesis continue to recognize affirmative action as good business policy because they un-derstand that a diverse workforce is necessary to be competitive in diverse domestic markets and the global economy. We should also remember that as state and local governments throughout California governments throughout California evaluate how to comply with Prop-209, the choices that they make will vary depending on their political philosophies. Berkeley, for exphilosophies. Berkeley, for ex-ample, plans to be aggressive in defending their existing programs. Others may be more willing to over-haul their policies. We need to pro-test as Governor Wilson and other officials begin dismantling affirmative action program

Finally, we should be prepared to fight attacks on affirmative action in states across the country and in ress. Ward Connerly, Prop. leading spokesperson, has taken his cause to the rest of the country by founding a national orga-nization called the "American Civil Rights Institute." Activists are exploring 209-type initiatives in as many as 10 states, including Wash ington, Oregon, Colorado, and Florida.

Affirmative action is not dead. JACL chapters and members across the country need to rise up to meet the challenge.

### Prop. 209: Its background

### Historical origins of Affirmative Action

Affirmative action policies be-gan in the 1950's and 1960's, when the civil rights movement called national attention to the racism and inequality of American soci ety. One outcome of this struggle for equality was the Civil Rights Act of 1964, which officially barred gender. In 1965, President Lyndon B. Johnson issued B. gender. In 1905, President Lyndon
B. Johnson issued Executive Order 11246 that required federal
agencies to take "affirmative action" to expand employment opportunities for people of color. President Bill Clinton has repeatedly stated his support for affirmative action policies

forms of state-sponsored affirma-tive action not required by federal aw. The Legislative Analyst has oncluded that Prop. 209 will do the following:

- Prohibit government agencies from targeting recruitment efforts at minorities or women even if such efforts do not give these groups an advantage in the actual selection
- Prop. 209 would eliminate over 25 public contracting programs that benefit Asian Pacific Ameri-cans, as well as the state civil service affirmative action program that has helped Asian Pacific Americans break through the glass ceiling in numerous government
- It would wipe out numerous programs that promote increasing the number of Asian Pacific Americans who become graduate stu-dents and teachers. It would also forbid the government from taking race into consideration in awardloss of millions of dollars to Asian Pacific Americans students each year. ing financial aid, resulting in the
