### P.C. Editor Emeritus Harry Honda Heads Up JACL's Archives Program

By MARTHA NAKAGAWA

Pacific Citizen Editor Emeritus Harry Honda, 81, will soon be holding down two offices— one at his usual place at the office in Monterey Park, Calif., and a second at the Japanese American National Museum in downtown Los An-

geles.
Honda, who has been with
the P.C. for five
decades, holds vast
knowledge of the
P.C., JACL and the
Nikkei community
in general, and his
expertise is now in
demand as the

In the P.C. office alone, Honda has amassed a priceless col-lection of documents, which he either gathered on his own or were donated to him. Some of these include the original and complete set of the War Relocation Authority's Final Report; original copies from the Select Committee Investigating National Defense Migration, otherwise known as the Tolan Committee hearings; issues of the now defunct "Scene" magazine from the 1950s, which was started out of 1950s, which was started out of Chicago by Togo Tanaka and lat-er continued by Masamori Koji-ma; Southern California Japan-ese telephone directories from 1925 to 1964, donated by Empire

P.C.: How much of the P.C. archival material will be trans-ferred to JANM?

HH: I'll have to fig-ure that out. The museum says we can always call the museum archives, but I don't think that's the way to run a paper. If want something right now while you're working on a story, you don't want to be calling the museum when you could just walk over here and pick up what you need. The

APA Students Protest

After holding a "teach-in" rally Feb. 8, community groups and stu-dents at the University of Califor-nia, Davis, are still urging school officials to take more action over a disturbing rise in violence target-ing Asian Pacific Americans that n last fall.

Nearly 500 APA students and allies marched on Mrak Hall to publicly decry a recent series of racial confrontations between white and APA students, but some say school officials are not doing enough to en-sure tolerance and diversity on a campus whose APA undergraduate population is well over 35 percent

Among the organizations and in-dividuals that voiced their con-cerns over Gach's remarks was Bill Yoshino, JACL Midwest regional

Yoshino's letter to Director of AM Operations Darryl Parks read in part: "Gach's references are racial slurs which have no place on a ra-dio broadcast. The use of this vile terminology is offensive and repre-hensible. It has been our experience that wherever such slurs are directed, Japanese Americans have paid a price for the emotional message as during World War II when virtually all Japanese Americans were evicted from the West Coast

ancestry and because racism and the use of racial slurs were allowed to persist."

Park's response to Yoshino read in part: "700 WLW does not en-courage, do not condone nor do we tolerate comments like these. This was not the first time Gach has made racial comments over the air. He was suspended for three days without pay in 1995 by radio station WWL-AM in New Orleans. for referring to an African American caller as a "monkey." He also made a reputation for himself at WGR-AM in Buffalo, N.Y., for antagonizing "African Americans, Native Americans, senior citizens, postal workers, customs officers, feminists, Catholics and homosex-uals," according to a 1992 Buffalo News article.

### **Health Insurance Now Available** for Non-Calif. JACL Members

National JACL recently announced that they are now able to offer major medical insurance for members outside of California. This comes after years of successfully providing medical, den-tal and vision insurance for its mia members.

We are very pleased to be able to finally offer a major medical insurance plan to the member-

# Candidates Vying to Be First

By ASSOCIATED PRESS

NEW YORK—This city, as diverse as any in the world, has had a black mayor and two Jewish mayors. Its city council includes members from Jamaica and the

Dominican Republic. Yet, no Asian Pacific American he, no Asian' racine American has ever served on the council or in any citywide office — a "shocking" situation, one candidate says, con-sidering that nearly one in 10 New Yorkers are of Asian descent. But with new city term limits forcing incumbents from office in droves 2001 offers the best opportunity yet for APAs to break through.

"Friends of mine said, Kwong, you've got to run. There's term limits, there's a wide open field," said Kwong Hui, a political novice who is one of three Chinese American candidates running for city council in Manhattan's First District. Another three Asians are running in the 20th District in Flushing, Queens, and a few are running in other districts in Queens, the city's

most ethnicly diverse borough.

John Liu has raised the most John Lau has raised the most money of any council candidate in any district — \$131,370 as of his January filing with the city Campaign Finance Board — and is considered the front-runner in the

considered the front-runner in the 20th District. Liu said he's shocked there's never been an Asian on the city council, but adds, "we'll rectify that."

But APAs have yet to exercise political muscle. Many are not civizens, others are not registered voters and still others do not regularly go to the polls. In the 1997 mayoral race, just 4 percent of the voters were APA, up from 2 percent in 1993.

cent in 1993.
Party affiliation is another factor. Since the city is overwhelm-ingly Democratic, the race that really counts in most city council disally counts in most city council dis-tricts is the Democratic primary. APAs have traditionally not regis-tered Democratic in as high num-bers as other ethnic groups in New York such as blacks, Hispanics

and Jews.

Margaret Fung, executive director of the Asian American Legal Defense & Education Fund (AALDEF), said many APAs have registered as independents, not realizing they would be prevented from voting in primaries. "Every time we've sent out monitors for the primary elections there are always people who want to vote but ways people who want to vote but

In 1996, Gary Locke, who is Chinese American, was elected governor of Washing-ton state, where the APA popula-tion is 5.9 percent. They will have an unusual opportunity this year thanks to voter-approved term limits, 35 of the 51 city council members must resign this year, and there will be no in-cumbents running for those seats in November.

First District, which includes Chinatown, would seem to be ideal for APA candidates — and three have stepped forward al-ready. ### L.A. 80-20 Endorses Candidates APA on New York City Council After Holding APA Political Forum

By TRACY UBA

After hosting an Asian Pacific American candidates forum on Feb. 17, the Los Angeles 80-20 Political Action Committee an-nounced its endorsements of po-litical hopfulls from around Southern California, represent-ing the Chinese, Japanese, Kore-an, Latino and Fillinino American an, Latino and Filipino American communities, who are vying for votes in the upcoming primaries.

Gauging each candidate on

their history of and commitment to serving the needs of the APA community, those endorsed by the L.A. 80-20 PAC before the March 6 election were: Martin Gallegos, 24th California State Senate; Gloria Romero, 24th Cal-Senate; Gioria Romero, 24th Cai-fiornia State Senate; Judy Chu, Monterey Park City Council; David Lau, Monterey Park City Council; Christine Chee-Ruiter, South Pasadena City Council; Judy Wong, Temple City Council; Ben Wong, West Covina City Council; Se-Yao Hsu, San Marino City Council; Eugene Sun, San Marino City Council; Laura Lee, Cerritos City Council; Sonny

Cerritos City Council; Sonny Landero, Carson City Council; Michael Mitoma, Carson City Mayor; and Victor King, Glen-dale College Board. The L.A. 80-20 PAC also en-dorsed Los Angeles City Council candidates Robert. Nakahiro, Richard Polanco and Michael Woo, who will seek election April

"When they get elected, hopefully they'll remember this," joked Alfred Foung, president of L.A. 80-20, a nonpartisan politi-cal action committee which is attempting to reverse a split voting trend among APAs. "It's a growing movement ... As far as how effective we are in the upcoming election, I don't know. Our agenda, our goal is to influence a lot of people. Before, it was mainly Chinese, but now we are reaching to other communities as well."

The 80-20 network pushed onto the political scene last year after endorsing Al Gore in the 2000 presidential election and urging a nationwide bloc-vote from APAs, who, unlike blacks and Latinos who vote overwhelmingly Democ ratic, have been unable to establish themselves as a minority group with political clout.

But as Foung attested, "there

is unity emerging," especially as APAs begin to feel the fallout from lack of political representa-tion, workplace discrimination, hate crimes, the glass ceiling in academic and corporate arenas and limited access to government resources and assistance.

resources and assistance.

"This is 'my first exposure to 80-20, and I'm happy to see the kind of energy and the kind of principles which it represents," said Mitoma, a former Carson mayor whose participation in the mayor whose participation in the candidates forum served as an introduction. "When I was mayor, there were only about five [Asian Pacific] mayors that were elected the United States. So that shows you the importance of having an organization in which there is political empowerment

One of Mitoma's mayoral oppo-nents in the March primary, former JACL national president He-len Kawagoe, was unable to at-

"I proudly stood with my Asian American colleagues ... who put forward this resolution to say it was unfair to begin to target, scapegoat and racially profile Asian Americans of notable distinction in our science, in our engineering, in our major institu-tions, for things that had gone awry on the part of the U.S. gov-ernment," said Romero.

As an 80-20 member herself, Monterey Park City Council-

For Nakahiro, a relative newcomer to politics but a veteran speaker at 80-20 events, APA emwerment is indeed a key con-pt, as he pointed out, 'Los Ancept, as he pointed out, geles has a growing APA popula-tion" making it one of the most diverse cities in the nation.

"I want [people] to look at my face and know that diversity is not only the face of the present but it's the face of the future," said Nakahiro, who is Hapa. "I want to bring an Asian Pacific American back to the Los Angeles city council so that every single neighborhood in the council district that I want to represent knows that they count, and that they mean something and that government needs to be accountable to everyone because when you're accountable to everyone,

we all win."

In speaking about her efforts to address issues close to the APA community, Assemblywoman Romero, D-Monterey Park, who is seeking a state Senate seat,

woman Judy Chu, who is seeking a second term, spoke of her efforts to promote cultural sensitivity in her city, which has one of the most highly concentrated Chinese American populations in the country. In addition to introduccountry. In addition to introduc-ing language access cards, offer-ing multilingual public service announcements and Census questionnaires and fighting Eng-lish-only, Chu said, she has en-sured affordable senior hoising for elderly APAs, started an Asian youth center and allowed community organizations to maintain their use of public facilities.

"We will be supporting the candi-dates on our endorsement through ads in multiethnic newspapers, flyers and through indi-vidual contributions and volunteers. ### **Community Asked to Continue their** Support of Minidoka Camp Site

SAN FRANCISCO-It is important to continue voicing sup-port for the protection of the Minidoka camp site, according to Dan Sakura, former -White House staff member of the Council on Environmental Quality.

Sakura accepted an invitation to speak before the February na-tional JACL board meeting where he shared about the be-hind-the-scene efforts that ultimately led to former President Clinton protecting the Minidoka site in January under the Antiq-uities Act of 1906.

Sakura said he and Lenna Aoki, former director of Congres-sional and Legislative Affairs in the Department of the Interior, were surprised by the amount of nt of the Interior, support they received from Con-gress, which not only approved their funding request but includ-ed additional dollars. But Sakura noted that with the new Bush administration, there was a slight chance that Minidoka may lose its protective status. "There is a sense I have that there is no one in the ne administration to help move this

forward," said Sakura.

He explained that although the current president cannot de-au-thorize the executive order, Congress has the power to do this if they determine that the protected site is not being managed properly. Sakura likened the situ-ation to childbirth where the in-fant mortality rate is highest

during the first year.

To prevent Minidoka from losing its protective status, Sakura provided the following recommendation

On Feb. 16, Assemblyman George Nakane, D-Torrance, in-troduced legislation to declare troduced legislation to declare Feb. 19 a Day of Remembrance. The measure, Assembly Concur-rent Resolution (ACR) 17 is co-authored by Sen. Mike Machado (principal), Majority Leader Kevin Shelley and Assembly-members Wilma Chan, Carol Liu

and Abel Maldonado.

ACR 17 commemorates the chronology of events surrounding the internment of Japanese Americans and resident aliens during World War II, beginning with President Roosevelt's signing of Executive Order 9066 and culminating in the passage of the

Civil Liberties Act in 1988.

The day paid special tribute to the two California state legislators who spoke against E.O. 9066 in 1942, state Sens. Ralph C Dills and John Shelley.

Dills, wheretired from the legislature in 1998, was present on the assembly floor to receive a special resolution from Nakano. Shelley's son, Assembly Majority Leader Kevin Shelley, accepted for his father. Nakano also acknowledged the two members of Congress who publicly opposed the measure, John Coffee of Washington and Jerry Voorhis of California

"I want to salute those brave elected officials who stood pub-licly to oppose the internment of Japanese Americans. I thank

Japanese Americans. I trank them for their courage to stand up for justice," said Nakano. Nakano, who as a young child spent four years in the eamps with his family, also acknowl-edged members of the 100th Infantry Battalion and 442nd Regi-mental Combat Team, some of whom watched the proceedings

Livingston-Merced Chapter hosts JACL Day of Remem-

Over 100 people came to the Livingston Methodist Church Pio-neer Hall Feb. 18 to hear stories from persons of Japanese ancestry during World War II. The speak-ers were Professor Roy Yasui of the UC Stanislaus at Turlock, a the UC Stanislaus at Turlock, a Canadian interned Nilkei; Dr. Daniel Ikemiyashiro, of Peruvian heritage; and Sherman Kishi, a U.S. citizen who shared his expe-riences as an MIS veteran. Yasui spoke of his incarceration in shandward mines and chost.

He said that his area attempted ethnic that his area attempted ethnic cleansing by giving them two choices: go and live in eastern Canada or be sent to Japan. Even-tually, the British rescunded that order and they received individual ridness, \$12 million for education, caltural activities, and a race rela-tions foundation.

Yolo Causeway levee, a traditional student Greek activity.

That same month, a group of about 15 white males from the Kappa Sigma fraternity exchanged words in an apartment parking lot with several members of Sigma Kappa Rho, a Korean American interest fraternity, then later assaulted them inside their apartment while calling them "chinks." Two of them, UCD student Erik Hayes and former student Jeff Wyly, were charged with five felony counts each, with hate crime enhancements, by the Yolo County District

A second confrontation at the A second controllation at the levee in December prompted all three presidents as well as members of Kappa Sigma, Sigma Kappa Rho and Lambda Phi Epsilon, another UCD Asian interest fraternity, to meet Jan. 23 at a reconciliation forum, arranged in part by UCD Student Judicial Affairs. The California Aggie reported that while some witnesses perceived al-cohol as being a factor in that par-ticular incident, Sigma Kappa Rho president Harold Kim said race also may have been a motivation, as several people heard the word "chink" used.

"As an educational institution we have taken the stand with respect that there have been in-stances of racial slurs that this is absolutely unacceptable behavior," said UCD Vice Chancellor Carolyn Wall. "We were aware of the first fight and that there may have been racial overtones. There was an immediate university response at the unit level as far as our Student Judicial Affairs office getting in-

"As a campus, we are extraordinarily diverse. We are past having any one majority group. But certainly students in the Asian American that ican community are saying that they are looked at and stereotypi-cally treated," said Wall, who attested that the university has been making every effort to be respon-sive to APA students' concerns.

As far as disciplinary action against the fraternities involved and the two students currently charged with felonies, Wall said hat the university is ready to con-duct its own investigation and take necessary action pending the outcome of the trial, which is sched-uled to begin in March.

Although UC Davis students

Although UC Davis students were involved, most of these incidents occurred off campus in Yolo County, which is outside of the UC Davis Police Department jurisdiction, according to Capt. Rits Spaur.

We haven't been directly involved it in the investment of the inv

volved in the investigations. but what we have done is participate in student forums which have focused on race issues," she said. "I know that the Student Affairs Office is coordinating efforts so that we have a clearer understanding of what's going on." Spaur said no hate crimes have

been reported this year to UCD po-lice. "Within our department, we have the campus violence preven-

tion program, which mainly focuses on helping victims of sexual assault, but they have gotten no re-ports of bias incidents that I know of," she said, adding that all UCD naw enforcement officers go through diversity training as man-

through diversity training as man-dated by law.

But CAPAA spokesperson and UCD studenty Diem Nguyen, said those statistics do not accurately reflect what's going on on campus. She pointed out that some APA students are reluctant to report hate crime incidents they witness or are involved in because it is not a cul-turally recognized practice, while others simply believe UCD officials aren't willing to compromise the image of the school to address larg-

In the past few months, there has been this progression of violent acts. What the administration has been doing is acting as if it's frater st fraternity, and alcohol is involved," Nguyen said, "but it's a racial issue. Alcohol does not make you a racist, that's something that's deep-seated."

at's deep-seated." One APA student (who asked not to be named) said that she sees several reasons why racial hostilities are prevalent on the UCD campus today "I notice that the different racial groups, they hang out with each other," she said. "The Filipinos hang out with the Filipinos, the Koreans hang out with the Koreans. I think maybe people are just used to it."

Meanwhile, she pointed out, "A lot of kids at Davis come from white suburbia. They join the Greek system, and they think Davis is supposed to be a white community, so they think they have the right to do whatever they

She added that the abolishment of affirmative action may be another factor. When those laws were rescinded, it actually led to an in-crease in APA enrollment, which in turn may be what is causing a backlash from white students who are uncomfortable with the num-ber and visibility of APAs on cam-

ber and visibility of ArAs on cam-pus.

"There are so many Asians com-ing to the UC system..., But, for instance, there arent very many blacks on campus. A lot of people find that very unsettling," she said. Since these incidents began, sev-eral community and civil rights groups have gotten involved in sup-porting the APA students' cause.

The Sacramento-based Davis

The Sacramento-based Davis Asians for Racial Equality (DARE) was instrumental in a recent letter- writing campaign which urged UCD Chancellor Larry Vanderhoef to "implement services that would act as preventative measures against violence and improve the cross-cultural climate on campus." "The students, the university ad-

ministration, the UC Davis police are all working together," said DARE spokesperson Grace Kim. According to Kim, DARE formed

in 1983 after another instance of racial violence in which a local Davis High School student named

Thong Hy Huynh was stabbed to death by a white supremacist.

"As a former student at UCD, active in the early Asian American student movement and Asian

American Studies, it's shocking that the same racist attacks I saw 25-80 years ago are still going on," said Andy, Noguchi, president of Florin JACL, which has also been monitoring the situation. "Davis has always had a reputation as being a nice, quiet campus, some-place you think your kids will be safe, and the administration tries to keep up that image even when it's not true."

it's not true."
But in fact, Noguchi said,
There's been a long history at
Davis of trying to get respect for
Asian American students, whether
it's been for affirmative action,
whether it's been trying to get
Asian American Studies programs
implemented, whether it's been
getting student groups organized.
It's important that DARE and
JACL and other active civil rights
groups speak up when these types
of incidents occur because some-

With the backing of such outside groups, APA students presented a list of action items to UCD admin-istrators who recently agreed to meet one of their requests: hiring a full-time student affairs officer in the Asian American Studies partment.

partment.
"We see the possibility of ad-dressing more of the other issues they raised with this new bud-getary year. We can't make any promises at this point, but we can certainly be responsive, "Mall said, But Nguyen remains skeptical.

But Nguyen remains skeptical.

The administration is trying to maintain this safe atmosphere. ...

We wanted th work with them, but during an-initial meeting they were not responsive. Vice Chancelor Walll was felling us that there was no funding. Now, they have money for this position, but I'm hoping they're not just saying, 'Here's your SAO, now go away,' because that's not going to happen.

"It seems like we as students are doing all the work when the ad-ministration should have done nething about this a long time o," she said. "But we're not going to wait for them.

Among their other action items requested of the university are a culturally sensitive point person who will work with hate crime victims, mandatory seminar on diver-sity and cultural competency for incoming freshman; assessment of diversity training by UC Davis and City of Davis Police Departments; nament funding for an API permament funding for an AP leadership conference; and expan sion of the cross-cultural center.

#### COMMENTARY

(Continued from page 1)

and there are books written on that subject so I can't add any-thing to that debate in the space have here. But what bothers me is that no

one seems to look at the positive things the JACL has and contin-ues to do. For one, the pardon of the resisters: it would be naive to think that President Truman pardoned the resisters simply be-cause he thought they deserved a measure of justice. The JACL's field Secretary Mike Masaoka (yes, that M word again!) was in the nation's capitol urging a par-don for the resisters. And don't forget that it was the JACL that argued for the creation of a JA unit in the military.

The 1940s also saw the JACL push for the Evacuation Claims Act, as unsatisfactory as it may have-ultimately been as passed by the Congress. And JACL suc-cessfully fought for the repeal of the California Alien Land Law, as well as similar laws in Utah and

Oregon.
We amended the Soldier Brides Act to include the lan-guage "irregardless of race," which was a major breakthrough in establishing attitudes on race in the Congress. And we success fully fought for the restoration o toration of

fishing licenses for JA fishermen.

In the 1950s, we fought hard for the Walter-McCarren Act, allowing for the naturalization the Issei, and we successfully fought to eliminate Idaho's antimiscegenation law.

In the 1960s, JACL, along with a number of organizations, lob-bied for the passage of the 1964 Civil Rights Act and marched with Dr. Martin Luther King. We were a key lobbying group in the 1965 Immigration Act which opened the door to Asian immigration and changed the face of America. We also initiated a federal campaign to repeal all anti-miscegenation laws nationwide, and fought for fair housing poli-

cies for all people of color.

In the 1970s, JACL brought forth resolutions calling on the U.S. government to redress the wrongs of the World War II internment. In 1978, we launched a nationwide campaign to edu-cate the nation and to demand monetary compensation and an

official apology from the U.S. government. Two years after launch omcal apology from the U.S. gov-ernment. Two years after launch-ing the campaign, we successful-ly lobbied passage of the first re-dress legislation, creating a federal commission to inve the internment and to report to

the Congress and the president. In the 1980s JACL became the primary organization in the JA community nationwide advocatcommunity nationwide advocat-ing for redress and educating Americans about the events of the internment. In 1988, redress legislation was signed by Presi-dent Ronald Reagan, culminat-ing a long effort that began with the closing of the camps to gain recognition of the massive injustice of the internment, and to ac-knowledge the personal harm done to JAs.

Today, the JACL is at a cross-roads. Our community is chang-ing, and organizationally, we need to change if we are to con-tinue to be effective in the future. We can't live solely on the laurels of the past because it's the future that is our concern.

So when non-members ask me the question "Why?" should they join JACL, I tell them because we continue to do what we've always done. Our mission has always been to insure the well-being of JAs and anyone who is victimized by social injustice, and we continue to carry out that mis-sion on a daily basis.

Our mission is to fight discrim-

ination, and as much as I'd like to see the need for what we do be-come out-dated, I'm afraid we're here for the long haul. The battles are different today, but any-one who thinks AAs are free of discrimination and racism needs to look more closely at America today.

sues like affirmative action may not affect us at first glance, but all you need to do is look be yond the universities and colleges where our kids do well, and look to the corporations where they hit barriers all the time. Or look at hate crimes, which are growing in our communities. Or look at the increase of derogatory

look at the increase of derogatory language against Asians We're a great organization do-ing a lot of good for a lot of people. Our chapters and regional offices are out there taking care of busi-ness on a daily basis. Se, if anyone wonders why it's worth join-ing JACL, let them know about some of our accomplishments.

There are quite a few.

### First Henry Sugimoto Restrospective at JANM

The first retrospective exhibi-tion of paintings by Henry Sugi-moto (1900-1990) will open on. March 24 at the Japanese Ameri-can National Museum in Los An-

geles Little Tokyo.

"Henry Sugimoto: Painting an
American Experience" is an examination of the Japanese American experience as seen through the work of the artist, whose life and art were transformed by his incar

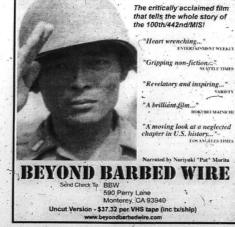

ceration in American concentra-

tion camps during World War II. In his early years Sugimoto pri-marily painted idvilie landscapes and city scenes, but once incarcer-ated, he abandoned his beautiful landscapes in favor of depicting the indignities he and his fellow inmates suffered during the war. His work has provided re-searchers a first-hand account of the experiences of JAs in the concentration camps

centration camps.

Over 100 works spanning Sugimoto's long career, which began in
the 1930s, will be exhibited along
with photographs, sketch books
and other archival materials. The museum will also offer a variety of lectures, art talks, workshops and family events related to the exhib-

### Tule Lake to Host Teacher Training Workshop

The Japanese American Re-The Japanese American re-source Center/Museum of San Jose (JARC/M), the Tule Lake Commit-tee, and the JACL NCWNP district council will present an all-day teacher training session on March 10 at Tulelake High School in Tule-lake, Calif.

The California Civil Liberties
Public Education Project
(CCLPEP) recently awarded a \$5,000 grant to James King, a so-cial studies teacher at Tulelake High School, to hold the workshop. King has long been involved in ed-ucating his students about the evacuation and internment of Japanese Americans during World War II and wanted to take the in-formation beyond the walls of his

own classroom.

The grant will train and provide resources to teachers in at least four school districts in the area surrounding Tulelake, so that they will be able to educate students in

"Undaunted," as Grace's piece continued, "Fred Wada went before 350 people in Duchesne and Uintah counties [at Roosevelt, Utah] to convince them, in his broken English, to allow him to bring about 130 Japanese there to farm. He assured them that each would He assured them that each would bring about \$1,500 in cash or equipment. He promised them that no one would ever go on wel-fare, they were all honest, hard-working people."

Prominent San Francisco Bay rrominent San Francisco Bay churchman Galen M. Fisher, in his February 1943 Survey Graphic ar-ticle on Wada's patriotism to form this pioneering band, revealed that Wada was ready to sink \$20,000 in the undertaking. Finally, Fisher advised him to make the colony a

nonprofit cooperative enterprise.

In a short time Mr. Wada enrolled 130 farming associates: 65 strong, mature men, more than half of them single; 30 married women, six of whose husbands were still interned, and 35 children. Most of the men were farmers, nine were college graduates in agriculture, plus three merchants, three auto mechanics, a carpenter, an electrician, a plumber, a barber, a registered pharmacist ("Doc" Masao Tsujimoto), four nurses and four gardeners. All agreed to pool machinery and stocks and to con tribute a state amount for general

The first party of 20 left three days before the March 29 deadline. The entire company reached Utah by April 1. Wada had chosen this particular spot because the other ranches had one major drawback inadequate housing. Keetley included 15 cottages, a large build-ing that was divided into 10 apart-ments — previously built to house the working force of a nearby mine. The land had good black loam suitable for truck crops, with upper slopes to raise hay and live-stock. Irrigation from the nearby river was built at low cost.

Owner George A. Fisher leased 3,200 acres for Wada's successful-wartime venture. "They trucked wartime venture. They trucked the high quality produce to Salt Lake City and proudly put up a big sign by Highway 40 that bore the words, Food for Freedom. It was a symbol of their patriotism was a symbol of their patriousn and their desire to help America, win the war," Grace wrote. And one of the first things the men built upon arrival at Keetley was the bathhouse. "A huge vegetable metal wash tub was turned into a furo (bath) and a carpenter built a shed around it so everyone could enjoy the warmth of the furo dur-

During the first year, a group of
29 left Keetley to establish a branch colony at Sandy upon the urgent invitation of a large landholder there. Fisher noted the colony was able to pay the entire first year's rental, \$7,000, out of their earnings, the net profit of \$6,000 being divided equally among all the workers — men,

among all the workers — men, women, adults and minors.

This bit from Fred Wada's wartime years deserves a closing line from him. "When I first saw it (in mid-February), the snow had leveled everything. as if there is some special insight and/or duty that we might have on the tragedy by virtue of our race or ethnicity. It made we wonder whether, if the sunken ship had been Dutch for instance; there would have been a similar inquiry to the Dutch American

community for their response.

As a JA, I felt no special tie to this particular incident. On a hu-man level, and particularly as a parent, of course I felt very sad for the families who lost children and other family members in the acci-

But since I have no ties to anyone from that part of Japan nor to anyone involved in the fishing industry, there wasn't a strong personal connection. In fact, because I have a close family friend who serves in the U.S. Navy on a submarine, I probably felt a closer tie to the sub crew than to the unfor-

tunate victims on the ship.

A couple of weeks before the Ehime Maru sinking, there was a devastating earthquake in the state of Gujarat in India. The number of people killed and in-jured there dwarfed the number in the Ehime Maru incident. As of this writing, 19,607 have been reported killed and 166,000 injured. numbers so large as to boggle the

Being from earthquake country in California, I followed this story carefully. Even given the distance and the differences between Gu-jarat and Southern California, I felt a stronger tie to the victims of this disaster than to those on the Ehime Maru.

The point here isn't to rank one tragedy over the other, but simply to point out that there ought not to be an automatic assumption that JAs in general would or should have some special connection to have some special connection to Japan or its people. Some do, to be sure. But others — particularly Sansei or Yonsei — don't. It's an in-dividual thing, not a group thing.

While this may seem like a small gripe, it's part of a larger story of distinctions not being made between JAs and Japanese nationals and of an assumption that there is some sort of overarching racial identity that trumps national or regional identities. Given our history, I think it is important to make sure that the distinction between local JAs and Japanese natween local JAs and Japanese na-tionals is always made clear. I think it is safe to say that most JAs would feel this way, particu-larly those reading this paper. (In fact JAs have been so intent on making this distinction that the close ties Issei and Nisei once held with Japan prior to the Pacific War have largely been glossed over in most historical accounts. But that's another story.)

But that's another story.)
This is not to say that JAs should not learn about, visit, and even work and live in Japan. We should by all means do these things if they are what we want to do. But we should be able to do this without any questions about our "loyalty" or "Americanism." And we shouldn't be expected to be experts about Japan just because

we are of Japanese descent. The sinking of the Ehime Maru was tragic and unnecessary. Be-cause of the different ways Japanese and Americans handle these types of situations, there were many misunderstandings and many misunderstandings and misperceptions as the facts about the case emerged. Because of these misunderstandings, the incident has grown in importance and threatens a rift in U.S.-Japan rela-

Many types of people might have been able to shed some light on the incident based on their paron the incident based on their par-ticular perspectives: an expert on the history of U.S.-Japan rela-tions, for instance, or an American who spent a lot of time in the re-gion of Japan where most of the ship's occupants hailed from. But

our ethnic background.

One day, JAs might be viewed just like any other American. But that day hasn't come yet.

### Calling All Youth to the Spectrum Conference

By GERALD KATO, PSWD Youth Director

I would like to invite JACL youth/student members tend a Nikkei youth conference in April. This conference titled Spectrum: Broadening of Young

This conference is open to students from high school through college

and young professionals.

I am proud to say that JACL.
PSWD has an active role in the planning and promotion of the Spectrum conference. I feel this excellent opportunity for

JACL to actively work with young Nikkei from Northern and Southern California as well as the rest of the country, and is an opportunity that cannot and should not be missed. While there is truth to the notion that this is a California-centric conference, we must realize that greater proportion of the Nikkei population resides within the state of California. No chapter or district should feel excluded from sending youth/students to this conference. I would strongly en-courage students from outside California to consider attending this conference.

One potential conflict to the Spectrum conference is that it will be held at the same weekend will be held at the same weekend as the PSW, CCDC and NCWNP Tri-district. This is an unfortunate conflict, but after much discussion with the Spectrum organizers, this was the best possible data. for the confessor If we te for the conference. JACL, are advocates of what we say, and if we are truly commit-ted to youth, then youth/student representation at the Spectrum conference should be of utmost priority. I am asking that chap-ters and districts try to send youth representatives to this con-ference, especially those in PSW, CCDC, and NCWNP. We must embrace and make the most of being able to work side by side with young Nikkei, most of whom are not part of JACL, and the different community organizations.

## The Quarter in Review

Amidst another tumultuous, history-making quarter, the JACL continued to fight for the equal rights of all. The following are some of the highlights and lowlights of the past few months.

**Bush Cabinet Appointments** 

Bush Cabinet Appointments
JACL took an active role in
the shaping of President Bush's
cabinet by supporting the nomination of Norman Y. Mineta and
opposing the confirmation of
John Asheroft. Secretary Mineta
was unanimously confirmed as
the Secretary of Transportation
in an unprecedented vote that,
took place during his hearing took place during his hearing. JACL joined other civil rights organizations in the StopAshcroft-Now.org coalition and mobilized our grassroots resources in a let-ter-writing effort powered by JACL's website (www.jacl.org). John Ashcroft endured a heavy critique but was confirmed as the attorney general by a 58-42. Senate vote

Camp Preservation
JACL worked with the White
House and the Department of
the Interior to develop increased protections for some of the in-ternment camp sites. Prior to leaving the White House, President Clinton designated Minidoka the "Minidoka Internment National Monument." JACL maintains an active listserve dedicated to the ongoing preservation work to ensure that President and the control of t vation work to ensure that Pres ident Clinton's actions are not reversed and also to fight for the protection of other locations

Native Hawaiian

Sovereignty and the Hate Crimes Prevention Act JACL fought aggressively to fulfill some of the priorities set forth by national council during the tail end of Congress' session by actively supporting and lob-bying for legislation articulating the political status for Native Hawaiians and strengthening hate crime-prevention statutes However, despite JACL's dedication to fighting for passage of the Native Hawaiian Sovereignty and the Hate Crimes Prevention both failed in Congress. JACL will continue to fight for legislation on these issues, as well as others that combat discrimination, in the new session.

JACL praised Yahoo! for tak-ing a stand against hate on the Internet In early January, Ya-hoo! announced that they would no longer allow anyone to sell hate items or material through its auctions, classifieds or shops

Congressman Mike Honda JACL criticized the mailer cir-

culated by Republicans that erroneously depicted then-Calif.

Assemblyman Mike Honda be-hind bars despite the fact that he has no criminal record.

Takuji Yamashita

JACL commended the Washington State Supreme Court for allowing Takuji Yamashita into the state bar posthumously. Yamashita was denied entry into the state bar 93 years ago because he was not allowed to be-come a citizen, which was a requirement for entry. A ceremony officially accepting Yamashita into the bar occurred March 1st.

Montgomery School District JACL supported the naming of a school in the Montgomery School District after an Asian Pacific American. Currently, the state of Maryland has no schools named after an APA despite the growing population of APAs. The national board unanimously passed a resolution, submitted by EDC Gov. Clyde Nishimura, in support of this effort.

JACL commended MTV for educating its audience — the majority being youth — on hate crimes and ignorance. The music cable television network re-cently launched a year-long antidiscrimination campaign start-ing with a show exploring the murder of gay student Matthew Shepard In addition, MTV News ran a special on hate crimes and then the network listed the names of hate crime victims for 17 continuous hours The commercial-free period cost the network \$2 million. The na-tional board unanimously passed a resolution, submitted by NCWNPD Gov. Alan Teruya, acknowledging MTV's actions.

### **Heart Mountain Foundation** Achieves Fund-raising Goal

The Heart Mountain, Wyoming Foundation has achieved its funding goal of purchasing land for a future interpretative learning center as well as constructing a replica honor roll at the World War

replica fonor roll at the world war II internment camp.

The funds will provide for the purchase of 50 acres of original campsite property adjacent to a 73-acre site still under federal jurisdiction. The site is located between Cody and Powell, less than one hour from the east gate of Yellowstone Park.

The 73-acre site is listed on the National Register for Historic Places and contains four original buildings. The foundation provided volunteer help to perform extensive cleanup of these buildings, and the Bureau of Reclamation recent-

ly stabilized them.

The 50 acre site purchased by the foundation will contain a tech-nology-intensive interpretative learning center designed to edu-cate visitors about the internment camp experience as well as consti-tutional and civil liberties issues, diversity training and ethnic understanding.

The interpretive learning center project received a big boost from Congress in November when \$500,000 was approved for facility, development under the leadership and advocacy of Wyoming Sen. Mike Enzi. In addition to the learning facility, the interpretative center complex will contain a wa tour, reconstruction of a half block of barracks and agriculture plots of crops grown by the internees.

The honor roll project will pro-vide for a replica of the original honor roll constructed by internees, containing the names of over 750 internees who served in the Armed Services during WWII.

Over 500 contributors across the United States raised \$260,000 for the Phase I effort, exceeding the foundation's goal of \$200,000 extra funds generated will be pledged to Phase II, which involves the construction of the facility itself. The theme chosen for the project is "Creating a Legacy."

The foundation is a 501(c)(3) nonprofit educational corporation founded in 1996 with a mission of promoting and encouraging the study and understanding of the historical events surrounding the internment of Japanese Americans during WWII, within the broader context of American history but especially relating to the internment of JAs at the Heart Mountain camp. It is governed by a 12-person volunteer board of directors with membership from Wyoming, California and Colorado assisted by a

17-person advisory board.

To donate to the project or for more information, contact David Reetz, foundation president, 307/754-2201, Box 547, Powell, WY 82435. The foundation's website is www.heartmountain.org.

### Letters to the Editor

#### Resisters Revisited

In a letter to the editor enti-tled "Nisei Veterans Vis a-vis Draft Resisters" in the Feb. 2-15 issue of the Pacific Citizen, the question was posed, exacerbate the situation by be ing a draft resister and demonrating a pro-Japan stance?"
As a Pacific War veteran, I

thought all the protests at the time were justifiably American citizen protests including those by Gordon Hirabayashi, Mi-noru Yasui, Fred Korematsu, Mitsuko Endo, and draft re sisters (the latter by the hun-

The Issei endured it all typi-cally quietly. Had the protests by the Nisei not occurred, I dread thinking how Japanese Americans would have continued to be discriminated against as had the Issei. I consider all the JA WWII protests necessary, justifiable and ultimately resolved according to the laws. Thanks to the books of Michi Weglyn and William Hohri awakening us to the facts.

I find that continuing the un-

relenting diatribe after all these years only keeps the wounds from healing. JAs were so determined to be Americans we continue to be myopic, not paying adequate attention to what was taking place at the time.

I can still remember when

the raw material embargo was placed upon Japan. Since then I've learned through reading historical books the implications of the embargo. In 1941 Pearl Harbor occurred after the embargo was placed upon Japan. Shortly thereafter my father was apprehended along with other community leaders. Then it was curfews, evacua-tion and internment for the rest of the West Coast JA community. The latter ended for me by being drafted from Heart Mountain.

Today I try to keep up with current events by reading more than newspapers. The most re-cent book is "Day of Deceit" by Robert B. Stinnett which in-cludes the chapter, "The Truth About FDR and Pearl Harbor." I find "The Coming War With Japan" by George Friedman and Meredith Lebard published in 1991 the most intriguing of the books I've read.

Hopefully we can prevent our sons and daughters from having to repeat our experiences We experienced Nisei need to focus on the future for them based on our many experiences. To continue besmirching others' ons, when we were finally able to decide for ourselves, will only mislead new generations. "History forgotten, history un-learned, history repeats."

As a deeply concerned mem-ber, I encourage JACL to use the *Pacific Citizen* to provide a more detailed disclosure of current revenue sources, expenses and assets. By opening the or-ganization's current financial statements on the pages of the P.C. we would be taking an important first step in stimulating membership to action and in facilitating discussion on the fu-ture of JACL's membership

# Congratulations to P.C. Staff

I just wanted to congratulate your staff on publicizing an out-standing article on Shane "K" Komine, pitching star for the Univ. of Nebraska. About six months ago I urged your staff to consider writing a story about an athlete of Japanese American descent. The reason was to showcase the Pacific Citizen in

a more positive manner.

I still believe that the No. 1 priority should be an emphasis on discrimination against Asian Americans. After reading the first few Pacific Citizens, I decided to stop reading them because it was the same old news and coverage. However, with this recent issue, you have re-ignited a renewed interest in

reading your newspaper.

Again, thank you for sharing an article on a potential professional athlete of Asian descent escent A few other JA professional athletes you may want to consider interviewing include: Anaheim Angels star pitcher Shigetoshi Hasegawa, Seattle Mariner's star pitcher Kazuhiro Sasaki, and recently traded to the Boston Red Sox comeback/turnaround pitcher Hideo Nomo, formerly with the L.A. Dodgers.

Thank you for listening to my input and I appreciate your, publishing of a sports hero!

#### **OBITUARY**

#### Karl Akiya, 91, a Kibei Hostile to Prewar Japan

San Francisco-born Karl Ichiro Akiya, a Kibei Nisei who was sent to Kobe in 1915 to live, and who left Japan in 1932 in opposition to its militarism and invasion of China, died after a stroke on Feb. 8 in New York. An economist and union organizer, his social and political activism in the Japanese American world of San Francisco, Tanforan, Topaz and postwar New York were remembered as

markedly progressive.

He taught Japanese in 1943 at the Navy intelligence school at

the University of Michigan and worked for the Office of Strategic Services in Washington. Postwar, he moved to the Lower-East Side of Manhattan, joined the Bank of Tokyo and retired in 1980 as head of its research division. Akiya was the first Japanese American recipient of the Martin Luther King Award from the City of New for his community work (1987). He wrote in Japanese, "Road to Freedom Across the Pacific: A Kibei-Nisei's Autobiography," as a testimony of life in America

We have the complete set of the WRA's Final Report. The JACL was able to buy these books, from volumes 1-11. And then each regional office was putting out quar-terly reports so I collected those too. I have quarterly reports from 1942-1943, and semi-annual reports from 1940-1944. If there are any from 1945, I'm not aware of them. These are the Tolan Committee

Pete Imamura, who used to be with the PC., went to all the different (Commission on Wartime Relocation and Internment of Civilians). hearings and collected all the copies of the hearings that were available. Our office was at 941 East Third Street at the time. When we moved to 701 East Third Street, in the process of moving, someone threw out a whole section of these hearing papers. An entire section of the original testimony papers are gone but I saved the rest in one of these boxes.

I set aside most of the redress I set aside most of the redress files because we're suppose to be doing a history on it. Mae Taka-hashi has been one of the people most active in developing our (JACL) redress history, and I've been helping out the committee

from the very beginning. Mae fought tooth and nail to get funding for this. But in the meantime, Dr Mitchell Maki came out with his book ("Achieving the Impossible Dream"), which more or less covers quite a bit of what JACL did, but Mitchell said that JACL could still tell their story because there's a lot of stories that's not in the book. A lot of the material is already in the

P.C., in the columns.

• JACL: These are things that emanated from San Francisco like emanaed from San Francisco like news releases, convention minutes. I was active on the planning commission back in the 1960s. I was kind of like the acting secretary on the commission, and I was asked to join the staff along with my PC. responsibilities. I worked on the commission for the transfer of the transfer of the commission for the transfer of the transfer sponsionides. I worked on the com-mission for about four years, and all those papers are in there.

• P.C.: The P.C. files basically

have to do with papers on policy, programs, budget, advertising, printing and reports developed over the years. When Richard Sueover the years. When ruchard Suenaga was here, we had regular staff meetings on a weekly basis. We would discuss the pros and cons, and I would write up a brief summary of what transpired and pass it around to the staff. That's call in them. all in there.

 Individual biographies: We have three file cabinets full of bionave three file cannets rull of no-graphical documents and articles. It's very sketchy, but what I've been doing is collecting stories on indi-viduals who are of substance; who they were, what they did, where they were in camp, whether they were in the service and what they did after the war. They come in handy. For instance, we know that Fred Wada (founder of Keiro Homes in Los Angeles which later expanded to Keiro Services) just passed away. Look how thick his file is. We have some very interesting articles about when he took some people up to Utah, and we even have some pictures of him in Utah. We even have a story written by Galen Fisher that includes Fred Wada. Galen Fisher was one of the few Protestant missionaries up in Berkeley (Calif.), who defended the Nisei and the Japanese at the out-

reak of war.

• Courts: We have files under courtrooms. Anybody who is an at-torney or judge, and they're Nisei or have a Nikkei name, I throw them into this file. And it's not just from Los Angeles. It's on everyone from around the country. I recently pulled out the names of the attorneys and listed them in an A-Z kind of format.

 Photographs (Honda has a collection of historical photographs dating back to pre-war days, One major project has been identifying people in a group shot from a Seat-tle JACL convention in the 1930s): When this guy brought this picture to me, it was the first time I'd seen it. It was in his mother's album, and I've been trying to find out how many of these people could be iden-tified.

We published another (similar) photograph on the front page of the Holiday Issue way back and were able to identify quite a few people. That one had three rows of people, which we found out were del But this guy's photograph has four rows of people, which are probably people from the Northwest. I had people from the Northwest. Some of the stuff appeared in the "Congressional Record" as a tribute to JAs by the members of the House back in 1972. I put some of that in them and somered it into that in there and squeezed it into this size. To me, it's not an exhaus-tive history, but at least it high-lights, for the purposes of the At-lanta chapter, what the JA commu-nity was like in that part of the country back at the turn of the cen-

tury.
I'm still doing community histories on the Pacific Northwest. This one on Montana is part of a 100page document.
P.C.: What major projects are you

orking on right now!

HH: Right now, I'm working on the JACL resolutions. I'm going through all the convention minute

and digging up all the different res-olutions that were passed or reject-ed, and who moved, who seconded, whether it carried or not. We've already got part of it, up to 1962. Now I'm continuing that

I'm also indexing the (six boxes I'm also indexing the (six boxes of) the Feeley papers, so I told desica (Silvers, an archivist hired by JANM) that I'll go down to the museum a couple of days, but I'll be coming back here to continue with what I'm doing. I'll-be going to JANM when the JACL files show up from San Francisco, but otherwise, I told them I'd go down there when they need me because Vie or I'll. when they need me because I've got all this other business to do yet.

### AAJA Announces New Program for **High School Journalism Students**

The Asian American Journalists Association (AAJA) in San Francisco recently announced the launch of a new program initiative to train and develop the next generation of iournalists of color

With funding support from the Ford Foundation and other sponsors, "Boot Camp By the Bay" is a week-long student campus that will bring together a multicultural group of high school students to sharpen their journalism skills, learn how their cultural values im pact their professional develop-ment and work together in a unique learning environment.

thique learning environment.
According to AAJA National
President Victor Panichkul, "AAJA
needs to come up with ways of attracting Asian Americans at a
younger age to this profession, to
think of the profession as something they should aspire to. High
school journalism programs such
as this student campus are a sigas this student campus are a sig-

nificant step in this direction."
"Boot Camp By the Bay" is

scheduled for July 28 to Aug. 1 at the University of San Francisco. The best and brightest minority students with a keen interest in broadcasting, newspapers, maga-zines, photojournalism or new me-

zines, photojournalism or new me-dia are especially encouraged to ap-ply for the project. Qualified applicants must be high school students for the 2001-02 school year and must be available to travel to San Francisco dur-ing the camp week. All costs, in-cluding airfare, room and board, will be covered

AAJA is a non-profit educational association devoted to training and developing AA journalists and en-suring fair and accurate coverage of the AA community. It has 1,700 members in 18 chapters across the United States and Asia.

Deadline for applications is March 30. For information or to ob-tain an application form, contact program director Karen Dispo at 415/346-2051, ext. 300. Or visit the AAJA website at www.aaja.org. ■
