Rev. Jesse Jackson and civic leaders, including Lori Fujimoto, at the Save the Dream! march press conference in Sacramento.

### Asians parade in 'Save the Dream' with Rev. Jesse Jackson

SACRAMENTO—Twelve thou-sand marchers, including an esti-mated 1,000 Asian Americans (Chimated 1,000 Asian Americans (Chinese, Hmong, Japanese, East Indian and Korean), joined Rev. Jesse Jackson's "Save the Dream" march here this past week (Monday, Oct. 27), filling the west steps of the State Capitol for the rally to save the "dream" of Dr. Martin Luther Wing.

Marchers from across California descended upon Sacramento to de-nounce implementation of Proposi-tion 209, hearing remarks from a panel of speakers including Jerry Enomoto, U.S. Marshal for Eastern

California, San Francisco county supervisor Mabel Teng, entertainer Steve Park and Lori Fujimoto, national JACL vice-president, public

affairs.

A \$5,000 check from the greater Sacramento Asian Pacific community toward march expenses was presented during a breakfast hosted by Dgotthy and Jerry Enomoto, Bill Wong (aide to Assemblyman Mike Honda) and Lori Fujimoto. Rev. Jackson is leading an effort to request the Justice Department to investigate the deceitful initiative cammaier by proponents of

tive campaign by proponents of Proposition 209.—Lori Fujimoto

## Pasadena's Shig Kawai played with Jackie Robinson

BY CAROLINE AOYAGI

ssistant Editor
LOS ANGELES—The first time 80-year-old Shig Kawai met the leg-endary baseball hall-of-famer Jack-

endary baseball hall-of-famer Jackie Robinson, major league baseball had only White players and World War II was still years away. It was 1936 and the place was, naturally, a baseball game. The two teens had been chosen to play in the annual high school "all-star" game, a match where only the best players from Southern California were invited.

"Even then, Jackie was pretty well known," recalled the Nisei res-ident of Pasadena. By the time they introduced at the all-star Kawai had already heard about Robinson's skills not only in baseball, but also football, basketball, and track.

ball, and track.

The two ended up playing on the same, team that day, recalled Kawai, and Robinson was given a medal for the most stolen bases. And, he said with a smile, he beat out Robinson for second base. "He

### Holiday Issue deadline 'around the corner' - Friday, Nov. 28 -

O HELP dispel the notion the 1997 P.C. Holiday Issue deadline is still "weeks away," this is an Earnest Notice that the "absolute deadline" for all stories, contributions, greetings and advertising, traditionally at the end of this month, has been advanced to Friday, Nov. 28.

The Holiday Issue kits were distributed to all JACL chapters the first week of September, and chapters have or-ganized solicitation teams. The advertising and one-line greeting rates have not been changed: \$7.50 per one-line in-dividual greetings or \$16 per column inch for display adver-

# Census 2000 adopts new ethnic categories, but not 'multiracial'

WASHINGTON-Native Hawaiians should remain in the racial cat-egory labeled Asian and Pacific Is-landers in the next census, according to a recommendation of a task force for the Office of Management and Budget.

Only point made in July was to change the description, "Hawaiian" to "Native Hawaiian."

But in the final decision, which came forth this past week (Oct. 29), "native Hawaiians" were coupled with "other Pacific Islanders" as a category.

Many groups, including National ACL, had opposed a separate

"multiracial" classification because it diluted the numbers of people who identify with a particular race (see July 18-31 P.C.). The JACL further emphasized the need for an ac-curate count but did not suggest how mixed-race individuals are to

Now, mixed-race Americans can check off more than one racial cate-gory for themselves. However, for purposes of the Voting Rights Act, which ensures that blacks and other minorities are represented, those who check "black" and another race "will be treated as African Ameri-can," OMB administrator Sally

Katzen explained. [It was not known whether an Asian-Cau-casian individual would be regard-ed as "a minority" or not for the

ed as a minority or not for the same purpose.]

"We're allowing people to express that multiracial heritage in what-ever way they view themselves," OMB director Franklin Raines

Native Hawaiian leaders wanted to be counted in the American Indi-an/Alaska Native category, because "we are part of America and an in-digenous population, no different than indigenous people in the other

BY AL MURATSUCHI and HARRY K. HONDA LOS ANGELES—All

chapters and members were alerted this week to support a national campaign for Japanese Latin American redress, i.e.—to lobby their congressional repre-sentatives to urge President Clinton to settle a class-action lawsuit filed on behalf of Peruvians of Japanese ancestry who were arrested during World War II at request of the U.S. Govern-ment and interned in the United

Meanwhile, 80 members of Congress urged the President to settle the lawsuit and grant redress. The effort was spearhead-ed by Reps. Patsy T. Mink (D-Hawaii) and Anna Eshoo (C-Calif.) in gathering their signatures, including the two Senators from Hawaii, Daniel Inouye and Daniel Akaka, two House Republicans Tom Campbell (Calif.), Benjamin Gilman (N.Y.) and 76 including

Benjamin (Himan (N.Y.) and 76 House Democrats including Robert Matsui (Calif.) and Bar-ney Frank (Mass.). Though not addressed during the redress committee strategy meeting, National President He-ley Kourses in a timely above. len Kawagoe, in a timely observation, added, "While President Clinton has criticized China for being on the wrong side of histo-ry with their human rights abuses, he should be reminded abuses, he should be reminded that our own great nation has some unfinished business to be redressed. During the eight-day visit (Oct. 26-Nov. 3) by China President Jiang Zemin, protestors were out in force criticizing China's human rights policies.

### Supreme court lets Prop. 209 stand

WASHINGTON-The U.S. Su WASHINGTON—The U.S. Su-preme Court Monday (Nov. 3) let stand without a dissenting vote a lower court ruling upholding Cali-fornia Proposition 209, clearing the way for Gov. Pete Wilson to dismantle state race-and-gender preference programs.

The proposition is an amend-ment to the state constitution that says state and local governments, about 6,000 entities, cannot disanout 9,000 endues, cannot dis-criminate against or grant prefer-ential treatment to any individual or group on the basis of race, sex, color, ethnicity or national origin. Undaunted, ACLU, which ar-gued the case, asked the Supreme

"We appreciate the community's dedication to this cause," ORA administrator DeDe Greene remarked. "The meeting was positive and productive," (Current ORA update:appears on page 9.)

## Last call issued to WW2 vets for names on monument

GARDENA—Chairman Young O. Kim of the 100/442/MIS World War II Memorial Foundation an-nounced that names of eligible World War II Nisei veterans and their officers must be submitted to the Foundation by Feb. 27,

1998.
"The process of building the monument has begun," Kim said. "We've started negotiations for the granite, and the steel is being fabricated." Ground-breaking is tentatively scheduled for June of next year and the unveiling for 11 a.m., Oct. 17, 1998.

"We need to have all additional names or corrections submitted to our office by Feb. 27. Once the list is completed, the granite will be engraved with approximately 15,000 names be and ready for mounting on the vertical wall of the 40-foot diameter monument."

the 40-foot diameter monument."
The current list of names of Nisei WWII veterans who served overseas will be published, as a part of the 1997 Holiday Issue of the Pacific Citizen.
Being that the MIS was a topsecret unit, only first initials were provided for the 6,000

names that were made available. The Foundation has identified over 5.000 first names but nearly 1,000 remain unidentified.

The Foundation further seeks

The Foundation further seeks other Nisci veterans who served overseas with other military units. CIC/OSS veterans are more difficult to identify, as they were a highly classified unit and their discharge papers lack details as to where and in what capacity the veteran served. The Foundation will accept a sworn statement of a fellow veteran for

SAN FRANCISCO—FINAN-CIAL AND MEMBERSHIP RE-PORTING—Our conversion to a new integrated accounting, membership, and fund raising computer system has taken longer than an-ticipated. We hope to begin having the system operational by the first of 1998

user-friendly and will help to re-duce the possibility for errors and the membership and account ing departments operate more effi-

Until about 1991 or 1992, mem-bership was managed by hand. The 1994 audit recommended a computerized accounting system and so in 1995 JACL installed a separate accounting system. However, with a reduced staff and increasing de-mands and needs for better accountability, maintaining two incompatible database systems has me extraordinarily complex.

The following is a brief update of what has been done and what we are currently doing:

· Duplicate information and other errors in the membership data-base have been cleaned out in preparation for conversion to the system

The current accounting system

is being revised to include new ac-counts, programs, and cost centers.

Staff members are undergoing a training regime that includes a series of exercises and mock rep

ting. Protocols for the networking of the new system are being orga-nized so that information may be called up from several different workstations.

Donor information, dating back to 1989, is being reviewed and analyzed to ensure that the donors

are properly credited.

• An analysis of the current membership software program has been completed and a decision has been made to transfer its use to generate lists of former members who had not reviewed or lapsed their memberships.

By David Kawamoto

The result of these time-consuming tasks should be a more efficient system that provides more detailed information, thereby providing for better accountability and internal

We will be providing more de-tailed financial information by pro-grams so that everyone will be able to clearly see how the funds of the JACL are used. In practical terms, the new system also means more on-time chapter rebates, timelier

information about membership, timely and accurate acknowledg of donations and contribu

ment of donations and contribu-tions, and a clearer demonstration of how JACL spends its money. To avoid making or repeating er-rors about membership has re-quired evaluating the details of the information that was entered for each member and former member with over 30,000 records in membership database, it is an obvious time-consuming process. Your patience and understanding are appreciated.

REDRESS REMINDER-The Redress program officially ends August 10, 1998/ Railroad and mining workers who were termi-nated during World War II and Japanese Latin Americans brought to the United States during the Japanese Latin Americans brought to the United States during the War should be making application for redress. Should a decision be reached making those people eligible for redress, one will have a sub-stantially better chance of getting redress on time.

THE UNKNOWNS-The office of Redress Administration has made available to JACL, in elec-tronic form, the list of 2,000 names of those incarcerated during World War II but whose whereabouts are unknown. JACL can provide the list via e-mail or on disk to anyone who wishes to receive a copy, the JACL at 415/921-5225 mail us at JACL@JACL.org.

Y two teenage sons and I were watching the U.S. Open Golf Championships this year. The talk everywhere is about that noted Asian American, Tiger Woods. While we watched the second-round highlights on Friday my sons asked me who I thought my sons asked me who I thought might win the championship. I jok-ingly told them I was cheering for Hideki Kase (I know P.C. reader-ship have no problem pronouncing this name correctly). Actually, I'm sure the boys were seeing if I was also cheering the odds on favorite, Tiger Woods. Actually, I was cheer-ing for Woods and pleased to see an ing for Woods and pleased to see an

Similarly, I recently found my younger son, Keith, watching a baseball game. I was somewhat surprised to discover it was a surprised to discover it was a Dodger game. Being a native San Diegan, I take great pride in pointing out to my PSW brethren that I'm from the home of the National League Western Division Champion Padres. Keith is quite a sports fan and I thought I had taught him which teams are the good grus and fan and I thought I had taught him which teams are the good guys and which are the bad! So, here I find him cheering as the Dodger pitcher is striking out the competition (who happened to be the Anaheim Angels). That pitcher was Hideo Nomo. Oddly enough the opposing pitcher was Shig Hasegawa. (I'm beginning to think the Padres are the only team without a Japanese pitcher!). I found myself feeling a sense of ethnic pride in the accom-plishments of Nomo. I asked Keith if he shared this feeling and he im-mediately responded affirmatively.

Our society, and it's media, pla sports figures in the spotlight. Who hasn't seen Tiger Woods on television or on the cover of a magazine? HE BOOK is entitled Go For Broke - A Pictorial History of the Japan-ese American 100th Infantry Battalion and the 442d Regimental Combat Team. Authored by Chester ("Chet") Tanaka, a volunteer from St. Louis, Missouri, who served in "K" Company of the 442d, the book's 172 pages contain some 240 photographs culled from 4.000 shots. Interspersed with excerpts from contemporary diaries, letters home, and oral histories, the resulting composition presents personal perspectives that make up the

broad picture.
AT THE OUTSET, in the introductory section of the book, after pointing out that the men of the 100th/442d bitched and acted like any other American dogface (infantryman), the author points out there were some differences: They liked rice. Three times a .. They had strange sounding names ... almond eyes ... dark hair ... and brown skin. They were short. Their average height was 5'4" and their average weight was 125 pounds, even soaking wet... Many were a Quartermaster's nightmare: "They wore shirts with 13-1/2 necks and 27' sleeves; pants with 26" waist and 25" inseams. And then there were the shoes - would you believe 2-1/2 EEE?" (The book quotes from an item appearing in the Honolulu Star Bulletin: "All 4'9" of PFC Takeshi Kazumura ... is a peck of headaches ... The regiment ... had to give [him] 10 days' leave to travel from France ... to Naples where the Quartermaster had two pair of shoes specially tailored for him. And at that still a half size too big. When Kazumura was wounded ... he was hospitalized for six weeks." When asked how the nurses treated him, he answered "just like a baby.") There are other tid-bits of little known facts about the 100th/442d

FOR EXAMPLE, the episode of 28 men from the Hawaii 100th Battalion being whisked out of Camp McCoy (Wisconsin) on a hush-hush mission to Cat Island located due south of Gulfport at the mouth of the Mississippi River. There, dogs were being trained for military service messenger, scouting, sentry, attack, trailer. So why a contingent of Japanese American soldiers? "Some rear-echelon commando decided that the Japanese soldier smelled differently and that the Japanese American soldiers must give off a similar smell. It was a great idea, but it didn't work. Somebody forget to tell the

OTHER IGNOMINIOUS affronts. A Nisei soldier in uniform visiting friends in a "relocation" center recounts his experience: "We checked in at the barbed-wire gate when wham — this guy pulls out his bayonet and mounts it on his gun and says 'Okay Corporal, march.... I turned around and said, Corporal, take that bayonet off and put 'um back in your scabbage.' He said 'No, I have to follow you with this bayonet right in back of you. So I said. You know I am in American uniform.' He said, Yes, I know that, but these are my orders.' So I took a swing at him. Then Miyamoto and the other guy held me back."

THERE FOLLOW the exploits of the 100th/442d, concluding with President Harry S. Truman personally receiving and reviewing the men of famed regiment, and in pinning the 7th Presidential Unit Citation on the regimencolors, declared: fought ... not only the enemy, You fought prejudice - and won. Keep up that fight ... continue to win - make this great Republic stand for what the Constitution says it stands for: 'the welfare of all the people, all the time.

"Little Iron Men?" That was one of the labels by which the men of the 100th/442nd were called by the people in Europe. Another was "gentlemen sol-

## Camp experience propels U.S. Assistant Attorney General Takayo Ochi's commitment to race relations

BY CAROLINE AOYAGI

sistant Editor LOS ANGELES—When U.S. Assistant Attorney General Rose Ochi was born, she was given the Japan-ese name "Takayo," meaning "a child with high ideals." But in an internment camp dur-ing World War II, it was changed to

the American name "Rose" by some well-intentioned . Japanese can women.

Since then, Ochi's gone by Rose, but after more than fifty years she'd like to start using the name Takayo

Please call me Takayo," said Ochi, as she shared her camp expe rience during an emotional speech at the second annual Alliance of Women Entrepreneurs (AWE) Entrepreneurs (AWE) awards ceremony. She was being honored with the Government Advocate Award at the event held the Westside Pavilion on Oct. 10

Like more than 110,000 JAs, Ochi and her family were forced to leave their home in Los Angeles, and herded by the United States and nerosed by the United States government into an internment camp in Rohwer, Ark., where they lived until the end of the war. Re-cently, Och had a chance to revisit the old site.

the old site.

It was difficult to go back, she said. 'I still have not processed all my feelings, but I'm working through them.'

And although her memories are painful, she said, it's the experience of being unjustly interned that continues to propel her commitment to bettering. America's race relations. bettering America's race relations and to ensuring the civil rights of all ricans are upheld.

Ochi is currently the highest ranking Asian American woman at the White Hor se and is the first AA woman to hold the position of assis tant attorney general. She was re-cently named Director of the U.S. Department of Justice's Communi-ty Relations Service (CRS), a division responsible for evaluating race relations and establishing construc-tive dialogue between the various

ethnic groups.

During the '80s as a national JACL vice president, Ochi played an important role in the Redr movement and witnessed the sign-ing of the Civil Liberties Act, a bill that finally brought reparations to thousands of former JA internees. And as pro bono counsel to the ar Committee, she helped convince the government to decl the former internment camp a national historical site

Choosing Ochi for the award was an easy decision, said Rica Burton, co-founder of AWE, a non-profit or ization that helps provide ed cation and support services for women entrepreneurs. "We always look for people with a long track record," she said, "and Ochi has an incredible bio," advocating for women and her strong commitment to inter-ethnic dialogue."

In addition to Ochi, the other

awardees were: Nilza R. Serrano of Serrano & Associates, Corporate Leader Award; Pamela J. Willis, esident of the Boeing Com pany, Corporate Advocate Award; Louise K. Garside, LKG-CMC Inc., Small Business Owner & Commu-nity Advocate Award; and the Ex-

Assistant Attorney General Rose Ochi (left) with Alliance of Women Entreprineurs (AWE) co-founder Rica Burton at the 2nd annual awards ceremony.

cellence Award was presented to the Los Angeles Sparks of the Women's National Basketball Asso-

In her speech, Ochi talked about ne "social bombs" that are currently exploding onto American society; issues like California's Prop 209, anti-immigrant bashing and the "frenzy around campaign finance reform," that are straining America's race relations. "All of these highlight racial tension and conshe said. But it's at times like this that America needs to come to-gether and work through the prob-lems.

And, she added, she has confi-dence in America's future. If a girl who was once unconstitutionally interned by her own country can go on to work for Redress and serve the President and America's people, "I have a good reason to be hopeful,"

As one of the few AA role models in government today, Ochi knows the importance of encouraging the community to become more politically active. "It's importan women and AAs to succeed," said in an interview with Pacific Citizen, "because unfortunately, if we don't, then a whole group is viewed as unqualified." And even though the current campaign finance scandal has left a bitter taste for politics among AAs, Ochi warns that it's more than just political interest that's being affected. "It's not going to only affect political participation, seeking public office," she said, "it's crief to play out in our young pecing to play our in our young pecing to play out in our young pecing to play our in our young pecing to pl going to play out in our young peo-ple's desirability [to pursue their

She added, "It's not just a problem for those that have been sin-gled out. It's playing out in all seg-ments of our lives so it's important that each of us finds a way to de velop better racial understanding.

In the past, Asian Americans have tended not to ask for any quid pro quos, said Ochi. "We give, but we don't ask ... but that's what it's all about. We need to figure out ways to not enryo anymore, to claim our dues." But, she said, "Our numbers are growing, and so is our ability to raise money

Over the years, Ochi has been honored with a number of awards. But it's the work that's most re-warding, she said. "While I appreciate being recognized ... serving in the public interest provides its own rewards." She said, "You do what" you do because of the fruits of your labor. That's the award.

philanthropist George Aratani gives generously of his wealth, but what is more important, his time as

Recently it was announced that Aratani and his wife. Sakaye, had given the National Japanese American Memorial Foundation a half million dollars to jump-start the drive to raise the \$8.6 million needed to build a memorial in Washing-ton, D.C. After writing the ck, figuring his duty done, he could have gone off to play golf. Instead he is joining directors of the Foundation in meeting with other potential donors to explain the purpose of the memorial, and ask their support.

"It's very important to use this opportunity to educate all Americans about the contribution Japanese Americans have made to the greatness of our country, he said recently. "Many Americans know nothing about us. They don't know anything about the way our own government mistreated us during World War II, nor about the way we demonstrated our loyalty to America and ultimately caused the government to apologize.

"Now Congress has given us a plot of land not far from the Capitol where we can tell our story to all Americans, today and into the far future. The memorial provides an opportunity to educate our fellow Americans so that nothing like the experience we had will ever be inflicted on others. What a great opportunity for us to contribute toward the creation of a better America. Shame on us if we don't get it done."

The idea for the memorial came from Go for Broke, an or-ganization of Nisei veterans, and the Foundation was estab lished to make it a reality. Its chairman is Melvin Chiogioji, a retired rear admiral in the U.S. Navy Reserve.

Aratani is well-known to Southern Californians where he has given generously to such projects as Keiro Services, the Japanese Retirement Home, the National Japanese American Museum, the Boy Scouts, and numerous 'university church groups. His generosity is

legend.
Born in Los Angeles, George grew up in the Guadalupe area where his father, Setsuo, was a prosperous vegetable farmer and shipper. George went to Japan after high school, studied the language and enrolled at Keio University. His father's illness brought him back to Amer-ica in 1939 to take over the busi-

Evacuated to the Gila River WRA camp in Arizona, he volunteered as a Japanese language teacher at the Military Intelligence School at Camp Savage, Minn. Meanwhile, his family's giant Guadalupe Produce Co., mismanaged by the trustees had become virtually worthless.

Aratani came back through business acumen and courage He began to import Japanese dinnerware, which he called Mikasa. A few years later he was importing superior hi-fi equipment under the Kenwood name. Both companies pros pered. Eventually Aratani sold them, remained as chairman emeritus, and he and Sakave set about supporting good causes.

They have two daughters, Donna Kwee in Singapore, and Linda Kimura in Torrance, and seven grandchildren.

Substantial gifts like Ara-tani's can get the fund drive started. But the memorial is the kind of endeavor that deserves broad popular support, the \$10 \$25, \$100, \$500 and even larger gifts from a wide cross-section of Japanese Americans. George and Sakaye Aratani are simply leading the way.

## Funds sought for National Japanese American Memorial

Colorado's Japanese American com-munity attended a dinner at the Wellshire Inn on Wednesday, Oct. 15, to learn of the nationwide drive to raise funds for the proposed Na-tional Japanese American Memori-al in Washington, D.C.

Mel Chiogioji, retired U.S. Naval eserve rear admiral and chairman of the committee formed to build the memorial, told the group that the goal of \$8.6 million must be met by the end of 1998 or the land provided by Congress will revert to the

Chiogoji said the memorial will tell the story of Japanese Ameriteil the story of Japanese Ameri-cans, their mistreatment during World War II, the patriotic re-sponse, and the ultimate triumph of democracy when the government admitted through the Civil Liber-ties Act of 1988 that it had been

wrong.
"It will not be a war memorial,"
he said, "but permanent recognition
of the contribution of all Japanese Americans/toward making ours a

### **Text: Congressional letter to President Clinton**

Congress of the United States Douse of Representatives Washington, D.C. 20515 Oct. 8, 1997

The Honorable William J. Clinton The President The White House 1600 Pennsylvania Ave NW Washington DC 20500 Dear Mr. President:

Dear Mr. President:

We write to request your assistance in correcting a terrible injustice committed against individuals of Japanese ancestry from Latin America who were interned in the United States during World War II.

These individuals, targeted as potential "enemies" of the United States, were arrested and forcibly transported to U.S. internment camps as part of a United States-led plan to use them as bounty for the return of U.S. hostages. After the war, their home countries rejected their return. Some were forcibly sent to Japan; many remained in the United States.

return. Some were forcibly sent to Japan; many remained in the United States.

Uallike other Japanese Americans interned during World War II, they have received no apology, from the U.S. Gøvernment and have been denied redress under the Civil Liberties Act of 1988.

The Civil Liberties Act specifically identified the class of persons eligible for reparations as those who were U.S. Citizens or legal residents at the time of internment. Technically, the Japanese Latin Americans did not fit this requirement. However, they were present in the United States under old of 1988.

The Given the Company of 1988 of 1988, and therefore should be eligible for redress.

The Justice Department adjusted the status of over 100 of these Japanese Latin Americans in the 1950s by granting them retroactive status as legal residents. Accordingly, this group of Japanese Latin Americans was able to receive reparations under the redress law of 1988. However, hundreds who were not made aware of the ability to change their status, or who did not have a lawyer to pursue this avenue, were left out.

We believe justice requires that all individuals in this class should have

the same apology and remedies for their suffering at the hand of the U.S. Government during World War IT. This matter is of the utmost urgency as the Civil Liberties Act of 1988 will sunset next year. We respectfully request your assis-tance in adjusting the status of these Japanese Latin Americans by Execu-tive Order so that they may receive justice.

Even today, Kawai's six-foot frame is lean and trim and he looks years younger than his age.

But the athletes shared something else in common: they dealt with discrimination and prejudice everyday, simply because of their skin color. Kawai recalled how he, along with the rest of the players from the all-star baseball game, swere contacted by the major league teams to try out, something that was done each year, But, "at that time, major league baseball was strictly White," he said. And 'being Japanese and of course Jackie Robinson being Black, no matter what your talent was, they wouldn't sign any minorities."

That's why Kawai never answered the letter he received from the Los Angeles Angels. He figured they wouldn't seriously consider him for the team anyway he said. "There was so much prejudice before WWII ... a lot of anti-Japanese [sentiment]," said Kawai. So "know-

the end of the week, the media around country announced he had died Thursday (Oct. 16) and devoted pages and pictures to his accomplishments, his wanderings around the world, the titles to all of his epics, the honors and extent of his philanthropy. There were comments, too.

That leaves the P.C., at least, to add some JACL perspectives. The "mugshot" in this space dates from the EDC-MDC joint district convention over the Labor Day holidays in 1965 at the Philadelphia Marriott. It was the first time we met. His late wife, Mari (Sabusawa), explained Mich [— as she called him —] will talk before any JACL gathering if he's JACL gathering if he's around," so this turned out to be that rare treat.

The week after the EDC MDC convention, he suffered a heart attack at his farm home in Bucks County and was hospitalized. He made the P.C. front page two issues in a row. But here's the essence of his keynote address at the Philadephia joint EDC-MDC convention

He challenged the Nisei and Sansei (and we paraphrase here) "to project the best of their cultural heritage to the American way of life. Among the most fundamenal concepts of value were that of Japanese feudalism, the philosphy of life as engendered during the years when the Issei were children, the family patterns and personal honor.

He said JACL can also contribute to the history of heritage of America, to see that Americans are allowed to adopt the best of our cultural heritage rather than pointing the Japanese Americans to the "cheapest of the general con-sensus of America." He noted that America has the saving

Ellen must have taped his speech here. "History empha-sized central consensus and the pressure on non-conformity was far greater than what is written in our history books. Tyranny of the majority which has worked hardship on immigrant groups-all who came to this shore were subjected to it and the success of the immigrants was measured by their conformity," as he recalled the arrival of the Issei and other immigrants to the USA.

We did, however, develop a collateral virtue which has probably saved the issue. As we ridiculed, we also praised their virtues. This was our salvation when we borrowed the good points from all countries.

The Michener name (Jim and Mari) appeared annually in the P.C. when National JACL scholarship winners were announced. They contributed one of the top prizes to deserving high school graduates. And in small print, their names were on the P.C. Holiday Issue Honor Roll as JACL 1000 Club Life members of the Philadelphia chapter. Their names should be perpetuated on the Honor Roll as "Life Contributors.

When Jim and Mari were married in 1955 in Chicago some speculated whether it might last, since it was Jim's third and Mari's first—but it was an idle bit of envy ... So much for small talk.

## 'The Issei' poster

Thank you very much for the beautiful lithograph, "The Issei," by Pete Hironaka. It will be prominently displayed in our Chapter meeting room for all to see. It captures so well the story of the Issei, who came from Janes to start to who came from Japan to start a new life, the trials and tribulations they endured because of the intern-ment, and their steadfast loyalty to their new country in spite of it. The poster will serve as a reminder of poster will serve as a remainded how much we owe to that first generation for their bravery, per ance, and sacrifices.

## The new civil rights movement

E had a lovely time. The Pacific Southwest District Awards Dinner at the Tor Awards Dinner at the for-rance Marriott had all the festive signatures of a gala extravaganza. It was time to leave the mundane, get out our nice clothes, and sit be neath the chandeliers.

neath the chandeners.
Beneath the surface glitter there was a serious intent. We wanted to showcase JACL, and increase our visibility with the general public. Entertainment aside, this was a serious property of the serious rious public relations marketing ef-

gree completely with this goal. In a larger sense, I'm all for a busi-ness management philosophy of leadership which I will explain.

I can just feel the adverse kne jerk reactions in some people.
"Business management ... that's the
modus operandi of the bad guys..." The very words "corporate manage-ment" conjures up an image of coldly cynical, profits over people, arrogant elitists who only conce themselves with executive perks. I maintain that business ma

agement skills are like money. Mon-ey, per se, has no moral value. Monsignificance comes only from how people use it. We can use it to finance a humanitarian mission, or we can use it to operate a drug ring. In the hands of a 90s style leader-ship which still maintains the goals of the '60s, business skills are

derful.

Let's take a look at some of the classic leadership styles of the 60s. There was the militant spewing rage at the Establishment. There was the wretched of the earth, speaking for his people. And there were the almost religiously charis-

matic saints of the movement.

As Bob Stoneham puts it, those methods were fine for getting things started, but they cannot sus-tain our movement. Their nature was highly emotional, inherent and had little structured planning. I see the exasperated look on Bob's face. "So we had Uncle Tom, what good did that do us? So then we had the Black Militant, what good did that do us? After the fires died down and

the rhetoric was silent, we right back where we started. Those guys didn't have a plan ...." The grassroots community organizer succeeded in convincing his people they weren't going to live that way, but where was his plan? The reli-gious icon works only with followers with a chidiblegrassroots community organized vith a childlike mentality, wh with a childrike mentality, who won't actively upgrade themselves because they get all self-esteem from a parental figure. Parental leaders don't give their people plans, because plans are for adults.

We are now many years past the inception of the Civil Rights Movement. The adolescent passions which started us on our journey have, I hope, been replaced by a more matured and worldlier per-

more matured and worldlier perception. In the New Civil Rights Movement, I want to see less emotion, and more structured planning. Good, solid business administration skills can do so much for any civil rights group. As we did at the Torrance Marriott, see can increase the mainstream's awareness of us through marketing efforts. We can invest our financial assets for large gains, and fund projects. We can regains, and fund projects. We can regains, and fund projects. We can re-solve internal conflicts and lead organizations though transition periods using the same methods main stream companies use to solve their

We are now in the 90s, much further along, with impressive achievements behind us. As we change, so must our methods. The passions of the '60s have not died. We are still expressing them, in the style of the '90s, as business administrators with a social conscience.

## Updating ORA's projects

BY DEDE GREENE

WASHINGTON—The countwashington—the count-down has begun. In accordance with the Civil Liberties Act of 1988, ORA will officially cease operations on Aug. 10, 1998. Since my last up-date, the Office of Redress Adminis-tration (ORA) has been working on several claims and projects to en-sure a successful close-down in ap-

roximately one year.

California Community Meet ings. Last August, we focused our outreach efforts on a series of com-munity meetings in Los Angeles and San Francisco. ORA Director Joanne Chiedi, Senior Operations Manager Lisa Johnson, and Attor-ney Emi Kuboyama provided atten-dees a detailed update on current ORA activities and propertions for ORA activities and projections for the future. The meetings provided an excellent opportunity for meman excellent opportunity for make sug-bers of the community to make sug-gestions and share concerns.

Ishida Update. This payment in September included those individuals who were notified of their eligibility under the Ishida regula-

tions.

October Payment. Over 900 claimants have been found eligible and have submitted necessary paperwork. Checks and apology letter should be received by Nov. 15.

Railroad Research. ORA staff continues to research the firing of

persons of Japanese ancestry from railroad positions in World War II. Historian Michi Weglyn has graciously offered suggestions and guidance on this issue.

Puunene Claims. We have rently received claims for redress om several individuals who sided in Puunene, Maui, during World War II. An ORA representa-tive will travel to Hawaii to conduct historical research and interview Puunene claimants in late Novem-

Outreach. ORA is looking for new outreach opportunities, and we need your assistance. We would like to send representatives to conventions, camp reunions, and commu-nity meetings that concern redress.

ing two weekends in August at the second annual L.A. Tofu Festival. The Tofu Festival was held in conjunction with Los Angeles' Nisei Week, an annual celebration of Japanese culture. Nisei Week is the oldest of its kind. It includes a parade, beauty pageant, ondo, a street arts festival, taiko performances,

arts lesuva, tanko pertormances, and film presentations. The tofu celebration was in all as-pects eclectic, with its 46 different representations of Japanese, Kore-an, Chinese, Thai, American, and Greek cuisine, all of which included

There were children's crafts, cul-tural entertainment, health facts about the benefits of tofu, and a tofu eating contest to round out the events. Young and old bobbed from booth to both with their plates in hand and smiles on their faces. Resides being a fun-filled entirity.

Besides being a fun-filled activity, the fair was to benefit the Little Tokyo Service Center and the JAC-CC.

Tofu is generally known as "that

bland white stuff" that people eat because of its health value, and has been a well-kept secret of the Asian community. This festival proved tofu to be not only "good for you," but plain "good" as well. Eighteen-year-old Pein Yu was caught enjoying a plateful of tofu ravioli and commented, "Ibfu ravio-li is da bomb! ## Pasadena's Shig Kawai played with Jackie Robinson

they were one of the lucky ones, for a trusted neighbor had looked after their home while they were in-

Kawai was 28 by the time he got out of camp and says bitterly, "The best years of my life were spent in that camp." But, like many Japan-

ese Americans, he persevered and eventually went on to marry, have three children, and enjoy a success-ful career in the hearing aid busi-

And although Kawai never joined Robinson in the major leagues, he continued to play the sport he loved when he got out of

cy that continues to have an impact, said Kawai. "Today we have a lot of Blacks and Latinos playing baseball, but that's because Jackie ball, but that's because Jackie Robinson broke the color line." He added, it's the diversity of baseball's players that makes the game great. "After all, they have the ability. They want someone in there who" hit home runs and steal bases

And with the recent addition of And with the recent addition of Asian players like Hideo Nomo and Chan Ho Park of the L.A. Dodgers and Shigetoshi Hasegawa of the Anaheifi Angels, Kawai couldn't be happier. "I think it's wonderful," he said. "My wife is a rabid baseball fan, and she's a fan of the Dodgers. I never did care for the Dodgers be-cause they were like the millionaire boys, they catered to them, they had their own plane at the time," he said. "But now that Nomo is pitching for the Dodgers, I'm a Dodger fan."

And the diversity in baseball is a trend that's going to continue, said Kawai. It started with Jackie Robinson and today's players are following his lead.
