Lawsuit May Be Brewing Over NJAMF Inscription Hawai Restriction on Voting Struck Down

By MARTHA NAKAGAWA

The National Japanese American Memorial Foundation (NJAMF) may be facing a lawsuit over the selection process and inclusion of a controversial figure on the memorial wall

Following a tense morning ses-sion at a NJAMF board meeting in San Diego on Feb. 26, board member Francis Sogi announced that he will consider fil-

In the minutes from the Oct. 23 NJAMF meeting, it is stated that the board moved to "accept the version of the inscription approved by the Fine Arts Commission." The dissenters question whether the inscriptions were in fact approved by the CFA at the time or whether the board members were led to believe this, thereby curtailing further dis-cussion within the board and in the

larger community. Transcripts from the Oct. 21 CFA meeting has J. Carter Brown, head of CFA, saying "that the final in-scription submission therefore would be the only thing excerpted from this total green light" and that "...the inscriptions come last and we have really a lot of time before every letter is designed and put on the wall.

On the JACL front, the national JACL board voted unanimously at a recent February board meeting to stand 'fully lichind (the NJAMF) board' according to Hale V stand Tully senind (the NJAMF) board, according to Helen Kawagoe, NJAMF board member and national JACL president. long to Mike Masaoka," said Kawag-oe. Those are his words." Within the larger Nikksi commu-nity, Masaoka, JACL& first national executive director, is a controversial figure due to his WWI activities. When NJAMF was questioned as to the rational of selecting a quote from an individual, whose actions still continues to divide the Nikkei community, Chiogioji replied: "Tim not sure how many people really per-centage wise is against it. You heard Helen Kawagoe say that the entire JACL is in favor of this thing, so I don't understand what percentage is against this. It seems like, even in my short experience, that this is a very small number of people who are raising all this hell." Some of the major allegations made by critics of Masaoka include his advocacy of a "suicide battalion"

made by critics of Massoka include his advoary of a "suicide battalion" during WWII and his support of the Walter-McCarran Act. "The Lim Report says that they never could say Mike said he advocat-ed a suicide battalion," said Tsutsum-ida. "Even the Lim Report says that." But a reading of the Lim Report, researched by Deborah Lim at the behest of JACL, gives a different con-clusion, Lim cites an actual Massoka memo which was titled. "Final Rewhich was titled. "Final Re memo which was trued, Final Re-port," written on April 22, 1944, and archived at the Bancroft Library un-der File T 6.15, JERS. and

der File T 6.15, JERS. The Masaoka memo read in part: "...One was to form a volunteer sui-cide battalion' which would go any-where to spearhead the most danger-ous missions. To assure skeptics that the members of the suicide battalion' our missions. To assure skeptici that the members of the suicide battalion' would reinian loyal, if such guaran-tees were necessary to quell the object tions of the professional agitators of the volunteers would place them-selves in the hands of the govern-ments as horatages. When this idea was informally discussed with a high military official, we were informed that it was not the practice of the gov-ernment to require horatages' or to sonsor such suicide battalions." In Massocia's autohiographical ka, "coveriten by Massoka and NJAMF board member Bill Hosekawa, Massaka makes specific reference to Thotages' but only pass-ing inference to what may be con-strued as a "suicide battalion."

he writes: "We'll vouch for their loy-alty by our willingness to fight and die for our country if necessary, and they in turn would serve as hostages to guarantee our loyalty. One of the generals award me off. The Army's policy is opposed to segregated units except in the case of Negroes, he said, 'and we certainly don't believe in keeping people as hostages." But Chiogioji believes that had Masaoka made references to a "sui-cide battalion," it has been taken out of context.

of context. Even if he may have said that, it could have been in a certain context, said Chioglio, who has not read the Lim Report. For example, Ive lived in Washington, D.C., for the last 30 years where there's a lot of testimony and people take things jout of context without taking a look at the whole is-sue. In some cases, if he said, I favor a suisde battalion indhis particular netance them need to as win what in. a subte battanti instance, they need to say in what in-stance he said this." But the important point, said Chio-gioji is that "to be fair to the individual,

you can't go on the basis of allegations, and even let's say the allegations were true, you've got to take a look at the whole individual and what he did

whole marvinua and what he do throughout his caree." Regarding Masaoka's support of the controversial Walter-McCarran Act, Tsutsumida said, "It's true that all the liberals were against the Wal-ter-McCarran Act, but it was the ter-McCarran Act, but it was the only opportunity for the Issei to gain citizenship. I'm sorry but I kind of feel it's the better of two evils. And if there's one reason I feel Mike shpuld be on the wall, it's because he as-sured the Issei that they would get citizenship. That means a helluva lot to me."

Clubership: The means a neuror ato to me." But the Walter-McCarran Act, which allowed the issei to become el-igible for naturalization, also had a provision, which smacked of EO 9066-type action. In response to growing and: Communits ensiment, a provision authorized the Depart-ment of Intria to search en response a provision additional of the Depart deemed security risks in the event of a national emergency and hold them

a national emergency and hold them without trial. Sakae Ishihara, credited with forming the Nisei Progressives in Los Angeles, described the act as "anti-democratic" and that it "opened the doors for McCarthyism to hap-pen. "We did not oppose the Walter-McCarran Act on the basis of allow-ing citizenahip to the Isses", said lahi-hara. We opposed it because it al-lowed the government to persocut the left-wingers and put them into jail without a trial. It was a Red hunt In fact, we tried to get them to separate the two." California's two Japanese Amer-ican state Legislators, Assembly-man George Nakano (D-Torrance) and Assemblyman Mike Honda (D-San Jose), introduced legislation on Feb. 18 to declare February 19 as a

Day of Remembrance. Even the same of Akemi Ehrich, author of the winning tanka in a national NJAMF-spon-sored contest, will not be dited. Accord-ing to Thutsumida, Ehrifich's names was dropped when the board voted to remove all names of non-elected offi-cials. PACIFIC CITIZEN, MAR. 3-9, 2000

COMMENTARY **Journalists and Friendships**

By SACHI SEKO

Rarely has an article in recent Pacific Citizen issues engaged my attention more than Bill Hosokawa's column, "Larry Tajiri, a Better Choice," (P.C. 2-Tajiri, a Better Choice," (PC. 2 11-17). Hosokawa wondered, as I did, why James Omura was se-lected as the journalist among "Influential Japanese Americans of the Past Century." Omura (in-deniably deserves hisplace in our common history for-his coura-geous, solitary defense of the re-sisters of conscience. As' Hoso-kawa indicates, the importance of the issue is sustained to this day the issue is sustained to this day by continuous conflict. I have long been a supporter of the re-sisters and the American princilong been a supporter of the re-sisters and the American princi-ples they represented. It is both reprehensible and regrettable that the issue was not resolved before the end of the last millennium.

As my generation of witnesses and participants in our American disgrace diminishes more ranidly each year, it is unconscionabl perpetuate the outright hostility between defenders of the re-sisters and their opponents. Often, the argument centers on op-posing editorial positions of James Omura and Larry Tajjri.

Before his death in 1994, James Omura was publicly recognize-and provided ample opportunit to explain and even expand the position he took at the forfeiture of employment opportunities and the endurance of general os-tracism by his community. James Omura realized vindication for his role before he died. However, in comparison with other Nisei journalists, his professional pro-duction and influence were very limited

The attacks by the defenders of the resisters to their perceived opposition are largely directed at editorials and other pieces writ-ten by Larry Tajiri, then editor of ten by Larry lanr, then editor of the PC Every assault that I have read, and there are probably many more, are based solely on his published record during that period. No historical material is attached for elucidation. Is it not possible, that in his way, Larry was protecting the internees' in-evitable reentry into mainstream society through his editorials? We must remember that in the '40s our communication with the outour communication with the out-side world was largely dependent on the *P.C.* Also, we lacked the technology which proved im-mensely helpful during the civil rights movement decades later.

I have another theory which is robably beyond the cultural capture of generations who came ter the internment camps. And it is understandable that younger generations, never subjected to such shame, will scoff at my idea. But in my time, it was often as-But in my time, it was onen as-sumed the welfare of the majorialler minority. Also, conside this. As a group, our average age was 17 and that included infants and the very aged and infirm, many in their last months and of their lives. They required and deserved protection, even at the compromise of one's heart of hearts. That is a tremendous nearts. That is a tremendous price to pay, especially for a writer with immaculate princi-ples. Would Larry have sacrificed himself for the good of his people much as James Omura did for the resisters? I know, what my

ans zer is But I cannot speak for Larry, nor can anyone else. And even his harshest critics have confessed they never had the opportunity or they never nat the opportunity or the decerve to confront him with their questions. In my opinion that is hardly fair play. Also, as anyone with even the least knowledge of writing well knows, writing is often constructed in layers, decipherable to only the writer and perhaps to an inti-mate few. Often, it requires years, even centuries, for conclusive in-terpretations. And here, with Larry, we are dealing with an ex-traordinary writer of an erudite mind and superb lyrical style. Even today, reading the small pieces I retain of his writing. I am dazzled anew by the poetry of his sentencing, its passionate rhythm which defies duplication. I had just turned 18 when I

first met Larry. He gave me my first break by publishing a col-umn I briefly called "Tomorrow's Heirs," when I was 19. Young and impressionable, I thought he was the most fascinating person I ever met. Even now, in my last years, my initial perception re-mains unchanged. During long coffees and lunches and visits at this chaotic office, he was my mentor and I was his student. His knowledge was expansive, in-cluding politics, race relations, particularly of blacks, literature, entertainment, art. He could be serious or funny. He even men-tioned some regrets during his life. And he expressed his disap-

proval that I always wore hats. I proval that I always wore hats. I am still hat crazy, maybe plain crazy. However, we never dis-cussed the resisters issue. Frankly, at the time, I was too young and naive and it did not ocyoung and naive and it did not oc-cur to me. In today's politically and socially changed environ-ment I am certain the matter would have been discussed if I had been more mature. However it is obvious that others older and wiser failed to seize the opportunity for a dialogue with Larry be-fore his untimely death in the early '60s

day, when I had returned from Minneapolis, Larry said Bill Hosokawa was coming by and they planned to have dinner together. Larry's wife and P.C. part-ner, Guyo, was visiting her fami-ly in California. Larry suggested I join the two men for dinner, say-ing, "I think you should meet Bill. I know you'll like each other. He's geth

I know you in nke each other. Hes the greatest Nise; journalist." Intimidated by the opportunity to meet "the greatest Nise; jour-nalist," I invented an excuse to decline the invitation. The very idea of meeting anyone who was "the greatest" anything was terrifvin

When I finally met Bill, it was under the most extraordinary cir-cumstances. He and his beautiful wife, Alice, had come to Salt Lake City so he could deliver an ad-dress at some JACL function. dress at some JACL function. Months previously, I had learned of Larry's death in Denver where he was happily employed as an art and literary critic for the Den-ver Post. When I first received word of his death from a stroke, I refused to believe it.

Hoping to make the bad news go away, I inexcusably delayed in writing his widow, Guyo, a note of condolence. While Bill was seated on the dais that night in Salt Lake City, I approached him and identified myself as a friend of Larry's. I asked him to explain Larry's hospitalization and death to me. From the painful expres-sion on his face, I realized the inappropriateness of my request. But for some incomprehensible reason I had to know. Later, I re-alized it made Larry's death a reality for me and for that kindness I remain beholden to Bill.

In the almost four decades since Larry's' death, Bill Hosokawa has continued to be a prolific writer of articles and books. He left camp to write for books. He left camp to write tor the Des Moines Register and later moved on to the Denver Post, where he eventually became one of its editors. In 1990 he was awarded an honorary doctorate

by the University of Denver. He is the only Japanese American that I know who served on the Pulitzer Prize Journalistic Jury. During this time, he continued to contribute his weekly columns to

the PC Bill Hookawa is surely our journalist among the "Influential Japanese Americans of the Past Century," As Larry said, "he is the greatest." Even more unique, in this age of self aggrandize-ment, was the expression of finanching bettreen two more friendship between two men, who could have been competitors but instead were friends Acquaintances are numerous, often fleeting encounters. Friendships are rare treasures, perhaps only a handful in a lifetime, and only that many if you are very lucky. Most remarkable is Bill's remembrance with grace and generosity of a friend now absent for almost four decades. Fidelity

for almost four decades, ridenty is the core of friendship. There is one other thing that requires mentioning. Larry Tajiri and Bill Hosokawa opened the doors of opportunity for San-sei and Yonsei journalists and set and ronset journaness and writers. I am occasionally dis-mayed by the arrogance of these who "make it," believing they did it alone. It was difficult to open the doors so firmly locked around the arrogance of the set of the around the set of the se against pioneering Nisei who endured unimaginable prejudice and humiliation. But these brave men and women unlocked the doors so others could follow. And further, they held the doors open to make certain others made it safely through. I would be remiss not to also

mention Harry Honda, the man ander whose patronage I re-turned to the P.C. many years ago. We have shared a large part ago. we have shared a large part of JA history, including the rough years for both the *P.C.* the JACL. I can remember can remember when the P.C. was operating on a shoestring budget. And Harry almost sin-glehandedly published the paper each week, without complaint or much recognition.

I owe him a personal debt of gratitude for his constant friend-ship and availability. His encycloship and availability. This encyclo-pedic memory has always reli-ably provided any factual infor-mation I required. Further, I have depended on his keen sense nave depended on his keen sense of moral guidance, and he has never failed me. There are many others who have also been recipi-ents of his generosity, several who have left the *PC*. to further their careers elsewhere. Surely, Harry Honda, too, belongs among our "Influential Japanese Americans of the Past Century.

Moreover, scenator bradley is really attracting a let of new peo-ple to our campaign. Because he has sought to run a different kind of campaign, one that puts forth his positive vision for the country, our campaign has at tracted many people who had never been involved in politics before or had been turned off by the negative campaigning of the last few years. Senator Bradley is reaching out to folks all across the country and he's attracting their support.

What are the key issues in the campaign? Senator Bradley wants to im

One of the best things that we're seeing now is the emergence of more and more Asian American candidates, such as Carole Hayashino, candidate for Assembly in Marin and southern Sono-ma counties; Wilma Chan, candidate for Assembly in Alameda county; and Mike Honda, Assemblyman from San Jose who is running for Congress.

It is also important for those already in office to mentor others, including young people, to consider a greater role in politics. A lot of AAs are resentful of the

Mistake to Put Masaoka's

Name on Memorial

I have been reading the controversy centered around the pro-posed inscriptions of the National Japanese American Memorial.

I was particularly distressed to read Gerald Yamada's unfair and rabid attack on Rita Takahashi's Ph.D. dissertation. Upon reexami-nation of her work — a meticulous, well-documented scholastic contri-bution — I could not help but wonder why Yamada was so vicious. As pro bono attorney with the board, isn't he supposed to be working with and agnituding the heard?

isn't ne supposed to be working with and assisting the board? It would help the public to have as much information as possible. as much information as possible. The following could help settle the conflict

- The NJAMF should place and The NAAM' should place and update the versions of the inscrip-tions via their Web site (http://www.jnamf.org) as well as in the vernacular press in order to get feedback from the community.

— An independent committee of scholars could be established to clarify an understanding of Mike Masaoka's long career. Members Masaoka's long career. To place on the national memor-ial Mike Masaoka's name and any ial Mike Masaoka's name and any portion of the "Japanese American Creed" he penned in 1940 would be a grave mistake; they are divisive and hurtful to a significant portion of the Japanese American commu-nity. The recent columns and letters to the editor in the vernad press attest to the passion that Masaoka and the JACL still elicit. that

Concerned citizens must share their views with members of the NJAMF and the National Park ice, which will determine the final inscription.

Hawaii ' The court refused to treat Hawaii's practice as one similar to federal programs to aid Indian tribes Justices John Paul Stevens and

Justices John Paul Stevens and Ruth Bader Ginsburg dissented. Writing for the two, Stevens said the decision "rests largely on the repetition of glittering generalities that have little, if any, application to the compelling history of the state of Hawaii." The decision is a rare one for modern times because it rests on the Constitution's 15th Amend-ment, a Civil War-era measure aimed at protecting the rights of former slaves.

based 10th U.S. Gircuit Court of Ap-peals has neither ruled nor set a hearing on his appeal. The Feb. 22 filing was the most recent installment in the argument over whether Lee can be forced to reveal all the classified information

he plans to use in his defense. The defense petitioned to have portions of the Classified Informa-tion Procedures Act declared unconbon Procedures Act declared uncon-stitutional on grounds the law was being used to compel Lee to provide evidence- in violation of his Fifth Amendment rights against self-inministion

Under the act, the defense must provide pretrial notice of classified information it expects to disclose or

information it expects to disclose or have disclosed. There is no constitutional double standard — one level of protection for ordinary citizens facing criminal charges, and a different, lesser standard, for government employ-ees who work in classified environ-ments,' the document states. This country has only one Constitution."
