Candidates for National Office Outline Their Vision

This is the second in a series of articles that will profile each of the candidates for national JACL of-fices. The information is taken from the nomination forms completed by each candidate in which they responded to questions about their qualifications, their definition of leadership and the manner in which they would implement the JACL Program for Action.

V.P. for General Operations David H. Kawamoto is a mer

ber of the San Diego chapter. He works as a supervisor with the U.S. Pretrial Services Agency for the Southern District of California in Southern District of California in San Diego. He received his bache-lor's degree in public administra-tion from San Diego State Univer-sity and a law degree from Western State University.

California Looks at State-wide Human Relations Commission

The brother of a Filipino Ameri-can postal worker who was shot to death allegedly by an avowed white supremacist last summer is among the many supporters upping elected officials to create a Califor nia-wide human relations commis sion.

Ismael Ileto admitted that he Ismael lieu admitted that he never paid attention to hate crime-issues until his brother, Joseph, was gunned down by Buford O. Furrow Jr. on Aug. 10, 1999, åfter the gunman had shot and injured five people at a Jewish commu center in Granada Hills, Calif. unity

"You might be sitting in your liv-ing room, saying, "Well, there goes another press conference about hate crimes." We used to do that until it hit our family last year," said lleto. "Today, we are standing up for our rights to be in this city, in this state and this nation. You need to act and not depend on someone else to do the work for you because one day it might hit your family. That's why I'm speaking out be-cause the ordeals that our family is going through right now, we don't want it to be felt by other families."

Wash. Resident Target of Hate Mail

By MARTHA NAKAGAWA

A Seattle resident recently re ceived hate literature in the mail a few days after an opinion piece written by him was published in the local newspaper. James Tanaka*

Among the random items the envelope contained were swasti-ka-emblazoned literature, an-nouncements for hate group events, screws, washers (flat rings of metal with a hole in the middle) and a newspaper clipping.

Tanaka was most concerned over the newspaper article which was a story about a Vietnamese American who was shot after testifying in court. He wondered if

But then I got angry that just be-cause I wrote something as a per-son of color, an Asian Pacific Is-lander, about being pro-choice, I'm being told to keep my mouth shut."

National JACL Director John

NAPALC Joins Coalition Calling for Immigration Reform

WASHINGTON, D.C .- The National Asian Pacific American Legal Consortium joined a broad-based coalition that includes Jack Kemp, coalition that includes Jack Kemp, former Republican vice presidential candidate and Henry Cisneros, for-mer Secretary of Housing and Ur-ban Development, to urge Congress to pass legislation to reform Ameri-ca's immigration policies, which the coalition refers to as ineffective and discriminator.

discriminatory. The coalition, ranging from conservative pro-business organiza-tions such as Americans for Tax Reform to labor unions and reli-gious groups like the United Farm Workers of America and the United ates Catholic Conference, call for several immigration reforms, in addition to raising the number of H1-B visas issued.

H1-B visas issued. The proposal, named "H-1B Plus," recommends an update of the Registry Date from 1982 to 1986, which would allow longtime, deeply-rooted undocumented im-migrants who were present in the United Strate hoform 1986, to re-United States before 1986, to re-

grants played an integral role in the fish canning and fishing businesses later made famous by the book "Cannery Row by author John Steinbeck

Lydon teaches Asian Ameri history at Cabrillo College in Aptos, Calif., and authored the book "The Japanese in the Monterey Bay Region." The book chronicles the history of Japanese Americans in the Monterey Peninsula.

In her book, Lydon tells of how in 1902, Otosaburo Noda and Henry Malpas formed the Monterey Fishing and Canning Company to can both abalone and salmon. At that time, salmon was smoked or cured and later packed in a brine so-lution in barrels for shipment. Salmon was not put into the type of metal cans we see today until around 1911.

During the Monterey Fish-ing and Canning Company's ing and Caning Company's first year of packing locally caught salmon, only 10 of the 25 boats that supplied fish were owned by JAs. By 1907, there were 180 fishing boats in Montorey Bay, Out of 180. Monterey Bay. Out of 180 boats, 125 of them were owned by JAs. Also in 1907, JA fishermen organized their own trade association called the Japanese Fisherman's Union.

Japanese fishermen pursued salmon in one-man sail pow-ered boats called "skiffs." Their season lasted from May 15 to Aug. 15. Although the fishing season was relatively short, their pay was considerable compared to those JAs working in the Monterey Peninsula re gion as farm laborers. A Japanse fisherman could earn up to \$25 per day at the peak of salmon season compared to the \$2 per day earned by farm laborers. During their off-sea JA fishermen could be spotted working in the local forests clearing brush and cutting fire wood Some worked as farm la-

bellybitton. The dust inspired thoughts ranging from, "Yuck! How the heck did it get in there?" to "How did people live here for four years? How amazing it is that JAs could persevere and survive in such a desolate and inhospitable place."

Happily, I was able to share my effections (OK, not the bellybutreflect ton one) with a busload of my colleagues who participated in the annual pilgrimage through a class offered every year by the Asian Pacific Committee of Unit-ed Teachers of Los Angeles (LTT.A).

Having the opportunity to lead a group of teachers to Manzanar is not something I will soon forget. Although it's impossible to convey a comprehensive under-standing of Manzanar in one class, our committee could see that the teachers gained a lot from participating in the pilgrim age. I give mad props, as my students would say, to the Manza-nar committee for organizing the yearly pilgrimage.

Hopefully, teachers who ma Hoperully, teachers who made the journey will take this new un-derstanding into their class-rooms. I especially hope that when my colleagues talk to their students about Manzanar, they will emphasize that the struggle for redress continues for Japan-ese Latin Americans and JAs who, for one reason or another, did not receive redress.

Recovering from the wounds which the internment inflicted on our community is still an unfin-ished page in history. There are many stories which need to be told, including the stories of the resisters of conscience. On Tues., resisters of conscience. On Tues., May 23, at 7 p.m., Visual Com-munications, Nikkei for Civil Rights and Redress (NCRR) and JACL Pacific Southwest District Civil Rights Caucus will host a screening of "Conscience and the Constitution," a film about the resisters which will be shown on public television later this year. I am planning to be there for the film as well as the panel discussion and reception to follow

My weekend jaunts have been fun, but I don't want to miss what's happening in my own backyard, either.

Leadership: "Being a leader means providing a vision and exe-cuting it. Although it may seem straightforward and simple, this job is the most important in any given organization. Someone not cog-nizant of the present situation will be unable to create a plan to mi-grate the entity to the desired

"As the leaders of the JACL, the national board must provide a clear vision and execute it. The na-

tional hoard must make it obvious what the mission of the JACL is and how it will be accomplished. All chapters should be aware of their role in

the organiza-tion, along with the responsibilities they owe members. Furthermore the national board needs to let chapters know the resources available to them, both internal and external. Not providing the tools for chapters to succeed sets them up for failure.

"Communication plays a vital role in whether the national board can attain its mission, as this is the most accurate way to gauge the status of the organization. Leaders of the JACL must know if their ac tions are effective or if changes must be made to reach goals. Communication not only serves as an internal benchmark, but also a means to measure how people out-side the JACL view progress."

Qualifications "...The vice president for public affairs must have extensive experience with pol-jtics since it would be impossible to uphold 3ACILs values without this. Working with various politicians has helped me develop a knowl-edge of not only issues that effect the Asian Pacific Islander commu-nity, but also techniques to garner support. Aside from my experience dealing directly with politicians, 1 have also participated in various grassroots efforts to make changes. Recently, I participated in two ef-forts to honor people of color. Re: Disney's Pearl Harbor Movie

This is in regards to the Dis-ney movie "Pearl Harbor," where JACL suggested that the spy segment be removed from the film.

Since this is a factual matter where there was a Japanese denwhere there was a Japanese den-tist spying for the Japanese, it is a part of history. Although in-significant, it still is tampering with history itself. In doing so JACL will put itself in thesame boat as people who deny that concentration camps existed in America or that the Holocaust never happened in Nazi Ger-many. many. Making Education a Priority

In the April 21-27 issue of the P.C., it was noted that the University of California adopted a four percent plan for admissions. But this is nothing new. In 1973 when I worked for the University of California, the institution allowed the top eight percent of graduating seniors in California to apply for admission. But by the late 80s, that had changed to only the top four percent, as I was told by an alumni representative who called me to solicit money. This is a terrible situation for

the institution, since it means that they are not serving the other 96 percent of graduating se-niors in California, and simply letting the other institutions in the state attempt to address that population.

Although there are many more Asian Americans in the University of California system than ever before, the persons in need of educational assistance the most, the poor and economically disadvantaged, are the persons most likely to be ignored by the institution, the premier public higher educa-tion institution in the state.

Educational opportunity pro-grams once had the ability to ad-mit promising students to the University of California who did not meet the regular admission requirements. But now probably requirements. But now probably only the athletic departments re-tain that ability. This is really sad. Although Japanese, Chinese, Korean, and even Filipino fami-lies have become economically eq-uitable in many individual in-stances, the disadvantaged in these contentities cannot be athletic.

stances, the disadvantaged in those communities as well are not being served by any plans. I would hope that the institu-tion has a reply to the article, and that JACL takes this as one of the most important issues for this decade. Continuing educational opportunities continues to be a struggle

Nakano, Honda Proclaim May as APIA Heritage Month

Assemblymembers Géorge Nakano, D-Torrance, and Mike Honda, D-San Jose, introduced a resolution recognizing May as Asian and Pacific Islander American Heritage Month. Assembly

Concurrent Resolution (ACR) 161 was co-authored by 73 assembly-members and passed on a unanimous voice vote on May 22.

"The Asian HONDA and Pacific Is-

lander American community we refer to is comprised of many eth-nicities, each with its own unique language, culture and history," said Nakano, who along with Honda are the only two Asian Americans in the state legisla-ture. "This great diversity is positively changing the face of our nation and our state.

Nakano pointed out that the APIA community has been the fastest growing minority in the United States since 1980, and now accounts for 12 percent of California's population.

Once the program for action is adopted, will go through each item and create a listing of the pro-more under any listing the programs under my direction that can fall under each item. I will then set goals to develop, adapt and/or put into motion those programs which can carry out the newly adopted program for action. Once the goals are determined, I will prioritize the goals and programs. Upon comple-tion of these procedures, I will then be ready to start implementing the

"Implementation includes writ-ing articles for the *Pacific Citizen* and visiting the different chapters and districts advocating the appropriate programs which support the program for action. I will also coor-dinate efforts with the members of the national board and with national staff to combine efforts and maximize effect whenever possible. I am open to appointing ad hoc committees to address specific is-sues should the need arise."
