VETERANS DAY 'DB Boys,' An Untold WWII Story

By MARTHA NAKAGAWA

t happened on March 21. t happened on March 21, 1944, at a place called Fort McClellan, Ala.

One hundred and six Nikkei soldiers were given a choice: Go out the right door and all will be forgiven, or exit the left door and face a court martial, possibly even death.

Seventy-eight men chose the right door and went on to serve in either the 442nd Regimental Combat Team or 1800th Engineer General Service Battalion.

Twenty-eight soldiers walked out the left door and became known as the "Fort McClellan Disciplinary Barrack Boys," or 'DB Boys," for short.

Like the resisters of conscience, these military resisters realized the fight for democracy had to start here in America rather than overseas. And like the resisters, these men have been wrongly accused of being pro-Japan or "disloyal."

DB Boys George Sato", 80, and Tetsuo Tim Nomiyama, 83, never regretted the stand they took more than five decades ago.

"If you don't do what you believe in, why live?" said Sato. Some people have asked me, What did you feel? I said, I thought they would shoot me. In fact, during an interview, I told them if you think I'm afraid to die, you can line me up and shoot me now. I'm not afraid of the contract of the to die, you can line me up and shoot me now. I'm not afraid of death if it's going to ensure that we're not discriminated."

Sato received his draft notice in Oregon. As rumors of evacuation swirled around him, Sato reported to his draft board and was shipped to the Presidio in California, and then to Camp Robinson, Ark., where he underwent basic training in an integrated unit. In September 1942, Sato requested permission to visit his parents at the Tule Lake Relocation Center for his furlough. The

Upon Sato's return, he was sent to Fort Riley, Kan. While there, the Western Defense Zone opened up to Nikkei soldiers, and Sato in March 1943 was able to vist his parents at Tule Lake.

In April 1943, President Franklin Delano Roceevelt visited Fort Riley, but Sato never got a chance to meet his president.

Seven Killed in Hawaii Xerox Office Shooting

By ASSOCIATED PRESS

HONOLULU—A Xerox copier technician, Byran Uyesugi, 40, shot and killed seven co-workers on Nov. 2, then fled in a company van before surrendering to police after a five-hour standoff.

auer a nve-nour standoff.
Gunfire erupted shortly after 8
a.m. on the second floor of the Xerox Corp. office building, located
in an industrial section of Honolulu. Five were found dead in a conference room and two other bodies were found nearby. It appears all had been shot at close range with a 9 mm handgun, au-thorities said.

We all heard this banging noise, like a hammer hitting on a piece of metal," said Xerox empiece of metal, said Aerux em-ployee Andy De Leon. "We didn't think anything of it then. Then all of a sudden a boss called out and said, Follow us,' and we

started running out.
"Someone asked what hap-

pened and he said somebody got shot upstairs." A step-by-step account of the

shooting was provided in a police affidavit filed in court on Nov. 3.

Xerox employee Randall Shin told investigators he was at his desk when he heard gunshots to his right and saw Ron Kawam 54, slump over his chair. Another employee, Jason Balatico, 33, attempted to leave the mom when more shots were fired. Balatico fell to the floor bleeding, said

Shin. Shin could smell gun powder and saw Uyesugi standing in the doorway where the shots came from, he told police. After the gunnan walked away, Shin said gunman walked away, Shin said he fled from the room and ran downstairs

According to police, Uyesugi proceeded down a hallway to a conference room where he was to attend a meeting and there turned the gun on Ford Kanehira, 41, Peter Mark, 46, Ron Kataoka, 50, Melvin Lee, 58, and John Sakamoto 36

He then left the building and drove off.

A jogger spotted Uyesugi and
the Xerox van he was driving at a.
park overlooking downtown. Police surrounded him by late
morning in Makiki Heights, a
residential neighborhood near the shooting scene, and began trying to negotiate with him. He could be seen pacing outside the parked van. His brother, Dennis,

helped negotiate the surrender.

When questioned by reporters,
Uyesugi's anguished father, Hiro,
a widower, replied, "I'm going to
bring him another gun so he can himself"

The father remembers his son losing his temper only once dur-ing his 15-year employment at Xeron, when he allegedly threat-

Co-sponsored by the Asian Studies Program and History Department at Pomona College, the Pacific Basin Institute at Pomona and the Southern California Japan Seminar, the symposium was held to offer further perspective on atroctics committed by the Japanese army in the Asia Pacific region before and during World War II, specifically the mass destruction, rape, tortune and murder which alegedly took place in China's thencapital city of Nanjing.

Panel speakers at the symposium included Peter Sano, author of "1,000 Days in Siberia: The Odyssey of a Japanese American POW," Deqing Yang, assistant professor of history at George Washington University, Chalmers Johnson, president of the Japan Policy Research Institute, and Honda, whose book was just recently translated and published in Eng-

on the heels of Iris Chang's con-troversial work, "The Rape of Nanking," which began to spark wider interest in the subject early last year, Honda's book, which he presented at the symposium, shed new light particularly on the Impe-rial Army's motivations at the time

Court to Rule on Lawsuit Against U.S. Government for Failure to Invest Redress Funds

On Nov. 12, U.S. District court Judge Charles Legge will rule on the U.S. government's motion to dismise National Coalition for Redress/Reparations (NCRR) & Joe Suzuki v. USA, a federal class action suit filed earlier this year in San Francisco.

This lawsuit charges the U.S. survent charges the U.S. government with breach of fiduciary duty for failing to invest the \$1.65 billion redress fund as required by the Civil Liberties Act of 1988. Consequently, only onequired by the Civil Liberties Act of 1988. Consequently, only one-tenth of the \$50 million Congress intended was spent on education-al programming. The fund was created to pay

reparations to persons of Japan-ese ancestry wrongly imprisoned by the United States during World War II and to educate the orld War II and to educate th public about the internment. Re public about the internment. Re-covery of an estimated \$200 mil-lion in interest is being sought so that the compensation and edu-cation mandate of the act can be fulfilled

The NCRR is a community organization dedicated to educat-ing the public and securing redress for all persons of Japanese ancestry whose civil and human rights were violated by the U.S. government during WWII. NCRR is represented by Christopher Prince of McCutchen, Doyle, Brown and Enersen LLP. Joe Suzuki is represented by Robin Ibma and ACLU Legal Director Emeritus Fred Okrand. eritus Fred Okra

"As a result of the U.S. govern-ment's failure to invest, Japanese Latin Americans have been de-prived of just redress, and orga-nizations like the NCRR have been unable to educate the public about internment as was envi-sioned by the Civil Liberties Act due to lack of funds," said Grace Shimizu of the Campaign for Justice. "The government's arro-gant refusal to take any responsi-bility for its malfeasance is shocking." about internment as was envi-

Expiring Green Cards Source of Confusion for Employees, Employers

Since the Immigration and naturalization Service (INS) be-gan issuing green cards with 10-year expiration dates in 1989, expiring green cards have been a source of confusion for employees

year expiration cause in 1969, expiring green cards have been a source of confusion for enaployees and employers using the documents to verify an employees identity and right to work in the United States. This confusion was exacerbated when green cards, or Alien Registration Receipt Cards, issued in 1989 began to expire October 1.

While employers verifying the identity and employment eligibility of their employees are required by law to accept unexpired green cards regardless of their expiration date, they are unable to accept expired green cards, as well as those whose green cards will expire in the next six months, to renew them as soon as possible at the nearest INS office. Those remewing their green cards should request temporary proof of parmanient resident status, which employers are required to accept as proof of an employees identity and employment eligibility.

Under federal law, employers must accept any documentation an employee submits as evidence of his or her identity and employ-

ment eligibility, so long as it has been approved by the govern-ment for such purposes. There-fore, employees whose green card has expired also have the option of rendering other valid docu-ments, such an unexpired foreign passport with 1-551 stamp or INS

In November 1945, the Secretary of the Army issued a clemency act and reduced the men's sentences to two years. Upon their
release in 1946, all were given dishonorable discharges, making
them ineligible for Army benefits.

From 1948 to 1954, Edmund Zane, a friend of the late Masso Kataoka, a "DB Boy," went on a one-man crusade to clear the men's records. On a volunteer ba sis. Zene secured the men's court martial records and wrote numer-ous letters, including several to

In April 1982, Minerich presented a more comprehensive pe-tition to the Board of Corrections of Military Records. In it, they asked that the court martial conviction be changed to "expiration of term of service"; that the date of discharge be changed to the date that the service time of the men would have normally ended; reinstallment of rank; and resti-tution of back pay and other ben-

On Dec. 8, 1982, Minerich and seven "DB Boys" traveled to Washington, D.C., to appear at a Pentagon hearing. After half a day of testimonies, the Army board voted 3-2 in favor of granting the men all their requests except setting aside the court martial conviction. Teaching Tolerance

n organization called Teaching Tolerance sent me a printed appeal the other day asking for money to promote its program. It identified itself as itself as a project founded eight years ago by the Southern Pover-ty law Center in Montgomery,

I had never heard of Teaching Tolerance, but out of curiosity I read the appeal which obviously was part of a national mailing.

I learned that Teaching Tole ance's objective is to teach tole ance in the nation's schools. It produces videotapes and printed materials which, it says, are dis-tributed without cost. More than 77,000 schools, the appeal says, are now using Teaching Tolerance materials to educate nearly 10,000,000 students about car-ing, sharing and tolerance of any-one of different religion, race or

There can be no argument that ching tolerance in the nation's schools is not a worthy activity.

After the family, that's where understanding starts. The promo-tional material quotes Mahatma Gandhi: "If we are to reach real peace in the world, we shall have to begin with children."

Yet I am vaguely uneasy about the program, perhaps for no valid reason. It's a strange thing to say, but it may be that the word "tolerance" is what bothers me.

erance" is what bothers me.
Tolerance in its most common
usage is passive, such as in having tolerance — being able to endure — pain or hardship. You
don't fight back; you accept it —
tolerate it — because you can't do
anything about it. You can have
allerance for cartein kinds of food tolerance for certain kinds of food or drugs that would affect others adversely. In engineering, toler-ance is the acceptable variation from the norm or the ideal. Of course another meaning of tolerance is sympathy for or accep-tance of beliefs, practices or skin colors different from one's own. But "tolerance," to me at least, implies "toleration," which has to

do with unenthusiastic accep-tance, because you can't do much about it, of something that is un-pleasant. Like tolerating mosquitoes on a camping trip or a neighbor's dog keeping you awake barking half the night.

And that's not the way we should regard those who look different from the majority, or speak a different language or eat different foods or have a different form of worship. We should do more than simply tolerate them.

Having said that, I have no sug-estion for a better word. What I'm trying to find is a word that says differences should make no difference.

Should one "ignore" differences? Well, yes, that's the general idea, but the connotation of "igan idea, but the connocation or ig-noring" doesn't seem to be entire-ly right. You can't say "Teaching Ignorance," can you? On the other hand, teaching youngsters to "ig-nore" differences of skin color or facial contours - not to be aware of them or bothered by them —

may be as close as we can get.

But simple "acceptance" of dif-ferences doesn't quite do it either at this stage of striving for a col-orblind society. While acceptance may be the ultimate goal, today there seems to be a need for a more aggressive stance, a more

I would be surprised if the good people who run the Teaching Tolerance program have not wrestled with terminology. Anyway, I like what they're doing so I am sending them a small contribu-tion and a copy of this column. I think they are on the right track. Overall a total of 462 law clerks their respective schools but also were first and second in their were in the count. Of these, nine were identified as "African Amer-ican," with three justices — Chief graduating law class. Clerks came not only from area law schools but also from the soican, with three justices — Chier Justice Rehnquist, Associate Jus-tices Scalia and Souter — scoring zero. Moving on to the Hispanic cetegory, the total was five, with four justices — Stevens, Scalia, called "ivy league" schools Harvard, NYU, Penn, Yale. n, Yale. WHILE I WAS at it, I was aware that there were no Asian lawyers on the District Attorney's staff. I prevailed upon the District Attorney's office with a sugconsciously recruit gestion to consciously recruit (qualified) Asian law graduates, which the D.A. enthusiastically implemented. That D.A.went on to become mayor of Philadelphia. You well may have heard of him: more recently, Ed. Rendell was named chair of the Democratic National Committee.

After leaving the bench, Bill Marutani resumed practicing law in Philadelphia. His column appears regularly in the P.C.
