National JACL alerts chapters to support railroad, mining families' claim for redress

SAN FRANCISCO-National Headquarters has alerted all-JACL chapters to support the Japanese American railroad and mining workers who have been denied re-dress by the Office of Redress Ad-ministration (ORA). The chapters were urged to participate in a letter-writing campaign to U.S. Attorney General Janet Reno, Dept. of Jus-tice Appellate Division Chief David Flynn and ORA Administrator DeDe Greene, urging that the "beri-efit of the doubt" clause contained in the Civil Liberties Act Amend-ments of 1992 be exercised in the railroad/mining workers' claims for

SAN FRANCISCO-After al most a year of emotionally charged legal and ethical debat-ing, Proposition 209, California's anti-affirmative action bill, is

now a reality. A three-judge panel of the Fed-eral Ninth Circuit Court of Appeals on Aug. 26 found that Cal-ifornia had the right to enforce Prop. 209, denying the American Civil Liberties Union (ACLU) and other groups' request to stop and other groups' request to stop the measure from taking effect until they had a change to ap-peal to the U.S. Supreme Court. Time marches on

VER THE YEARS in this column, I've fondly referred to a small Methodist college located in Mitchell, S.D., by name of Dakota Wesleyan University (DWU). Fondly because that college, its faculty and student body-and for that matter, the community of Mitchell—provided a warm mid-west haven for college students such as myself during the turbulent period of 1942 and the uprooting and confinement behind barbed wire, Tule Lake in my instance, of Nisei and their parents residing in the Pacific Coast states. Dear friend Tom Semba, who had enlisted me to go with him to DWU, and I were the first to go there from the camps. This was in the fall of 1942. Tom's er-in-law, the Reverend Shibroth geo Tanabe, had recommended the college.

As a precaution, Tom and I found ourselves initially housed in the university president's home.

THE RECOMMENDATION by Reverend Tanabe panned out to be a good one as far as I was con-cerned. My exposure to academia has included several, as they say, institutions of higher learning "institutions of higher learning," state university (U. of Washington), religious affiliated (DWU, where chapel attendance every Wednes-day was required), private (U. of Chicago, including its law school). Among these schools, DWU occu-pie's a special warm spot. Both the faculty and the student body were "read folks" if you know what I "real folks," if you know what I mean. Nothing ostentatious, no put-on's, just naturally genuine. As for academic fare and faculty, DWU might not be rated with so-called "Ivy Schools," but at no point did I find its resources lacking in acade-mic challenge. I found I had to ap-ply myself and work at it. Hard.

IN THE SUCCEEDING acade mic terms a number of Nikkei enees from the internment camps rol arrived on campus. Among them: Blanche (Kimoto) Baier, M.D. (BS 1946); Irene (Matsumoto) Hoshiya-ma, (BA 1945); Oliver Takaichi (BA 1947); Furniko Yamashita; Tsu-yoshi Yamaguchi (BA 1947); Akira Yokomichi (BA 1948), Minoru Yoshida (BA 1947). Among these en-rollees were several from Tule Inke

Oh, me? I received my degree in 1950. (It takes some people longer to get a degree.)

OVER THE YEARS at some Nikkei affair-be it a camp re-union, JACL conference, Nikkei union, JACL⁻ conference, Nikkei veterans' gathering—our respective paths have sporatically crossed with some of my DWU cohorts. At DWU reunions, Ive met Irene and Fred Hoshiyama (also at various JACL affairs), Akira Yokomichi, Min Yoshida and his wife, Mary (also at veterans' gathering in Min-neapolis a few years back). I belat-edly learned that Min had passed away à few months ago. Min was a neapoils a rev year. edly learned that Min had passed away a few months ago. Min was a very congenial soul who was well-loved on the DWU campus-as Im elsewhere in his life's sure he was elsewhere in his life's travels.

However, during the previous three months, April-June, there was a drop-off due, in part, to a lack of continuity because of changes in staff. The new Membership Adminis-trator, Doma Okubo, took over member-ship renewal responsibilities in March and the July numbers indicate that mem-bership menwals are back on track. The 'Evacuation' of

Italian Americans ARLY in August the New Kyork Times published a long story by James Brooke which/provides fuel for r those still angry, after a half century, about the Evacuation. It pointed out that while the

United States was at war with Germany, Italy and Japan, German Americans and Italian Americans were treated quite differently from Japanese ans.

Brooke sointed out that while all the interned Italians were citizens of Italy, about two-thirds of the interned Japanese were American citizens. The numbers were over-

whelmingly different, too. Somewhere around 115,000 Japanese Americans were in-terned out of about 127,000 in There the continental U.S. were about 600,000 Italians who, although eligible for natu-ralization, had not become U.S. citizens. About 2,000 of them were investigated and only about 300 of them were interned. They were kept at Fort Missoula, Mont., together with 1,300 other Italians who were visitors who had been picked up, and the crews of Italian ships which had been seized in

American ports. Brooke reports that about 10,000 Italian Americans were forced to move from their homes in California coastal communities. They went, not to relocation camps, but to homes inland. Cúrfews were imposed on non-citizen Italians and and as like cameras and guns confiscated.

"With no evidence of Italian sabotage or spying," Brooke re-ports, "the measures came to be seen as counterproductive because President Franklin D. Koosevelt was seeking the full support of Italian Americans for the invasion of Italy. The curfew was lifted in October, 1942, on Columbus Day." It is well to remember that while the dammer of Lanon in

while the danger of Japan in-vading the West Coast—if it ex-

isted at all—had vanished by late 1942 and early 1943, making the argument of "military necessity" irrelevant. There was no point in continuing to deny Japanese Americans the right to go home. But, the record shows, Franklin Roo-sevelt was preparing to run for a fourth term as president and his advisers decided it was poident and litically more expedient to keep the Japanese Americans away from their West Coast homes.

By Bill Hosokawa

The exclusion order remained in force. Fort Missoula, where the Italians were interned along with some Japanese and a few Germans, was called "Bella Vista," or Beautiful View," and that was not a sardonic nickmame. Brooke reports the camp was "sitting at a bend on the Bitternoot. River where wide" flowers carpet meadows that stretch toward snow-capped mountains... While beef, sugar and butter were rationed in (the city of) Missoula, these sta-ples were plentiful at the camp."

The camps where Japanese Americans were detained were, almost without exception, in ts surrounded by little other than sagebrush

Brooke tells us that two New York representatives and a senator have introduced bills that call for declassification of documents on the internment for a government study "detailing in-justices suffered by Italian Americans during World War II and a formal acknowledgment of such injustices by the President

A complete disclosure of everything having to do with the U.S. internment program is long overdue. Brooke's report makes it clear that even within the so-called security measures, there was racial discrimination. We are entitled to know more about it.

The Japanese American Com-munity Graduation Program began in 1956 with the presentation of a scholarship in memory of Harry Sakata, president of the JACL Mile-Hi Chapter. This initial schol-arship laid the foundation for the greater Denver Japanese American Community Scholarship program that exists today. Although Harry Sakata's prima-

ry Japanese American community involvement was through the JACL, he was also concerned with JACL, he was also concerned with matters in the entire Japanese American community on both local and national levels. Throughout his life, he maintained unlimited faith in Japanese American youth as a bright hope for the future.

"Members of our board were shocked when our proposal was [initially] rejected," said Jerry Exomato, chair of the LEC and past JACL national president. "After painful discussion and consider ation we rejected the [\$25,000] grant.

Now the committee is looking to-ards the National Board to help wards make the redress project a reality "Were the only ones that can tell this story," said Enomoto, referring to JACL's collection of historical material and Knowledge of the redress campaign. "It was redress campaign. "It was redressed by grassroots efforts, but the JACL-LEC was the most significant part of the redress movement and that needs to be told."

There's no doubt other individuals and JA groups contributed to the successful redress campaign, said Enomoto, referring to the Na-tional Coalition for Redress and Reparations (NCRR) and the Naand Treparations (VCRA) and the Na-tional Council for Japanese Ameri-can Redress (NCJAR). But "JACL should not be bashful," he said. Without JACL bringing the various issues to the forefront, redress would not have become a reality.

With many key figures from the redress campaign having already passed away, there's an urgency to record the story while those who can tell it are still alive. "Many of the people who led the campaign [for redress] are getting old now...and this story will die," said past JACL-LEC Executive Director Grayce Uyehara. "For historical purposes and for the sake of JACL we do have to tell the story." purpo

reparations it's still justice denied, and that should be [JACL's] first priority," said national vice president of planning and development Gary Mayeda. "LEC's project has a lot of merit and I understand that there are time constraints too. But right now I feel that the outstanding cases of redress have even more time constraints.

time constraints." For over a year now Mayeda has been working closely with Cam-paign for Justice, a coalition group lobbying on behalf of the hundreds of Japanese Latin Americans seeking reparations. He still remem-bers the day his Nisei father received his redress check and how

received his redress check and how he was overcome with emotion. "...that's what I want for every per-son that deserves redress," said Mayeda, "that the government did their job and brought them justice." The National Board would ideal-ly like to work in both areas, said Mayeda, but unfortunately. JACL has limited resources." "As the ha-tional board, our challenge is to decide how to use those limited resources," he said. "It's not to say that we can't work on all (the is that we can't work on all [the is-sues] but we have to prioritize them based on the issues of the organization."

LEC secretary Mollie Fujioka was involved in the redress campaign from its beginnings in the late '70s. She's not encouraged by the current outstanding redress cases. "I guess I'm tired," she said. Twelve years is a long time to be working on it.

"They have as much right as the original (people who received re-dress)," she continued, "but too bad the timing isn't right."

Congress today is much more conservative than it was in the '80s, she said. And many of the legisla-tors who supported the redress bill are no longer in government.

"That's not a mutually exclusive issue," said Yasuhara of those groups still seeking redress. "There's no reason why we can't do both. What if [the outstanding re-dress cases] don't get resolved for ten years?" he said. "What if the people to be interviewed [for the history book] are dying? There's a real urgency in getting that record writter

written."
"This is not an either/or proposi-tion," said Enomoto, "but the bot-tom line is money, unfortunately. Leadership is forced to set priori-ties and that's what (the National Board) is going to have to do," he said. But "all these things are im-rottent" portant

The National Board passed a motion to form an ad hoc committee comprised of representatives from the LEC, JACL National Board, staff, the education committee, and the finance committee that will investigate available resources to initiate the JACL-LEC legacy proposal and prioritize expenses, if any. The ad hoc committee will present their recommendations at present their recommendations at the November national board meeting in San Francisco at which time some difficult decisions will have to be made.

Treasurer's Report

The increase in membership rev-enues and the rising stock market are the main factor's contributing to the overall health of JACL's financial situation, said National Treasurer/Secretary David, Ha yashi. But a number of implement ed improvements have also con-tributed to the overall financial health of the organization, he said JACL adopted a streamlined budget for the 1997-98 biennium,

an investment and audit commit tee 'was formed, new accounting and membership software was purchased, the Planned Giving Program was started, and regular communication between the staff, board, and various committees has been established.

Deloitte & Touche's 1995-1996 audit has been completed and once the National Board approves the report, the final numbers will be reased. Financial statements will also be published in JACL's annual report. The numbers in the audit report

show a healthy organization for 1997, said NCWNP District Gover nor Alan Nishi. He also reminded board members that because the method of calculation in the audit is different from previous years, fi-nancial statements for 1995-1996 cannot be compared to earlier ones unless calculation conversions are made. "It's like comparing apples and oranges," he said. The current membership num-

bers are respectable and will likely be even higher in the next quarter, said Karen-Liane Shiba, vice president of membership. There were 1,634 renewals in July of this year compared to last year's July figure of 803. She attributes this increase to consistency in renewial mail-outs, the fact that it's not a conven-tion year, and that the renewals for the January-to-April lapsed mem-berships have been mailed out. A September update on the Kuan Kao killing

BY CAROL KAWASE

Sonoma County JACL President First, here is an update on the shooting of Kuan Chung Kao by the Rohnert Park (Calif.) police officer (see Basic Information: Aug 15-Sept. 4, 1997, Pacific Citizen) Some interesting points have come to light since the initial news reports, making it imperative that a higher governmental office review this incident.

(1) Witnesses, including off-duty CHP officers, place the victim 7 to 12 feet away in a standing position with a pole parallel to the ground. He was not running with the pole above his head.

(2) Due to intoxication and the searchlight trained on his face, Kao may not have known that the officer (Shields) would shoot. According to witnesses, the officer did not verbally warn Kao that he would shoot

(3) Kao hit the officers' vehicles because he felt threatened by their excessive tactic of screeching both speeding vehicles to a halt et in front of him. a few f

(4) Officer Shields was instructed by the first officer on the scene (Lynch) to stay in his car and await

(5) Kao was harassed by patrons at a Cotati bar for his ethnic background in the ensuing fight. Kao was held back and stabbed in the forehead with a dart. Cotati po-lice officers declined to address Kao's complaints of harassment.

(6) Asian Law Caucus' factual ary found the Sheriff Department's investigation conducted in a one-directional manner, assuming the victim to be the major ag-gressor and the officer to be the victim (7) Based on the 1997 Sonoma

(7) Based on the 1997 Soforma County Grand Jury report, the U.S. Commission on Civil Rights may investigate Sonoma County's Law Enforcement Department for civil rights violations

(8) The NCWNP District Council has supported further investigative action. The [JACL] National Board was presented with a similar mo-tion. San Francisco, San Mateo and Marin Chapters have all been instrumental in helping our chapter meet the commitments required for acting on this issue

The Outcome — Why JACL-LEC appealed, then refused CLPEF's grant

On July 20, 1970 at the National JACL Convention in Chicago, the National JACL Council adopted a resolution in principle calling for in dividual monetary compensation for evacuees. On July 1, 1972, at Washington, D.C., the National JACL Council reaffirmed the 1970 resolution for reparations. On Feb-1, 1979, the JACL Redress Com-mittee met formally for the first time with the Japanese American Congressional legislators to discuss redress strategies. On May 20, 1982, the National JACL Board established JACL/LEC as a nonprofit s. On corporation to lobby for redre corporation to lobby for redress. Project Committee met in San Mateo to discuss the feasibility and sig-nificance of creating a JACL project to tell the compelling story of how Japanese Americans, members of JACL, and friends of the Japanese American community raised over \$1 million and organized the educa-tional program within JACL and out in the communities.

And JACL/LEC worked for more than 10 years to get the Civil Liber-ties Act of 1988 enacted. This story is about the JACL/LEC redress campaign and why the JACL took on the daunting challenge of mak-ing the United States Constitution ng th

It is also about working on behalf of the traumatized Japa ese American community and an al-most inpossible grassroots project that turned into a healing process. When JACL was finally victorious, When JACL was many victorious, it brought back our pride and sense of empowerment and we were able to proclaim, "We did it!" Even though, Redress is not offi-cially over until Aug. 10, 1998, the JACL/LEC Board felt there was an

mmediate need to research and write this story because many of the individuals who worked so fer-vently to get the Civil Liberties Act of 1988 passed are elderly and in frail health. Their experiences, nemories, and insights will be lost prever unless this project is undertaken now. We are in a race for

The JACL/LEC chired a staff per-son to coordinate the project with the JACL/LEC and Project Committee. The JACL/LEC and Project Committee volunteered their time Committee volunteered their time and resources to draft a proposal to fund the project. The Proposal was

submitted to the Civil Liberties Public Education Fund (CLPEF). As chair of the JACL/LEC, I feel it is my responsibility to inform the JACL members of the outcome of the "PROPOSAL."

The Executive Board of the Citizens Japanese American Citizens League/Legislative Education Com-League Legislative Education Com-mittee (JACL/LEC) unanimously rejected the \$25,000 grant that the CLPEF awarded the JACL on ap-peal. This decision was reached after much thought and deliberation for the following reasons: • JACL/LEC was the only Japanfor

ese American organization with a Washington, D.C., presence to lobby for redress. JACL created Washington, D.C., presence to lobby for redress. JACL created JACL/LEC as a lobbying arm to pursue redress. The lobbying arm twas necessary for JACL to fund a full-time lobbying campaign. The JACL/LEC created a coalition that united the efforts of thousands of IACL merchanses and new parkness JACL members and non-members Nisei and non-Nisei veterans, and numerous civil rights, religious and

bers and their staff. • The CLPEF rejected the JACL/LEC's proposed project to tell the story of the efforts of thousands of JACL members and Nisei veter-ans to secure redress. The JACL/LEC played a key and essen-tial role in getting the Civil Liber-ties Act of 1988 enacted and funded. The JACL/LEC raised and spent over \$1 millon to lobby for redress. The JACL/LEC's success was ultiover \$1 millon to lobby for redress. The JACL/LEC's success was ultimately responsible for creation of the CLPEF. Unfortunately, the CLPEF Board did not consider the history of this remarkable accomplishn ent worthy of initial grant inding.

funding. • Apparently, CLPEF Board mem-bers, staff, and review panelists thought the JACI/LEC's proposed project was a story about "politics" simply not the case. The JACL pro-ject tells the story of democracy and how citizens of any ethnic back-ground can work within the system to bring about needed legislative change. The constitution of the United States protects peoples civil change. The constitution of the United States protects people's civil liberties but constitutional protec-tions are meaningless if they are not upheld by the government. The very heart of this country's democ-racy is a system that is accessible to citizens and a legislative process that allows the government to right wrongs and correct injustices. That is the story the JACL proposed to tell.

• The CLPEF Board's initial deci sion not to fund the JACL's project was appealed by the JACL/LEC due to numerous scoring errors on due to numerous scoring errors on the part of the review panelists. Points were deducted because the JACLs project "lacked a profession-al cataloger or librarian" when it was clear the JACL/LEC collection ild be in the custody and contro professional archivists at th

Japanese American National Li-brary. Panelists didn't read and/or understand the JACL/LEC's bud-get narrative; the obvious need to provide some historical background to put the Civil Liberties Act of 1988 into context; or how easily the JACI/LEC's Web Internet home page can be linked to other groups' experiences.

On appeal, the CLPEF awarded the JACL a nominal \$25,000.
 We cannot understand why the

CLPEF Board initially rejected the JACL's proposal, then apologized for that rejection after the appeal, but only awarded a nominal \$25,000 grant. If the JACL/LEC's project was worthy of funding

project was worthy of funding, surely it deserved more than 10% of the amount requested. \$25,000 is not adequate to tell the story of how thousands of Japanese Americans and fair-minded Ameri-one amore the United States ded cans across the United States, led cans across the United States, led by the JACLAEC produced a victo-ry in Congress and a signature in the White House more than 20 years after redress was first taken on by the JACL in 1968. For that story to be told properly, the Na-tional JACL Board on Aug. 9, 1997, voted to brime the proviset in-house voted to bring the project in-house and continue to seek other sources funding,
Comparing the merits of differ-

ent awards is probably not useful, but CLPEF funding decisions make it clear that the CLPEF Board members do not believe JACL/LEC story warrants support. If that's the case, the \$25,000 awarded on apcase, the \$25,000 awarded on ap-peal can be better spent for propos-als that are underfunded such as the National JACL "NISEI", project or other projects that will institu-tionalize the history of redress into the future

The JACL story will be a histori-cal case study for all organizations who seek redress and justice for the devastating wrong committed by their govenment with removal, exclusion and detention in relocation clusion and detention in relocation centers using military necessity as justification. The Commission on Wartime Relocation and Intern-ment of Civilans concluded that "the causes which shaped these decisions were race, prejudice, war hysteria and a failure of political leadership."

The redress story is another milestone in the 70-year history of JACL as a human and civil rights organization which has during its long history looked after the gener-al welfare of Americans of Japanese ansestry and all people.

Columbus thought them to be natives of the East Indies. Conquistadors and Spanish mission-aries in Mexico thought they were dealing with descendants of the Ten Lost Tribes of Israel; but one Jesuit priest wrote they re-sembled not the Jews but the peoples of Tartary and thus had migrated from Asia (known as the Acosta theory), but not know-ing when or how.

And, too, there is the legend that white people had been in Americas long before Columbus. The Book of Mormon tells of migrations from the Holy Land to the New World.

Reading about the ancient lores of Chichen Itza, the Mayan capital of the North (Yucatan) brings up another theory: the na tives were part of the continental mass that broke away and has been called Atlantis and Mu. "Let's not forget that the early world was a different place milworld was a dimerent place mi-lions of years ago; the continents were not what they are today. America was joined to other land masses, both east and west, making it logical that if man was in Europe a million years ago, he was also in America." These quotes are by Adalberto Rivera A., "The Mysteries of Chichen Itza," 1995 ... You get the idea that some theorists are unwilling to allow to the American Indians that their great talent and native achievements have Asian connections

Such speculations would have never dawned here had I skipped Cancun, Chichen Itza and Tulum (the only Mayan ruins by

The unique Mayan heiro-glyphics, the pyramids and temples, widespread human sacri-fice, agriculture and trade are part of the civilization that flour-ished in Mesoamerica-Middle America, where the Japanese immigrants had landed a hundred years ago, an event com-memorated two months before the 1997 PANA convention.

The community history of the Japanese in Mexico dates from May 10, 1897, when 35 young men from Yokohama arrived at Puerto Madero in the state of Chiapas and established the Enomoto Colony, initially as coffee farms in Escuintla and Acacoyagua that failed but successfully with other crops several years later. They had married Mayan women whose descendants are now Gosei-fifth generation, some proudly bearing their Japanese surna mes. The 100th Anniversary celebration of Japanese immigration to Mexico was commemorated in Tapachula, Escuintla, Soconusco and Puerto Madero with visitations by Prince Akishino, the second son of Emperor Akihito, and his wife, accompanied by state officials and Nikkei leaders from Mexico City, among them Carlos Kasuga, Dr. Rene Tanaka and Enrique Shibayama. There were monuments dedicated, gravesites of pioneer colonists visited, trees planted, boulevards and schools named for the Japanese immigration centennial, fiestas and speeches.

BY DALE MINAMI Chair, CLPEF I am writing in response to Denny Yasuhara's Commentary (Aug. 1-14 PC.) While I am hesitant to inflame further, pontroversy on the issue of JACI/LEC rejection of our grant, especially given their great contribu-tion to the Redress effort and our interest in unifying rather than divid-ing our community, I do believe mis-perceptions may have resulted from his commentary, requiring a response as follow:

There were multiple reasons for the initial rejection including the fullure to identify the principal investigator or writer of the \$250,000 project, the desired qualifications of such person-nel, the high personnel costs in rela-tion to the other costs. (Personnel costs were \$138,000, fringe benefits were \$28,000, totaling \$198,700 eut of the \$250,000 totaling \$198,700 eut of the \$250,000 budget.) Additionally, Board members

We reconsidered our initial deci-sion and on appeal awarded \$25,000 to JACIAEC. Given the restricted amount of funds allocated to us for amount of funds allocated to us for grants and the number of excellent proposals, the Board decided at the outset to find as many projects as fea-sible with "seed money" so grantees would be encouraged to develop addi-tional sources of funding. We felt a need to fund projects in many states, on different subjects, in varied media and fed diverse approaches to mariand for diverse approaches to maxi-mize education on the exclusion and detention of Japanese Americans.

The stock uverse approaches to make mize editation on the exclusion and detention of Japanese Americans. The \$25,000 awarded was in the range of grants given to other pro-jects. Of the 135 awards, no applicant received more than \$100,000. Only two of the 135 projects funded (1.4 percent) outside of the Candielight category (less than \$25,000) received the full funding for thely original request. The average grant awarded was approximately \$27,000. 3. We are not "gnorant" of the role JACL/LEC played in the heroic Redress movement as Mr. Yasuhare sasserts. In addition, although we initially requested JACL/LEC to use the ini-tial grant of \$25,000 to begin creation, of an annotated bibliography to iden-tify primary and secondary resources on redress (one of the proposed com-ponents of the JACL/ LEC to Exproposal), we decided to allocate a separate fund of \$25,000 to execute this tack, thus we decided to allocate a separate fund of \$25,000 to execute this task, thus freeing the initial grant of \$25,000 for another component of the JACL/LEC proposal. Thus in essence, a resource base of \$50,000 was created for

Many of us worked hard for Redress and we tryly appreciate the enormous contri-bution of the JACL/LEC. But given the contexist of the multilines the button of the JACILEC. But given the constraints of the guidelines, the large number of requests for grants and the limited funds at our disposal, we felt we did the best we could. I do hope that we will find a way to tell the story of Redress with JACILEC's input and cooperation.

Comments and concerns over Akemi's article: A generation's passing

Akemi [Kayleng] gives us a very honest, moving description of her experience growing up Sansei in America (see P.C. Aug. 1-14). She felt America (see P.C. Aug. 1-14). She felt extreme pressure to prove that even though the Nisei were treated as sec-ond-class clizens, she as a bright, articulate Sansei, could prove that she was an equal, ready to meet all comers. Somewhere along her life path, she discovers that she is not pre-pared or willing to fight the Nisei bat-tle and has to go away from her com-munity to "take care of herself." She later comes back to the Nikkei Family with new respect and commitment to with new respect and commitment to push the diversity agenda. She ends with a plea to back-off' the younger generation, stop being so selfish, and

stop putting unfair pressure on the young people to right the wrongs of the past. The legacy of severe and unjust racism against the Japanese in America is real and is something we all have to face as individuals and as all have to face as individuals and as a Community Akemi is a very fortu-nate woman. Unliké most, her family shared their experiences of the U.S. concentration cämps and their strug-gies to come back home after the war. Akemi had a whole family and com-munity that supported and nurtured her, yet she laughs with sadistic plea-sure at their suffering. Akemi took on for *herself* the task of undoing the wroos of the nast-clearity an immoswrongs of the past-clearly an impos-sible task. What we can do for ourselves is to hear the stories of the Issei and Nisei, share their pain, and learn from it. We cannot undo or erase past hurts. Feeling the pain of our mothers and fathers is the only way to heal ourselves and our community, learn the lessons of the past, and become strong and wise advocates for the future. the futu

The Issei and Nisei pushed the myth that being smart and speaking 'good' English makes you equal in white America. The reality is that simply acquiring language skills in no way gives you access to the halls of power nor does it prepare you to cope with cruel realities. This was proven by the Nisei where the acceptional talents of thousands were denied and are still denied today. How may Nisei gardeneri, maids, and house-boys do you know that were college, educated professionals? Today, many talented Sanesi are also unable to achieve their full potential because of racism, albeit at less permicious level. Finally, Akemi indirectly gives us a concrete illustration of the disappear-nance of the Japanese American com-munity. Internacial are is are becom-jace. I come away from Akemi's article with the conclusion that each person must fight the demons of the past in their own way, none of us can undo the past, sharing the pain of our par-ents is our privilege, hitting the wall of racism is still painful, and growing up is hard to do, especially in the shadow of such strong survivors as our parents.

shadow of such strong survivors as our parents. I still struggle with these ques-tions: How do we as Sansei continue the Nikkei legacy? What is our Sansei legacy? Are we ready and willing to be the bridge to future generations of Japanese Americans? Or are we bet-ter off melting away and disappearing into the multi-cultural pot? Actions speak louder than words, so maybe all of these questions are becoming moot as the U.S. Nikkei vinish.

Here in our own valley, from Hen-derson another of our favorite sons is on his way to hopefully a career that is every young boy's dream: to play baseball in the big leagues. On June 3, Anthony Caracciolo, 17-year-old grandson of the late George Miyama, was drafted by the Montreal Expos in the seventh round. Starting at Basic-High School, he played shortstop and had been recognized as probably the best infielder in the city this season. "I just wanted a fair deal in a round that I felt was fair, Anthony said. 'I feel everything was handled well and I know that now is the time where all the hard work will really begin." Anthony was hitting .424 (39 for 92) in 26 games in his season with the Wolves. He hit nine home runs, had 35 RBIs and scored 30 runs. 30 run Anthony spoke of his pride in his

Budget bill restores some benefits for immigrants, but problems remain

WASHINGTON-President Clinton has signed the 1997 Balanced Budget Act, which contains important provisions related to immigrants and their benefits. While the National Asian Pacific

American Legal Consortium praised the bill as a significant vic-tory in the fight to restore benefits for legal immigrants, it remains concerned over other provisions in the welfare law which will continue to deny immigrants access to criti-cal benefits.

For example, nearly one million legal immigrants were expected to lose their food stamp benefits in August. According to the U.S. Department of Agriculture, Asian Pacific Americans comprise only 3.3. Levent of all Food Stamp recip-ients. However, nearly 20 percent of all legal immigrants receiving
