 SAN -FRANCISCO—The Nat-ional JACL Board and staff, at its Aug. 8-10 meeting, passed on 19 Aug. b) to meeting, passed of 19 motions and received many com-mittee reports, which *The Pacific Citizen* will cover in the next issue. The JACL-Legislative (Educa-tion Committee has undertaken a

project to tell the story of JACL's role in the campaign for redress. LEC members led by Jerry Enomoto, chair, presented the

proposal. The LEC plans to write a docu-mentary book on personalities. from the grassroots and up, and the events that led up to the Civil Liberties Act of 1988. Interviews will be conducted and historical documents will be catalogued. A World Wide Web page has al-ready been created and will be upready been created and will be up-dated' throughout the project. Members can view the homepage at www.jaclec.org. The entire pro-posal is projected for \$266,050. The National Board decided to

create an ad hoc committee to take a closer look at the project and present their findings at the November meeting. 1. LEC History Project Made by Rick Uno; seconded by

Redress pleas voiced for Japanese Latin Americans

LOS ANGELES-International LOS ANGELES—International and national, media attention was paid Monday (Aug. 11) upon Campaign for Justice, the plea for Japauese Latin Americane who were kionapped during WWIII, placed in U.S. enemy alien internment camps during World War II and denied a U.S. government apology and \$20,000 from the Civil Libertise Act of 1988. Reporters from the three U.S. TV networks, Japan and local newspa-pers covered the press conference in Little Tokyo called by the JACL, NCRR, and ACLU of Southern California.

A memorable Bi-District meeting plus nostalaja

T was for the Pacific Northwest-Intermountain JACL Bi-District Meeting held in Seattle on the weekend of the 19th and 20th of July that I first chartered a bus, then downgraded to a van when I had only seven sign-ups. I lost two when I canceled the bus, and then Three more went to a minivan. cancellations made flying the pre-

ferred mode of trav It's tough to get JACLers on a bus JACLERS on a bus for an extended period with such good show and air-lines like South-west Air serving us in the Intermoun-

tain region. The Intermoun-tain District Council (IDC) chapters are located in Utah, Idaho, and eastern Oregon. The idea was to pick up JACL members in these states and take a two-day bus ride to Seattle to to participate in the Bi-District with the Pacific Northwest District Council The trade-off was a one-hour flight from Boise or a 1-1/2

Boise or a 1-1/2 hour flight from Salt Lake City. Everyone chose to fly. Bi-District meetings between the PNWDC and the IDC are always a great opportunity to interact with our JACL brethren in the cool Pacific Northwest, and meeting in Seattle in the middle of the summer was a special treat for me. 1 was born and raised in Seattle but left 29 years ago and now reside in Sandy, Utah, a bedroom community south of Salt

Lake City. Saturday and Sunday were perfect days, with clear sunny days and temperatures in the 70s. One of the attractions was the Seattle Buddhist Church Obon. The Tokita clan, dressed in similar kimono and happi coats, were dancing in a group and in memory of Shiz

Hashimoto, my older sister, who died the day after last Christmas. On Sunday, during our joint meeting, I became reacquainted with Ed Hirota, who joined with the JACL that day. We were close friends from our junior high school years and were part of a large population of Japanese Amer-icans: who commuted to truck icans who commuted to truck

It was an exercise in nostalgia—in the 1950s, I deliv-ered the Hokubei Hochi to the very hotels and businesses which were in the tour. It was a terrific, nostalgic, and memorable weekend.

oin the celebration of JACL pride at the JACL Pacific Southwest District Awards Dinner on Saturday, Sept. 20, at the Torrance Marriott Hotel in Torrance, Calif. Come see old friends, make new friends, and celebrate the accomplishments of JACL chapters and members dur-

With the theme, "Remembering Our Past, Empowering Our Future," the dinner will feature keynote addresses by California Assemblymen Mike Honda (D-San Jose) and Nao Takasugi (R-Oxnard)_both former JACL chapter presidents and longtime members. JACL is also honoring Stewart Kwoh, Executive Director of the Asian Pacific American Legal Cen-ter, as one of the leading Asian American civil rights advocates in the nation

One of the dinner's special high lights will be the presentation of a JACL Service Award to Dr. Roy and Alice Nishikawa for over 110 years of combined dedicated service to JACL. Several longtime JACLers advised me that if anyone deserves an award for lifetime service, it's the Nishikawas

Celebrate 'JACL pride' at Sept. 20 banquet

Other than to have a good time, two reasons. The first is to raise JACL's visibility with elected officials and the community at large. We need to have a JACL show of force, to remind elected officials that JACL is still the nation's largest membership-based Asian Ameri-can organization in the country, with many accomplishments and programs to be proud of. The second is to raise funds for

JACL youth programs. Dinner pro-ceeds will support JACL chapter and district efforts to recruit more JACL young adults and students. JACL programs targeting young adults include the biennial National JACL Youth and Student Council Conference, the JACL Pacific Southwest District Youth Outreach Committee, as well as joint activi-ties between local JACL chapters

why does JACL need money for youth programs? The need for more young people in JACL is urgent. There are several JACL chapters in the PSWD that are struggling to find young people to take over chapter leadership. With a JACL PSWD fund for

youth programs, the District Coun-cil can decide on the best way to

use the funds to recruit more young JACLers. One proposal is to hire a youth program developer to work with chapters to organize youth programs and outreach to college campuses.

Another is to have a District fund to support national, district, and chapter programs targeting youth. The final decision will rest with the chapters, through the District Council

The dinner committe Carol Kawamoto of San Diego ACL, has been working hard to make this dinner a success. National JACL President Helen Kawagoe is leading the charge to table and calling on her many friends. Irene and Fred Hoshiyama of Venice-Culver JACL are supof venice-cuiver JACL are sup-porting JACL youth by sponsoring a table for the National JACL Youth Council. Tickets are \$75 for JACL members and others affiliated with non-profit community groups. Regular admission is \$100. For dinner reservations, invitations, directions, or other information, call (213) 626-4471.

dent Representative Nicole Inouye tended the Chicago Tri-District. While 84 of JACL's 112 national

chapters are located in the states of California, Oregon, and Wash-ington, there's a tendency to place a great deal of importance on e West Coast regions, said th Midwest District Regional Director Bill Yoshino. But "if the organiza-tion is going to be an organization on a national basis, if you're look-ing to impact legislation, it makes the MDC, EDC, and the MPDC important." hat's because

very important." That's because even though only 8 percient of JACL's member-ship is in the Midwest district, there are 91 United States Representa-tives from this region alone com-pared to the 66 Representatives from California, Oregon, and Whebiasthe combined

pared to the 66 Hepresentatives from California, Oregon, and Washington combined. For Washington, D.C., represen-tative Bob Sakaniwa, all of the or-ganization's 112 chapters are an important link in the political loop he lobbies and advocates fo the issues and concerns of JACL And as an increasing number of politicians are preferring to deal only with their own constituents, said Sakaniwa, the importance of having a local chapter in a particu-lar region becomes vital. "To the extent that I can work

with these people, it greatly enhances [JACL's] ability to get our message across," said Sakaniwa. Our voice is there.

"Curvace is there. "Coming out to the Chicago Tri-District reminds me of our true strength," he said, "that we are a national organization." Delegates from the MDC, EDC, and MPDC were more than im-pressed with the high attendance of the national board. "It gives the delegates the sense that the offic-ers care about all the districts and arent' sensitive to only the West Coast chapters," said Yoshino.

That they do care what chapters are doing out here." When the Chicago Chapter learned there would be national board and staff at the Tri-District they welcomed the opportunity to host the conference, said Chicago host the conference, said Chicago JACL president Cynthia Sakoda Scott. "This is the first time I've seen interest by the national board on a local level," said Scott, who's serving her second term as presi-dent. "It gives us the impression that they really are concerned with

our concerns in the local area." In the past, chapters on the East Coast, have often found themselves voting for national board candidates they didn't know, said Cincinnati JACL president Marie Matsunami. And "I think a lot of the thoughts and feelings were from the West Coast," she said. But "our problems here are totally unique."

Not only is membership signifi-cantly lower in the MDC, EDC, and MPDC chapters compared to the West Coast, they're spread across a much larger area. So to effec-tively deal with the various issues concerning JACL, chapters often will work together with various coalition groups more so than their counterparts in the west. And the counterparts in the west. And the methods used to recruit youth members have to be customized to regions where there are very few AA student groups and where the few students who do live in the created the leave for colleges. area often leave for colleges throughout the U.S.

"We are different because we are," said MPDC Governor Emilie Kutsuma. Because there are very few JAs living in the Mountain Plains area, when they deal with racial issues, they deal with all ethnic minorities, not only AAs, she said. And when chapter's hold fund-raising events, the selection of a speaker who's relevant to the entire community becomes critical if enough money is to be raised.

sues and concerns is different on the East Coast, said Ron Uba, président of the New York Chapter. "On the West Coast there're more

Nikkei so you don't want to cross those politically correct barriers," he said. "But out here people aren't afraid to take on challenges aren't afraid to take on challenges because we won't see these peo-ple for long periods of time." And, he said, there's also the under-standing that "we're creating something for the community and we have to take the pain that sometimes goes with it." During the four-day conference the national ,board officers ad-dressed the districts individually and answered questions from the

and answered questions from the chapter 'delegates during a Tries during a rict meeting.

"We're in much better financial shape than we've been in the past," said treasurer Hayashi. "The investment portfolios have per-formed very well." For the six investment portrollos have per-formed very well." For the six months ending June 30, JACL has a surplus of \$143,000, he said. And in 1997 the realized capital gains of the endowment funds was more than \$550,000.

"If you have a suggestion or problem, we're here to help you," said Shiba, vice-president of mem-bership. "We (the National Board) were elected by the National Council so we figure we should be finding out what you want us to do.

Chapters should have started receiving their monthly member-ship updates, said Shiba, and membership renewals are also being sent out on a consistent basis. Currently, JACL is looking into new membership benefits

Hiva-soba

OOKING BACK to my growing-up days in a farm community in the ic Northwest, I would Pacific Northwest have thought that table manners discipline (such as they might be) would have been relaxed and not have priority for my Issei mother. Not so. Under her scrutiny, before I completed an evening meal, my cha-wan (rice-bowl) had to be clean—not a single grain was allowed to be left behind. As a matter of fact, no leftovers were allowed on your plate; whatever you la-dled for yourself, you ate. Every bit of it.

THAT WASN'T ALL: there was more. No elbows on the table when eating. Being tired after putting in a full days work in the fields was no excuse. And, oh yes, no slouching at the dinner table; sit up straight. And the *hashi* (chopsticks) were not to be held too close to the tip; be held too close to the tp; somewhere just above the midway point seemed appro-priate. And when partaking of the miso-soup, or a bowl of udon (noodles), or finishing up with ocha-zuke (hot tea poured over the rice), no slurping. And no stuffing of the mouth such as to cause war checks to nuff out (and your cheeks to puff out, and no talking with food in your mouth. No picking of teeth at the table. Much of this may sound quite familiar to you Nisei.

The rules were strict, not unlike some military cadet school.

THIS REMINISCING THIS REMINISCING was triggered as I was com-pleting an evening Japanese meal prepared by the Lady of the House. In keeping with the heat spell we've been ex-periencing in these parts, she had appropriately prepared a light meal of *hiya-soba* (chilled buckwheat noodles) which are dimed into a cold which are dipped into a cold sauce to be eaten. In consum-ing the noodles, that early training still controlled: no slurping and no bulging of the cheeks. As a youngster, I was under the impression that the Japanese minded their gyó-gi (manners, eti-quette) so that, for example, when the Japanese con-sumed noodles, they did not slurp or-to put it crudely-suck up the noodles.

By Bill Marutani

I discovered that this is a myth.

ON MY FIRST post-war visit to Japan as a civilian, I discovered a noodle shop anscovered a noole snop near the Ginza that served one of the best *nabe-yaki* noolles ever. (Whenever I'm in Tokyo, I seek this joint; the other "must do" is experienc-ing the treat of a haircut by a Ignonece, berber]. Anywey Japanese barber.) Anyway, as I'm consuming my bowl of noodles (noiselessly) the *tei*nei (polite) way that had been drilled into me, the indigenous folks seated around me are-slurping! And mean *slurping*; good, healthy, uninhibited slurp-

ing! I smiled to myself, "If only my mother were here."

ON THE SUBJECT of table manners, I don't recall receiving Emily Post instructions on western etiquette. I learned a few things the oldfashioned way: by surrepti-tiously observing what oth-ers around me did, which of the the several forks or spoons was first being picked up, for what purpose, and so on. In my freshman year at college, my freshman year at college, I worked as a houseboy at Broadmoor (Seattle) in the household of William F. and Hazel Paddock. There I was instructed on how to set sil-verware on a table, where the water goblets go, from which side (left, or right). plates were to be served, how to iron sheets and shirts with a mangle, and so on. Just about everything ex-

cept how to eat noodles. Just cept how to eat noodles. Just for old times sake, once when I was in Seattle, by automo-bile I sought to visit the Paddock dwelling, but the guard at the entry wouldn't allow me past the gate.

After leaving the bench, Marutani resumed practicing law in Philadelphia. He regular-ly writes for the Pacific Citizen.

He's working closely with "Campaign For Justice," a coalition fighing to get reparations for Japanese Latin Americans interned in the U.S. during WWil, one of the many groups still waiting for their apolo-gy from the U.S. government. "This is the last national board that will see the end of redress."

"This is the last national board that will see the end of redress," said Mayeda. And with the Office or Redress scheduled to close its doors in less than a year (Aug. 10, 1998), "we have a time factor to fight. We need to make sure that

tight. We need to make sure that everything is done to get redress for these people." It's been two months now since the Youth/Student Council's suc-cessful youth conference in Irvine, Calif. The council is now looking towards the national convention in

'98 and thinking about holding a coinciding youth leadership confer-ence and various, workshops. Chapters will soon be receiving the youth membership brochure and the council is also looking into de-veloping a youth/student handboo

From the Frying Pan

A book named 'A Chinaman's Chance'

HINESE began to arrive in the U.S. about a genera-tion or a generation and a half before Japanese. One report has it that there were some 2,000 Chinese in California when the

Gold Rush got under way in 1849. Serious hostility against them began in 1869 when the first transcontinental railroad was completed. Some 10,000 Chinese loyed by the Central Pacific and about an equal number of whites working for the Union ployed and competing for the same jobs. Chinese workmen were welcomed until the jobs ran out, and suddenly they were irable "cheap Asiatic labor."

That led to persecution-there were lynchings in places like Rock Springs, Wyo., and anti-Chinese riots in Denver-and economic and social discrimination all over the West. The insulting Chinese Exclusion Act of 1882 prohibited further entry of Chinese labor. It was during this time that the saying, "Chinaman's chance," me ing no chance at all, began to be heard.

Comes now a book of that title which reports that in at least one part of the Rocky Mountain West, chinese were not victims but their relationships with Euro-americans were "relatively good cultural accommodation, not con-frontation" despite occasional con-flicts and personal rivalries.

Interestingly enough, the book, titled A Chinaman's Chance: The Chinese in the Rocky Mountain Mining Frontier, is by a Shanghai-born Chinese immigrant scholar named Liping Zhu. He has a doctorate in history of the American West from the University of New Mexico, and teaches at Eastern Washington

University. Liping Zhu's study focuses on the Boise Basin of Idaho where for 1861 and 1910 the Chinese made up a majority of the population. Unlike most American gold-seekers, who were

A review of this book reports: "Like other pioneers, the Chinese immigrants in this unique Rocky Mountain mining region had equal access to the pursuit of happiness. Their basic material needs were guaranteed, and many individuals were able to accumulate a considerable a-mount of wealth and climb up the economic ladder. Chinese equali-ty was also seen in frontier jusice. To settle disputes, they fre-quently challenged white oppo-nents in the various courts as well as in gun battles. Thus the Chinese played all the stereotypical frontier roles-victors, vic-tims, and villains ... The Idaho Chinese actually received oppor-tunities far beyond what has previously been assumed

Incidentally, the Boise Basin is not far from Ontario on the Oregon-Idaho border where Japanese Americans on both sides of the Snake River have been very successful as growers and shippers of produce, mostly onions and potatoes.

Japanese Americans, many of whom started as field laborers transplanted from the West Coast by General DeWitt's edict, Coast by General Dewitts ends, have made a major contribution to the economic development and prosperity of the area. litor emeritus Except for any last-minute changes in the program, the 50th anniversary celebration of the JACL 1000 Club is all set, Oct. 9-12, at Cactus Pete's in Jackpot, Nevada

The 1000 Club was founded durning the IDC convention meeting over the Thanksgiving weekend, Nov. 28-30, 1947, at Idaho Falls. Shake Ushio of Salt Lake was IDC chair. For those who didn't bowl, air excursions to Yellowstone National Park were offered. Lt. Sally Koya-ma (now of Spokane) provided the screening of *Shina no Yoru* at the theater, national board members were whisked to speak at local serclubs and on local racio. Eke Inouye emceed the openvice clubs and on local radio KIFI: ing ceremonies at Idaho Senior High School auditorium, Over 400 attended the Sayonara banquet, at the Armory. National president Hito Okada installed the officers. Ken Uchida of Ogden was elected IDC chair.

Special recognition will be paid at the 50th to the twelve 1000 Club Younders" of 1947 (the first four are still living)—Joe Saito, Ontario, Ore:, Ken Uchida, Ogden; Edson Fujii, Weiser, Idaho; Di Yoshiye Togasaki, Lafayette, Calif.; Hito Okada (the "father" of the 1000. Club); George J. Inagaki, James Watanabe (of Ontario), William Enomoto, Masao W. Satow, Nike M. Masaoka, Saburo Kido and George Mochizuki. They were the George Mochizuki. They were the JACLers who heartily contributed "25-times" over regular JACL dues,

then \$1 per year. While regular dues doubled to \$2 in 1949, the "25-times" ratio for 1000ers did not. Times were hard so Headquarters was then billing 1000ers quarterly: \$10-5-5-5. The first 1000 Club whing-ding

The first 1000 Club whing-ang during the Salt Lake national con-vention in 1948 was open to 1000ers "only" and was where the Order of the Tie and Garter origi-nated—the men sported a bow tie or had their long ties snipped in half, the women lifted their skirt to show their garter. (Women who were forewarned had slipped the garter around their ankle.) Such high jinx have since been forgotten but not the fun and frolic, recalled IDC governor Hid Hasegawa. "But fun still reigns and will be a main

Why not be next?" Five years passed before the 1,000th 1000 Club.member was enrolled as a Life member in 954—George Ota of Puyallup Valley—while actual strength was under 700. It was in 1958 when Robert Fuyuume of Seabrook was hailed as the 1,000th member that actual strength was 1,000. The JACL 1000 Club, from the outset, welcomed Issei non-citizers to its welcomed Issei non-citizens to its fold as members.

Intent of the 1000 Club was to help carry the burden of financing National programs and Headquarters operations: a thousand ters operations: a thousand loyal members each contributing \$25 a year. With compliments of Head-quarters, 1000ers received the *Pacific Critizen*, then \$3 per year. (Note: JACL membership dues began to include the P.C. from 1981.)

With a one-time \$250 lump-sum With a one-time \$250 Jump-sum contribution, the category of JACL life membership was instituted in 1951 by then-1000 Club chair Inagaki. Life memberships were boosted by the National Council to \$500 in 1958. Their life member-ship contributions were eventually dissipated until the 1000 Club Life Truet was earblished in 1989.

Trust was established in 1982. A number of charter \$250 Life members will also be honored, especially the group of Idaho Fall JACLers. Through 1956, there were 60 Life members; the one-time contribution after 1958 doud to \$500.

 Under the nom-de-plume "Cal-lahan," George Inagaki penned the 1000 Club column in the JACL monthly Reporter, correcting for JACLers that membership was not \$25 a month (as Ed Ennis of New

The use of "Jap" by etching it The use of "Jap" by etching it on the Nisei monument to be erected in Washington, D.C., only dignifies what General DeWitt told Congress (*Frying Pan*, 5-16/6-5 PC.). For a Caucasian of prewar times, it may be conjec-tured the blurting of "Jap" was subdued, for the General could have used more debasing epi-thets. STEVE and I never had children of our own. But if would be college age today. Steve remarked to me over dinner that it must really be

I'll never know what kind of parent I would have been a good one. But what's, "good" Trying very and to get them into Asian organizations? The answer, surprisingly, is no. I answer, surprisingly, is no. I would not discourage them from joining ethnic community groups, but I wouldn't make a big thing of it, either. Instead, I would be very concerned about them as private individuals. As them as private individuals. As young people going through the developmental stages we all go through, regardless of race. I would want to give my own children what the older generation in my family and community never gave me. I was one of those gifted child prodigies, the kind who

started talking very young, using complicated sentence structures normally associated with a much older person. The kind who scored so high on standard aptitude tests the teachers were remarking standard apitude tests the teachers were remarking about it. The kind who later in life would have older and bet-ter credentialed people saying, "Kid, I've been in the business twonty were and U could get Nuc, I ve been in the business twenty years, and I could not have done that." To the Nisei generation, I

was the glamourous star, and was the giamourous star, and they were all too happy to be my fan club. They harbored bitter memories of rejection due to their accented English. I spoke more nicely than the average WASP. And I was se! Vicariously, through Japa Japanese: vicanously, through me, that precious commodity, Anglo style speech, was theirs. And all the supressed rage they felt towards their White entors came spewing out as I articulated thoughts bet-ter than Whites, beating those

Anglos at their own game. The problem was, that star-dusted glamour was in their eyes, not mine. I was far too roung to comprehend what racism" was. All I knew was

young to comprehend what racism' was All I knew was they were expecting me to sup-port them psychologically— through me, they would get self-esteem. They wanted me, a person who was not angry at White racism because I had never endured it, to fight their cause for them. That's an awfully heavy trip to lay on a young child. I was it ready to take on responsi-bility for other people's feel-alone, to take care of my own ifie. I felt hey were a swarm of maggots crawling all over me, aking, taking, while I was giv-ing, giving, giving.

As I grew into young adult-hood, this fan club abuse and exploitation problem got worse. There were whispered stories about something unspeakable about something unspeakable which had happened years ago. Something called the interp-ment. Something about the housing and employment dis-crimination of the 1950s. I was to fight for them. I was to go to college and do need well and college and do real well and

college and do real well and then enter the workforce as an advocate of my people. But Christ! I was just a kid! Goddarmuit, what about me? Everything was going to be for them! What about my feelings, my interests, my problems; as I was struggling to get my life established? I remember lauxhing silently.

established? I remember laughing silently to myself, sadistic pleasure throbbing through me, laugh-ing at the elderly Issei trapped in demeaning jobs, happy that the internment had occurred." That's the kind of rage one feels, when forced to take care of other people's lives, before one's own life is completely formed.

I abruptly broke off and left. I left not only my family, in a larger sense, I left the Asian community. For many years, I went through great efforts to community. For many years, I went through great efforts to avoid contacts with Asian pep-sons or organizations. I had to take care of myself, to complete my developmental tasks. Before I take care of others, I have to take care of others, I have to take care of myself. I left, because iI I didn't, I knew the fan club would destroy me. Many wave I beter my feeling.

Many years later, my feeling is very different. I voluntarily chose to come back, when the time was right for me. When I time was right for me. When I had finished resolving my own issues, and had something extra]left after my own needs were met, something extra I could give away. I fully supported the Redress movement. Today I see a value in the Nisei generation. I want to push cultural diversity to reserve tural diversity, to preserve aspects of a generation which will otherwise be lost to America forever.

America forever. I look at young people like Michelle Kwan and Kristi Yamaguchi, and I hope they aren't going through the pain I went through. We are asking them to represent us to the world, to push our cause as Asian Americans, to uplift our morale. But what are we doing morale. But what are we doing.

morale. But what are we doing, to address *their* own very nor-mail and understandable issues, as young people? We cannot expect the Yonsei to make our concerns their top priority. We cannot selfishly expect them to meet our agen-da items. We must help them complete their developmental tasks, and hope they will choose to come back to us, when the time is right for them. them.

A transcri-bed phone conversation the

Everyone but the Japs."

These and numerous other historical evidences severely impli-cate top policy makers with a

racism verging on malevolence. A close study of documents of the period leaves no doubt that, well before E.O. 9066 had been issued, policy planners were envisioning the use of the same Executive Order to maintain Japanese living within the Western Defense Command, which included Montana, Idaho,

which included Montana, Idaho, Nevada, Utah and Arizona along with Oregon, Washington and California) and beyond. Control over enemy aliens had initially been given to Attorney General Biddle by virtue of Presidential Proclamations is-sued on December 7th and 8th, which enabled him to specify areas considered strategic from areas considered strategic from which enemy aliens could be excluded.

Evidence exists that some enemy aliens, Issei and Nisei railroad workers included, had been fired during this period prior to the internment program initiated through E.O. 9066. But officials who ordered or sanc-tioned the layoffs still remains problematical.

Much research is still needed before the reasons for these fir-ings can be determined, and it is ent on the ORA to undertake this in-depth search under the Freedom of Information Act. Curiously a Nikkei discharged from the Great Northern Rail-road has received redress pay-ment, while a fellow worker, though discharged with him on the same day, has sought in vain to be similarly redressed. As for reasons as to how it came about that such a variety of individuals ended up suffering

Traveling with the Jim Houstons

In the Ring of Fire: a Pacific Rim Journey.

By James D. Houston. Mercury House, 785 Market St. Suite 1500, San Francisco, CA 94103 (1997), paper, 221pp, notes, 6°x9", \$14.95.

If you like to read the Sunday per, James Houston's Ring of Fire—the Pacific Rim will be an enjoyable read. We were hooked by his book from the outset with his form, into the nutset with by his book from the outset with his foray into the nightlife of Fukuoka [where my parents came from] as he writes, "Half the street noise comes from pachinko parlors crowded with rows of machines that sound like forth othedral proves mere here forty cathedral organs gone hayre." (There are more exquisite ex-

ressions sailing throughout—of Houston's feel for the Big Island, (Hawaii), Indonesia (Java), Northern Marianas (Saipan and Tinian), Okinawa and Iwojima, and the drive away from his own and the drive away from his own home base (Monterey-Salinas, Los Padres and Tassajara). Héré's a sample line describing the Zen Center at Tassajara Canyon: "At this early hour the jays are quiet. Sutras spill from the sende in heursing Lora. the zendo in low-voiced Japa-nese. When the voices fade be-hind me, there is only the creek."

For visitors to the Japanese American National Museum this summer who will be seeing sumo summer who will be seeing sumo "U.S. style" in its artifactual. [I know, it's not in the dictionary] array, Houston's record of this national pastime of Japan while at Fukuoka for the November tourney can be a ticket to a meaningful afternoon, Who knows, I may be seeing Jim Houston's by-line in a Sun-day travel section. West Valley JACL's Daruma Festival marking its 20th anniversary

BY PAM YOSHIDA

SAN JOSE-What be SAN JOSE—What began as a fundraiser in the yard of the West Valley Japanese American Citi-zens League clubhouse has flour-ished into the 20th Daruma Festival, a cultural Nikkei party featuring food, fun and the arts. Saturday, August 16, will mark this year's Daruma Festival. No

longer confined to the grounds of the Clubhouse, it has moved across the street to the parking lot of the Saratoga Lanes Bowling Center, by Westgate Mall in San Jose.

Over the years, food booths Japanese delicacies such as ni, chicken teriyaki, tempura, with sushi. yakisoba and udon, and several American favorites including including favorites American favorites including strawberry shortcake, were added as well as a produce and cut flower market and performing arts. This year's performers include

Friends of Israel, a Protestant church group, has set up Beit Shalom (Houses of Peace) in Kyoto, free hostels in six Japanese cities, where Israelis and Diaspora Jews can enjoy Jodging and breakfast. JCFI was founded by the late Rev. Takeji Otsuki, or "Father Otsuki," after a divine vision he had in 1938 while serving as a clergyman in Manchure.

includes a video presentation on the hostel chain, a history of Father Otsuki and the JCFI.

Visitors experience a mixture of

Japanese and Jewish cultures while they sleep on tatami mat-tresses and eat Israeli-style

breakfasts, sometimes with kosher foods. The decor of the Beit Shalom church's sanctuary

is that of a synagogue with meno-rahs and Hebrew inscriptions on the walls. Thus far 400 Israelis

and Jews have enjoyed visits at Beit Shalom since its founding in

Cincinnati JACLer wins Distinguished Alumna Award

CINCINNATI – JACL chapter president Marie Matsunami is the recipient of the University of Cincinnati College of Nursing and Health "Distinguished Alum-na Award" On May 17 she was recognized for her outstanding contributions to nursing and so ciety.

Last year Marie retired from her long-term position as staff nurse at the Roselawn-Condon School where she eared for the multiple needs of the special children there. For many years she also served older adults, holding a staff position at Hillebrand Nursing Center. During the recent floods, in her capacity as Red Cross Nurse she was found in most communities affected. Marie successfully reared three

accomplished children, fostering in them knowledge and apprecia-tion of their American Hawaiian Japanese ancestry.

When a call goes out for volun-

When a call goes out for volun-teers, Marie responds and by example stimulates others to join her. She can be found at the Hoxworth Blood Bank, the Free Store Health Center, the NCCJ diversity training program, Tall Stacks, Octoberget and ushering at the Aronoff Center. Ann Carson, Asst. Professor of Nursing at Miami University, introduced, Marie for the award by saying. She embodies the quiet determination of most nurses to make mini impacts on her clients, co-workers and the community. It is the force of her collective impact over the years community. It is the force of her collective impact over the years that has made a difference. If only we could clone Marie and have her in all of our nursing classrooms. We could show stu-dents what nursing is all about making a difference in the —making a difference in the lives we touch. She is truly a very distinguished alumna!" ■

Asian' is not a term, Miura likes. "I have a real bias against the lumping of Asians together," she says. "I think you have to look at the immigration status of dif-ferent peoples form Asia. The rea-sons that Chinese or Japanese or Koreans or Vietnamese came here, and the experiences each group has had in this country, make each of them very different groups," the Los Angeles-based Business Wire reported.

Business Wire reported. Miura does not see a different focus for the California Alumni Association during her presiden-cy, despite the fact that she is its first Asian president and that the Asia population at UC Berkeley has grown to nearly 40 percent of the undergraduate body. "We cer-tainly need to diversify our membership to match the changing composition of graduating class-es. But I think the common theme has to remain love of the University."

see a proliferation of ethnic clubs where you felt most comfortable; now, you join such a club because you want to. I think the California Alumni Association, as

and her family, the Takeis, were interned in Poston during WWII and returned to Santa Cruz, where she finished high school and graduated from UC Berkeley in 1960, majoring in child development and earning a teaching credential.

Miura moved to San Mateo where she and her husband Earl still live. After 12 years as a housewife, she began teaching at St. Matthews Epicopal Day School where her three children attended and returned to 'academe for her master's at the College of Notre Dame and doctorate at Stanford. She joined the child development program at San Jose State in '84 while finishing her dissertation on indi-vidual differences in computer interest and use.
